## **Character Strengths and Virtues -**

Christopher Peterson 2004-04-08

"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths--authenticity, persistence, kindness, gratitude, hope, humor, and so on--each of which exists in degrees. Character Strengths and Virtues classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested

in psychology and what it can teach about the good life.

## **Canadian Indian Cowboys in Australia -**

Lynda Mannik 2006

In 1939, a troupe of eight rodeo riders, accompanied by an RCMP officer, travelled to Sydney, Australia to compete in the Royal Easter Show. The men were expected to compete in various rodeo events, as well as to sell handicrafts at the fair's "Indian village," where they also camped. International competition in rodeo was very rare at the time, and the team proved to be a popular draw for Australian audiences. This little-known moment in Canadian history is explored in Canadian Indian Cowboys in Australia.

*Love Lifts the Heart* - Nancy Crapser Hunt  
2009-12-15

This book, I have written, has helped to release all the tension I had with the obstacles I met along with the raising of this family. With the farm life and the large family, including a son with birth defects and Down's syndrome, life was strenuous. Years of struggling to keep the family well and happy. With the help of good doctors and surgeons, in Bobby's case, we have seen that it can be done. I was always trusting God in each incidence. It is my hope that this book will prove to be an inspiration to any and all who have the privilege of reading it.

*The last Shelby Cobra* - Chris Theodore 2021-09-15

Carroll Shelby, legendary driving ace, race team owner, and designer of Shelby Cobra, Daytona, and Mustang GT350 classics is revered by automotive enthusiasts, yet little has been written about the last quarter century of Carroll Shelby's life. During that time Chris Theodore, VP at Chrysler and Ford, developed a close personal friendship with Carroll. The Last Shelby Cobra chronicles the development of the many vehicles they worked on together (Viper,

Ford GT, Shelby Cobra Concept, Shelby GR1, Shelby GT500 and others). It is an insider's story about how Shelby came back to the Ford family, and the intrigue behind the five-year journey to get a Shelby badge on a Ford Production Vehicle. The author provides fresh insight and new stories into Shelby's larger-than-life personality, energy, interests and the many unpublished projects Carroll was involved with, up to his passing. Finally, the book describes their unfinished project, the Super Snake II Cobra, and the serendipitous circumstances that allowed to the author to acquire 'Daisy,' the last Shelby Cobra. To his many fans, Carroll Shelby was truly 'the most interesting man in the world.'

**The Anatomy of Fascism** - Robert O. Paxton 2007-12-18

What is fascism? By focusing on the concrete: what the fascists did, rather than what they said, the esteemed historian Robert O. Paxton answers this question. From the first violent uniformed bands beating up "enemies of the state," through Mussolini's rise to power, to Germany's fascist radicalization in World War II, Paxton shows clearly why fascists came to power in some countries and not others, and explores whether fascism could exist outside the early-twentieth-century European setting in which it emerged. "A deeply intelligent and very readable book. . . . Historical analysis at its best." -The Economist The Anatomy of Fascism will have a lasting impact on our understanding of modern European history, just as Paxton's classic Vichy France redefined our vision of World War II. Based on a lifetime of research, this compelling and important book transforms our knowledge of fascism—"the major political innovation of the twentieth century, and the source of much of its pain."

**American Light Trucks and Utility Vehicles, 1967-1989** - J. "Kelly" Flory, Jr. 2019-12-09

This comprehensive reference

book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. **Arctic Human Development Report** - Joan Nymand Larsen 2015-02-18

The goals of the second volume of the AHDR -

Arctic Human Development Report: Regional Processes and Global Linkages - are to provide an update to the first AHDR (2004) in terms of an assessment of the state of Arctic human development; to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade; and, based on this assessment, to identify policy relevant conclusions and key gaps in knowledge, new and emerging Arctic success stories. The production of AHDR-II on the tenth anniversary of the first AHDR makes it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North. It addresses critical issues and emerging challenges in Arctic living conditions, quality of life in the North, global change impacts and adaptation, and Indigenous livelihoods. The assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents' quality of life, at both the regional and global scales. It shows that the Arctic is not a homogenous region. Impacts of globalization and environmental change differ within and between regions, between Indigenous and non-Indigenous northerners, between genders and along other axes.

Robert and Frances Flaherty - Robert J. Christopher 2005-09-23

Robert Flaherty's groundbreaking Nanook of the North (1922) - the chronicle of one year in the life of an Inuit hunter and his family in the Hudson Bay region - was the first full-length anthropological documentary in cinematic history. Before Nanook, Flaherty endured a

number of failures, disappointments, and false starts. Drawing from the unpublished diaries of Flaherty and his wife, Frances, Robert Christopher's biography fills in crucial background in the emergence of a documentary film legend. Previous biographical emphasis on Nanook has not only obscured Flaherty's early career but also neglected the critical contributions Frances made to his development as an artist. Robert and Frances Flaherty charts her transformation from a Bryn Mawr bluestocking to the partner of a frontier explorer and offers her unique perspective as his collaborator and publicist. From iron prospector to photographer to filmmaker, Flaherty's early life is situated in the context of his explorations of the Canadian north and its peoples, the development of modern cinema, the rise of modernism, and his association with significant figures such as Alfred Adler, Franz Boas, Edward Curtis, and Alfred Steiglitz.
