Routledge International Handbook of Rural Studies - Mark Shucksmith 2016-05-20

Rural societies around the world are changing in fundamental ways, both at their own initiative and in response to external forces. The Routledge International Handbook of Rural Studies examines the organisation and transformation of rural society in more developed regions of the world, taking an interdisciplinary and problem-focused approach. Written by leading social scientists from many countries, it addresses emerging issues and challenges in innovative and provocative ways to inform future policy. This volume is organised around eight emerging social, economic and environmental challenges: Demographic change. Economic transformations. Food systems and land. Environment and resources. Changing configurations of gender and rural society. Social and economic equality. Social dynamics and institutional capacity. Power and governance. Cross-cutting these challenges are the growing interdependence of rural and urban; the rise in inequality within and between places; the impact of fiscal crisis on rural societies; neoliberalism, power and agency; and rural areas as potential sites of resistance. The Routledge International Handbook of Rural Studies is required reading for anyone concerned with the future of rural areas.

Business Studies - Dr S K Bhatia, Meenu Ranjan Arora

Higher Education in the Twenty-First Century II - Abdulla Y. Al-Hawaj 2015-10-29

Ahlia University contributes to the advancement and propagation of knowledge by encouraging its academics and research students to publish their original research that can be applied to real-life situations. Co-operation with Brunel University London in the United Kingdom led to the establishing of a Ph.D. programme at Ahlia University in 2005. An i

Unfinished Business - Joe Moran 2013-08-01

With social and community services coming under increasing pressure as austerity continues, Unfinished Business examines how social policy has operated in Ireland and how it has been affected by consistent government cutbacks. It examines a wide range of issues important to social care students, such as poverty, homelessness, disability, immigrants, mental health and many other issues pertinent to Irish society today. This book: Is the first Irish social policy textbook written for social care students Poses important questions about not only social policy approaches but also policy failings, and makes the case for a move towards social policy regulation Is useful to students from other disciplines, such as community work, early childhood studies, nursing, addiction studies and child protection studies Is written in a clear and accessible style and laid out in a user-friendly manner The book is aimed at undergraduate students in social studies, social science and public administration, and will also prove useful to practitioners who seek to broaden their understanding of social care.

Strategy and Superior Performance of Micro and Small Businesses in Volatile Economies - Carvalho, João Conrado de Amorim 2019-02-08

Companies operating in countries with volatile economies face an environment subject to turbulence. It is important to understand how these companies can overcome adversity, establish competitive advantage, and achieve superior performance. The selection of competitive drivers can help to improve the ability to capture, process, and manage information that can generate knowledge and innovation in products and processes, as well as increase strategic capacity and organizational performance. Strategy and Superior Performance of Micro and Small Businesses in Volatile Economies focuses on the ways that organizations

capture information and disseminate it in their work teams, transforming this knowledge into innovative products and services that establish competitive advantage. It will improve the understanding of the role of strategy, innovation, entrepreneurship, and the effort to reduce poverty levels in societies with volatile economies and which are subject to serious social disparities. Highlighting topics such as economic development, market performance, and network economy, this publication is designed for managers, entrepreneurs, business professionals, academicians, researchers, and students.

Social Media and the New Academic Environment: Pedagogical Challenges - P?tru?, Bogdan 2013-01-31

As web applications play a vital role in our society, social media has emerged as an important tool in the creation and exchange of user-generated content and social interaction. The benefits of these services have entered in the educational areas to become new means by which scholars communicate, collaborate, and teach. *Social Media and the New Academic Environment: Pedagogical Challenges* provides relevant theoretical frameworks and the latest research on social media and its challenges in the educational context. This book is essential for professionals aiming to improve their understanding of social media at different levels of education, as well as researchers in the fields of e-learning, educational science, information and communication sciences, and much more.

The Routledge Companion to European Business - Gabriele Suder 2018-07-18

International Business is a well-established research field, in which regionalisation has gained prominence in the last decade. Because Europe is a market that shows specific patterns of highly advanced market integration, European Business is a subject in its own right and with its own research momentum. In particular, firms view Europe as a challenging, mostly – yet not entirely- mature market location that is subject to complexities that help reveal strategic corporate strengths and weaknesses. Europe represents a location that undergoes frequent and rapid change due to its geo-economic and geopolitical position This comprehensive reference volume brings together a global team of contributors to analyze and overview the key issues, themes and phenomena that affect business in Europe. With interdisciplinary perspectives from key disciplines, the book covers a range of vital themes such as culture, entrepreneurship, identity, human rights and climate change. The selection of authors reflects the international scope of this book, and is drawn from institutions located in 17 countries across Europe. A unique resource, this book covers a region undergoing significant geoeconomic and geopolitical change, and provides a comprehensive guide to research students and scholars of business and the social sciences.

Competition and Cooperation in Economics and Business - Lindawati Gani 2017-10-12

Asia and the Pacific have become the growth engine of the world economy with the contribution of two-third of the global growth. The book discusses current issues in economics, business, and accounting in which economic agents, as individuals, entrepreneurs and professionals, as well as countries in the Asia and Pacific regions compete and collaborate with each other and with the rest of the globe. Areas covered in the book include economic development and sustainability, labor market competition, Islamic economic and business, marketing, finance, accounting standard compliances, and taxation. It will help shed light on what business and economic scholars in regions have done in terms of research and knowledge development, as well as the new frontiers of research that have been explored and opening up. This is an Open Access ebook, and can be found on www.taylorfrancis.com.

Gamification in Education and Business - Torsten Reinert 2014-11-22

This book is dedicated to applied gamification in the areas of education and business, while also covering pitfalls to avoid and guidelines needed to successfully implement for a project. Using different theoretical backgrounds from various areas including behavioral economics, game theory, and complex adaptive systems, the contributors aim to help readers avoid common problems and difficulties that they could face with poor implementation. The book's contributors are scholars and academics from the many areas where the key theory of gamification typically comes from. Ultimately, the book's goal is to help bring together the theories from these different disciplines to the field of practice in education and business. The book is divided into four parts: Theory, Education, Business, and Use Cases. Part I provides a foundation on the theory of gamification and offers insight into some of the outstanding questions that have yet to be addressed. In Part II, the application and value that gamification can bring within the education sector is

examined. The book then changes focus in Part III to spotlight the use of gamification within business environments. The topics also cover educational aspects like improved learning outcomes, motivation, and learning retention at the workplace. Finally Part IV concentrates on the applications and use of gamification through a series of case studies and key elements that are used in real situations to drive real results.

Global Economic Cooperation - Rajat Kathuria 2015-11-23

This book discusses issues such as global financial crisis and global governance, food security, energy sustainability, the global financial system, trade and protectionism, and growth and employment. Since the outbreak of the financial as well as national debt crises in the Euro zone, the focus of the G20 has shifted back to addressing short-term issues. These issues range from the dynamic effects of global imbalances and the appropriate degree of financial sector regulation to questions of austerity versus growth and the lack of a comprehensive framework for managing the international monetary system. A further issue is the relevance of the G20 agenda for emerging market economies. Global economic recovery still remains fragile and downside risks to global growth remain. Additionally, much of the agenda of the Seoul Development Consensus for shared growth launched in 2010 has yet to be fulfilled. A key discussion point in the book, therefore, is how to make a tangible and significant difference in peoples' lives by implementing an agenda of inclusive growth.

ECRM2012- 9th European Conference on Research Methods in Business Management - Rachel McClean 2010

ECRM2012-Proceedings of the 11th European Conference on Research Methods - Rachel McClean 2012-01-01

Proceedings of the 11th European Conference on Research Methods in Bolton, UK, on 28-29 June 2011

ECIW2012- 11th European Conference on Information warfare and security - Robert Erra 2012

Advanced Issues in International and European Tax Law - Christiana HJI Panayi 2015-12-03

This book examines recent developments and high-profile debates that have arisen in the field of international tax law and European tax law. Topics such as international tax avoidance, corporate social responsibility, good governance in tax matters, harmful tax competition, state aid, tax treaty abuse and the financial transaction tax are considered. The OECD/G20 project on Base Erosion and Profit Shifting (BEPS) features prominently in the book. The interaction with the European Union's Action Plan to strengthen the fight against tax fraud and tax evasion is also considered. Particular attention is paid to specific BEPS deliverables, exploring them through the prism of European Union law. Can the two approaches be aligned or are there inherent conflicts between them? The book also explores whether, when it comes to aggressive tax planning, there are internal conflicts between the established case law of the Court of Justice and the emerging policy of the European institutions. By so doing it offers a review of issues which are of constitutional importance to the European Union. Finally, the book reflects on the future of international and European tax law in the post-BEPS world.

Oswaal CBSE Accountancy, English Core, Business Studies & Mathematics Class 12 Sample Question Papers + Question Bank (Set of 8 Books) for 2023 Board Exam (based on CBSE Sample Paper released on 16th September) - Oswaal Editorial Board 2022-10-22

Innovative Strategies in Higher Education for Accelerated Human Resource Development in South Asia - Asian Development Bank 2016-06-01

This publication is part of a series of six country reports on technical and vocational education and training (TVET) and higher education in Bangladesh, Nepal, and Sri Lanka. Each report presents current arrangements and initiatives in the respective country's skills development strategies. These are complemented by critical analyses to determine key issues, challenges, and opportunities for innovative strategies toward global competitiveness, increased productivity, and inclusive growth. The emphasis is to make skills training more relevant, efficient, and responsive to emerging domestic and international labor markets. The reports were finalized in 2013 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of Regional Technical Assistance 6337 (Development Partnership Program for South Asia).

Stability of the Financial System - Andreas R. Dombret 2013-01-01

Financial stability is necessary. To achieve this common target an on-going dialogue is required between industry, policymakers, academia and other relevant stakeholders. This book provides a welcome and refreshing perspective from different standpoints on the issues at stake, and reminds us of the remaining work ahead. • Dr Axel Weber, Chair of Supervisory Board, UBS • Since 2008, financial stability has moved to

the center of the policy stage. This volume, combining contributions from leading policy makers and academics, is the essential introduction to the issues. Must reading. • Dr Barry Eichengreen, George C. Pardee and Helen N. Pardee Professor of Economics and Political Science, University of California, Berkeley, US • There was a world BC (Before Crisis) and there will be a world AD (After Deleveraging) • The challenge is to create an effective, efficient yet stable and sustainable financial system for this • New world • This book provides the most comprehensive and thought-provoking basis for action I have seen so far. • Dr Paul Achleitner, Chair of Supervisory Board Deutsche Bank AG • Financial stability is an overarching goal. In open and democratic societies, ensuring financial stability is a matter of interest not only to central bankers, academics and financial market players, but also to all well-informed citizens. This book provides an excellent basis for a wide-ranging and rewarding debate. • Dr Thomas J. Jordan, Chairman of the Governing Board of the Swiss National Bank • The financial crisis demonstrated conclusively that for central bankers and other policymakers financial stability must always be of paramount concern, for without it the macroeconomy will perform badly and monetary policy will lose its effectiveness. This book underscores the importance of financial stability, laying out the key issues and what must be done to avoid such disasters in the future. • Dr William C. Dudley, President of the Federal Reserve Bank of New York, US In the aftermath of the financial crisis, new financial market regulation is being implemented, and increasing numbers of countries are establishing new legislation for macroprudential oversight. Against this backdrop, this thought provoking book provides a platform for the leading international experts to discuss and encourage future debate on financial stability. The breadth and scope of the issues addressed reflect the challenge of developing and consistently implementing a coherent set of financial reforms to promote financial stability. The book advocates the development of financial reforms that are effective in striking the optimal balance between realizing the enormous benefits of efficient financial intermediation, capital allocation and risk management on the one hand, and controlling systemic risks and maintaining financial stability on the other. Making an important contribution to deepening our understanding of the many facets of financial stability, this book will prove a challenging read for policy makers, regulators and central bankers as well as for researchers and scholars in the fields of economics, money, finance and banking.

6th International Conference on Innovation and Entrepreneurship - Dr. Denise A. D. Bedford 2018-03-05

These proceedings represent the work of researchers participating in the 6th International Conference on Innovation and Entrepreneurship (ICIE 2018) which is being co-hosted by Georgetown University and George Washington University and is being held at The University of the District of Columbia (UDC) on 5-6 March 2018.

International Practices to Promote Budget Literacy - Harika Masud 2017-06-28

Budget literacy is defined as 'the ability to read, decipher, and understand public budgets to enable and enhance meaningful citizen participation in the budget process'. It is comprised of two main parts - (i) a technical understanding of public budgets, including familiarity with government spending, tax rates and public debt and; (ii) the ability to engage in the budget process, comprising of practical knowledge on day-to-day issues, as well as an elementary understanding of the economic, social and political implications of budget policies, the stakeholders involved and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply-side actors in the budget process -- governments -- simplify and disseminate budget information for demand-side actors -- citizens -- this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of "budget illiteracy" is to provide budget-literacy education in schools to youth, helping them evolve into civic-minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies and assessment approaches for

budget literacy education, and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.

Oswaal CBSE Accountancy, English Core, Business Studies & Economics Class 12 Sample Question Papers + Question Bank (Set of 8 Books) for 2023 Board Exam (based on CBSE Sample Paper released on 16th September) - Oswaal Editorial Board 2022-10-22

[Handbook of Economic Forecasting](#) - Graham Elliott 2013-08-23

The highly prized ability to make financial plans with some certainty about the future comes from the core fields of economics. In recent years the availability of more data, analytical tools of greater precision, and ex post studies of business decisions have increased demand for information about economic forecasting. Volumes 2A and 2B, which follows Nobel laureate Clive Granger's Volume 1 (2006), concentrate on two major subjects. Volume 2A covers innovations in methodologies, specifically macroforecasting and forecasting financial variables. Volume 2B investigates commercial applications, with sections on forecasters' objectives and methodologies. Experts provide surveys of a large range of literature scattered across applied and theoretical statistics journals as well as econometrics and empirical economics journals. The Handbook of Economic Forecasting Volumes 2A and 2B provide a unique compilation of chapters giving a coherent overview of forecasting theory and applications in one place and with up-to-date accounts of all major conceptual issues. Focuses on innovation in economic forecasting via industry applications Presents coherent summaries of subjects in economic forecasting that stretch from methodologies to applications Makes details about economic forecasting accessible to scholars in fields outside economics *ECEG2012-Proceedings of the 12th European Conference on e-Government* - Mila Gascó 2012

Women in Business - Paola Demartini 2019-11-11

[The role of women in entrepreneurship, management and corporate governance is regarded as central to the development and welfare of economies. Since the early 1980s, there has been increased interest in women managers and entrepreneurs, often from an interdisciplinary approach, combining, for example, sociology, psychology, management and organisational studies and economics. Nowadays, research on women in management and organisations is continuously and rapidly evolving (Paoloni and Demartini, 2016). Research on how women face new business challenges within organisations—as entrepreneurs, owners, managers, as well as workers—can contribute to understanding the new drivers affecting value creation dynamics in our knowledge-based society (Cesaroni, Demartini and Paoloni, 2017). Accordingly, this book tries to offer some insights on how women create, process and share knowledge in their business activity through the application and exploitation of novel creative ideas and solutions]

Imperatives for Legal Education Research - Ben Golder 2019-09-19

In the last few decades university teaching has been recognised as an activity which can be studied and improved through educational scholarship. In some disciplines this is now well established. It remains emergent in legal education. The field is rich with questions to be answered, issues to be raised. This book provides the first overall review of legal education scholarship. The chapters outline the history of legal education research and provide a detailed analysis of the trends in areas of publication. Beyond this, the book suggests a typology for further conceptualising the field and a series of suggested paths for future research. The book originated from the 2017 UNSW conference "Research in Legal Education: State of the Art?" It features internationally respected authors who bring their perspectives on how legal education – as a field of research – should be conceptualised. The collection is arranged into three themes. First, a historical view is taken of the emergence of legal education scholarship and its roots that predate modern educational theory. Secondly, the book provides overviews of the extant field of publications, highlighting areas of interest and neglect, and delineating the trends in current publication. Thirdly, the book provides a set of suggested typologies for describing legal education research and a series of essays for future directions which both critique current approaches and provide inspiration for future directions. The State of Legal Education Research represents an authoritative introduction to the field, a set of conceptual tools with which to describe it, and inspiration for researchers to expand and grow research into legal education.

Cambridge International AS and A Level Business - Malcolm Surridge 2014-10-31

Endorsed by Cambridge International Examinations Foster a deeper understanding with a wide range of international case studies and exam preparation matched to the key knowledge students need for success.
