The Early Childhood Education Intervention

Treatment Planner - David J. Berghuis 2006-04-20

The Early Childhood Education

Intervention Treatment Planner provides all the elements necessary to quickly and easily develop formal education treatment plans that take the educational professional a step further past the writing of goals for Individualized Education Plans (IEPs) as well as mental health treatment plans. The educational treatment plan process assists the professional in identifying interventions and communicating to others the specific method, means, format, and/or creative experience by which the student will be assisted in attaining IEP goals. Critical tool for treating the most common problems encountered in treating children ages 3-6. Saves you hours of time-consuming paperwork, yet offers the freedom to develop customized educational treatment plans. Organized around 27 main presenting problems, including autism, cultural and language issues, depression, eating and elimination concerns, cognitive and neurological impairment,
