Life and Spirit in the Quantum Field - Doug Bennett 2016-07-19

For those seeking a spirituality without the history and dogma of organized religion, Life and Spirit offers a spirituality that arises naturally out of the nature of reality. We are all "of God." For those seeking support and explanation of their practice of the paranormal arts, Life and Spirit offers an explanation grounded in hard science. Your practice is completely normal. For those rare science people who what to know if there is any truth in all those spirit and paranormal things that people keep talking

about, here is an explanation in the language of the science that you know and love. Life and Spirit is about the connection between the transcendent quantum field and human life in the material world. But this book does something more than most books on this subject, which is to describe how high-level human function is connected to the quantum field. The connection is a synthesis of several lines of new research in science, so it is a "theoretical" proposal. It does, however, meet the first test of a valid scientific model: it accounts for observations that current models in science cannot explain. Those observations are the paranormal phenomena and the spiritual phenomena. The paranormal includes psychics, medical intuitives, energy healing, premonitions, past lives, and more. The spiritual includes God, soul, spirit, life after death, ghosts and more. Of course, the science that includes all those things is very different from today's mainstream,

reductionist science, and the spirituality that is described by science is very different from the spirituality of today's mainstream, exclusive religions. The world that emerges from this model is both empowering and threatening for most of us. It is empowering because we are all integral parts of the quantum intelligence that people have always called, God.

Threatening because we are integral parts of God and because the medium of our connection and our power is our much-maligned feelings. Descartes and the patriarchy got it wrong.

Adventures of the Spirit - Phyllis Sternberg Perrakis 2007

Adventures in the Spirit - Philip Clayton

In *Adventures in the Spirit*, respected and influential theologian Philip Clayton argues that two major intellectual movements of our day—panentheism and emergence—are converging and that together they offer exciting new vistas for theological reflection. On the one hand, over the last decades many theologians have been re-conceiving the God-world relation panentheistically, affirming a radical indwelling of God within the world and the world within God. On the other hand, scientists have begun to abandon the reductionist ideology that characterized much of the modern period, with a new emphasis on emergence. Their study of how new, novel structures and entities arise throughout the evolutionary process yields a

much more open-ended, holistic vision of reality, Clayton argues.

good lift, life hangs on a pledge. Richard Bach made that pledge, fifty years before, to return to the frightened child he used to be and teach him everything he had learned from living. His promise went unfulfilled until one day, hovering between earth and sky, Richard encounters Dickie Bach, age nine-irrepressible challenger of every notion Richard embraces.... In this exhilarating adventure, Richard and Dickie probe the timeless questions both need answered if either is to be whole: Why does growing spiritually mean never growing up? Can we peacefully coexist with the consequences of our choices? Why is it that only by running from safety can we make our wildest dreams take flight?

Morning in the Burned House -

Margaret Atwood 2015-07-28

These beautifully crafted poems - by turns dark, playful, intensely moving, tender, and intimate - make up Margaret Atwood's most accomplished and versatile gathering to date, "setting foot on the middle ground / between body and word." Some draw on history, some on myth, both classical and popular. Others, more personal, concern themselves with love, with the fragility of the natural world, and with death, especially in the elegiac series of meditations on the death of a parent. But they also inhabit a contemporary
