The Next Step - 2017-03

The Next Step: Exponential Life presents essays on the potential of what are known as "exponential technologies"--those whose development is accelerating rapidly, such as

robotics, artificial intelligence or industrial biology--considering their economic, social, environmental, ethical and even ontological implications. This book's premise is that humanity is at the beginning of a technological

revolution that is evolving at a much faster pace than earlier ones--a revolution is so far-reaching it is destined to generate transformations we can only begin to imagine. Contributors include Aubrey D.N.J. de Grey, Jonathan Rossiter, Joseph A. Paradiso, Kevin Warwick, Huma Shah, Ramón López de Mántaras, Helen Papagiannis, Jay David Bolter, Maria Engberg, Robin Hanson, Stuart Russell, Darrell M. West, Francisco González, Chris Skinner, Steven Monroe Lipkin, S. Matthew Liao, James Giordano, Luciano Floridi, Seán Ó Héigeartaigh and Martin Rees.

The End of the World - Maria Manuel Lisboa
2011

Our fear of the world ending, like our fear of the dark, is ancient, deep-seated and perennial. It crosses boundaries of space and time, recurs in all human communities and finds expression in every aspect of cultural production - from pre-historic cave paintings to high-tech computer games. This volume examines historical and imaginary scenarios of apocalypse, the depiction

of its likely triggers, and imagined landscapes in the aftermath of global destruction. Its discussion moves effortlessly from classic novels including Aldous Huxley's *Brave New World*, George Orwell's *Nineteen Eighty-Four* and Margaret Atwood's *Oryx and Crake*, to blockbuster films such as *Blade Runner*, *Armageddon* and *Invasion of the Body Snatchers*. Lisboa also takes into account religious doctrine, scientific research and the visual arts to create a penetrating, multi-disciplinary study that provides profound insight into one of Western culture's most fascinating and enduring preoccupations.

Portals - Ann Christy 2018-06-20

The world sees the portals as an invasion. For Lysa, they're an invitation. The portals appeared without warning. Every thirteen minutes they take a thousand humans, leaving exact duplicates in their place. Now, chaos reigns and no one is sure anyone is still the person they knew. Whoever is sending the portals has

destroyed human society without firing a shot. Not everyone thinks the portals are a prelude to invasion. Lysa, a student far too bright for her own good, believes the portals might even be something wonderful. There must be a logical reason for the portals, and that means something alive and thinking on the other side of those shimmering holes in our reality. Her burning curiosity leads her to do the unthinkable; she leaps through a portal meant for another. What she finds is a galaxy teeming with life, worlds beyond imagining, and two terrible truths: Earth is in danger, and the portals are a one-way trip. Stranded in an alien civilization, Lysa will have to use her ingenuity to find a way home and warn Earth before it's too late.

Interview with the Vampire - Anne Rice
2010-11-17

The spellbinding classic that started it all, from the #1 New York Times bestselling author—the inspiration for the hit television series “A

magnificent, compulsively readable thriller . . . Rice begins where Bram Stoker and the Hollywood versions leave off and penetrates directly to the true fascination of the myth—the education of the vampire.”—Chicago Tribune
Here are the confessions of a vampire. Hypnotic, shocking, and chillingly sensual, this is a novel of mesmerizing beauty and astonishing force—a story of danger and flight, of love and loss, of suspense and resolution, and of the extraordinary power of the senses. It is a novel only Anne Rice could write.

Sundiver - David Brin 2010-07-21

“The Uplift books are as compulsive reading as anything ever published in the genre.”—The Encyclopedia of Science Fiction
In all the universe, no species has ever reached for the stars without the guidance of a patron—except perhaps mankind. Did some mysterious race begin the uplift of humanity aeons ago? And if so, why did they abandon us? Circling the sun, under the caverns of Mercury, Expedition

Sundiver prepares for the most momentous voyage in our history. A journey into the boiling inferno of the sun . . . to seek our destiny in the cosmic order of life. David Brin's Uplift novels are among the most thrilling and extraordinary science fiction ever written. Sundiver, Startide Rising, and The Uplift War—a New York Times bestseller—together make up one of the most beloved sagas of all time. Brin's tales are set in a future universe in which no species can reach sentience without being “uplifted” by a patron race. But the greatest mystery of all remains unsolved. . . . “Superb”—Science Fiction Times

Time Traveler - Ronald L. Mallett 2009-04-29
This is the dramatic and inspirational first-person story of theoretical physicist, Dr. Ronald Mallett, who recently discovered the basic equations for a working time machine that he believes can be used as a transport vehicle to the past. Combining elements of Rocket Boys and Elegant Universe, Time Traveler follows Mallett's discovery of Einstein's work on space-

time, his study of Godel's work on a solution of Einstein's equation that might allow for time travel, and his own research in theoretical physics spanning thirty years that culminated in his recent discovery of the effects of circulating laser light and its application to time travel. The foundation for Mallett's historic time-travel work is Einstein's theory of general relativity, a sound platform for any physicist. Through his years of reading and studying Einstein, Mallett became a buff well before he had any notion of the importance of the grand old relativist's theories to his own career. One interesting subtext to the story is Mallett's identification with, and keen interest in, Einstein. Mallett provides easy-to-understand explanations of the famous physicist's seminal work.

Physics of the Impossible - Michio Kaku
2008-03-11

Teleportation, time machines, force fields, and interstellar space ships—the stuff of science fiction or potentially attainable future

technologies? Inspired by the fantastic worlds of Star Trek, Star Wars, and Back to the Future, renowned theoretical physicist and bestselling author Michio Kaku takes an informed, serious, and often surprising look at what our current understanding of the universe's physical laws may permit in the near and distant future. Entertaining, informative, and imaginative, *Physics of the Impossible* probes the very limits of human ingenuity and scientific possibility.

The Everlasting Man - Gilbert Keith Chesterton 1925

In *The Everlasting Man*, G. K. Chesterton paints the full panorama of human history in light of Christian tradition--Amazon.

[The Sensitive Man](#) - Poul Anderson 2016-10-20
Conspiracy seems to be as much a part of our times as it was in the times of Guy Fawkes and the Gunpowder Plot. Hence it finds frequent reflection in all branches of fiction, including science fiction. Yet, as in life, something new has

been added, the most gigantic conspiracy of all, the human conspiracy against conspirators. Which makes for a fine stirring story in this short novel of the future. One man stood between a power-hungry cabal and world mastery—but a man of unusual talents.

Tuscan Daughter - Lisa Rochon 2021-07-13
A novel of beauty and inspiration set during the Italian Renaissance about a young and defiant female artist searching for her mother. Florence, 1500—a city that glitters with wealth and artistic genius is also a place of fierce political intrigue, walled off from the unrest in the surrounding Tuscan countryside. In this moment, a peasant girl finds herself alone after her father is killed and her mother disappears. Young Beatrice must dare to enter the city to sell her family's olive oil in order to survive, but also to search the streets and opium dens for her missing, grieving mother. Walking barefoot from her outlying village, Beatrice is given grudging permission to pass through the city gates to sell olive oil to the

artists—Michelangelo, Leonardo da Vinci, Botticelli—who toil to elevate the status of the Florentine Republic. Lonely yet defiant, the peasant girl draws on the stone walls of Florence in secret as a way to express her pain. While desperately searching the city for her mother, Beatrice befriends the upstart Michelangelo as he struggles to sculpt the David. She also comes to know a cloth merchant's wife who is having her portrait painted by the aging Leonardo da Vinci, renowned through the land as Master of the Arts. Bonds deepen even while Michelangelo and Leonardo are pitted against each other. Set during five epic years in the early 1500s when Florence was rebranding itself through its creative geniuses, Tuscan Daughter reveals the humanity and struggles of a young woman longing to find the only family she has left and be an artist in her own right, and the way she influences the artistic masters of the time to stake everything on the power of beauty to transform and heal.

The Hasheesh Eater - Fitz Hugh Ludlow
2006-07-06

Fitz-Hugh Ludlow was a recent graduate of Union College in Schenectady, New York, when he vividly recorded his hasheesh-induced visions, experiences, adventures, and insights. During the mid-nineteenth century, the drug was a legal remedy for lockjaw and Ludlow had a friend at school from whom he received a ready supply. He consumed such large quantities at each sitting that his hallucinations have been likened to those experienced by opium addicts. Throughout the book, Ludlow colorfully describes his psychedelic journey that led to extended reflections on religion, philosophy, medicine, and culture. First published in 1857, The Hasheesh Eater was the first full-length American example of drug literature. Yet despite the scandal that surrounded it, the book quickly became a huge success. Since then, it has become a cult classic, first among Beat writers in the 1950s and 1960s, and later with San

Francisco Bay area hippies in the 1970s. In this first scholarly edition, editor Stephen Rachman positions Ludlow's enduring work as not just a chronicle of drug use but also as a window into the budding American bohemian literary scene. A lucid introduction explores the breadth of Ludlow's classical learning as well as his involvement with the nineteenth-century subculture that included fellow revelers such as Walt Whitman and the pianist Louis Gottshalk. With helpful annotations guiding readers through the text's richly allusive qualities and abundance of references, this edition is ideal for classroom use as well as for general readers.

The Bear, the Bull, and the Child of Light - Mary Settegast 2019-02-27

The tumultuous changes that took place around the Mediterranean in 6300 BC are seen here through the eyes of a boy who was born into a family of hunter-foragers in northern Turkey. While still young, Tulirane is taken from his family and forced to live as a slave among the

obsidian masters of Çatalhöyük (Bhelsakros in our story), a "town" of some 8,000 people that has only become more baffling as archaeological technologies have become more precise. As Tuli moves from one world into another—from the open wilderness that sheltered the foragers into the closed, white-plastered chambers that sheltered the townsfolk of Çatalhöyük—he becomes acutely aware of the differences in how the people in each of these two worlds live and die, and what they hold dear. Mary Settegast has written several non-fiction books about archaeology and cultural change, but this is her first novel. It is intended not only for young adults but for all ages who are interested in Old World prehistory and the ultimate triumph of agriculture over hunting and gathering.

The Volunteer - D. H. Jonathan 2016-06-22
Comments from an earlier draft of The "Volunteer", which was formerly posted as a serial on Literotica.com: "I really enjoyed your story and was most impressed in the way that

you described Dani's progression through her project. It was refreshing to read about being naked in public without the act being sexual and I suppose typifies the outlook held by naturists. Well done..." - Literotica user tompo296 "I enjoyed reading your story, and appreciated how the ending showed how Dani had been changed by her experience. I liked how you showed the awkwardness and embarrassment of Dani's situation but still provided a mostly safe environment for her to have her experiences. Thank you!" - Jessica Tang Von Harper, author of Candlelight City "This story was not only well written but had something worthwhile to say. It was very interesting to try to understand the subtleties of how Dani felt about nudity." - Literotica user reader_3634 "Read all 17 chapters over the last few days. Couldn't get enough of it." - Literotica reader ikaiser "Words fail me...- I have just read one of the best stories I have ever seen here on Literotica! Please please please continue with Dani's further

adventures..." - Literotica reader The_Rat_in_the_Hat Many people dream of being at work or school only to realize that they are either naked or in nothing but their underwear. For university student Danielle Keaton, this dream is about to become her reality. Facing the consequences of a severe lack of judgement, she is forced to make a choice: either give up her scholarships and her plan for graduating from college debt-free, or volunteer to be the test subject in a unique sociological study that will leave her naked and vulnerable to the entire university and eventually the world.

History of International Relations - Erik Ringmar 2019-08-02

Existing textbooks on international relations treat history in a cursory fashion and perpetuate a Euro-centric perspective. This textbook pioneers a new approach by historicizing the material traditionally taught in International Relations courses, and by explicitly focusing on non-European cases, debates and issues. The

volume is divided into three parts. The first part focuses on the international systems that traditionally existed in Europe, East Asia, pre-Columbian Central and South America, Africa and Polynesia. The second part discusses the ways in which these international systems were brought into contact with each other through the agency of Mongols in Central Asia, Arabs in the Mediterranean and the Indian Ocean, Indic and Sinic societies in South East Asia, and the Europeans through their travels and colonial expansion. The concluding section concerns contemporary issues: the processes of decolonization, neo-colonialism and globalization - and their consequences on contemporary society. History of International Relations provides a unique textbook for undergraduate and graduate students of international relations, and anybody interested in international relations theory, history, and contemporary politics. Bass Scales, Chords and Arpeggios - Laurence Harwood 2014-05-11

Bass Scales, Chords & Arpeggios is a comprehensive reference book for all bass guitarists. Containing a huge amount of bass guitar information, this book gives you the tools you need to master the fretboard. All scales, chords and arpeggios are presented in diagram form. Scales are also shown in one octave in notation and tab (starting on C). Find new sounds to inspire your playing: use new scales in your bass lines and play chords and arpeggios all over the neck. Designed to be the only bass guitar reference book you'll ever need.

The Dragon Business - Kevin J. Anderson
2019-11-20

A band of medieval con men sell their services as dragon slayers...only there's no dragon, just fake footprints, burned skeletons (dug up from the local graveyard), and rumors. But these con men meet their match when they encounter a spunky princess who plans to turn their con game to her own ends.

The Black Jacobins - C.L.R. James 1989-10-23

A classic and impassioned account of the Haitian Revolution—the first revolution in the Third World and the model for the liberation movements from Africa to Cuba. “One of the seminal texts about the history of slavery and abolition. . . . Provocative and empowering.”

—The New York Times Book Review This powerful, intensely dramatic book is the definitive account of the Haitian Revolution of 1794-1803, a revolution that began in the wake of the Bastille. It is the story of the French colony of San Domingo, a place where the brutality of master toward slave was legendary. And it is the story of a barely literate slave named Toussaint L'Ouverture, who led the black people of San Domingo in a successful struggle against successive invasions by overwhelming French, Spanish, and English forces and in the process helped form the first independent nation in the Caribbean.

War Reporting for Cowards - Chris Ayres
2007-12-01

“Imagine George Costanza from Seinfeld being sent off to cover the Iraq War . . . Hilarious” (Michiko Kakutani, The New York Times). Chris Ayres is a small-town boy, a hypochondriac, and a neat freak with an anxiety disorder. Not exactly the picture of a war correspondent. But when his boss asks him if he would like to go to Iraq, he doesn't have the guts to say no. After signing a one million dollar life-insurance policy, studying a tutorial on repairing severed limbs, and spending twenty thousand dollars on camping gear (only to find out that his bright yellow tent makes him a sitting duck), Ayres is embedded with a battalion of gung ho Marines who either shun him or threaten him when he files an unfavorable story. As time goes on, though, he begins to understand them (and his inexplicably enthusiastic fellow war reporters) more and more: Each night of terrifying combat brings, in the morning, something more visceral than he has ever experienced—the thrill of having won a fight for survival. A

“heartbreakingly funny” memoir (Anthony Swofford, author of *Jarhead*), *War Reporting for Cowards* tells, with “self-deprecating wit” (*The New Yorker*), the story of Iraq in a way that is extraordinarily honest, and bitterly hilarious. “Chris Ayres has invented a new genre: a rip-roaring tale of adventure and derring-don’t.” —Toby Young, author of *How to Lose Friends and Alienate People* “Darkly entertaining.” —Los Angeles Times “Ayres’s stories of life with Marines are gripping—in part because he’s the perfect neurotic foil.” —People

The Guns of the South - Harry Turtledove

2011-04-20

"It is absolutely unique--without question the most fascinating Civil War novel I have ever read." Professor James M. McPherson Pulitzer Prize-winning *BATTLE CRY OF FREEDOM* January 1864--General Robert E. Lee faces defeat. The Army of Northern Virginia is ragged and ill-equipped. Gettysburg has broken the back of the Confederacy and decimated its manpower.

Then, Andries Rhodie, a strange man with an unplaceable accent, approaches Lee with an extraordinary offer. Rhodie demonstrates an amazing rifle: Its rate of fire is incredible, its lethal efficiency breathtaking--and Rhodie guarantees unlimited quantities to the Confederates. The name of the weapon is the AK-47.... Selected by the Science Fiction Book Club A Main Selection of the Military Book Club
Characteristics of Men, Manners, Opinions, Times - Anthony Ashley Cooper Earl of Shaftesbury 1711

Blown to Bits - Harold Abelson 2008

'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

Minima Moralia - Theodor Adorno 2018-07-10
A reflection on everyday existence in the 'sphere of consumption of late Capitalism', this work is Adorno's literary and philosophical masterpiece. Built from aphorisms and reflections, he shifts in register from personal experience to the most general theoretical problems.

The Big Book of Words You Should Know - David Olsen 2008-12-17

Do you know what "quatrefoil" and "impolitic" mean? What about "halcyon" or "narcolepsy"? This book is a handy, easy-to-read reference guide to the proper parlance for any situation. In this book you will find: Words You Absolutely Should Know (covert, exonerate, perimeter); Words You Should Know But Probably Don't (dour, incendiary, scintilla); Words Most People Don't Know (schlimazel, thaumaturgy, epergne); Words You Should Know to Sound Overeducated (ad infinitum, nugatory, garrulity); Words You Probably Shouldn't Know (priapic, damnatory, labia majora); and more. Whether writing an

essay, studying for a test, or trying to impress friends, family, and fellow cocktail party guests with their prolixity, you will achieve magniloquence, ebullience, and flights of rhetorical brilliance.

Trappist-1 - Tony Harmsworth 2020-06-01
Trappist-1 is Mark Noble Space Adventure book three. It is strongly advised, but not absolutely essential, to read Moonscape and Moonstruck first. Following the 2030 discovery of quantum spolding (space folding), interstellar exploration becomes a possibility. NASA, together with private space exploration companies, begin work on the complex physics, technology, and hardware to turn it into reality. After a test flight to Mars, more hazardous than anyone anticipated, the starship Spirit and its two Rimor shuttles set off for the dwarf red star, Trappist-1, almost forty light years from the solar system. Haven, the fifth Trappist planet, has continents and seas, icecaps, glaciers and mountains, but the ubiquitous plant life they find is, at first, dull

and uninteresting. However, it doesn't take long for them to discover that Haven isn't a place on which to find shelter. It does, in fact, have the most terrifying secret, only discovered during the last day of the expedition. As realisation dawns, Mark and his team end up in an existential struggle. When they finally appear to have resolved their disastrous visit to the planet's surface, they discover an even bigger surprise awaiting them in orbit. It promises so much. Could it be enough to revitalise the whole mission and turn failure into success?

Harmsworth's Mark Noble Space Adventures, of which Trappist-1 is book three, contain no space battles, or fantasy environments, but follow real science as closely as possible. Having said that, in order to travel between the stars, there must be some suspension of belief to allow for the development of quantum spolding, for which Tony requires your forgiveness. Who knows, though, whether it might foretell the future? In this story, Tony blends hard science fiction with

a large dollop of imagination, and a substantial pinch of horror to add flavour.

The Infinite - Patience Agbabi 2020-04-02

The Circle - Dave Eggers 2013-10-08

A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe

her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Anachronist - Andrew Hastie 2017-03-27

Have you ever wished you could go back and change the past? Joshua Jones has many times. He's spent the last five years trying to forget one tragic day - the day his best friend died in a car crash. Fate has not been kind to Josh, in all of his seventeen years he has never really had any luck. He's not a bad kid; bad things just seem to happen to him. That is until the day he breaks into the house of the local eccentric, the Colonel, and discovers that he's a watchman for the

Oblivion Order, a secret organisation of time travellers. Anachronist follows Josh's journey through the untrodden paths of history as he learns more about his abilities. The colonel teaches him how to use historical artefacts to reach key points in the past, and introduces him to other members of his Order. He meets Caitlin and her friends, their mission to maintain the time continuum - and the dark forces that exist beyond it. However, just as Josh begins to feel like he belongs, his past comes back to haunt him and he is forced to face the personal demons that he has buried for so long...The first book in The Infinity Engine Series, Anachronist explores the strange and unusual world of the Oblivion Order.

Robots in Space - Ezzy Pearson 2020-10-02
ONE SMALL STEP FOR A ROBOT, ONE GIANT LEAP FOR MANKIND .FOR THE FIRST TIME IN HISTORY, IT'S NOT HUMANS WHO ARE LEADING THE WAY TO THE UNKNOWN BUT OUR MECHANICAL ENVOYS - ROBOTS .SPACE

SPARKS THE IMAGINATION in fantastic ways, but nothing quite captures people's attention more than when we actually reach out and touch another world. Whether it's sending missions to the Moon, transporting rovers to trundle around Mars or landing Philae on a comet, the idea that we can not only picture these worlds from afar, but to touch them is wonderfully inspiring, and it is through cutting-edge robotic technology that it is made possible. Robots have travelled throughout our solar system. They've landed on Venus, dived into the atmosphere of Jupiter and driven through the tail of a comet. In Robots in Space expert space journalist Dr Ezzy Pearson delves into the fascinating robotic history of space exploration, from distant times when stars were an unreachable godly mystery, through the intense Space Race following the Second World War to the Mars missions of the twenty-first century. As we find ourselves on the cusp of a new and exciting space age, Pearson explores how and why humanity turns its best minds to

travelling to the stars, and exactly how far we could go.

The English Novel - George Saintsbury 1998
The Book Is A Standard And Comprehensive Study Of The English Novel. It Would Be Found Highly Useful By The Students, Researchers And Teachers Of English Literature.

Lady Chatterley's Lover - D. H. Lawrence
2015-05-06

David Herbert Lawrence (1885–1930) was an English writer and poet whose work famously examined the results of industrialisation on contemporary society. In his novels and poetry, Lawrence explored a variety of then-controversial issues including sexuality and emotional health, which led many to label his work pornography. Today, he is considered to be one of the most important and influential writers of his generation. Lawrence's 1928 novel "Lady Chatterley's Lover" is the story of the former Constance Reid (Lady Chatterley), a young woman married to an upper-class baronet who

was left with lower body paralysis as a result of his participation in the Great War. Both physically and emotionally distant from her husband, Constance begins an extramarital affair with the gamekeeper. Following the Victory of the publisher Penguin Books in an obscenity trial in the United Kingdom, an uncensored version of the book was finally published and gained notoriety due to explicit descriptions of sex and its use of then-unprintable four-letter words. A revolutionary novel and a true classic of English literature, "Lady Chatterley's Lover" would make for a worthy addition to any bookshelf. Read & Co. Classics is proud to be republishing this seminal novel now in a brand new edition complete with a specially-commissioned new biography of the author.

Fludd - Hilary Mantel 2000-06-01

One dark and stormy night in 1556, a stranger named Fludd mysteriously turns up in the dismal village of Fetherhoughton. He is the curate sent

by the bishop to assist Father Angwin-or is he? In the most unlikely of places, a superstitious town that understands little of romance or sentimentality, where bad blood between neighbors is ancient and impenetrable, miracles begin to bloom. No matter how copiously Father Angwin drinks while he confesses his broken faith, the level of the bottle does not drop. Although Fludd does not appear to be eating, the food on his plate disappears. Fludd becomes lover, gravedigger, and savior, transforming his dull office into a golden regency of decision, unashamed sensation, and unprecedented action. Knitting together the miraculous and the mundane, the dreadful and the ludicrous, Fludd is a tale of alchemy and transformation told with astonishing art, insight, humor, and wit.

Suldrun's Garden - Jack Vance 2016-07-01

Take a doomed princess, a dispossessed prince and a wicked king, a vengeful magician and a melancholy witch; now add fairies, ogres, changelings, scheming barons, wanderers who

are not what they seem, robbers, orphans, and a race of hardbitten warriors at war with all humanity. Stir in politics, intrigue, plots and assassinations, battles and sieges, then set it all to simmer in a mythical archipelago across the western sea before the time of Arthur. Jack Vance draws together the threads of fairy tale and pagan myth to weave an epic tapestry of adventure and intrigue in the Elder Isles. The result is a masterpiece. - Matt Hughes
"Suldrun's Garden" is Book I of the Lyonesse series, and Volume 52 of the Spatterlight Press Signature Series. Released in the centenary of the author's birth, this handsome new collection is based upon the prestigious Vance Integral Edition. This memoir was first published in 1930 and describes the author's school days, his time in the Army, his experiences as a war correspondent and his first years as a member of

Parliament.

Death's Door - April White 2020-05-29

A master of the macabre and an ageless crusader cross paths in the shadows of time... "Ye who read are still among the living; but I who write shall havelong since gone my way into the region of shadows." ~ Edgar Allan Poe The first time Alexandra "Ren" Reynolds meets Edgar Allan Poe is the night he walks into her bar-- over 170 years after his mysterious death. Ren has heard rumors of "Clockers"-- the Descendants of Time who can travel through portals. But until she can find the portal Poe accidentally used to reach 21st Century Baltimore, she's stuck with him. And there is a problem: someone else has seen Poe and now they're hunting for him. Not even Ren's fledgling friendship with Officer Nick Pieretti will keep the vigilante away. Hiding an arrogant anti-abolitionist in a secret room in her bar-- once a station along the Underground Railroad-- is oddly satisfying to the descendant of slaves. But

Ren has much bigger secrets to conceal than the out-of-time presence of Edgar Allan Poe, and the events that transpire during their brief time together will alter both their destinies forever.

1776: The Washington Divergence - Andrew Hastie 2020-06-18

What if George Washington was killed before taking office? The year is 1776. New York is on fire. The British fleet are in the harbor, and Special Agent John Anderson still can't believe he's here... It began when the FBI counter-

terrorism system picked up suspicious activity at Mount Vernon. Anderson was assigned to find out why a crazy old man dressed as a British Redcoat was trying to break in and how the same guy could show up five minutes later at the Smithsonian. The Colonel claims he is trying to change the past and prevent the assassination of

General Washington. Anderson assumes he's just off his meds - until the old man runs into a broom closet and disappears. Infinity Engines: Missions takes you on a journey into an alternate history, one that might have been if it wasn't for the work of the Oblivion Order and their mission to save the future, by changing the past.
