**The Fords of Dearborn** - Ford Richardson Bryan 2004

"Ford R. Bryan wrote most of this collection of short stores nearly twenty years ago. They were originally published in the first edition of the Fords of Dearborn. The text is focused on the years 1820 to 1950 - from a time before the first of these Fords reached America, until after the death of Henry Ford the industrialist who was by

far their most noteworthy member." "This second edition, in a new design in a larger format than the previous edition, includes an index that will be appreciated by both readers and genealogists. In addition, over 125 illustrations in the book provide a photo-history of several family branches as well as some examples of "Auto Henry's" personal interests - beyond his automotive world."--BOOK JACKET. **Vinyl Junkies** - Brett Milano 2003-11-10  
Not too far away from the flea markets, dusty attics, cluttered used record stores and Ebay is the world of the vinyl junkies. Brett Milano dives

deep into the piles of old vinyl to uncover the subculture of record collecting. A vinyl junkie is not the person who has a few old 45s shoved in the cuboard from their days in high school. Vinyl Junkies are the people who will travel over 3,000 miles to hear a rare b-side by a German band that has only recorded two songs since 1962, vinyl junkies are the people who own every copy of every record produced by the favorite artist from every pressing and printing in existence, vinyl junkies are the people who may just love that black plastic more than anything else in their lives. Brett Milano traveled the U.S. seeking out the most die-hard and fanatical collectors to capture all that it means to be a vinyl junkie. Includes interviews with Thurston Moore of Sonic Youth, Peter Buck from R.E.M and Robert Crumb, creator of Fritz the cat and many more underground comics.

**The Persistence of Technology** - Stefan Krebs  
2021-09-30

Repair, reuse and disposal are closely interlinked phenomena related to the service lives and persistence of technologies. When technical artefacts become old and worn out, decisions have to be taken: is it necessary, worthwhile or even possible to maintain and repair, reuse or dismantle them - or must they be discarded? These decisions depend on factors such as the availability of second-hand markets, repair infrastructures and dismantling or disposal facilities. In telling the stories of China's power grid, Canadian telephones, German automobiles and India's shipbreaking business, among others, the contributions in this volume highlight the persistence of technologies and

show that maintenance and repair are not obsolete in modern industries and consumer societies.

**The Early Years of Rhythm & Blues** - Alan Govenar 2004-01-15

Benny Joseph made his living as a professional photographer in Houston's black community during the crucial decades from the 1950s through the early 1980s, when the amplified pulse of rhythm and blues underscored the social changes sweeping the nation. Joseph photographed everything from parades and teen hops to impassioned speeches by civil rights leaders Martin Luther King, Jr., and Thurgood Marshall. Under contract to the pioneering black entrepreneur Don Robey, owner of the Duke and Peacock recording labels, Joseph photographed many of the popular recording artists of the day, including B.B. King, Mahalia Jackson, Buddy Ace, Clarence Gatemouth Brown, and Della Reese. With over 120 unique black and white photographs, this is a must have for all rhythm

and blues enthusiasts, and a valuable historical resource for photography collectors. Writer, photographer, and filmmaker Alan Govenar met Joseph in 1984 when he was closing his studio in Houston's Third Ward and worked with him over the next five years, sifting through thousands of negatives to identify and contextualize his most compelling images of this remarkable era.

**AB Bookman's Weekly** - 1987-07

### **History of the Indian Tribes of North**

**America** - Thomas Loraine McKenney 1848

Both authors ... saw their book as a way of preserving an accurate visual record of a rapidly disappearing culture. The text, which was written by Hall based on information supplied by McKenney, takes the form of a series of biographies of leading figures amongst the Indian nations, followed by a general history of the North American Indians. The work is now famous for its color plate portraits of the chiefs, warriors and squaws of the various tribes, faithful copies of original oils by Charles Bird King painted from life in his studio in Washington (McKenney commissioned him to record the visiting Indian delegates) or worked up by King from the watercolors of the young frontier artist, James Otto Lewis. All but four of the original paintings were destroyed in the

disastrous Smithsonian fire of 1865, so their appearance in this work preserves what is probably the best likeness of many of the most prominent Indian leaders of the early 19th century. -- Reese.

*Killer Summer* - Ridley Pearson 2009-06-30

It begins as a heist in Sun Valley, Idaho-until the local sheriff discovers a more sinister underlying plan. The crime gets more personal. The stakes are raised, and nothing is as it seems.

*Public Library Collection Development in the Information Age* - Annabel Stephens 1998-08-21

Public Library Collection Development in the Information Age discusses the increasing amounts of information that are used in collection development. Case studies, interviews, and research are the basis for this book's suggestions to improve your collection methods without straining your library's budget. It will help you acquire the most useful materials while sharing information with collaborating libraries to offer patrons the latest and largest variety of

resources. Discussing a topic that is scarcely addressed in collection literature, this book explores ways in which one informational medium—the Internet—impacts materials budgets, selection tools, and alternative sources of information during the selection process. Offering methods that apply to libraries of different sizes and financial capability, *Public Library Collection Development in the Information Age* provides you with ideas and suggestions for the improvement of collection development methods, including: examining how libraries use information to plan and budget for collection development developing a budget method that takes several factors into consideration, such as population impact, property tax revenues, circulation, reference needs, and client needs centralizing selections in order to allocate additional staff time and to choose resources patrons want without sacrificing the utility of local collections building public library collections with the assistance of

vendors and the five levels of vendor participation using the conspectus method to assess and organize the collections of small libraries for easier access researching three public libraries in the United Kingdom to determine how varying levels of automation affect patron resources and services To help you integrate the appropriate electronic resources into collection development policies and procedures, *Public Library Collection Development in the Information Age* discusses which formats, access methods, pricing schemes, and differences in scope will best meet your selection needs. Containing proven strategies that will target your collection priorities and criteria to evaluate the use and effectiveness of electronic resources, this book will help revise your collection development methods to satisfy the informational needs of patrons.
