Parable of the Talents - Octavia E. Butler 2012-07-24

Winner of the Nebula Award for Best Novel: The powerful and compelling sequel to the dystopian classic *Parable of the Sower* Lauren Olamina was only eighteen when her family was killed, and anarchy encroached on her Southern California home. She fled the war zone for the hope of quiet and safety in the north. There she founded Acorn, a peaceful community based on a religion of her creation, called Earthseed, whose central tenet is that God is change. Five years later, Lauren has married a doctor and given birth to a daughter. Acorn is beginning to thrive. But outside the tranquil group's walls, America is changing for the worse. Presidential candidate Andrew Steele Jarret wins national fame by preaching a return to the values of the American golden age. To his marauding followers, who are identified by their crosses and black robes, this is a call to arms to end religious tolerance and racial equality—a brutal doctrine they enforce by machine gun. And as this band of violent extremists sets its deadly sights on Earthseed, Acorn is plunged into a harrowing fight for its very survival. Taking its place alongside Margaret Atwood's *The Handmaid's Tale*, Butler's eerily prophetic novel offers a terrifying vision of our potential future, but also one of hope. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate.

Kindred - Octavia E. Butler 2004-02-01

From the New York Times bestselling author of *Parable of the Sower* and MacArthur "Genius" Grant, Nebula, and Hugo award winner The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery and explores the impacts of racism, sexism, and white supremacy then and now. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is

controlled and precise" (New York Times). "Reading Octavia Butler taught me to dream big, and I think it's absolutely necessary that everybody have that freedom and that willingness to dream." —N. K. Jemisin The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (Watchmen), executive producers also include Joe Weisberg and Joel Fields (The Americans, The Patient), and Darren Aronofsky (The Whale). Janicza Bravo (Zola) is director and an executive producer of the pilot. Kindred stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin.

Laura & Emma - Kate Greathead 2018-03-13

"Masterly deftness, funny sentence by funny sentence...a moving and intricately braided story of two mothers."—JONATHAN FRANZEN, The Guardian This "beguiling, addictive read" (People, Book of the Week) and Belletrist Book Club pick about a blue-blooded single mother raising her daughter in rarefied New York City is a "carefully observed family story [that] rings true to life" (The New York Times Book Review). Laura hails from the Upper East Side of Manhattan, born into old money, drifting aimlessly into her early thirties. One weekend in 1981 she meets a man. The two sleep together. He vanishes. And Laura realizes she's pregnant. Enter: Emma. "Unputdownable" (Library Journal) and "wryly observed" (Vogue), *Laura & Emma* follows Laura as she raises Emma in New York City over the next fifteen years. With wit and compassion, Kate Greathead explores the many flaws and quirks that make us human. Laura's story hosts a cast of effervescent and original characters,

including her eccentric mother, who informs her society friends and Emma herself that she was fathered by a Swedish sperm donor; her brother, whose childhood stutter reappears in the presence of their forbidding father; an exceptionally kind male pediatrician; and her overbearing best friend, whose life has followed the Park Avenue script in every way except for childbearing. "Kate Greathead's debut novel gamely takes on class conflict, single motherhood, and the discreet pretension of the 1980s Upper East Side" (New York magazine) and is a "layered story about mothers and daughters and identity" (Entertainment Weekly). Told in vignettes whose every "restrained and understated sentence has been polished to glittering brightness" (Vox), *Laura & Emma* is "an incisive comedy of manners about class divides and the 'burdens' of being born privileged" (Esquire) and "a thoughtful novel of trying to find oneself despite an assigned place in the world" (Publishers Weekly).

Parable of the Sower - Octavia E. Butler 2019-04-30

This highly acclaimed post-apocalyptic novel of hope and terror from award-winning author Octavia E. Butler "pairs well with 1984 or The Handmaid's Tale" (John Green, New York Times)--now with a new foreword by N. K. Jemisin. When global climate change and economic crises lead to social chaos in the early 2020s, California becomes full of dangers, from pervasive water shortage to masses of vagabonds who will do anything to live to see another day. Fifteen-year-old Lauren Olamina lives inside a gated community with her preacher father, family, and neighbors, sheltered from the surrounding anarchy. In a society where any vulnerability is a risk, she suffers from hyperempathy, a debilitating sensitivity to others' emotions. Precocious and clear-eyed, Lauren must make her voice heard in order to protect her loved ones from the imminent disasters her small community stubbornly ignores. But what

begins as a fight for survival soon leads to something much more: the birth of a new faith . . . and a startling vision of human destiny.

Perihelion Summer - Greg Egan 2019-04-16

Greg Egan's *Perihelion Summer* is a story of people struggling to adapt to a suddenly alien environment, and the friendships and alliances they forge as they try to find their way in a world where the old maps have lost their meaning. Taraxippus is coming: a black hole one tenth the mass of the sun is about to enter the solar system. Matt and his friends are taking no chances. They board a mobile aquaculture rig, the *Mandjet*, self-sustaining in food, power and fresh water, and decide to sit out the encounter off-shore. As Taraxippus draws nearer, new observations throw the original predictions for its trajectory into doubt, and by the time it leaves the solar system, the conditions of life across the globe will be changed forever. Praise for *Perihelion Summer* "Egan here doubles down on climate change with his typically rigorous exploration of a cosmic accident's effect on Earth and all its people. His characters are sharp and funny and their courageous response to the massive challenge they face works as a spur to cause us to think—why couldn't we do as well with our own great challenge? This is what the best science fiction can do that no other genre can, and we need it now more than ever. Bravo!" — Kim Stanley Robinson

From the award-winning author of *Parable of the Sower*: After the near-extinction of humanity, a new kind of alien-human hybrid must come to terms with their identity -- before their powers destroy what is left of humankind. Since a nuclear war decimated the human population, the remaining humans began to rebuild their future by interbreeding with an alien race -- the Oankali -- who saved them from near-certain extinction. The Oankalis' greatest skill lies in the species' ability to constantly adapt and evolve, a process that is guided by their third sex, the ooloi, who are able to read and mutate genetic code. Now, for the first time in the humans' relationship with the Oankali, a human mother has given birth to an ooloi child: Jodah. Throughout his childhood, Jodah seemed to be a male human-alien hybrid. But when he reaches adolescence, Jodah develops the ooloi abilities to shapeshift, manipulate DNA, cure and create disease, and more. Frightened and isolated, Jodah must either come to terms with this new identity, learn to control new powers, and unite what's left of humankind -- or become the biggest threat to their survival.

Unexpected Stories - Octavia E. Butler 2014-06-24

An NPR Books Great Read: Two never-before-published stories from the archives of one of science fiction's all-time masters. The novella "A Necessary Being" showcases Octavia E. Butler's ability to create alien yet fully believable "others." Tahneh's father was a Hao, one of a dwindling race whose leadership abilities render them so valuable that their members are captured and forced to govern. When her father dies, Tahneh steps into his place, both chief and prisoner, and for twenty years has ruled without ever meeting another of her kind. She bears her loneliness privately until the day that a Hao youth is spotted wandering into her territory. As her warriors sharpen their weapons, Tahneh must choose between imprisoning the newcomer—and living the rest of her life alone. The second story in this volume, "Childfinder," was commissioned by Harlan Ellison for his legendary (and never-published) anthology *The Last Dangerous Visions*™. A disaffected telepath connects with a young girl in a desperate attempt to help her harness her growing powers. But in the richly evocative fiction of Octavia E. Butler, mentorship is a rocky path, and every lesson comes at a price. The award-winning author of science fiction classics *Parable of the Sower*

and *Kindred* bestows these compelling, long lost gems "like the miraculous discovery that the beloved book you've read a dozen times has an extra chapter" (Los Angeles Review of Books). Fledgling - Octavia E. Butler 2011-01-04

Fledgling, Octavia Butler's last novel, is the story of an apparently young, amnesiac girl whose alarmingly un-human needs and abilities lead her to a startling conclusion: she is in fact a genetically modified, 53-year-old vampire. Forced to discover what she can about her stolen former life, she must at the same time learn who wanted—and still wants—to destroy her and those she cares for, and how she can save herself. *Fledgling* is a captivating novel that tests the limits of "otherness" and questions what it means to be truly human.

Octavia's Brood - Walidah Imarisha 2015-03-23

Whenever we envision a world without war, without prisons, without capitalism, we are producing speculative fiction. Organizers and activists envision, and try to create, such worlds all the time. Walidah Imarisha and adrienne maree brown have brought twenty of them together in the first anthology of short stories to explore the connections between radical speculative fiction and movements for social change. The visionary tales of Octavia’s Brood span genres—sci-fi, fantasy, horror, magical realism—but all are united by an attempt to inject a healthy dose of imagination and innovation into our political practice and to try on new ways of understanding ourselves, the world around us, and all the selves and worlds that could be. The collection is rounded off with essays by Tananarive Due and Mumia Abu-Jamal, and a preface by Sheree Renée Thomas. PRAISE FOR OCTAVIA'S BROOD: "Those concerned with justice and liberation must always persuade the mass of people that a better world is possible. Our job begins with speculative fictions that fire society's imagination and its desire for change. In adrienne maree brown and Walidah Imarisha's visionary conception, and by its activist-artists' often stunning acts of creative inception, Octavia's Brood makes for great thinking and damn good reading. The rest will be up to us." —Jeff Chang, author of *Who We Be: The Colorization of America* “Conventional exclamatory phrases don’t come close to capturing the essence of what we have here in Octavia’s Brood. One part sacred text, one part social movement manual, one part diary of our future selves telling us, ‘It’s going to be okay, keep working, keep loving.’ Our radical imaginations

are under siege and this text is the rescue mission. It is the new cornerstone of every class I teach on inequality, justice, and social change....This is the text we’ve been waiting for.” —Ruha Benjamin, professor of African American Studies at Princeton University and author of *People’s Science: Bodies and Rights on the Stem Cell Frontier* "Octavia once told me that two things worried her about the future of humanity: The tendency to think hierarchically, and the tendency to place ourselves higher on the hierarchy than others. I think she would be humbled beyond words that the fine, thoughtful writers in this volume have honored her with their hearts and minds. And that in calling for us to consider that hierarchical structure, they are not walking in her shadow, nor standing on her shoulders, but marching at her side." —Steven Barnes, author of *Lion’s Blood* “Never has one book so thoroughly realized the dream of its namesake. Octavia's Brood is the progeny of two lovers of Octavia Butler and their belief in her dream that science fiction is for everybody.... Butler could not wish for better evidence of her touch changing our literary and living landscapes. Play with these children, read these works, and find the children in you waiting to take root under the stars!” —Moya Bailey and Ayana Jamieson, *Octavia E. Butler Legacy* “Like [Octavia] Butler's fiction, this collection is cartography, a map to freedom.” —dream hampton, filmmaker and Visiting Artist at Stanford University’s Institute for Diversity in the Arts Walidah Imarisha is a writer, organizer, educator, and spoken word artist. She is the author of the poetry collection *Scars/Stars* and facilitates writing workshops at schools, community centers, youth detention facilities, and women's prisons. adrienne maree brown is a 2013 Kresge Literary Arts Fellow writing science fiction in Detroit, Michigan. She received a 2013 Detroit Knight Arts Challenge Award to run a series of Octavia Butler-based writing workshops.

Midnight's Borders - Suchitra Vijayan 2021-05-25

The first true people's history of modern India, told through a seven-year, 9,000-mile journey along its many contested borders Sharing borders with six countries and spanning a geography that extends from Pakistan to Myanmar, India is the world's largest democracy and second most

populous country. It is also the site of the world's biggest crisis of statelessness, as it strips citizenship from hundreds of thousands of its people--especially those living in disputed border regions. Suchitra Vijayan traveled India's vast land border to explore how these populations live, and document how even places just few miles apart can feel like entirely different countries. In this stunning work of narrative reportage--featuring over 40 original photographs--we hear from those whose stories are never told: from children playing a cricket match in no-man's-land, to an elderly man living in complete darkness after sealing off his home from the floodlit border; from a woman who fought to keep a military bunker off of her land, to those living abroad who can no longer find their family history in India. With profound empathy and a novelistic eye for detail, Vijayan brings us face to face with the brutal legacy of colonialism, state violence, and government corruption. The result is a gripping, urgent dispatch from a modern India in crisis, and the full and vivid portrait of the country we've long been missing.

[The Naked Woman](#) - Armonía Somers 2018-11-01

A woman's feminist awakening drives a hypocritical village to madness in rural Uruguay in this "wild, brutal paean to freedom" (NPR.org).

Shortlisted for the National Translation Award "Somers' feminism is profound, and complicated." —NPR.org "A surreal, nightmarish book about women's struggle for autonomy—and how that struggle is (always, inevitably) met with violence." —Carmen Maria Machado, author of *Her Body and Other Parties* When *The Naked Woman* was originally published in 1950, critics doubted a woman writer could be responsible for its shocking erotic content. In this searing critique of Enlightenment values, fantastic themes are juxtaposed with brutal depictions of misogyny and violence, and frantically build to a fiery conclusion. Finally available to an English-speaking audience, Armonía Somers will resonate with readers of Clarice Lispector, Djuna Barnes, and Leonora Carrington. *Adulthood Rites* - Octavia E. Butler 2012-07-24

The futures of both mankind and an alien species rest in the hands of one hybrid son in the award-winning science fiction author's masterful sequel to *Dawn*. Nuclear war had nearly destroyed mankind when the Oankali came to the rescue, saving humanity—but at a price. The Oankali survive by mixing their DNA with that of other species, and now on Earth they have permitted no child to be born without an Oankali parent. The first true hybrid is a boy named Akin—son of Lilith Iyapo— and to the naked eye he looks human, for now. He is born with extraordinary sensory powers, understanding speech at birth, speaking in sentences at two months old, and soon developing the ability to see at the molecular level. More powerful than any human or Oankali, he will be the architect of both races' intergalactic future. Feminasty - Erin Gibson 2018-09-04

From the wickedly funny and feminist creator and host of the "Throwing Shade" podcast, a collection of hilarious personal essays and political commentary perfect for fans of Lindy West and Roxane Gay. Since women earned the right to vote a little under one hundred years ago, our progress hasn't been the Olympic sprint toward gender equality first wave feminists hoped for, but more of a slow, elderly mall walk (with frequent stops to Cinnabon) over the four hundred million hurdles we

still face. Some of these obstacles are obvious-unequal pay, under-representation in government, reproductive restrictions, lack of floor-length mirrors in hotel rooms. But a lot of them are harder to identify. They're the white noise of oppression that we've accepted as lady business as usual, and the patriarchy wants to keep it that way. Erin Gibson has a singular goal-to create a utopian future where women are recognized as humans. In *FEMINASTY*-titled after her nickname on the hit podcast "Throwing Shade"-she has written a collection of make-you-laugh-until-you-cry essays that expose the hidden rules that make life as a woman unnecessarily hard and deconstructs them in a way that's bold, provocative and hilarious. Whether it's shaming women for having their periods, allowing them into STEM fields but never treating them like they truly belong, or dictating strict rules for how they should dress in every situation, Erin breaks down the organized chaos of old fashioned sexism, intentional and otherwise, that systemically keeps women down.

An alien race calls on one woman to revive mankind after Earth's apocalypse in this science fiction classic from the award-winning author of *Parable of the Sower*. Lilith Iyapo has just lost her husband and son when atomic fire consumes Earth—the last stage of the planet's final

war. Hundreds of years later Lilith awakes, deep in the hold of a massive alien spacecraft piloted by the Oankali—who arrived just in time to save humanity from extinction. They have kept Lilith and other survivors asleep for centuries, as they learned whatever they could about Earth. Now it is time for Lilith to lead them back to her home world, but life among the Oankali on the newly resettled planet will be nothing like it was before. The Oankali survive by genetically merging with primitive civilizations—whether their new hosts like it or not. For the first time since the nuclear holocaust, Earth will be inhabited. Grass will grow, animals will run, and people will learn to survive the planet's untamed wilderness. But their children will not be human. Not exactly. Featuring strong and compelling characters and exploring complex themes of gender and species, Octavia E. Butler presents a powerful, postapocalyptic interplanetary epic, as well as a ray of hope for humanity. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate.

Alien Constructions - Patricia Melzer 2010-01-01

"An incisive critical work" that looks at Octavia Butler's writing, the movies of the Matrix and Alien series—and more—through a feminist lens (Femspec). Feminist thinkers and writers are increasingly recognizing science fiction's potential to shatter patriarchal and heterosexual norms, while the creators of science fiction are bringing new depth and complexity to the genre by engaging with feminist theories and politics. This book maps the intersection of feminism and science fiction through close readings of science fiction literature by Octavia E. Butler, Richard Calder, and Melissa Scott and the movies The Matrix and the Alien series. Patricia Melzer analyzes how these authors and films represent debates and concepts in three areas of feminist thought: identity and difference, feminist critiques of science and technology, and the relationship among gender identity, body, and

desire, including the new gender politics of queer desires, transgender, and intersexed bodies and identities. She demonstrates that key political elements shape these debates, including global capitalism and exploitative class relations within a growing international system; the impact of computer, industrial, and medical technologies on women's lives and reproductive rights; and posthuman embodiment as expressed through biotechnologies, the body/machine interface, and the commodification of desire. Melzer's investigation makes it clear that feminist writings and readings of science fiction are part of a feminist critique of existing power relations—and that the alien constructions (cyborgs, clones, androids, aliens, and hybrids) that populate postmodern science fiction are as potentially empowering as they are threatening.

Conversations with Octavia Butler - Conseula Francis 2010

Octavia Butler (1947-2006) spent the majority of her prolific career as the only major black female author of science fiction. Winner of both the Nebula and Hugo Awards as well as a MacArthur "genius" grant, the first for a science fiction writer, Butler created worlds that challenged notions of race, sex, gender, and humanity. Whether in the postapocalyptic future of the Parable stories, in the human inability to assimilate change and difference in the Xenogenesis books, or in the destructive sense of superiority in the Patternist series, Butler held up a mirror, reflecting what is beautiful, corrupt, worthwhile, and damning about the world we inhabit. In interviews ranging from 1980 until just before her sudden death in 2006, *Conversations with Octavia Butler* reveals a writer very much aware of herself as the "rare bird" of science fiction even as she shows frustration with the constant question, "How does it feel to be the only one?" Whether discussing humanity's biological imperatives or the difference between science fiction and fantasy or the plight of the working poor in America, Butler emerges in these interviews as funny, intelligent, complicated, and intensely original.
