So Good They Can't Ignore You - Cal Newport 2012-09-18

In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic

job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based

blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

Career Courage - Katie Kelley
2016-03-02

How has your answer changed since childhood to the often-asked question “What do you want to be when you grow up?” For most, the answers tend to begin with excited seven-year-olds confidently and excitedly screaming out things like, “A basketball player!” or “A fireman!” or “A cook!” and then ten to fifteen years later those same kids are shrugging

their shoulders while saying, “Not sure. Maybe something in accounting?” What happened? (Besides only growing to five foot eight and not being able to even reach the net when you jump.) When did we lose the courage to find our true calling and not just settle for what make sense in today’s workforce, or what our parents pushed us toward? Career Courage is meant to help you conquer your fears, shed misguided ideas, and muster the strength to let go of a safe job and stage your next act. - Clarify what really matters
- Express your point of view
- Build strong relationships and a robust network
- Think like an

entrepreneur • Prioritize a truly fulfilling life • And more! Starting or changing careers can be a scary, soul-searching process. Career Courage will give you the strength and guidance you need to break free from your fears and find fulfillment in the workforce.
