**Power over Peoples** - Daniel R. Headrick  
2012-06-28

A major history of technology and Western conquest For six hundred years, the nations of Europe and North America have periodically attempted to coerce, invade, or conquer other societies. They have relied on their superior technology to do so, yet these technologies have not always guaranteed success. Power over Peoples examines Western imperialism's complex relationship with technology, from the first Portuguese ships that ventured down the coast of Africa in the 1430s to America's conflicts in the Middle East today. Why did the sailing vessels that gave the Portuguese a century-long advantage in the Indian Ocean fail to overcome Muslim galleys in the Red Sea? Why were the same weapons and methods that the Spanish used to conquer Mexico and Peru ineffective in Chile and Africa? Why didn't America's overwhelming air power assure success in Iraq and Afghanistan? In Power over Peoples, Daniel Headrick traces the evolution of Western technologies—from muskets and galleons to jet planes and smart bombs—and sheds light on the environmental and social factors that have brought victory in some cases and unforeseen defeat in others. He shows how superior technology translates into greater power over nature and sometimes even other peoples, yet how technological superiority is no guarantee of success in imperialist ventures—because the technology only delivers results in a specific environment, or because the society being attacked responds in unexpected ways. Breathtaking in scope, Power over Peoples is a revealing history of technological innovation, its promise and limitations, and its central role in the rise and fall of empire. Some images

*Hobson and Imperialism* - P. J. Cain 2002

The year 2002 sees the centenary of J. A. Hobson's *Imperialism: A Study*, the most influential critique of British imperial expansion ever written. P. J. Cain marks the occasion by evaluating, for the first time, Hobson's writings on imperialism from his days as a journalist in London to his death in 1940. The early chapters chart Hobson's progress from complacent imperialist in the 1880s to radical critic of empire by 1898. This is followed by an account of the origins of Imperialism and a close analysis of the text in the context of contemporary debates. Two chapters cover Hobson's later writings, showing their richness and variety, and analysing his decision to republish *Imperialism* in 1938. The author discusses the reception of *Imperialism* and its emergence as a 'classic' by the late 1930s and ends with a detailed discussion of the relevance of the arguments of *Imperialism* to present-day historians.

**Imperialism in the Twenty-First Century** - John Smith 2016-01-22

Winner of the first Paul A. Baran-Paul M. Sweezy Memorial Award for an original monograph concerned with the political economy of imperialism, John Smith's *Imperialism in the Twenty-First Century* is a seminal examination of the relationship between the core capitalist countries and the rest of the world in the age of neoliberal globalization. Deploying a sophisticated Marxist methodology, Smith begins by tracing the production of certain iconic commodities—the T-shirt, the cup of coffee, and the iPhone—and demonstrates how these generate enormous outflows of money from the countries of the Global South to transnational corporations headquartered in the core capitalist nations of the Global North. From there, Smith

draws on his empirical findings to powerfully theorize the current shape of imperialism. He argues that the core capitalist countries need no longer rely on military force and colonialism (although these still occur) but increasingly are able to extract profits from workers in the Global South through market mechanisms and, by aggressively favoring places with lower wages, the phenomenon of labor arbitrage. Meticulously researched and forcefully argued, *Imperialism in the Twenty-First Century* is a major contribution to the theorization and critique of global capitalism.

*The Great Empires of Asia* - Jim Masselos 2018-08-16

Asian empires led the world economically, scientifically and culturally for hundreds of years, and posed a constant challenge to the countries of Europe. How and why did those empires gain such power, and lose it? What legacies did they leave? This major book brings

together a team of distinguished historians and 200 illustrations to survey seven great Asian empires that rose and fell between 800 CE and the mid-20th century: the Mongol Empire, Ming Dynasty of China, Khmer Empire, Ottoman Empire, Safavid Empire of Persia, Mughal Empire of India and the Meiji Restoration in Japan. Splendidly illustrated and compellingly written, *The Great Empires of Asia* shows how those seven empires played a key role in forming today's global civilization and how, with the renewed ascendancy of Asia, their legacies will help shape the continent's future.

### **Western Imperialism in the Middle East**

**1914-1958** - D. K. Fieldhouse 2006-04-06

The term 'Fertile Crescent' is commonly used as shorthand for the group of territories extending around the Rivers Tigris and Euphrates. Here it is assumed to consist of Syria, Lebanon, Jordan, Iraq and Palestine. Much has been written on the history of these countries which were taken from the Ottoman empire after 1918 and became Mandates under the League of Nations. For the most part the histories of these countries have been handled either individually or as part of the history of Britain or France. In the first instance the emphasis has normally been on the development of nationalism and local resistance to alien control in a particular territory, leading to the modern successor state. In the second most studies have concentrated separately on how either France or Britain handled the great problems they inherited, seldom comparing their strategies. The aim of this book is to see the region as a whole and from both the European and indigenous points of view. The central argument is that the mandate system failed in its stated purpose of establishing stable democratic states out of what had been provinces or parts of provinces within the Ottoman empire. Rather it generated basically unstable polities and, in the special case of Palestine, one totally unresolved, and possibly unsolvable, conflict. The result was to leave the Middle East as perhaps the most volatile part of the world in the later twentieth century and beyond. The main purpose of the book is to examine why this was so.

**Culture and Imperialism** - Edward W. Said 2012-10-24

A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched

from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

*A History of World Societies* - John P. McKay  
2003-07

News and the British World - Simon James Potter 2003

Revealed to contemporaries by the South African War, the basis on which the system would develop soon became the focus for debate. Commercial organizations, including newspaper combinations and news agencies such as Reuters, fought to protect their interests, while "constructive imperialists" attempted to enlist the power of the state to strengthen the system. Debate culminated in fierce controversies over state censorship and propaganda during and after World War I. Based on extensive archival research, this study addresses crucial themes, including the impact of empire on the press, Britain's imperial experience, and the idea of a "British world".

*Sources of Western Society, Volume 2* - John Beeler 2010-10-13

**Colonialism in Global Perspective** - Kris Manjapra 2020-04-30

Kris Manjapra weaves together the study of colonialism over the past 500 years, across the globe's continents and seas. This captivating work vividly evokes living human histories, introducing the reader to interlocking pasts and ongoing legacies of colonialism through the study of: war, conquest, militarization, extractive economies, migration and diaspora, racialization, biopolitical management, and unruly and creative responses and resistances. He describes some of the most salient political, social, and cultural constellations of our present across the Americas, Africa, Asia, and Europe. By exploring the dissimilar, yet entwined, histories of settler colonialism, racial slavery, and empire across Asia, Manjapra exposes the enduring role of colonial force and freedom struggle in the making of our modern world.

**The Nanjing Atrocities** - Facing History and Ourselves 2014-08-29

The Nanjing Atrocities: Crimes of War details the events unfolding in China and Japan in the years leading up to World War II in East Asia and the Japanese occupation of the city of Nanjing, China, in 1937. Following Facing History's guiding scope and sequence, and including a foreword by Benjamin Ferencz, a war crimes prosecutor at the Nuremberg Trials, this resource lays a broad framework and contains an in-depth examination of the war crimes known today as the Nanjing Atrocities. This book begins by exploring the impact of imperialism in East Asia during the nineteenth and early twentieth centuries, the rise of nationalism and militarism, and how these developments affected the complexity of nation building efforts in China and Japan. It addresses the brutality of war and the crimes committed in Nanjing through an examination of the choices made by leaders, soldiers, and witnesses. The history is presented through firsthand accounts and perspectives from survivors and foreigners living in Nanjing during the Japanese occupation. When examining the aftermath and legacy of the war in China, readers are asked to consider the importance of justice and memory, issues still relevant today as nations in East Asia continue to wrestle with how to remember, teach, and understand the Nanjing Atrocities. The Nanjing Atrocities: Crimes of War is an invaluable resource for educators and students of history seeking an overview of World War II in East Asia.

**Colonial Encounters in the Age of High Imperialism** - S. B. Cook 1996

Colonial Encounters in The Age of High Imperialism is the first book in the new HarperCollins World History Series, edited by Michael Adas. This title examines the world-transforming experience of Western imperialism during the period from 1870 to 1914. Case studies focusing Specifically on Belgium and the Congo, Hawaii and the United States, and India and Britain examine the experiences of both colonizers and colonized, men and women, elite

officials and faceless laborers. An introductory overview makes the study of imperialism relevant for today's students by showing them how the past relates to the present. Chapter-ending conclusions summarize important material, and suggested in-depth readings direct students to sources for further exploration. The case studies provide detailed examination of particular places and moments and invite comparison with imperialism in other parts of the world. Discussions of broader topics and larger issues, such as population redistribution, the spread of technology, military invasion, and the role of guns and medicine build upon the case studies.
