The Ancient Olympic Games - Judith Swaddling 1980

For over one thousand years between 776 B.C. and A.D. 395, princes, statesmen, and famous athletes gathered every four years at Olympia in western Greece to compete for the olive crowns of the ancient Olympic Games. Judith Swaddling traces the mythological and religious origins of the games and describes the events, religious ceremony, and celebrations that were an essential part of the Olympic festival. The book also features a large, detailed model of the site of ancient Olympia, where, alongside religious and civic buildings, there grew an elaborate sports complex with a stadium for 40,000 spectators, indoor and outdoor training facilities, hot and cold baths, a swimming pool, and a race course. This fascinating description of Ancient Olympia and the Games is superbly illustrated with vases, sculpture and other works of art, views of the site and photographs of the unique model.

Critical Approaches to Climate Change and Civic Action - Anabela Carvalho 2021-09-10

The Last Lecture - Randy Pausch 2008-04-08

"We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

The Girl on the Wall - Jean Baggott 2011-03-03

Jean Baggott is 'the girl on the wall' - a 1948 photograph taken of her when she was eleven - whose life was never going to be remarkable and the pinnacle of whose achievements would come from being a wife and a mother. Almost 60 years later, with her children gone, dealing with the loss of the love of her life, Jean began the education denied to her as a girl. Inspired by ceilings of Lincolnshire's Burghley House and by the History degree she had begun, Jean began to stitch a tapestry which looked back at her life and the changing world around her. It took sixteen months to complete. The tapestry consists of over 70 intersecting circles, each telling some aspect of her life. Some represent extraordinary events such as the moon landings or world historical news stories like the Cuban Missile Crisis; some circles comment on famous people and places she remembers, others about the music she loves - Pink Floyd - and the games she played as a child, and growing up during the second world war with her brothers. Each chapter of "The Girl on the Wall" features a circle from the tapestry and Jean's accompanying narrative, exploring the circle and the memories it evokes. It reveals an ordinary life in extraordinary detail. The result is a truly unique, touching portrait of a seemingly average British woman's life. To stand back and look at the tapestry is to

be struck by the richness of one human journey - from 1940 to the present day. The girl on the wall would be proud. The book includes a full-colour pull-out of Jean's tapestry inside the back cover.

Caging Skies - Christine Leunens 2019-08-06

The inspiration for the major film *Jojo Rabbit* by Taika Waititi. An avid member of the Hitler Youth in 1940s Vienna, Johannes Betzler discovers his parents are hiding a Jewish girl named Elsa behind a false wall in their home. His initial horror turns to interest—then love and obsession. After his parents disappear, Johannes is the only one aware of Elsa's existence in the house and he alone is responsible for her fate. Drawing strength from his daydreams about Hitler, Johannes plans for the end of the war and what it might mean for him and Elsa. The inspiration for the major film *Jojo Rabbit* by Taika Waititi, *Caging Skies*, sold in over twenty countries, is a work of rare power; a stylistic and storytelling triumph. Startling, blackly comic, and written in Christine Leunens's gorgeous, muscular prose, this novel, her U.S. debut, is singular and unforgettable.

The Progress Principle - Teresa Amabile 2011-07-19

What really sets the best managers above the rest? It's their power to build a cadre of employees who have great inner work lives—consistently positive emotions; strong motivation; and favorable perceptions of the organization, their work, and their colleagues. The worst managers undermine inner work life, often unwittingly. As Teresa Amabile and Steven Kramer explain in *The Progress Principle*, seemingly mundane workday events can make or break employees' inner work lives. But it's forward momentum in meaningful work—progress—that creates the best inner work lives. Through rigorous analysis of nearly 12,000 diary entries provided by 238 employees in 7 companies, the authors explain how managers can foster progress and enhance inner work life every day. The book shows how to remove obstacles to progress, including meaningless tasks and toxic relationships. It also explains how to activate two forces that enable progress: (1) catalysts—events that directly facilitate project work, such as clear goals and autonomy—and (2) nourishers—interpersonal events that uplift workers, including encouragement and demonstrations of respect and collegiality. Brimming with honest examples from the companies studied, *The Progress Principle* equips aspiring and seasoned leaders alike with the insights they need to maximize their people's performance.

Best Care at Lower Cost - Institute of Medicine 2013-05-10

America's health care system has become too complex and costly to continue business as usual. Best Care at Lower Cost explains that inefficiencies, an overwhelming amount of data, and other economic and quality barriers hinder progress in improving health and threaten the nation's economic stability and global competitiveness. According to this report, the knowledge and tools exist to put the health system on the right course to achieve continuous improvement and better quality care at a lower cost. The costs of the system's current inefficiency underscore the urgent need for a systemwide transformation. About 30 percent of health spending in 2009-roughly \$750 billion-was wasted on unnecessary services, excessive administrative costs, fraud, and other problems. Moreover, inefficiencies cause needless suffering. By one estimate, roughly 75,000 deaths might have been averted in 2005 if every state had delivered care at the quality level of the best performing state. This report states that the way health care providers currently train, practice, and learn new information cannot keep pace with the flood of research discoveries and technological advances. About 75 million Americans have more than one chronic condition, requiring coordination among multiple specialists and therapies, which can increase the potential for miscommunication, misdiagnosis, potentially conflicting interventions, and dangerous drug interactions. Best Care at Lower Cost emphasizes that a better use of data is a critical element of a continuously improving health system, such as mobile technologies and electronic health records that offer significant potential to capture and share health data better. In order for this to occur, the National Coordinator for Health Information Technology, IT developers, and standard-setting organizations should ensure that these systems are robust and interoperable. Clinicians and care organizations should fully adopt these technologies, and patients should be encouraged to use tools, such as personal health information portals, to actively engage in their care. This book is a call to action that will guide health care providers; administrators; caregivers; policy makers; health professionals; federal, state, and local government agencies; private and public health organizations; and educational institutions.

Flipping the Script - AJ Gibson 2018-09-15

The TV host turned motivational speaker teaches you to change your life by changing your perspective in this entertaining and informative "must read!" (Vivica A. Fox, actress and bestselling author of Every Day I'm Hustling). Life can be complicated and messy, but every now and then it lands you on a major network syndicated talk show—and then fires you for being "all icing and no cake." Sound familiar? AJ's Hollywood career may be unique, but his many struggles are all-too relatable. And he shares them all in this rollicking, raw, and inspiring self-help memoir. AJ's journey from a closeted gay boy in Ohio to that guy people kinda, sorta recognize from TV was anything but glossy. Let's just say he knows what you feel like whenever you find yourself scrolling social media comparing yourself to others. Luckily, AJ has a gift for shifting his perspective and finding a way to persevere each time the world seems to be telling him he was born to fail. He also knows that we all have problems and he's here to help. The true stories in Flipping the Script will make you laugh, encourage you to fight for happiness, and inspire you to turn your own rock bottom moments into your proudest accomplishments.

Bearing Light: Flame Relays and the Struggle for the Olympic Movement - John J. Macaloon 2020-07-24

The Flame Relay and the Olympic Movement is the first book-length scholarly study in English of the contemporary Olympic flame relay. Reporting for the first time on years of intensive ethnographic research and organizational intervention, MacAloon literally follows the Olympic flame through twenty years of intercultural encounter, conflict, and negotiation. Focusing on the frequently harmonious, sometimes perilous encounters among Greek flame relay officials, cultural agents, and discourses, foreign Olympic Games organizing committees, and such transnational actors as the IOC and its corporate sponsors since 1984, a context is created for understanding the significance for the Olympic movement and for globalization studies of the 2004 Athens flame relay, the first to travel the entire world. Through intensive interviews and co-participations with leading Greek and American actors and the contributions of young Greek researchers who worked backstage on the relay, Bearing Light demonstrates how culturally parochial the managerial regime of "world's best practices" often turns out to be and yet how inescapable it has become for those who wish to communicate across cultural and political boundaries. This dilemma, the contributors argue, constitutes the practical form in which the struggle to preserve a sense of "Olympism" and "the Olympic Movement" against the demands and prerogatives of today's Olympic sports industry is being chiefly fought out. This book was previously published as a special issue of Sport in Society *Sports Fans 2.0* - David M. Sutera 2013-04-25

As of 2012, Twitter has over 100 million active users worldwide, and sports fans and athletes have proven to be some of the most prolific and adept users of Twitter and other social media platforms. In Sports Fans

2.0, David M. Sutera explores the increasingly participatory nature of contemporary sports fandom and spectatorship. He examines the ways in which digital media has created and facilitated new channels for sports fan engagement, and how technology has enhanced the fan's perception of participating in America's sports culture. In addition, Sutera shows how high-profile athletes are using social media to increase their fan base and promote their own celebrity status, creating the sense that they are more accessible to their fans. Covering a wide range of sports and social media outlets, Sports Fans 2.0 is an accessible examination of how technology has changed—and will continue to change—the world of sports.

Intellectual Disabilities in Down Syndrome from Birth and throughout Life: Assessment and Treatment - Marie-Claude Potier 2017-02-24

Research on the multiple aspects of cognitive impairment in Down syndrome (DS), from genes to behavior to treatment, has made tremendous progress in the last decade. The study of congenital intellectual disabilities such as DS is challenging since they originate from the earliest stages of development and both the acquisition of cognitive skills and neurodegenerative pathologies are cumulative. Comorbidities such as cardiac malformations, sleep apnea, diabetes and dementia are frequent in the DS population, as well, and their increased risk provides a means of assessing early stages of these pathologies that is relevant to the general population. Notably, persons with DS will develop the histopathology of Alzheimer's disease (formation of neuritic plaques and tangles) and are at high risk for dementia, something that cannot be predicted in the population at large. Identification of the gene encoding the amyloid precursor protein, its localization to chromosome 21 in the 90's and realization that all persons with DS develop pathology identified this as an important piece of the amyloid cascade hypothesis in Alzheimer's disease. Awareness of the potential role of people with DS in understanding progression and treatment as well as identification of genetic risk factors and also protective factors for AD is reawakening. For the first time since DS was recognized, major pharmaceutical companies have entered the search for ameliorative treatments, and phase II clinical trials to improve learning and memory are in progress. Enriched environment, brain stimulation and alternative therapies are being tested while clinical assessment is improving, thus increasing the chances of success for therapeutic interventions. Researchers and clinicians are actively pursuing the possibility of prenatal treatments for many conditions, an area with a huge potential impact for developmental disorders such as DS. Our goal here is to present an overview of recent advances with an emphasis on behavioral and cognitive deficits and how these issues change through life in DS. The relevance of comorbidities to the end phenotypes described and relevance of pharmacological targets and possible treatments will be considerations throughout.

Another Growing Up In New Guinea - Chris Sanderson 2017-01-15

Though autobiographical, this book gives insights into other cultures in the rapidly developing nation of Papua New Guinea. Aiyura National High School (ANHS) 1978 to 86 was part of a strategy to build the new nation and break down old tribal barriers by uniting young people (Grades 11 and 12) from all over the country, including the islands. ANHS was a happy place of amazing cultural and linguistic diversity. This book, illustrated with colour photographs, records the remarkable experience of being a part of such an ambitious and enjoyable step towards nation-building.

Crying in H Mart - Michelle Zauner 2021-04-20

NEW YORK TIMES BEST SELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—“in losing her mother and cooking to bring her back to life, Zauner became herself” (NPR) • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BEST SELLER LIST In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would

bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that

forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.
