Performance Management in Nonprofit Organizations - Zahirul Hoque 2014-10-10

With increased competition for external funding, technological advancement, and public expectations for transparency, not-for-profit and non-governmental organizations are facing new challenges and pressures. While research has explored the roles of accounting, accountability, and performance management in nonprofit organizations, we still lack evidence on the best practices these organizations implement in the areas of accountability and performance management. This book collects and presents that evidence for the first time, offering insights to help nonprofits face these new challenges head-on.

Performance Management in Nonprofit Organizations focuses on both conventional

and contemporary issues facing nonprofits, presenting evidence-based insights from leading scholars in the field. Chapters examine the design, implementation, and working of accounting, accountability, governance, and performance management measures, providing both retrospective and contemporary views, as well as critical commentaries on accounting and performance related issues in nonprofit organizations. The book's contributors also offer critical commentaries on the changing role of accounting and performance management in this sector. This research-based collection is an interesting and useful read for academics, practitioners, students, and consultants in nonprofit organizations, and is highly accessible to accounting and non-accounting audiences alike.

Company Accounting - K. Leo  
2017-09-15

Company Accounting, 11th Edition (Leo et al.) has been updated to reflect the various and ongoing reforms as a result of Australia's adoption of the International Financial Reporting Standards (IFRS). The text provides students with a comprehensive overview of the practice and principles of company accounting and helps them develop the practical grounding to reinforce their understanding. The 11th edition presents essential 'must know' information on accounting for a corporate entity and the requirements for externally disclosing the financial position of the entity.

The Soteriology of Leo the Great - Bernard Green  
2008-04-10

Leo the Great was the beneficiary of the consolidation of the power of the papacy in Rome and the Christianization of the city over the course of the preceding century. In this carefully nuanced study

Bernard Green demonstrates the influences at work on this celebrated pope's development as a theological thinker, including two of the most renowned theological names of the period, Ambrose of Milan and Augustine of Hippo. Green charts Leo's theological journey from his first encounters with the Pelagian and Nestorian controversies, where he engaged Cassian as an advisor. Leo took an admiring though limited view of Cyril of Alexandria but misunderstood the weaknesses in Nestorius' thought. As pope, Leo preached a civic Christianity, accessible to all citizens, baptising the virtues of the classical and civic past. The study then examines Leo's recently dated sermons and reveals the evolution of his thought as he worked out a soteriology that gave full value to both the divinity and humanity of Christ, especially in reaction to Manichaeism. In the crisis that led to Chalcedon, Leo's earlier misunderstanding of Nestorius affected the content of his

Tome, which was atypical of the Christology and soteriology he had developed in his earlier preaching. Green persuasively concludes that its emphasis on the distinction of the two natures was an uncharacteristic attempt to respond to both Eutyches and Nestorius, as this pope understood them. In the light of Chalcedon, Leo produced a revised statement of Christology, the Letter to the Palestinian monks, which is both more accomplished and better aligned with his characteristic thought.

**A Bibliography of Cost Books** - National Association of Accountants 1921
