*Comparative Politics* - Daniele Caramani 2011-02-17  
"Comparative Politics" provides a comprehensive introduction to political systems around the world. It covers methods and theories; the nation-state; institutions; actors and

processes; policies; and recent changes.

**Political Science** - Rod Hague 2016-02-12

Long established as the leading text in the field, the new edition has been comprehensively updated and

rewritten. Accessible, student-friendly and truly international in its coverage, this edition includes more on authoritarian states as well as a much wider variety of country studies more generally.

World Development Report 2017 - World Bank Group  
2017-01-23

Why are carefully designed, sensible policies too often not adopted or implemented? When they are, why do they often fail to generate development outcomes such as security, growth, and equity? And why do some bad policies endure? World Development Report 2017: Governance and the Law addresses these fundamental questions, which are at the heart of development. Policy making and policy implementation do not occur in a vacuum. Rather, they take place in complex political and social settings, in which individuals and groups with unequal power interact within changing rules as they pursue conflicting interests. The process of these interactions is what this Report

calls governance, and the space in which these interactions take place, the policy arena. The capacity of actors to commit and their willingness to cooperate and coordinate to achieve socially desirable goals are what matter for effectiveness. However, who bargains, who is excluded, and what barriers block entry to the policy arena determine the selection and implementation of policies and, consequently, their impact on development outcomes. Exclusion, capture, and clientelism are manifestations of power asymmetries that lead to failures to achieve security, growth, and equity. The distribution of power in society is partly determined by history. Yet, there is room for positive change. This Report reveals that governance can mitigate, even overcome, power asymmetries to bring about more effective policy interventions that achieve sustainable improvements in security, growth, and equity. This happens by shifting the incentives of those with power,

reshaping their preferences in favor of good outcomes, and taking into account the interests of previously excluded participants. These changes can come about through bargains among elites and greater citizen engagement, as well as by international actors supporting rules that strengthen coalitions for reform.

*Power and Policy in Liberal Democracies* - Martin Harrop  
1992-02-20

This textbook, first published in 1992, integrates the field of policy studies with more traditional approaches to comparative politics.

**The Politics of the European Union** - Herman Lelieveldt  
2015-07-09

Introduces the European Union through the lens of comparative politics. Exercises, case studies and real-world examples facilitate student learning.

*Governance and Politics of China* - Tony Saich 2004

**The Future of Representative Democracy** -

Sonia Alonso 2011-03-31  
The Future of Representative Democracy poses important questions about representation, representative democracy and their future. Inspired by the last major investigation of the subject by Hanna Pitkin over four decades ago, this ambitious volume fills a major gap in the literature by examining the future of representative forms of democracy in terms of present-day trends and past theories of representative democracy. Aware of the pressing need for clarifying key concepts and institutional trends, the volume aims to break down barriers among disciplines and to establish an interdisciplinary dialogue among scholars. The contributors emphasise that representative democracy and its future is a subject of pressing scholarly concern and public importance. Paying close attention to the unfinished, two-centuries-old relationship between democracy and representation, this book offers a fresh perspective on current

problems and dilemmas of representative democracy and the possible future development of new forms of democratic representation.

### **Cases in Comparative Government and Politics** -

John McCormick 2019-09-20

Using twelve pivotal cases, this book brings comparative politics to life by highlighting the key differences in political systems around the world.

Written by renowned textbook author John McCormick, the book opens with two context-setting chapters on the field of comparative politics and the varying nature of political systems. The cases that follow thereafter have been carefully chosen to illustrate a variety of political types, different levels of political development, and to ensure geographical and cultural diversity. The textbook is ideal for both undergraduate and postgraduate students who are taking introductory courses in comparative politics, introduction to politics and political science.

Understanding the European Union - John McCormick 1999

### **Comparative Government and Politics** - John McCormick 2022-05-19

This is a thoroughly revised and updated tenth edition of the classic text in the field of comparative politics. Now co-authored by John McCormick, this comprehensive and lively text continues to introduce students to the key concepts, approaches and arguments that will enable them to successfully compare the fundamentals, structures and processes of political systems across the globe. Taking full account of the institutions of government and the different political cultures that both influence and are impacted by political developments, the authors offer detailed analysis of democracies and authoritarian regimes. This edition includes a much wider range of international case studies, particularly expanded to include more from Latin America and Africa and to reflect the emerging powers on the world stage. The book is also newly supported by a variety of carefully designed

supporting features: \*  
Spotlights on individual countries offer profiles of the different types of political systems around the world \*  
Chapter Previews, Overviews, Key Arguments, Discussion Questions and Further Reading help consolidate knowledge\*  
New Focus boxes give more insight into important issues discussed in the text\*  
Key Concepts are defined throughout the text in a concise and easily digestible style. This renowned text is the essential, and accessible, introduction to the study of comparative politics for students of political science everywhere.

**Consumer Democracy** - Margaret Scammell 2014-02-10  
This book argues that marketing is inherent in competitive democracy, explaining how we can make the consumer nature of competitive democracy better and more democratic. Margaret Scammell argues that consumer democracy should not be assumed to be inherently antithetical to

"proper" political discourse and debate about the common good. Instead, Scammell argues that we should seek to understand it - to create marketing-literate criticism that can distinguish between democratically good and bad campaigns, and between shallow, cynical packaging and campaigns that at least aspire to be responsive, engender citizen participation, and enable accountability. Further, we can take important lessons from commercial marketing: enjoyment matters; what citizens think and feel matters; and, just as in commercial markets, structure is key - the type of political marketing will be affected by the conditions of competition.

Political Science (North American edition) - Rod Hague 2010-04-15

The classic introduction to political science and comparative politics has been comprehensively updated for this new edition. Retaining the clarity of expression and breadth of coverage that has made it the introduction of

choice for generations of students, it provides a lively and up-to-date account of the events and forces shaping politics in today's interconnected world. The new edition includes separate chapters on theoretical approaches and research strategies in political science as well as increased coverage of security, media, culture, law and regulation. Carefully designed learning features illustrate the text throughout. These include:

- full-page Profiles on individual countries and the European Union, with associated Spotlights linked to each chapter
- on-page glossary definitions for key terms and timelines of key events
- guides to additional learning resources for each chapter
- a companion website providing additional resources and activities

**Elections and Voters** - Martin Harrop 1987

The authors argue that it is futile to ask, "What decides elections?" without first considering, "What do elections decide?" Their book examines

competitive electoral systems as well as non-competitive ones.

**Judiciaries in Comparative Perspective** - H. P. Lee  
2011-08-11

An independent and impartial judiciary is fundamental to the existence and operation of a liberal democracy. Focussing on Australia, Canada, New Zealand, South Africa, the United Kingdom and the United States, this comparative 2011 study explores four major issues affecting the judicial institution. These issues relate to the appointment and discipline of judges; judges and freedom of speech; the performance of non-judicial functions by judges; and judicial bias and recusal, and each is set within the context of the importance of maintaining public confidence in the judiciary. The essays highlight important episodes or controversies affecting members of the judiciary to illustrate relevant principles.

[Introduction to Politics](#) - Robert Garner 2012-10-19

a

href="http://www.oupcanada.com/ebrochure/garner/index.html"img src="/images/hed/closer\_look\_btn.gif"/aNow in a Canadian edition, this truly international introduction to politics offers comprehensive coverage of key concepts and ideologies, institutions, and international relations. Balancing theory with a wealth of Canadian and international real world examples, this text equips students with the knowledge required to think critically about the current state of global politics. Intellectually stimulating yet accessible, Introduction to Politics offers students a solid foundation to understanding politics and how it impacts every aspect of our lives.

**How Democracies Die** - Steven Levitsky 2019-01-08  
NEW YORK TIMES  
BESTSELLER •

“Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR

THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump’s presidency has raised a question that many of us never thought we’d be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe

to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It

is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN *How to Compare Nations* - Mattei Dogan 1990 “In *How to Compare Nations*, Dogan and Pelassy have constructed a succinct and unconventional guide to the conduct of comparative analysis and the construction of social science theory. It should be required reading for all first-year graduate students; its use at the undergraduate level would be a sign of educational professionalism.” - American Political Science Review [Competitive Authoritarianism](#) - Steven Levitsky 2010-08-16 Based on a detailed study of 35 cases in Africa, Asia, Latin America, and post-communist

Eurasia, this book explores the fate of competitive authoritarian regimes between 1990 and 2008. It finds that where social, economic, and technocratic ties to the West were extensive, as in Eastern Europe and the Americas, the external cost of abuse led incumbents to cede power rather than crack down, which led to democratization. Where ties to the West were limited, external democratizing pressure was weaker and countries rarely democratized. In these cases, regime outcomes hinged on the character of state and ruling party organizations. Where incumbents possessed developed and cohesive coercive party structures, they could thwart opposition challenges, and competitive authoritarian regimes survived; where incumbents lacked such organizational tools, regimes were unstable but rarely democratized.

### **Political Science, Fifth**

**Edition** - Rod Hague

2007-06-15

Long established as the leading

text in the field, the 7th edition has been comprehensively updated, revised and rewritten throughout. A new chapter has been added on Political Economy and the classification system used to compare states has been recast to distinguish liberal and illiberal democracies as well as contrasting these with authoritarian regimes. Lively, accessible, student-friendly and truly international in its coverage, the 7th edition includes a substantially enhanced range of case studies, debate boxes, charts and tables.

### **Governance and Politics of**

**China** - Tony Saich 2010-12-15

Now available in a substantially revised 3rd edition covering the changes of the Seventeenth Party Congress and Eleventh National People's Congress and other recent developments, this major text by a leading academic authority provides a thorough introduction to all aspects of politics and governance in post-Mao China.

### **Joined-Up Government** -

Vernon Bogdanor 2005-07-21

'Joined-up government' is a key theme of modern government. The Labour government, first elected in 1997, decided that intractable problems such as social exclusion, drug addiction and crime could not be resolved by any single department of government. Instead, such problems had to be made the object of a concerted attack using all the arms of government - central and local government and public agencies, as well as the private and voluntary sectors. This book seeks to analyse 'joined-up government', to consider its history, and to evaluate its consequences for British institutions such as the Cabinet, the civil service and local authorities. Is joined-up government a new idea, or merely a new label for a very old idea? What lessons can be learnt from previous attempts at joined-up government? How does it affect our traditional constitutional conceptions relating to Cabinet government, a politically neutral and non-partisan civil

service, and an independent system of local government? Will it lead to the concentration of power in 10 Downing Street or is it compatible with a political system based on checks and balances? Drawing together papers given at a conference held at the British Academy, *Joined-Up Government* provides a broad overview of one of the most significant aspects in modern government. Its contributors include not only distinguished academics, but also those who have themselves been engaged as practitioners in developing joined-up programmes. This book will be indispensable to all those who seek to understand how new developments in government are affecting our lives.

*Scottish Politics* - Paul Cairney  
2013-07-30

Fully revised, the new edition of this popular textbook provides an authoritative introduction to all aspects of contemporary Scottish politics and gives a full analysis of the SNP's first majority government. Fully revised, the

new edition of this popular textbook provides an authoritative introduction to all aspects of contemporary Scottish politics and gives a full analysis of the SNP's first majority government.

[Comparative Government and Politics](#) - Rod Hague 1987

**Comparative Government and Politics** - John McCormick  
2019-02-08

This revised and updated edition of a core textbook – one of the most well-established texts in the field of comparative politics – offers a comprehensive introduction to the comparison of governments and political systems, helping students to understand not just the institutions and political cultures of their own countries but also those of a wide range of democracies and authoritarian regimes from around the world. The book opens with an overview of key theories and methods for studying comparative politics and moves on to a study of major institutions and themes, such as the state, constitutions

and courts, elections, voters, interest groups and political economy. In addition, two common threads run throughout the chapters in this edition – the reversal of democracy and declining trust in government – ensuring that the book fully accounts for the rapid developments in politics that have taken place across the world in recent times.

Written by a team of experienced textbook authors and featuring a range of engaging learning features, this book is an essential text for undergraduate and postgraduate courses on comparative politics, comparative government, introduction to politics and introduction to political science. New to this Edition: - New and extended coverage of important topics such as authoritarian states, identities, ethnicity and political violence - A brand new chapter on political economy - An engaging new page design, in full colour for the first time - An enhanced companion website, now providing an

extensive testbank of questions for lecturers - Publishing alongside John McCormick's new book on Cases in Comparative Government and Politics (October 2019), which offers more detailed coverage of the cases covered in this text.

*Policy Controversies and Political Blame Games -*

Markus Hinterleitner  
2020-11-12

In modern, policy-heavy democracies, blame games about policy controversies are commonplace. Despite their ubiquity, blame games are notoriously difficult to study. This book elevates them to the place they deserve in the study of politics and public policy. Blame games are microcosms of conflictual politics that yield unique insights into democracies under pressure. Based on an original framework and the comparison of fifteen blame games in the UK, Germany, Switzerland, and the US, it exposes the institutionalized forms of conflict management that democracies have developed to

manage policy controversies. Whether failed infrastructure projects, food scandals, security issues, or flawed policy reforms, democracies manage policy controversies in an idiosyncratic manner. This book is addressed not only to researchers and students interested in political conflict in the fields of political science, public policy, public administration, and political communication, but to everyone concerned about the functioning of democracy in more conflictual times. This title is also available as Open Access on Cambridge Core. [Essentials of Comparative Politics](#) - Patrick H. O'Neil 2004

This ... text supplies a framework that enables students both to navigate and organize the material they will encounter in their study of comparative politics and to make increasingly sophisticated comparisons between actual countries. [In the text, the author's] approach incorporates analysis of the transformative events of recent

history - among them, the fall of communism, the accelerating spread of democracy, the economic growth of Asia, globalization, and responses to the attacks of September 11, 2001.-Back cover.

**National Democratic Reforms in Africa** - Said

Adejumobi 2015-12-27

From putative 'success stories' such as Ghana and Rwanda to failed efforts in Zimbabwe and other countries, this volume brings together seven incisive case studies from diverse contexts including post-war Sierra Leone, Uganda, and the new nation of South Sudan to distil insights into the troubled progress of reform across the African continent.

*Issues and Methods in*

*Comparative Politics* - Todd

Landman 2003

Explores the importance of comparative politics, discusses different comparative methods, investigates the big issues of today and looks forward to the key challenges for comparative politics over the next century.

Government and Politics of

France - Anne Stevens

2017-03-14

Updated throughout to cover the period of Chirac/Jospin cohabitation and the implications of Chirac's success in the dramatic 2002 presidential and parliamentary elections, the third edition of this popular and widely-used text provides a clear and comprehensive account of the contemporary French political system.

**Fragile Democracies** -

Samuel Issacharoff 2015-06-17

This book examines how constitutional courts can support weak democratic states in the wake of societal division and authoritarian regimes.

**Introduction to Global**

**Studies** - John McCormick

2022-01-27

The second edition of *Introduction to Global Studies* offers a succinct and authoritative introduction to the important issues and events of our rapidly changing world. It covers all of the key topics in the field, including introductions to history,

culture, science, politics and economics, alongside focused surveys on pressing global matters such as human rights, migration, the climate emergency, and health and disease. With learning features that hone in on key themes and debates, such as Global and Local and North and South boxes, this essential text will help you to navigate challenging issues. Full-colour photographs, figures and maps bring the subject to life. Ideal for students beginning courses on and related to global studies, this second edition offers: -A brand new chapter on health and disease, with additional coverage of Covid-19 incorporated throughout the book. -Increased coverage of inequality and gender, with a thematic focus on how inequalities are compounded across global society - Contemporary Debates: a new feature outlining the pros and cons of controversial topics -A comprehensive companion website, offering an array of resources for both students and lecturers, including a

testbank, illustrated lecturer slides, interactive quizzes, and an online media library

**Contemporary Political Culture** - John R Gibbins  
1989-08

The dramatic changes in contemporary European politics associated with the rise of the New Right has created a new political culture which is the subject of this fascinating and informative book.

Contemporary Political Culture pioneers the application of the theory of postmodernism to Western political behaviour and political science.

Underpinning the book is the observation that fundamental long-term changes in the contours of European political culture explain the rise of the new politics and recent political events. The authors offer a critical analysis of traditional theories, models and accounts of political culture, and -- an evaluation of the two contending contemporary explanatory models, postmodernism and Political Research - Sandra Halperin 2020-04

Political Research: Methods and Practical Skills, the market leading textbook in political research methods, is essential reading for students taking a module in research methods as part of a politics or international relations degree. Its accessible, step-by-step approach covers the entire research methods process, equipping students with the necessary skills to successfully conduct their own independent study and research. With coverage of both quantitative and qualitative methods, the book begins by guiding readers on how to come up with a research question, and leads the reader right through to writing up a final report. The book also includes chapters on theory, methodology, and the philosophy of social science, which are fully revised for the third edition to include up-to-date 'real world' examples, such as Gerber and Green's survey on political attitudes or Wantchekon's study on clientelism in Benin. These sections help students to understand essential debates

around research methods, as well as sharing practical guidance. The easy to understand language and straightforward approach of Political Research: Methods and Practical Skills help students get to grips with particularly complex topics relating to epistemological, ontological and mythological research, and quantitative questions such as 'what is data?'. The third edition reflects key areas of development in the field, such as the increased importance of ethics, and changes in digital research. The book is also enhanced with a range of engaging learning features including chapter summaries, end-of-chapter conclusions and questions, and a guide to further reading, created to reinforce students' understanding of research methods and further explore specific approaches to research.

*Comparative Politics of Southeast Asia* - Aurel Croissant 2017-12-26

This textbook provides a

comprehensive introduction to the political systems of all ASEAN countries and Timor-Leste from a comparative perspective. It investigates the political institutions, actors and processes in eleven states, covering democracies as well as autocratic regimes. Each country study includes an analysis of the current system of governance, the party and electoral system, and an assessment of the state, its legal system and administrative bodies. Students of political science and regional studies will also learn about processes of democratic transition and autocratic persistence, as well as how civil society and the media influence the political culture in each country.

*China and the Global Political Economy* - S. Breslin

2007-06-15

*China in the Global Political Economy* considers one of the most pressing issues of the Twenty-First century: the relationship between domestic configurations of power and globalized production processes in shaping the

process and implications of China's re-engagement with the global economy.

**Comparative Government** - 1975

**Comparing Media Systems Beyond the Western World** -

Daniel C. Hallin 2011-11-28

*Comparing Media Systems Beyond the Western World* offers a broad exploration of the conceptual foundations for comparative analysis of media and politics globally. It takes as its point of departure the widely used framework of Hallin and Mancini's *Comparing Media Systems*, exploring how the concepts and methods of their analysis do and do not prove useful when applied beyond the original focus of their 'most similar systems' design and the West European and North American cases it encompassed. It is intended both to use a wider range of cases to interrogate and clarify the conceptual framework of *Comparing Media Systems* and to propose new models, concepts and approaches that

will be useful for dealing with non-Western media systems and with processes of political transition. *Comparing Media Systems Beyond the Western World* covers, among other cases, Brazil, China, Israel, Lebanon, Lithuania, Poland, Russia, Saudi Arabia, South Africa and Thailand.

*Political Science* - Rod Hague 1998

**Political Science** - Rod Hague

2013-06-14

Long established as the leading text in the field, the new edition has been comprehensively updated and rewritten. Accessible, student-friendly and truly international in its coverage, this edition includes an brand new chapter on voters and increased coverage of rising powers, such as India and Brazil.

Comparative Government - Rod Hague 1982
