The American Psychiatric Association Practice Guidelines for the Psychiatric Evaluation of Adults, Third Edition - American

Psychiatric Association 2015-07-29

Since the publication of the Institute of Medicine (IOM) report Clinical

Practice Guidelines We Can Trust in 2011, there has been an increasing emphasis on assuring that clinical practice guidelines are trustworthy, developed in a transparent fashion, and based on a systematic review of the available research evidence. To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized in the practice guideline. With the new process, recommendations are determined by weighing potential benefits and harms of an intervention in a specific clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing

information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process. These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma history, and treatment history; substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

Organized Crime, Fear and Peacebuilding in Mexico - Mauricio Meschoulam 2018-06-27

The book focuses on the psychosocial effects that organized crime related violence has produced in Mexico. It connects one of the major worries of our times - terrorism - with the conditions of peacelessness that prevail in Mexico. Specifically, the project explores the role played by fear as a peace disruptor, as well as one of the most important obstacles to social and democratic development, and inclusiveness. The volume contributes to the debate on whether the escalation of violence in Mexico since 2006 has produced circumstances similar to those countries that suffer terrorism, and to what degree that discussion can help in the construction of a more democratic and inclusive society.

Consultation Theory and Practice - Christine Anlauf Sabatino 2014
School social workers engage in different forms of consultation on a daily basis, yet they rarely think about or describe this work as 'consultation.' Further, school social work practice research finds that consultation is

among the most frequently performed practice tasks, yet consultation is rarely defined in school social work literature or research. This book adapts the consultation theory and practice framework put forward by June Gallessich (1982) that defines consultation in specific terms and proposes that there are six models of consultation. These models are organizational consultation, program consultation, education and training consultation, mental health consultation, behavioral consultation, and clinical case consultation. The models are differentiated according to their problem focus, outcome goal, intervention methods, change processes, power base, and value system. School social work consultation services are an important pathway to help school systems fulfill their educational mission and to help school personnel become more effective in their professional work. It is consistent with current trends in educational policy that call upon school social workers to take a multisystem approach to addressing school needs on a school-wide, class-wide, or individual level. The overarching goal of the book is to provide school social workers with the knowledge, skill, and confidence to implement consultation services. Consultation is a powerful method to 'realize the promise of the whole-school approach' and to help homes, schools, and communities foster school success and student well-being.

Introduction to Crisis and Trauma Counseling - Thelma Duffey 2020-04-09

“Now more than ever, this text is needed. The authors do a wonderful job of tackling the topics most critical in counseling trauma survivors. The resilience-based perspective and the focus on prevention is refreshing and reinforces the idea that people are survivors who are able to thrive

even in the darkest and most difficult of times. This book is essential reading for all counselors.” —Victoria E. Kress, PhD, Youngstown State University “This book provides an exceptional review of the contemporary sociopolitical issues, historical perspectives, and clinical skills critical to effective crisis and trauma healing. Incorporating issues of power, privilege, culture, ecological context, and relational dynamics affords a unique perspective and makes this resource a must for anyone working in the area of trauma and crisis.” —Frederic P. Bemak, EdD, Professor Emeritus, George Mason University, Founder and Director, Counselors Without Borders This introductory text integrates evidence-based models and best practices with relational-cultural theory, which is responsive to the many forms of traumatic stress and tragedies that clients experience. It is a unique contribution that emphasizes the power of the connections counselors form with clients and communities in crisis and the means by which counselors can intervene, inspire growth, and promote healing during times of tragedy and loss. Readers will gain vital skills as they learn real-life approaches to crisis work with diverse populations in a variety of settings, including individuals, families, communities, students, military personnel, violence survivors, and clients who are suicidal. The authors provide strength-based, trauma-informed applications of cognitive behavioral therapy, behavioral therapy, neurofeedback, mindfulness, and creative practices. In addition, each chapter contains compelling case examples, multiple-choice and essay questions, and key topic discussion prompts to guide student learning and promote classroom discussion. *Requests for digital versions from ACA can be found on www.wiley.com. *To purchase print copies, please visit the ACA website *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

The Financial Crisis Inquiry Report - Financial Crisis Inquiry Commission 2011-05-01

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. Crisis Intervention - Lennis G. Echterling 2017-08-03

Developed by a team of experts in counseling and crisis intervention, and informed by the growing body of literature documenting the resilience of individuals, families, groups, and communities, *Crisis Intervention: Building Resilience in Troubled Times* is rooted in an evidence-based framework that provides a clear rationale for planning successful intervention strategies. Readers are introduced to the concepts of crisis and emergency, resolution and the process of change, the power of connecting with others, and the importance of translating crisis narratives into survivor stories. They learn strategies for managing emotions and developing coping skills. Each chapter highlights fundamental principles and practices with diverse populations and different emergency situations. All chapters include pedagogical features that support learning and skill development, including goals and overviews, crisis case scenarios, and tools to use in real-world application. *Crisis Intervention* prepares students to address the high-stakes needs of individuals, families, groups, and communities in emergency situations. It is ideal for use as the core text in graduate-level classes in crisis counseling. Prerequisite completion of courses in counseling theories and techniques is recommended for students using this text. Treating Child Sexual Abuse in Family, Group and Clinical Settings - Adele D. Jones 2016-08-02

Presenting real-life case studies of child sexual abuse in the Caribbean as a basis for discussing interventions and models of practice that are relevant for a wide range of cultural and social settings, this multi-disciplinary text will be of interest to scholars, professionals and practitioners alike. Contributors to this volume demonstrate how sexual abuse is never just a problem of the individual: structures of inequality and the intersection of the factors they give rise to help to explain why some children are more at risk of abuse than others. Furthermore, the sub-systems in which lives are lived can compound risk and vulnerability or alternatively, can be sources of support and change. This book draws

on these ideas to discuss practice across a range of service users: children, adolescent girls, teenage mothers, children with learning disabilities, fathers, mothers, women who abuse, juvenile sex offenders and children in residential care. p>

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Empowerment Series: Understanding Human Behavior and the Social Environment - Charles Zastrow 2019-01-31

UNDERSTANDING HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT, 11th Edition, looks at the lifespan through the lens of social work theory and practice, covering human development and behavior theories within the context of individual, family, group, organizational, and community systems. Using a chronological lifespan approach, the book presents separate chapters on biological, psychological, and social impacts at the different lifespan stages with an emphasis on strengths and empowerment. Part of the Brooks/Cole Empowerment Series, this edition is up to date and thoroughly integrates the core competencies and recommended behaviors outlined in the current Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). Crisis Intervention Strategies - Richard K. James 2012-03-16

Authoritative and based on the authors' extensive experience teaching crisis intervention courses, this best-selling text presents the latest skills and techniques for handling real crisis situations. The author's six-step model clearly illustrates and elucidates the process of dealing with people in crisis: Defining the Problem, Ensuring Client Safety, Providing Support, Examining Alternatives, Making Plans, and Obtaining Commitment. Using this model, the author then builds specific strategies for handling a myriad of different crisis situations, accompanied in many cases with the dialogue that a practitioner might use when working with the individual in crisis. New videos, available through a DVD and through CourseMate (both of which are available for packaging with the text), correlate with the text and demonstrate crisis intervention techniques for students who must not only understand the theoretical underpinnings of crisis intervention theories, but also apply them in crisis situations.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Strategies for Work with Involuntary Clients - Ronald H. Rooney

2018-05-01

Often in their careers, social workers will encounter clients who are either legally required to attend treatment services or are otherwise coerced or pressured into those services. Practitioners in settings from prisons to emergency rooms to nursing homes to child protection agencies will find themselves with involuntary clients. In an update to this classic text, social workers Ronald H. Rooney and Rebecca G. Mirick explore the best ways to work with unwilling clients. While work with involuntary clients is common, it can be challenging, frustrating, and unproductive unless practitioners are well trained for it. This book provides a theoretical framework for understanding the legal, ethical, and practical concerns when working with involuntary clients, offering theory, treatment models, and specific practice strategies influenced by the best available knowledge. Animated by case studies across diverse settings, these resources can be used by practitioners to facilitate collaborative, effective working relationships with involuntary clients.

Skills for Helping Professionals - Anne M. Geroski 2016-01-04

Written specifically for non-clinical undergraduate students, but also relevant to graduate studies in helping professions, *Skills for Helping Professionals*, by Anne M. Geroski focuses on helping students develop the skills they need to effectively initiate and maintain helping relationships. After exploring the literature identifying critical components of helping relationships and briefly reviewing developmental and helping theories, the text covers such topics as the helping process, self-awareness, and ethics in helping, and then focuses on specific helping skills such as listening and hearing, empathy, reflecting, paraphrasing, questioning, clarifying, exploring, and offering feedback, encouragement, and psycho-education. The final chapters focus on individuals in crisis and helping in groups.

When a father reveals his haunting past, a daughter takes an incredible journey of self-discovery . . . Emmy® award-winning journalist, TV host,

and New York Times bestselling author Rita Cosby has always asked the tough questions in her interviews with the world's top newsmakers. Now, in a compelling and powerful memoir, she reveals how she uncovered an amazing personal story of heroism and courage, the untold secrets of a man she has known all her life: her father. Years after her mother's tragic death, Rita finally nerved herself to sort through her mother's stored belongings, never dreaming what a dramatic story was waiting for her. Opening a battered tan suitcase, she discovered it belonged to her father—the enigmatic man who had divorced her mother and left when Rita was still a teenager. Rita knew little of her father's past: just that he had left Poland after World War II, and that his many scars, visible and not, bore mute witness to some past tragedy. He had always refused to answer questions. Now, however, she held in her hand stark mementos from the youth of the man she knew only as Richard Cosby, proud American: a worn Polish Resistance armband; rusted tags bearing a prisoner number and the words Stalag IVB; and an identity card for an ex-POW bearing the name Ryszard Kossobudzki. Gazing at these profoundly telling relics, the well-known journalist realized that her father's story was one she could not allow him to keep secret any longer. When she finally did persuade him to break his silence, she heard of a harrowing past that filled her with immense pride . . . and chilled her to the bone. At the age of thirteen, barely even adolescent, her father had seen his hometown decimated by bombs. By the time he was fifteen, he was covertly distributing anti-Nazi propaganda a few blocks from the Warsaw Ghetto. Before the Warsaw Uprising, he lied about his age to join the Resistance and actively fight the enemy to the last bullet. After being nearly fatally wounded, he was taken into captivity and sent to a German POW camp near Dresden, finally escaping in a daring plan and ultimately rescued by American forces. All this before he had left his teens. This is Richard Cosby's story, but it is also Rita's. It is the story of a daughter coming to understand a father whose past was too painful to share with those he loved the most, too terrible to share with a child . . . but one that he eventually revealed to the journalist. In turn, Rita convinced her father to join her in a dramatic return to his battered

homeland for the first time in sixty-five years. As Rita drew these stories from her father and uncovered secrets and emotions long kept hidden, father and daughter forged a new and precious bond, deeper than either

could have ever imagined.
