Ethnography Through Thick and Thin - George E. Marcus 1998-12-13

In the 1980s, George Marcus spearheaded a major critique of cultural anthropology, expressed most clearly in the landmark book *Writing Culture*, which he coedited with James Clifford. *Ethnography through Thick and Thin* updates and advances that critique for the late 1990s. Marcus presents a series of penetrating and provocative essays on the changes that continue to sweep across anthropology. He examines, in particular, how the discipline's central practice of ethnography has been changed by "multi-sited" approaches to anthropology and how new research patterns are transforming anthropologists' careers. Marcus rejects the view, often expressed, that these changes are undermining anthropology. The combination of traditional ethnography with scholarly experimentation, he argues, will only make the discipline more lively and diverse. The book is divided into three main parts. In the first, Marcus shows how ethnographers' tradition of defining fieldwork in terms of peoples and places is now being challenged by the need to study culture by exploring connections, parallels, and contrasts among a variety of often seemingly incommensurate sites. The second part illustrates this

emergent multi-sited condition of research by reflecting it in some of Marcus's own past research on Tongan elites and dynastic American fortunes. In the final section, which includes the previously unpublished essay "Sticking with Ethnography through Thick and Thin," Marcus examines the evolving professional culture of anthropology and the predicaments of its new scholars. He shows how students have increasingly been drawn to the field as much by such powerful interdisciplinary movements as feminism, postcolonial studies, and cultural studies as by anthropology's own traditions. He also considers the impact of demographic changes within the discipline--in particular the fact that anthropologists are no longer almost exclusively Euro-Americans studying non-Euro-Americans. These changes raise new issues about the identities of anthropologists in relation to those they study, and indeed, about what is to define standards of ethnographic scholarship. Filled with keen and highly illuminating observations, *Ethnography through Thick and Thin* will stimulate fresh debate about the past, present, and future of a discipline undergoing profound transformations.

British Literature and the Life of Institutions - Benjamin Kohlmann
2022-02-17

British Literature and the Life of Institutions charts a literary prehistory of the welfare state in Britain around 1900, but it also marks a major intervention in current theoretical debates about critique and the dialectical imagination. By placing literary studies in dialogue with political theory, philosophy, and the history of ideas, the book reclaims a substantive reformist language that we have ignored to our own loss.

This reformist idiom made it possible to imagine the state as a speculative and aspirational idea--as a fully realized form of life rather than as an uninspiring ensemble of administrative procedures and bureaucratic processes. This volume traces the resonances of this idiom from the Victorian period to modernism, ranging from Mary Augusta Ward, George Gissing, and H. G. Wells, to Edward Carpenter and E. M. Forster. Compared to this reformist language, the economism that dominates current debates about the welfare state signals an impoverishment that is at once intellectual, cultural, and political. Critiquing the shortcomings of the welfare state comes naturally to us, but we often struggle to offer up convincing defences of its principles and aims. This book intervenes in these debates by urging a richer understanding of critique: speculation, this provocative new study suggests, does not signify the cancellation of critique but an aspirational moment inherent in critique itself. If we want to defend the state, Kohlmann argues, we need to learn to think about it again.

Postmodernism and Popular Culture - Angela McRobbie 2003-09-02
Postmodernism and Popular Culture brings together eleven recent essays by Angela McRobbie in a collection which deals with the issues which have dominated cultural studies over the last ten years. A key theme is the notion of postmodernity as a space for social change and political potential. McRobbie explores everyday life as a site of immense social and psychic complexity to which she argues that cultural studies scholars must return through ethnic and empirical work; the sound of living voices and spoken language. She also argues for feminists working in the field to continue to question the place and meaning of feminist theory in a postmodern society. In addition, she examines the new youth cultures as images of social change and signs of profound social transformation. Bringing together complex ideas about cultural studies today in a lively and accessible format, Angela McRobbie's new collection will be of immense value to all teachers and students of the subject.

An Essay on Culture - Bennett M. Berger 2018-08-14

The result of thirty-five years of thought and research on culture by one of the best and most literate writers in sociology, this wide-ranging review of the meaning and study of culture is Bennett Berger at his best. Drawing on his unsurpassed knowledge of the scholarly literature and on his wealth of personal experience, Berger reviews and synthesizes recent work in cultural sociology from a materialist perspective. *An Essay on Culture* culminates in a call for an empirical research program focused on the relation between symbolic choices and social locations, rather

than on interpretive accounts of the meanings of texts or performances. Among his unusual insights are a defense of reductionism, sympathetic accounts of peer pressure and special interests, an attempt to restore some dignity to the word “ideology,” and a fresh perspective on conspiracy theory. Scholars and students of culture will find here stunning discussions and theoretical insights on ideological work, morality and culture, and on the relations between social structure and cultural structure. Cultural Analysis, Cultural Studies, and the Law - Austin D. Sarat 2003-07-03

Cultural Analysis, Cultural Studies, and the Law is a field-defining collection of work at the intersection of law, cultural analysis and cultural studies. Over the past few decades the marked turn toward claims and policy arguments based on cultural identity—such as ethnicity, race, or religion—has pointed up the urgent need for legal studies to engage cultural critiques. Exploration of legal issues through cultural analyses provides a rich supplement to other approaches—including legal realism, law and economics, and law and society. As Austin Sarat and Jonathan Simon demonstrate, scholars of the law have begun to mine the humanities for new theoretical tools and kinds of knowledge. Crucial to this effort is cultural studies, with its

central focus on the relationship between knowledge and power. Drawing on legal scholarship, literary criticism, psychoanalytic theory, and anthropology, the essays collected here exemplify the contributions cultural analysis and cultural studies make to interdisciplinary legal study. Some of these broad-ranging pieces describe particular approaches to the cultural study of the law, while others look at specific moments where the law and culture intersect. Contributors confront the deep connections between law, social science, and post-World War II American liberalism; examine the traffic between legal and late-nineteenth- and early-twentieth-century scientific discourses; and investigate, through a focus on recovered memory, the ways psychotherapy is absorbed into the law. The essayists also explore specific moments where the law is forced to comprehend the world beyond its boundaries, illuminating its dependence on a series of unacknowledged aesthetic, psychological, and cultural assumptions—as in Adolph Eichmann's 1957 trial, HIV-related cases, and the U.S. Supreme Court's recent efforts to define the role of race in the construction of constitutionally adequate voting districts. Contributors: Paul Berman, Peter Brooks, Wai Chee Dimock, Anthony Farley, Shoshanna Felman, Carol Greenhouse, Paul Kahn, Naomi Mezey, Tobey Miller, Austin Sarat, Jonathan Simon, Alison Young

[Virginia Woolf's Late Cultural Criticism](#) - Alice Wood 2013-08-01

After the Modernist literary experiments of her earlier work, Virginia Woolf became increasingly concerned with overt social and political commentary in her later writings, which are preoccupied with dissecting the links between patriarchy, patriotism, imperialism and war. This book unravels the complex textual histories of *The Years* (1937), *Three Guineas* (1938) and *Between the Acts* (1941) to expose the genesis and evolution of Virginia Woolf's late cultural criticism. Fusing a feminist-historicist approach with the practices and principles of genetic criticism, this innovative study scrutinizes a range of holograph, typescript and proof documents within their historical context to uncover the writing and thinking processes that produced Woolf's cultural analysis during 1931-1941. By demonstrating that Woolf's late cultural criticism developed through her literary experimentalism as well as in response to contemporary social, political and economic upheavals, this book offers a fresh perspective on her emergence as a cultural commentator in her final decade and paves the way for further genetic enquiries in the field.

Throughout these essays, several of them previously

unpublished or not yet published in English, the author unfolds a comprehensive cultural theory that reaches well beyond the study of 'America.'

Indian Horse - Richard Wagamese 2018-04-10

A First Nations former hockey star looks back on his life as he undergoes treatment for alcoholism in this novel from the author of *Dream Wheels*. Saul Indian Horse is a child when his family retreats into the woods. Among the lakes and the cedars, they attempt to reconnect with half-forgotten traditions and hide from the authorities who have been kidnapping Ojibway youth. But when winter approaches, Saul loses everything: his brother, his parents, his beloved grandmother—and then his home itself. Alone in the world and placed in a horrific boarding school, Saul is surrounded by violence and cruelty. At the urging of a priest, he finds a tentative salvation in hockey. Rising at dawn to practice alone, Saul proves determined and undeniably gifted. His intuition and vision are unmatched. His speed is remarkable. Together they open doors for him: away from the school, into an all-Ojibway amateur circuit, and finally within grasp of a professional career. Yet as Saul's victories mount, so do the indignities and the taunts, the racism and the hatred—the harshness of a world that will never welcome him, tied inexorably to the sport he loves. Spare and compact yet undeniably rich, *Indian Horse* is at once a heartbreaking account of a dark chapter in our history and a moving coming-of-age story. “Shocking and alien, valuable and true... A master of empathy.”—Jane Smiley, Pulitzer Prize-winning author of *Golden Age* “A severe yet beautiful novel.... *Indian Horse* finds the granite solidity of Wagamese's prose polished to a lustrous sheen; brisk, brief, sharp chapters propel the reader forward.”—Donna Bailey Nurse, *National Post* (Toronto)

Global/Local - Rob Wilson 1996-05-27

This groundbreaking collection focuses on what may be, for cultural studies, the most intriguing aspect of contemporary globalization—the

ways in which the postnational restructuring of the world in an era of transnational capitalism has altered how we must think about cultural production. Mapping a "new world space" that is simultaneously more globalized and localized than before, these essays examine the dynamic between the movement of capital, images, and technologies without regard to national borders and the tendency toward fragmentation of the world into increasingly contentious enclaves of difference, ethnicity, and resistance. Ranging across issues involving film, literature, and theory, as well as history, politics, economics, sociology, and anthropology, these deeply interdisciplinary essays explore the interwoven forces of globalism and localism in a variety of cultural settings, with a particular emphasis on the Asia-Pacific region. Powerful readings of the new image culture, transnational film genre, and the politics of spectacle are offered as is a critique of globalization as the latest guise of colonization. Articles that unravel the complex links between the global and local in terms of the unfolding narrative of capital are joined by work that illuminates phenomena as diverse as "yellow cab" interracial sex in Japan, machinic desire in Robocop movies, and the Pacific Rim city. An interview with Fredric Jameson by Paik Nak-Chung on globalization and Pacific Rim responses is also featured, as is a critical afterword by Paul Bové.

Positioned at the crossroads of an altered global terrain, this volume, the first of its kind, analyzes the evolving transnational imaginary—the full scope of contemporary cultural production by which national identities of political allegiance and economic regulation are being undone, and in which imagined communities are being reshaped at both the global and local levels of everyday existence.
