This volume, the first in the One World Archaeology series, is a compendium of key papers by leaders in the field of the emergence of agriculture in different parts of the world. Each is supplemented by a review of developments in the field since its publication. Contributions cover the better known regions of early and independent agricultural development,

such as Southwest Asia and the Americas, as well as lesser known locales, such as Africa and New Guinea. Other contributions examine the dispersal of agricultural practices into a region, such as India and Japan, and how introduced crops became incorporated into pre-existing forms of food production. This reader is intended for students of the archaeology of agriculture, and will also prove a valuable and handy resource for scholars and researchers in the area.

Glimpses of India - John F. Riddick 1989
This selected annotated listing of 580 published personal writings of Englishmen involved in India from 1583 is intended to round out the scattered bibliographical compilations on the history of British India. Included are memoirs and autobiographies, collections of personal letters, diaries and journals, and travel narratives. The term British India is used in a broad historical sense to include Afghanistan, Nepal, Tibet, and Burma during the relevant

periods of British influence. With a few exceptions, the volume excludes official minutes, reports, and correspondence. Although each work provides a unique account of the British experience, a number of broad trends emerge. One of the most striking is the initial experience of parting from family and homeland and embarking on what was, before 1830, a five to seven-month sail around the Cape of Good Hope. Travel within India, on the other hand, was a high point of the British experience and thus provides the subject for much of the writings. Other topics include the violence of the British-Indian conflict, and the constant danger of death from disease, accidents, or other mishaps. Light is also cast on the role of the Western missionaries, who were active in education, translating Indian languages, and writing dictionaries. Although they effected little change in such practices as infanticide, the missionaries did reinforce the prevalent British view of the Indians as savages. The bibliography is divided

by time period, beginning with the British entry into India in 1583, the rise and consolidation of British India, and the Indian mutiny (1857-1858). The subsequent sections list and annotate writings of Imperial India, the period of reform and reaction that followed (1905-1920), and India's move toward independence. It will serve as an important reference for historians of the period, and will be a useful addition to college and university libraries.

Science and Religion in India - Renny Thomas
2021-12-31

This book provides an in-depth ethnographic study of science and religion in the context of South Asia, giving voice to Indian scientists and shedding valuable light on their engagement with religion. Drawing on biographical, autobiographical, historical, and ethnographic material, the volume focuses on scientists' religious life and practices, and the variety of ways in which they express them. Renny Thomas challenges the idea that science and religion in

India are naturally connected and argues that the discussion has to go beyond binary models of 'conflict' and 'complementarity'. By complicating the understanding of science and religion in India, the book engages with new ways of looking at these categories.

Approaches to History - Sabyasachi Bhattacharya 2011

History as a social science is arguably more self-reflective than associated disciplines in that family. Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times. Historians on the other hand, tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge. Yet, while this is acknowledged in the practice of research, Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities. Knowledge of Historiography is taken for granted when a scholar plunges into research. In an attempt to address this lacuna,

the Indian Council of Historical Research (ICHR) has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR. The first volume in the series, Approaches to History: Essays in Indian Historiography brings to the readers the first fruits of that endeavour. While the essays encompass areas of research presently at the frontiers of new research, scholars will also find the bibliographies accompanying the essays of significant appeal.

Delhi - Upinder Singh 2006

Not many people know that the busy and bustling capital city of Delhi and its surroundings have a long past, going back thousands of years. Prehistoric stone tools have surfaced here and many ancient remains have been found, sometimes accidentally by farmers tilling their fields, and at other times by archaeologists carrying out systematic excavations. A mound one passes everyday or a narrow strip of stream tells a story of ancient

times. Centuries of history coexist with metro stations and plush cars. The readings in this book give us glimpses of the lives of people who lived in the Delhi area over the centuries, and how these details have been pieced together by historians. It brings into focus the importance of the historian's method and the sources of information found in ancient texts, archaeology and even legends and folklore, sometimes hanging on the thread of a slender historical fact. The editor of the volume, points to the urgency of further exploration and documentation to fill in the still all-too-meagre details of Delhi's ancient history. However, she ends on a note of caution, bordering on alarm, when she points out that invaluable evidence of the city's past is being extensively destroyed due to quarrying and the construction of new roads and buildings. Such activities are an integral part of the modernization of a living city but the balance between modernization and the preservation of ancient remains is indeed very

fragile and needs to be maintained from an informed and realistic perspective. This collection of essays has been put together by a teacher for students of history, but will also be of enormous value to a large number of other interested readers. Upinder Singh is Professor of history at the University of Delhi.

Krishna Sobti - Sukrita Paul Kumar 2021-09-29
This book engages with the life and works of the distinctive Hindi writer Krishna Sobti, known for

making bold choices of themes in her writing. Also known for her extraordinary use of the Hindi language, she emerges as an embodiment of a counter archive. While presenting the author in the context of her times, this volume offers critical perspectives to define her position in the canon of modern Indian literature. Alongside important critical essays on her, the inclusion of excerpts from the translations of some major works by the author, such as *Zindaginama*, *Mitro Marjani* and *Ai Ladki*, greatly facilitate an understanding of her worldview and the contexts in which she wrote. Also included in this book are some of her reflections on the creative process that help in unfolding the complexities of her characters and her specific approach to the language of fiction. Writing in the times of significant political and cultural churnings, her fiction includes themes such as the Partition of the country and its aftermath, women and their sexuality, desire and violence, history and memory. Her writing

subverted the dominant narratives of the times and de-historicised history. Her own essays and other critical writings demonstrate the way Krishna Sobti's characters are abundantly polyphonic and seeped in social realities. They encapsulate the cultural milieu of their times and serve as a site of resistance to the dominant archive of power. Her interactions with her fellow Hindi writers such as Nirmal Verma and Krishan Baldev Vaid, as also her letters, her memoirs and the reminiscences of others, further enrich this volume and establish her unique voice. Part of the 'Writer in Context' Series, this book will be useful for scholars and researchers of Indian literature, English literature, postcolonial studies, cultural studies, gender studies, translation studies and Partition studies.

The Secret History of Mumbai Terror Attacks - Saroj Kumar Rath 2018-07-11

Critical questions remain unanswered on the events of the cold-blooded and devastating terror attacks in Mumbai on 26 November 2008. Investigative and introspective, this book offers

a lucid and graphic account of the ill-fated day and traces the changing dynamics of terror in South Asia. Using new insights, it explores South Asia's regional dynamics of antagonism, the ever-present challenge to the frontiers of India, Pakistan and the terrorism question, the strife in Afghanistan and the self-serving selective US 'war on terror'. Including a new Afterword, this second edition will greatly interest those in defence, security and strategic studies, politics and international relations, peace and conflict studies, media and journalism, and South Asian studies as well as the general reader.

Vision and Strategy in Indian Politics -
Jivanta Schöttli 2012-02-20

The 1950s in India were a crucial transition phase where the legacy and institutions of British rule had to be transformed to fit the needs of a post-colonial state. This period is closely associated with India's first Prime Minister, Jawaharlal Nehru (1947 - 64). Selecting three key policies closely associated with him, the book traces the political origins of the Panchasheela Agreement with China in 1954, the Hindu Code Bills of 1955 and 1956 and the founding of the Planning Commission in 1950. Each provides a window into the compulsions of Indian domestic politics at the time as well as the parameters of parliamentary debate. The book goes on to discuss how these policies correspond to the pillars of Nehru's vision for a modern, independent India that encapsulated socialism, nonalignment and secularism and assesses their long-run impact in Indian politics. With a growing recognition of the resilience of India's political arrangements, the analysis is particularly relevant to those

interested in the politics of transition and modernisation, and contributes to studies on Political Institutions and South Asian Politics.

Delhi in Historical Perspectives - K.A. Nizami
2020-02-22

The fascinating and chequered history of Delhi through the centuries has been a popular subject among authors. Yet, only a few other than K.A. Nizami record in rich detail the cultural, social, economic, and spiritual fabric of the city—the ‘gorgeous blaze of glory’ that was Delhi—between the thirteenth and eighteenth centuries. He presents his accounts of the periods of the Delhi Sultanate, the Mughals, and the poet Ghalib through the analyses of wide-ranging sources: original literary, travel, biographical, hagiographical, and administrative accounts in Persian, Hindavi, and Urdu. This book is a compilation of the historian’s lectures

delivered at the University of Delhi and the Ghalib Institute in Delhi, first published in Urdu in 1972. The author’s conversational style, replete with literary allusions, makes this an essential read for lovers and admirers of this beguiling city and its historic Sufi culture. Ather Farouqui’s English translation captures the true essence of Nizami’s work and now makes it easily available to a wider readership.

Delhi: Unknown Tales of a City - R.V. Smith
2015-05-30

Ronald Vivian Smith is an author of personal experiences - a rare breed to find in a time when even journalists hesitate to put pen to paper without scanning through the internet. A definitive voice when it comes to some known and unknown tales and an inspiration to a new generation of city-scribes, Smith is a master-chronicler of Delhi’s myriad realities. Among the capital’s most ardent lovers, Smith believes in the power of observation and interaction. His travels across Delhi, most often in a DTC bus,

examine the big and small curiosities - seamlessly juxtaposing the past with the present. Be it the pride he encounters in the hutments of one of Chandni Chowk's age-old beggar families, or his ambling walks around Delhi's now-dilapidated cemeteries, Smith paints with his words a city full of magic and history. This anthology features short essays on the Indian sultanate, its fall after the British Raj, and its resurrection to become what it is today - the National Capital Territory of Delhi. 'No amount of bookish knowledge can compete with the sort of insights and real, lived memories he [Smith] has.' —Rakshanda Jalil, LiveMint '... When it comes to writing on monuments of Delhi - known, little known or unknown - no one does a better job than R.V. Smith.' —Khushwant Singh, Hindustan Times

Time and History - Jörn Rüsen 2008-01-30

This series aims at bridging the gap between

historical theory and the study of historical memory as well as western and non-western concepts, for which this volume offers a particularly good example. It explores cultural differences in conceptualizing time and history in countries such as China, Japan, and India as well as pre-modern societies.

Solanaceae, Biology and Systematics - William G. D'Arcy 1986

This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which

brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence.

Bandung, Global History, and International Law
- Luis Eslava 2017-11-30

"In 1955 a conference was held in Bandung, Indonesia that was attended by representatives from twenty-nine developing nations. Against the backdrop of crumbling European colonies, Asian and African leaders forged a new alliance and established anti-imperial principles for a new world order. The conference captured the

popular imagination across the Global South. Bandung's larger significance as counterpoint to the dominant world order was both an act of collective imagination and a practical political project for decolonization that inspired a range of social movements, diplomatic efforts, institutional experiments and heterodox visions of the history and future of the world. This book explores what the spirit of Bandung has meant to people across the world over the past decades and what it means today. Experts from a wide range of fields show how, despite the complicated legacy of the conference, international law was never the same after Bandung"--

History and Politics In Post-Colonial India -

Michael Gottlob 2011-05-30

The writing of history in India has been fraught with controversies. From the storm over textbooks in the 1970s, and the furore over the Babri Masjid in the 1990s, to the flaring up of religious sentiments over 'beef-eating' and the Ram Sethu, this book provides a synoptic view of teaching and writing of history in post-colonial India. Michael Gottlob explores historical research and teaching as important components contributing to the development of a national identity and ideas of citizenship in post-colonial India. He shows how the urge to decolonize and recover the self has given rise to several

approaches that attempt to 'reclaim' Indian history from its colonial past. The book discusses diverse areas like methodological research and public use of history; cultural identity and diversity; nationalism and communalism; and social movements and deconstructs their far-reaching implications in contemporary India. It also examines the role of women, Dalits, and Adivasis to understand their position in the multicultural reality of India.

India's Israel Policy - P. R. Kumaraswamy 2010-07-28

India's foreign policy toward Israel is a subject of deep dispute. Throughout the twentieth century arguments have raged over the Palestinian problem and the future of bilateral relations. Yet no text comprehensively looks at the attitudes and policies of India toward Israel, especially their development in conjunction with history. P. R. Kumaraswamy is the first to account for India's Israel policy, revealing surprising inconsistencies in positions taken by

the country's leaders, such as Mahatma Gandhi and Jawaharlal Nehru, and tracing the crackling tensions between its professed values and realpolitik. Kumaraswamy's findings debunk the belief that India possesses a homogenous policy toward the Middle East. In fact, since the early days of independence, many within India have supported and pursued relations with Israel. Using material derived from archives in both India and Israel, Kumaraswamy investigates the

factors that have hindered relations between these two countries despite their numerous commonalities. He also considers how India destabilized relations, the actions that were necessary for normalization to occur, and the directions bilateral relations may take in the future. In his most provocative argument, Kumaraswamy underscores the disproportionate affect of anticolonial sentiments and the Muslim minority on shaping Indian policy.
