La terminología en el siglo XXI - Simposio Iberoamericano de Terminología ((9th :) 2006

La IX edición del Simposio Iberoamericano de Terminología, que se celebró en la sede del Institut d'Estudis Catalans los días 29 y 30 de noviembre y 1 y 2 de diciembre de 2004, se acogió a las iniciativas del Fòrum de les Cultures Barcelona 2004, primera edición de un nuevo acontecimiento internacional que se proponía -y se sigue proponiendo en su continuación- promover el diálogo entre las diferentes culturas del mundo para articular una cultura de la paz, respetuosa con la diversidad y funcionalmente sostenible, que fuera capaz de impulsar un proceso de globalización basado en criterios éticos, igualitarios y solidarios compartidos. Los principios del Fòrum de les Cultures Barcelona 2004, basados en la Declaración Universal de los Derechos Humanos y en los principios programáticos de las Naciones Unidas, asumen el compromiso de fomentar los valores democráticos, la defensa de las libertades y derechos individuales, el respeto por la diversidad étnica, cultural, lingüística y religiosa, el impulso del diálogo y la creatividad, el respeto por la biodiversidad, el fomento de la responsabilidad social mediante el diálogo y la promoción del desarrollo sostenible. La Red Iberoamericana de Terminología (RITerm) cooperó en estos principios dedicando el IX

Simposio al papel que desempeña la terminología en los tres ejes temáticos del Fòrum: la paz, la diversidad y la sostenibilidad. La terminología puede tener un papel importante en este diálogo, desde una doble vertiente: por un lado, porque puede participar en la delimitación de conceptos fuertemente ideologizados y polisémicos que están en la base de muchos conflictos desencadenados; por otro lado, porque es un elemento clave en la transmisión de ideas y conocimientos en un marco de plurilingüismo y especialización.\n

Dos Mundos - Richard Baker 1995-02

Written in 1995, this unique ethnographic study of a small Idaho community with a large Hispanic population examines many dimensions of the impact race relations have on everyday life for rural Mexican Americans. Mexican Americans are the largest minority in Idaho, yet they live in a different world from the Anglo population, and because of pervasive stereotypes and exclusive policies, their participation in the community's social, economic, and political life is continually impeded. The small-town setting of this study allows the reader to listen to how Anglos talk about a racial minority. Most Americans publicly censor and monitor their thoughts on racial minorities, but Anglos in Midwest expressed openly what many Anglo Americans think. This study presents a comprehensive examination of how institutionalized racism operates in American society. Reading this book will enable the reader to better understand why the race problem in America does not disappear.

Fruteros - Rocío Rosales 2020-05-19

This book examines the social worlds of young Latino street vendors as they navigate the complexities of local and federal laws prohibiting both their presence and their work on street corners. Known as fruteros, they sell fruit salads out of pushcarts throughout Los Angeles and are part of the urban landscape. Drawing on six years of fieldwork, Rocío Rosales offers a compelling portrait of their day-to-day struggles. In the

process, she examines how their paisano (hometown compatriot) social networks both help and exploit them. Much of the work on newly arrived Latino immigrants focuses on the ways in which their social networks allow them to survive. Rosales argues that this understanding of ethnic community simplifies the complicated ways in which social networks and social capital work. Fruterios sheds light on those complexities and offers the concept of the “ethnic cage” to explain both the promise and pain of community. Visions of Deliverance - Mayte Green-Mercado 2020-01-15

In Visions of Deliverance, Mayte Green-Mercado traces the circulation of Muslim and crypto-Muslim

apocalyptic texts known as joferes through formal and informal networks of merchants, Sufis, and other channels of diffusion among Muslims and Christians across the Mediterranean from Constantinople and Venice to Morisco towns in eastern Spain. The movement of these prophecies from the eastern to the western edges of the Mediterranean illuminates strategies of Morisco cultural and political resistance, reconstructing both productive and oppositional interactions and exchanges between Muslims and Christians in the early modern Mediterranean. Challenging a historiography that has primarily understood Morisco apocalyptic thought as the expression of a defeated group that was conscious of the loss of their culture and identity, Green-Mercado depicts Moriscos not simply as helpless victims of Christian oppression but as political actors whose use of end-times discourse helped define and construct their society anew. Visions of Deliverance helps us understand the implications of confessionalization, forced conversion, and assimilation in the early modern period and the intellectual and theological networks that shaped politics and identity across the Mediterranean in this era.
