**Choosing and Using a New CAT** - Rod Mollise

2009-02-28

Choosing and Using the New CAT will supersede the author's successful Choosing and Using a Schmidt-Cassegrain Telescope, which has enjoyed enthusiastic support from the amateur astronomy community for the past seven years. Since the first book was published, a lot has changed in the technology of amateur astronomy. The sophistication and variety of the telescopes available to amateurs has increased dramatically. Computerized SCTs, Maksutov-Cassegrains, and most recently Meade's new and acclaimed Ritchey-Chrétiens have come to dominate the market. That means that all amateurs considering the purchase of a new telescope (not only a SCT, and not just beginners) will benefit from this detailed guide. Choosing the right telescope for particular kinds of observation (or even for general work) is far from easy - but Rod Mollise gives invaluable advice and guidance.

**The Elegant Solution** - Matthew May

2008-09-04

One million. That's how many new ideas the Toyota organization receives from its employees every year. These ideas come from every level of the organization - from the factory floors to the corporate suites. And organizations all over the world want to learn how they do it. Now Matthew May, Senior Advisor to the University of Toyota, reveals how any company can create an environment of every day innovation and achieve the elegant solutions found only on the far side of complexity. A tactical guide for team-based innovation, **THE ELEGANT SOLUTION** delivers the formula to the three principles and ten practices that drive business creativity. Innovation isn't just about technology - it's about value, opportunity and impact. When a company embeds a real discipline around the pursuit of perfection, the sky is the limit. Dozens of case studies (from Toyota and other companies) illustrate the power and universality of these concepts; a unique 'clamshell strategy' prepares

managers to ensure organizational success. At once a thought-shaper, a playmaker, and a taskmaster, THE ELEGANT SOLUTION is a practical field manual for everyone in corporate life.

Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it

**Affective Health and Masculinities in South Africa** - Hans Reihling 2020-04-24

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is

conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
