

Dr Podcast Scripts For The Primary Frca

This is likewise one of the factors by obtaining the soft documents of this **dr podcast scripts for the primary frca** by online. You might not require more grow old to spend to go to the books opening as capably as search for them. In some cases, you likewise pull off not discover the statement dr podcast scripts for the primary frca that you are looking for. It will totally squander the time.

However below, bearing in mind you visit this web page, it will be consequently utterly easy to get as with ease as download guide dr podcast scripts for the primary frca

It will not undertake many mature as we tell before. You can attain it while put it on something else at house and even in your workplace. therefore easy! So, are you question? Just exercise just what we give below as capably as review **dr podcast scripts for the primary frca** what you subsequently to read!

[The Anaesthetist's Companion](#) - Lachlan Rathie 2011

A compendium of anaesthetic esoterica. An eclectic volume that allows you to revisit episodes of anaesthetic history, share in tales of anaesthetic woe, discover new ways to annoy your surgical colleagues and learn how to anaesthetize a giraffe, amongst other things. Written by an Australian anaesthetist, alternate versions of the ANZCA exam reports are presented as well as a selection of appalling clinical vignettes, aptly titled 'Anaesthetic Shockers'. Presented in easily digestible diatribes, The Anaesthetist's Companion is intended to entertain you during protracted sessions in the operating theatre.

[Pharmacology for Anaesthesia and Intensive Care](#) - Tom E. Peck 2008-01-31

The third edition of this market leading book has been thoroughly updated and expanded, with additional contributions from experts in the field, to include all new drugs available to the anaesthetist and intensive care specialist. Basic pharmacological principles, vital to understanding how individual drugs actually have their effects, are dealt with methodically and with many highly annotated diagrams and tables. With hospital infections becoming increasingly prevalent, the important section on antibiotics has been further expanded. With the third edition, this well established title continues to provide its readers with the most concise yet comprehensive coverage of all aspects of pharmacology. An ideal aid to study and practice for junior and trainee anaesthetists, critical care nurses and all physicians and healthcare professionals working in theatre, accident and emergency departments or intensive care units.

Equine Anesthesia - William W. Muir III 2008-12-18

All veterinary team members involved in the everyday care of horses that require anesthesia or special emergency care will benefit from this reliable and inclusive resource. This text provides all of the information needed to prepare, conduct, and monitor the administration of drugs in order to produce safe and effective anesthesia, treat pain, respond to adverse effects, and perform and monitor emergency and critical care treatment. It is the most comprehensive and detailed book available on these subjects, addressing the needs and concerns of practitioners in both hospital and field settings. Discusses all aspects of equine anesthesia, including history, physiology, pharmacology, drug dosages, patient preparation, induction-maintenance-recovery of anesthesia management of potential complications, and more. Provides a detailed review of the respiratory and cardiovascular physiology of the horse. Provides thorough coverage of preoperative pain management in horses. Covers emergency medical care and managing anesthetic complications in both hospital and field situations. Includes information on the latest anesthetic drugs, including safe and effective protocols for different procedures, and the most up-to-date monitoring techniques. Each contributor is a recognized expert in his or her respective equine specialty, renowned for clinical as well as academic and research expertise. A complete update of all drug information and pain management techniques. The very latest research findings and clinical applications of anesthetic agents and techniques. The most recent developments in post-anesthetic care and monitoring. A chapter on intravenous anesthetic and analgesic adjuncts to inhalation anesthesia. A chapter on anesthesia and analgesia for donkeys and mules. A chapter on perioperative pain management. Many new illustrations as well as tables, graphs, boxes, key points, and summaries that make information instantly accessible.

[1,000 Practice MTF MCQs for the Primary and Final FRCA](#) - Hozefa Ebrahim 2019-01-10

A single, comprehensive text covering all the MCQs required to prepare

for both the Primary and Final FRCA exams.

CRQs for the Final FRCA - M. Ashraf Akuji 2019-06-06

Invaluable CRQ practice papers for the new Final FRCA format. An essential revision text for all candidates.

[Get Through Primary FRCA: SBAs](#) - Desikan Rangarajan 2019-08-08

With 300 brand new single best answer questions and reasoned answers, this comprehensive revision guide provides the candidate with the definitive, revision resource for the newly introduced inclusion of SBA questions as part of the Primary FRCA examination. Test yourself with 300 brand new revision questions and answers in the SBA format of the **Dr Podcast Scripts for the Primary FRCA** - Rebecca A. Leslie 2011-05-05

Dr Podcast (www.dr-podcast.com) is a great way to revise for the FRCA exams and has been met with widespread enthusiasm from candidates. It provides podcasts of questions and model answers with no redundant material. Dr Podcast scripts are now available in print format. Containing the scripts of all 90 individual podcasts from the Dr Podcast Primary FRCA collection, they also include diagrams the reader can draw to explain their answers. They cover the entire syllabus for the Primary FRCA, allowing the readers to experience the style of the questions likely to be asked and providing tips on how to excel in the exam. Each podcast is written by a successful candidate who has insight and experience of the exam, and all material has been reviewed by experienced consultants with detailed knowledge of the educational standards. For those preparing for the Primary FRCA exams, Dr Podcast scripts are a must.

Equipment in Anaesthesia and Critical Care - Daniel Aston 2013

Highly commended in the Anaesthesia category of the 2014 BMA Medical Books awards! From reviews: "Altogether, this textbook offers an excellent detailed overview of basic principles, mechanics, and physics of technical equipment used in anaesthesia and intensive care medicine." Critical Care, Feb 2014 "This book is excellent. I have read a number of equipment related books and found most of them stale and filled with minutia. Instead this fresh look at equipment really makes it interesting to read and keeps your attention. With sections that give quick answers to how things work, advantages and disadvantages, in an easy to read format you get exactly what you want to know RIGHT away. In addition the full color photos and well done charts really add to the depth of this book. It is my opinion this may be one of the best books on the market for quick review of anesthesia and critical care equipment. Let's be honest, no one is sitting at home reading equipment books for pleasure so when you NEED the information you likely need it right away. This book does exactly that; easy format, clear and concise information with everything you need to know about a piece of equipment easy to find and within a page or two. I would recommend this to all trainees in anesthesia but also for those providers who like to be prepared in the operating room to deal with any issue that might arise." www.nurse-anesthesia.org, 8 Feb 2014 Equipment in Anaesthesia and Critical Care specifically follows the syllabus published by the Royal College of Anaesthetists and is the perfect guide for candidates studying for their FRCA qualifications. The book is beautifully illustrated and features high quality colour photographs throughout. The text is engaging and comprehensive, relating each piece of equipment back to its basic physics, mechanics and clinical context. The clear, concise and standardised format means that information is easy to access and perfect for revision. Every major piece of equipment is featured alongside colour photos, reproducible line diagrams, and information on its uses, how it works, pros and cons, and safety considerations. The authors, all senior registrars in anaesthesia and critical care, appreciate exactly what candidates need to know to pass the FRCA exam. They have identified

and tackled difficult subjects which are often glossed over or omitted in other resources, to produce a book that is comprehensive, engaging and to the point. In addition to FRCA candidates, the book is also suitable for operating department practitioners, critical care staff, and physicians with an interest in anaesthesia or critical care.

The Final FRCA Structured Oral Examination - Bobby Krishnachetty 2017-07-12

The Final FRCA Structured Oral Examination is the last step before earning the initials FRCA and becoming a Fellow of the Royal College of Anaesthetists. This comprehensive revision aid has been compiled by two talented authors who have been running a course on this subject for three years. Motivated to make the cases as close as possible to the exam, they have collected a vast database of questions from their trainees and the book reflects a variety of commonly asked themes. In addition, there are contributions from 11 consultants and registrars, who are all experts in their fields. The clear layout and easy to read style prepares students for the examination environment and focuses on the specific areas and responses examiners look for. The style of questions mimics the exam and there are added tutorials for ECG interpretation and radiology which will benefit trainees immensely in their preparation.

Basic Physiology for Anaesthetists - David Chambers 2015-01-15

Packed with easily understood, up-to-date and clinically relevant material, this is the only physiology book junior anaesthetists will need.

Oxford Handbook of Pain Management - Peter Brook 2011-06-09

The Oxford Handbook of Pain Management is the essential resource for all clinicians involved in the management of pain. Organised into sections dealing with basic principles of treatment, therapeutic interventions, including non-medical management of pain, and specific clinical situations, the Handbook emphasises the multimodal treatment options available for patients with pain conditions and brings them together to provide a truly biopsychosocial approach to management. Covering both chronic and acute pain, it will help the practitioner to choose the right treatment for the right patient at the right time.

The Pain-Free Mindset - Dr Deepak Ravindran 2021-03-04

There is no easy fix when it comes to chronic pain. Opioids are often the first, addictive resort and surgery rarely achieves the pain free outcome promised. But while there is no single fix, there is a way out and it starts with your mindset. This is the powerful approach of The Pain-Free Mindset, where NHS pain consultant Dr Ravindran brings his 20 years of experience to offer you an effective set of techniques that will help you take back control and overcome your pain. In this groundbreaking guide you will: ·Discover what happens to your body and brain when you experience pain ·Learn how you can change the way you perceive and respond to pain - without taking addictive medication ·Find the best pain-management plan for you and your lifestyle Packed with science-backed tips and inspiring case studies this book will transform your mindset and show that you have the power to live pain free.

Fundamentals of Anaesthesia - Colin Pinnock 2002-12

The second edition of Fundamentals of Anaesthesia builds upon the success of the first edition, and encapsulates the modern practice of anaesthesia in a single volume. Written and edited by a team of expert contributors, it provides a comprehensive but easily readable account of all of the information required by the FRCA Primary examination candidate and has been expanded to include more detail on all topics and to include new topics now covered in the examination. As with the previous edition, presentation of information is clear and concise, with the use of lists, tables, summary boxes and line illustrations where necessary to highlight important information and aid the understanding of complex topics. Great care has been taken to ensure an unrivalled consistency of style and presentation throughout.

Primary FRCA: OSCEs in Anaesthesia - William Simpson 2013-06-13

An up-to-date and comprehensive revision guide specifically for the primary FRCA OSCE written from the perspective of an anaesthetic trainee.

Primary FRCA: 450 MTFs and SBAs - Kariem El-Boghdady 2014-01-06

Reflecting the new exam format, Primary FRCA: 450 MTFs and SBAs features a wealth of practice questions and provides the definitive revision guide to maximise chances of exam success.

Dr Podcast Scripts for the Final FRCA - Rebecca A. Leslie 2011-07-28

Dr Podcast (www.dr-podcast.com) is a great way to revise for the FRCA exams and has been met with widespread enthusiasm from candidates. It provides podcasts of questions and model answers with no redundant material. Dr Podcast scripts are now available in print format. Containing the scripts of all 103 individual podcasts from the Dr Podcast Final FRCA collection, they also include diagrams the reader can draw to explain

their answers. They cover the entire syllabus for the Final FRCA, allowing the readers to experience the style of the questions likely to be asked and providing tips on how to excel in the exam. Each podcast is written by a successful candidate who has insight and experience of the exam, and all material has been reviewed by experienced consultants with detailed knowledge of the educational standards. For those preparing for the Final FRCA exams, Dr Podcast scripts are a must.

Essential Clinical Anesthesia - Charles Vacanti 2011-07-11

The clinical practice of anesthesia has undergone many advances in the past few years, making this the perfect time for a new state-of-the-art anesthesia textbook for practitioners and trainees. The goal of this book is to provide a modern, clinically focused textbook giving rapid access to comprehensive, succinct knowledge from experts in the field. All clinical topics of relevance to anesthesiology are organized into 29 sections consisting of more than 180 chapters. The print version contains 166 chapters that cover all of the essential clinical topics, while an additional 17 chapters on subjects of interest to the more advanced practitioner can be freely accessed at www.cambridge.org/vacanti. Newer techniques such as ultrasound nerve blocks, robotic surgery and transesophageal echocardiography are included, and numerous illustrations and tables assist the reader in rapidly assimilating key information. This authoritative text is edited by distinguished Harvard Medical School faculty, with contributors from many of the leading academic anesthesiology departments in the United States and an introduction from Dr S. R. Mallampati. This book is your essential companion when preparing for board review and recertification exams and in your daily clinical practice.

Physics, Pharmacology and Physiology for Anaesthetists - Matthew E. Cross 2014-03-06

A quick reference to basic science for anaesthetists, containing all the key information needed for FRCA exams.

Challenging Concepts in Critical Care - Christopher Gough 2020-02-03

A case-based guide with expert commentary, Challenging Concepts in Critical Care shows how the experts approach and deal with real-life clinical scenarios. Each chapter presents a clinically challenging case complete with a case history, evidence based tips, and up-to-date learning points. To give further insight into the field, each chapter has commentary from an expert who identifies and explains the key points and controversies of the case. Practical yet rich in detail, Challenging Concepts in Critical Care is a key title for anyone preparing for intensive care exams. For each case, key information is highlighted through the use of boxes to stimulate interest and facilitate learning: 'Learning points', 'Clinical tips', 'Evidence base', and 'Expert commentary'. With new information on key trials, clinical practice, and evidence based research, this book is also an invaluable resource for experienced critical care clinicians looking for a concise update on a wide range of challenging topics in the field. In addition, it is of high value to senior ICU nurses, allied health professionals, and anyone with an interest in intensive care medicine.

Clinical Anesthesiology - G. Edward Morgan 2005-09-16

Clinical Anesthesiology integrates succinct coverage of basic principles and clinical considerations in the anesthetic management of patients. It features up-to-date discussion of all relevant areas within anesthesiology, including equipment, pharmacology, regional anesthesia, pathophysiology, pain management, anesthetic management, and critical care. Extensive use of case discussions, figures, and tables in each chapter promotes application of the concepts to practice.

Advanced Training in Anaesthesia - Jeremy Prout 2014-03-20

A curriculum-based guide, Advanced Training in Anaesthesia contains everything candidates need in preparation for taking the Final FRCA exam. This book is ideal for both learning and exam revision, but it also provides a ready source of reference for situations in all specialties and sub-specialties, with knowledge which will continue to apply beyond training. Topics in applied basic science and clinical anaesthesia are presented in a systems-based format, as laid out in the syllabus set by the Royal College of Anaesthetists, allowing for easy navigation and structured learning and revision. Advanced Training in Anaesthesia is authored by both trainees and specialists in order to create an authoritative yet accessible text. Containing everything candidates need to know to pass this final major hurdle in anaesthetic training, this book is ideal for exam revision. Suggestions for further reading are included for candidates wishing to read around the subjects. Topics in applied basic science are presented in a systems-based format, as laid out in the syllabus set by the Royal College of Anaesthetists, to allow for easy navigation and structured learning and revision.

Get Through FRCA Primary: 710 MCQs - Raja L A Jayaweera
2005-10-14

Get Through FRCA Primary: 710 MCQs is written for all candidates undertaking the FRCA Primary examination. The authors have focussed on the most daunting parts of the examination syllabus, namely, physiology, pharmacology, clinical chemistry and physics. The text is divided into two sections: the first part consists of 260 MCQs grouped by subject; the second part comprises five sample papers, each containing 90 MCQs. This format is identical to the FRCA Primary exam, thus making this book an ideal learning format. The authors, Raja Jayaweera and Ramanie Jayaweera, between them have wide experience of the FRCA examinations and are particularly aware of the standard of knowledge required to pass this initial Primary MCQ exam.

Recommended to all candidates preparing for the FRCA examinations, their trainers and qualified anaesthetists wishing to update their knowledge. Containing MCQs covering all of the tricky topics of the actual exam, this is one text that all candidates for the FRCA exam cannot be without.

Final FRCA: 300 SBAs - Kariem El-Boghdadly 2015-02-20

Covering the full breadth of the syllabus with particular focus on clinical scenarios, Final FRCA: 300 SBAs provides the definitive SBA revision guide to maximise chances of exam success.

SBAs and MCQs for the Final FRCA - Rakesh Tandon 2012-07-26

Designed specifically for the revised Final FRCA examination, this book contains four mock exams, combining the new single best answer format with the traditional true/false format MCQs. A further fifth chapter contains only single best answer questions allowing candidates extra practice on this new and more difficult format. Uniquely the book includes answers with explanations and cross-references to key textbooks, allowing the candidate to read around on more difficult areas. The editor team balances extensive exam experience with recent exam success. Each question has also been expertly reviewed to ensure the highest quality and relevance to the Final FRCA. This is a must buy when preparing for this key exam.

Anatomy for Anaesthetists - Harold Ellis 2008-04-15

This book has been written to help candidates sitting their professional examination in anaesthesia in order that they may have at their disposal the detailed anatomical knowledge necessary for the day to day practice of anaesthesia. Unlike a textbook of anatomy, which must cover all parts of the body with equally exhaustive thoroughness, this book concentrates particularly on areas of special relevance to anaesthesia and points out features of practical importance to anaesthetic technique. The text is divided into nine sections; the respiratory pathway, the heart, the vertebral canal, the peripheral nerves; The Autonomic Nervous System; The Cranial Nerves; The Orbit and its contents; The Anatomy of Pain and Zones of Anaesthetic Interest. The eighth edition has fully expanded and updated text; and includes new and improved illustrations.

Communication Scenarios for the MRCPC and DCH Clinical Exams - Rebecca Casans 2011

Revised and expanded aid for clinical MRCPC and DCH examination candidates, and for paediatric trainees in their day-to-day clinical encounters.

The Final FRCA Short Answer Questions - Elizabeth Combeer
2018-10-03

This guide to the short answer question section of the final FRCA not only comprehensively covers the subject matter of the exam with past paper examples, it also guides trainees on the most effective manner in which to approach the questions. Chapters reflect the different topics contained within the examination, including pain medicine, ICM, paediatric anaesthesia and more. Every question from the past 6 1/2 years of examinations is addressed and the ideal style in which to answer an SAQ covered in depth. This guide will be gold dust to the candidate preparing for the final FRCA, providing all the answers as well as the best way to present them. It will save hours of research and preparation.

Returning to Work in Anaesthesia - Emma Plunkett 2016-10-20

Winner of the First Prize in Anaesthesia at the 2017 British Medical Association Book Awards! With the increasing frequency of breaks from practice, the importance of proper preparation and guidance for doctors returning to work has recently been recognised by the Royal College of Anaesthetists. This is the first dedicated resource to support anaesthetists returning to work after a significant break, and is designed to complement the growing range of regional and national return to work courses by gathering relevant information and advice into one easily accessible reference source. Divided into three parts, specific to different stages in the return to work process, this book offers information and

advice about the practicalities of returning to work, 120 clinical scenarios to refresh the reader's knowledge, and useful guidelines and checklists for the first days and weeks back, forming a vital practical resource for anaesthetists in this situation and those supporting them.

Passing the Primary FRCA SOE - Claire M. Blandford 2016-04-21

A detailed revision guide for the Primary FRCA SOE that includes sample questions and scripted model answers for practice and training.

Cambridge International AS and A Level Chemistry Revision Guide - Judith Potter 2015-10-29

A revision guide tailored to the AS and A Level Chemistry syllabus (9701) for first examination in 2016. This Revision Guide offers support for students as they prepare for their AS and A Level Chemistry (9701) exams. Containing up to date material that matches the syllabus for examination from 2016 and packed full of guidance such as Worked Examples, Tips and Progress Check questions throughout to help students to hone their revision and exam technique and avoid common mistakes. These features have been specifically designed to help students apply their knowledge in exams. Written in a clear and straightforward tone, this Revision Guide is perfect for international learners.

The Structured Oral Examination in Anaesthesia - Shyam

Balasubramanian 2006-05-25

Comprising questions and answers which simulate examination format, this is an essential aid for anaesthesia trainees

MCQs for the Primary FRCA - Khaled Elfituri 2008-01-10

Designed for candidates sitting the primary FRCA examination, this book brings together exam questions from recent years and structures them into six practice papers. The format of 90 questions per paper echoes the exam itself. Following each paper a scoring chart and detailed explanations of answers are provided. The questions cover physiology, pharmacology, physics, clinical measurement and statistics as they appear in the primary FRCA. There are questions on all recently added exam topics, and those that now carry stronger emphasis and more weight such as resuscitation, sepsis and trauma. The latest drugs, equipment, monitoring techniques and safety procedures are referenced. Trainees will find this an invaluable tool for exam preparation, whether sitting the FRCA in the UK, through the London College external examiners in many Asian and African countries, or similar exams for anaesthetists in Australasia and North America.

Single Best Answer MCQs in Anaesthesia - Cyprian Mendonca,
2010-09-01

The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

Primary FRCA in a Box, Second Edition - Sarah Armstrong
2019-01-15

Primary FRCA in a Box 2e contains over 200 revision flashcards addressing all the topics needed to pass the Primary FRCA. The key subject areas of physiology, pharmacology, physics, and anatomy are covered in easy-to-learn note format. Illustrations aid understanding making this particularly suited to the viva examination. Using standard question formats from the Royal College exams, Primary FRCA in a Box 2e is an essential tool for effective revision and preparation for the Primary FRCA exams. Recommended for all qualified and trainee anaesthetists and their trainers, and related health professionals.

Anaesthesia and Intensive Care A-Z - Print & E-Book - Steve Yentis
2013-06-25

Building on the success of previous editions, Anaesthesia and Intensive Care A-Z (Fifth edition) remains the most comprehensive single volume source of relevant aspects of pharmacology, physiology, anatomy, physics, statistics, medicine, surgery, general anaesthetic practice, intensive care, equipment, and the history of anaesthesia and intensive care. Originally prepared as essential reading for candidates for the

Fellowship of the Royal College of Anaesthetists and similar exams, this fully updated edition will also prove as invaluable as ever for all anaesthetists and critical care physicians, as well as operating department practitioners and specialist nurses. All entries have been carefully reviewed and new ones added to reflect the latest advances and the evolving field breadth. This edition includes a structured checklist of entries, ordered by curriculum core topic area, as an additional new aid for those planning their revision. Also for the first time, this fifth edition now comes with complementary access to the complete electronic version of the book. It is now easy to use the content just as you need it, anytime, anywhere - whether online or offline, on your laptop, tablet or mobile device. Succinct, clear text and diagrams make quick reference easy. Entries arranged alphabetically, with extensive cross-referencing to ensure full understanding of topics. Thoroughly revised throughout to reflect the latest advances in the field. New exam preparation checklist ordered by core topics, for more effective use of revision time and enhanced confidence. More flexible and practical than ever before, with anytime, anywhere electronic access. Your eBook is much more than just 'pictures of pages': Fully searchable, with main category entries prioritised in search returns. Customise your page views. Highlight and make searchable notes. Print and copy-and-paste with bibliographic support. Download to multiple devices, including desktop and mobile. Additional line diagrams further enhance topic descriptions. Contains a wide expansion of new entries and revisions of existing ones to reflect ongoing advances in the field. New exam preparation checklist ordered by core topics, for more effective use of revision time and enhanced confidence. Comes with complete eBook version - more flexible and practical than ever before, with anytime, anywhere electronic access. Your eBook is much more than just 'pictures of pages': Fully searchable, with main category entries prioritised in search returns. Customise your page views. Highlight and make searchable notes. Print and copy-and-paste with bibliographic support. Download to multiple devices, including desktop and mobile.

500 Activities for the Primary Classroom - Carol Read 2007

OWN the ABG - Luke Lawton 2015-04-02

Simple. Clear. Structured. Whether you are sitting your med school finals, boards, or college fellowship exams, the methods detailed in OWN the ABG make the interpretation of any blood gas question a straightforward exercise. For those who take the time to work through this book the reward will be an understanding that applies in the examination hall, the rests room, and by the patient's bedside at 2am. Inside you will find 30 worked blood gas problems illustrating the four step method used to OWN the ABG, as well as comments referenced to the literature explaining the major themes of each question. There are a further 30 extended match questions designed to test your understanding, followed by explanatory notes on the major concepts in blood gas chemistry. All the questions and answers are detailed in both mmHg and kPa so that international clinicians can all learn to interpret the arterial blood gas. Difficult? Complicated? Confusing? Not any more! Pick up this book and OWN the ABG today.

The Clinical Anaesthesia Viva Book - Julian M. Barker 2009-10-08

The second edition of the hugely popular *The Clinical Anaesthesia Viva Book* builds on the success of the first by providing a thorough review of short and long case questions typically given to Final FRCA viva candidates. An introductory chapter gives invaluable practical advice on preparation for the viva. This is followed by almost 100 short cases and

25 long cases, all based on viva questions posed at recent examinations. Answers have been constructed from a combination of popular textbooks, recent publications and the extensive practical experience of the authors. Short further reading lists are provided for more in-depth preparation. Written by a team of expert consultants and senior trainees with (successful!) experience of the Final FRCA, this second edition of *The Clinical Anaesthesia Viva Book*, is a must-have for anyone preparing for the Final FRCA viva.

The Primary FRCA Structured Oral Exam Guide 1 - Lara Wijayasiri 2017-05-12

The Primary FRCA Structured Oral Examination Study Guide 1 is the definitive revision aid to the Primary FRCA structured oral examination. This second edition is revised and updated in line with the new Royal College of Anaesthetists 'Guide to the Primary FRCA', with over 20 new topics to reflect changes to the RCoA's model questions and major revisions to graphs, diagrams and many of the pre-existing sections. Packed with new guidelines and current hot topics, this first volume covers physiology and physics. The nearly 50 physiology topics covered include lung function, hypoxia, acid-base balance, pain pathways, oxygen transport, cerebral blood flow and more. Nearly 30 physics topics are covered including gas laws, oxygen measurement, cardiac output monitoring, safety features of the anaesthetic machine, resuscitation bags and valves, depth of anaesthesia monitoring and more. The second edition of this hugely popular book is improved in clarity and content but stays true to the pragmatic approach adopted by the authors in the first edition.

Graphic Anaesthesia - Benjamin Walton 2015-09-21

From reviews: "Graphic Anaesthesia is a well-written, easy-to-read book, ideal for trainees studying for primary FRCA examinations... It will be an ideal companion for preparing for exams." *Ulster Medical Journal*, May 2016 "Graphic Anaesthesia is an excellent revision tool that allows trainees approaching exams to prepare in an efficient and simple format. It is a refreshing and unique resource that should be included on any essential revision reading list". *European Journal of Anaesthesiology* 2016; 33:610. "The diagrams are very clear, the explanations accurate and concise and to pack 245 items into a small reference book is no mean feat.... Each diagram is drawn in just four colours to enable them to be reproduced easily from memory. This intuitive approach was an eye-opener to me and a valuable lesson in simplicity without losing any essential detail. This is something from which many educators could learn and indeed transfer that skill... This is a quality book that could be a useful investment across the spectrum of practitioners involved in anaesthesia and the teaching of anaesthesia." *Journal of Perioperative Practice* March 2017, volume 27, issue 3. *Graphic Anaesthesia* is a compendium of the diagrams, graphs, equations and tables needed in anaesthetic practice. Each page covers a separate topic to aid rapid review and assimilation. The relevant illustration, equation or table is presented alongside a short description of the fundamental principles of the topic and with clinical applications where appropriate. All illustrations have been drawn using a simple colour palette to allow them to be easily reproduced in an exam setting. The book includes sections covering: physiology pharmacodynamics and kinetics physics equipment anatomy drugs clinical measurement statistics. By combining all the illustrations, equations and tables with concise, clinically relevant explanations, *Graphic Anaesthesia* is therefore: the ideal revision book for all anaesthetists in training a valuable aide-memoire for senior anaesthetists to use when teaching and examining trainees.
