Communities of Discourse - Robert Wuthnow
2009-06-30

Sociologist Robert Wuthnow notes remarkable similarities in the social conditions surrounding three of the greatest challenges to the status quo in the development of modern society--the Protestant Reformation, the Enlightenment, and the rise of Marxist socialism.

The Routledge Companion to Early Modern Europe, 1453-1763 - Chris Cook 2012-10-02

This compact and highly accessible work of reference covers the broad sweep of events as Europe transformed during the period from the Renaissance to the Enlightenment. This Companion examines the centuries that saw the Reformation and Counter-Reformation, the expansion of Europe and the beginnings of imperialism and enormous changes in the way government and kingship were conducted. With a wealth of chronologies, tables, family trees and maps, this handy book is an indispensable resource for all students and teachers of early modern history.

This Gulf of Fire - Mark Molesky 2016-10-18

Winner of the Phi Alpha Theta Best Subsequent Book Award A Los Angeles Times Book Prize Finalist The captivating and definitive account of the Great Lisbon Earthquake--the most consequential natural disaster of modern times. On All Saints' Day 1755, tremors from an

earthquake measuring approximately 9.0 or perhaps higher on the magnitude scale swept furiously toward Lisbon, then one of the wealthiest cities in the world and the capital of a vast global empire. Within minutes, much of the city lay in ruins. A half hour later, a giant tsunami unleashed by the quake smashed into Portugal's coastline and barreled up the Tagus River, carrying countless thousands out to sea. To complete Lisbon's destruction, a hellacious firestorm then engulfed the city's shattered remains, killing thousands more and incinerating much of what the earthquake and tsunami had spared. Drawing on a wealth of new sources, the latest scientific research, and a sophisticated grasp of European history, Mark Molesky gives us the gripping, authoritative account of the Great Lisbon Earthquake disaster and its impact on the Western world—including descriptions of the world's first international relief effort, the rise of a brutal, yet modernizing, dictatorship in Portugal, and the effect of the catastrophe on the spirit and direction of the European Enlightenment.

The Great Wave - David Hackett Fischer 1999

Fischer has examined price records in many nations, and finds that great waves of rising prices in the 13th-, 16th-, 18th-, and 20th centuries were all marked by price swings of increasing volatility, falling wages, a growing

gap between rich and poor, and an increase in violent crime, family disintegration, and cultural despair. 109 graphs & charts. 7 maps.

German History, 1770-1866 - James J. Sheehan 1989

Professor Sheehan gives an extensive account of the social, cultural, and political developments in German history up to the Austro-Prussian war of 1866. The only study of the period available in English, this uniquely authoritative book will provide an indispensable guide to everyone interested in modern European history.

History of Western Society Since 1300 for Advanced Placement - John P. McKay

2010-10-13

A History of Western Society continues to capture the attention of AP European history students because it recreates the lives of ordinary people and makes history memorable. Brought to you by the highly regarded editors at Bedford/St. Martins, every element of the text has been rethought, reconsidered, and revised to bring the original vision to a new generation of students. The tenth edition continues to tie social history to the broad sweep of politics and culture, heightening its attention to daily life, and strengthening the treatment of European exploration. With a dynamic new design, new special features on visual evidence, and a robust companion reader, A History of Western Society helps AP students master the concepts and content of European history.

Kant and the Theory and Practice of International Right - Georg Cavallar

2020-03-01

This book argues that Kant's theory of international relations should be interpreted as an attempt to apply the principles of reason to history in general, and in particular to political conditions of the late eighteenth century. It demonstrates how Kant attempts to mediate between a priori theory and practice, and how this works in the field of international law and international relations. Kant appreciates how the precepts of theory have to be tested against the facts, before the theory is enriched to deal with the complexities of their application. In the central chapters of this book, the starting points are apparent contradictions in Kant's writings; assuming that Kant is a systematic and profound thinker, Cavallar seeks to use these

contradictions to discover Kant's 'deep structure', a dynamic and evolutionary theory that tries to anticipate a world where the idea of international justice might be more fully realized.

Eighteenth Century Europe, 1700-1789 - Jeremy Black 1999-10-04

This new edition of this highly successful and influential work includes two entirely new chapters - on Europe and the wider world and on the Revolutionary crisis - and is extensively revised throughout. It offers a wide-ranging thematic account of the century, that explores social, cultural and economic topics, as well as giving a clear analysis of the political events. Filled with fascinating detail and unusual examples, this absorbing history of eighteenth-century Europe will bring the period alive to students and teachers alike.

The Idea of Development in Africa - Corrie Decker 2020-10-29

The Idea of Development in Africa challenges prevailing international development discourses about the continent, by tracing the history of ideas, practices, and 'problems' of development used in Africa. In doing so, it offers an innovative approach to examining the history and culture of development through the lens of the development episteme, which has been foundational to the 'idea of Africa' in western discourses since the early 1800s. The study weaves together an historical narrative of how the idea of development emerged with an account of the policies and practices of development in colonial and postcolonial Africa. The book highlights four enduring themes in African development, including their present-day ramifications: domesticity, education, health, and industrialization. Offering a balance between historical overview and analysis of past and present case studies, Elisabeth McMahon and Corrie Decker demonstrate that Africans have always co-opted, challenged, and reformed the idea of development, even as the western-centric development episteme presumes a one-way flow of ideas and funding from the West to Africa.

Policing the Poor in Eighteenth-Century France - Robert M. Schwartz 2017-10-10

Robert Schwartz examines the French government's attempts to suppress mendicancy

from the reign of Louis XIV to the Revolution. His study provides a rich account of the evolution of poverty, the varied and shifting attitudes toward the delinquent poor, and the government's efforts to control mendicity by strengthening the state's repressive machinery during the eighteenth century. As Schwartz demonstrates, popular conceptions of the mendicant poor in the ancient regime increasingly focused on the threat that they presented to the rest of society, thereby opening the way for the central state to augment its authority and enhance its credibility by acting as the agent protecting the majority of the populace from its threat to public security. Government efforts to control the activity of the "unworthy poor" -- those of sound mind and body who were seen to prefer idleness over productive work -- were most pronounced during two periods of repressive policing, one in the early eighteenth century and the other in the last two decades before the Revolution. From 1724 to 1733 beggars were interned in *hopitaux*, existing municipal institutions intended for the care of the "worthy poor," including orphans, the infirm, and the aged. But from 1768 until the outbreak of the Revolution, more stringent measures were taken. Sturdy beggars and vagrants were confined apart from the worthy poor on specially established, royal workhouses called *depots de mendicite*, and in the case of some repeat offenders, were sentenced to the galleys. This stepped-up level of policing arose not only from royal administrators' long-standing view of mendicity as criminal activity; it was also made possible because the propertied classes had likewise come to believe the mendicant poor were a danger rather than a nuisance. Economic and demographic conditions combined to swell the ranks of paupers and vagrants, especially in the 1760s and 1770s, and social tensions, along with calls for government action, multiplied in proportion to their numbers. As villagers came to call upon the improved royal police for help, a popular mental association of the state with public security began to take root. In arriving at these conclusions, Schwartz concentrates on law enforcement in a single area, Lower Normandy, but continually provides a perspective on local events by putting them in the context of national trends and realities. He tells the story of the

poor in eighteenth-century France in sympathetic terms, giving a human face to poverty and to the men who policed its effects. Originally published in 1987. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

The Jewish Eighteenth Century - Shmuel Feiner 2020-12-01

The eighteenth century was the Jews' first modern century. The deep changes that took place during its course shaped the following generations, and its most prominent voices still reverberate today. In this first volume of his magisterial work, Shmuel Feiner charts the twisting and fascinating world of the first half of the 18th century from the viewpoint of the Jews of Europe. Paying careful attention to life stories, to bright and dark experiences, to voices of protest, to aspirations of reform, and to strivings for personal and general happiness, Feiner identifies the tectonic changes that were taking place in Europe and their unprecedented effects on and among Jews. From the religious and cultural revolution of the *Haskalah* (Jewish Enlightenment) to the question of whether Jews could be citizens of any nation, Feiner presents a broad view of how this century of upheaval altered the map of Europe and the Jews who called it home.

Cracking the AP European History Exam - Kenneth Pearl 2009-01-06

Reviews subjects on the test, offers tips on test-taking strategies, and includes two full-length practice exams with answers and explanations.

Playing with Gender - Maggie Gunsberg 2017-12-02

"This work takes gender as its point of entry into the comedies of Carlo Goldoni (1707-93). The dramatization of femininity and masculinity is explored in conjunction with that of other social categories (class, the family, and age). The plays reinforce the patriarchal association of femininity with the body, with spectacle, and with theatricality, while the dramatic backdrop of Venice and carnival provides a context for the

staging of issues relating to identity, disguise and fashion. In the plays, pretence and theatricality vie with bourgeois Enlightenment values of morality, honesty and respectability to produce dramatic tension with distinct gender implications."

A History of the Peoples of the British Isles - Thomas Heyck 2013-09-27

The three volumes of *A History of the Peoples of the British Isles* weave together the histories of England, Ireland, Scotland, and Wales and their peoples. The authors trace the course of social, economic, cultural and political history from prehistoric times to the present, analyzing the relationships, differences and similarities of the four areas. Volume II focuses on the eighteenth and nineteenth centuries and its main themes are: * the formation of the British nation-state* the spread of English cultural influence and political power throughout the Briti.

The Jewish Enlightenment - Shmuel Feiner 2011
This text reconstructs the intellectual and social revolution of the Haskalah as it gradually gathered momentum throughout the 18th-century.

The Cambridge History of American Literature: Volume 1, 1590-1820 - Sacvan Bercovitch 1997-01-28

Discusses the social, cultural, intellectual, and aesthetic aspects of American literature
A Cultural History of Work in the Age of Enlightenment - Anne Montenach 2020-09-17
Winner of the 2020 PROSE Award for Multivolume Reference/Humanities
The Enlightenment led to revised ideas about work together with new social attitudes toward work and workers. Coupled with dynamism in the economy, and the rise of the middling orders, work was more frequently perceived positively, as a commodity and as a source of social respectability. This volume explores the cultural implications of the transition from older systems based on privilege, control and embedded practices to a more open society increasingly based on merit and ability. It examines how guild controls broke down and political and commercial systems loosened. It also considers the theoretical justifications that brought new binding ideas, such as the strengthening of ideology on home, domesticity for the female, and work and politics for the male. North

America embodied the extremes of these transitions with free workers able to make their way in a society based on ability and initiative while solidifying the ravages of the slavery system. *A Cultural History of Work in the Age of Enlightenment* presents an overview of the period with essays on economies, representations of work, workplaces, work cultures, technology, mobility, society, politics and leisure.

Cunegonde's Kidnapping - Benjamin J. Kaplan 2014-10-28

In a remote village on the Dutch-German border, a young Catholic woman named Cunegonde tries to kidnap a baby to prevent it from being baptized in a Protestant church. When she is arrested, fellow Catholics stage an armed raid to free her from detention. These dramatic events of 1762 triggered a cycle of violence, starting a kind of religious war in the village and its surrounding region. Contradicting our current understanding, this war erupted at the height of the Age of Enlightenment, famous for its religious toleration. *Cunegonde's Kidnapping* tells in vivid detail the story of this hitherto unknown conflict. Drawing characters, scenes, and dialogue straight from a body of exceptional primary sources, it is the first microhistorical study of religious conflict and toleration in early modern Europe. In it, Benjamin J. Kaplan explores the dilemmas of interfaith marriage and the special character of religious life in a borderland, where religious dissenters enjoy unique freedoms. He also challenges assumptions about the impact of Enlightenment thought and suggests that, on a popular level, some parts of eighteenth-century Europe may not have witnessed a "rise of toleration."

Europe in the Eighteenth Century 1713-1789 - M.S. Anderson 2014-07-22

For 1st and 2nd year undergraduate courses in Modern European History in departments of history. Also, higher level courses on enlightenment. This book provides a wide-ranging account and discussion of the history of Europe from 1713-1789. As well as political events, problems and institutions, it looks at the economic life of the continent, social structures and problems and intellectual and religious life. It also covers all aspects of Europe's relations with the rest of the world during a key period in

European history.

Eighteenth-century Europe - Isser Woloch
2012-01

Eighteenth-Century Europe is the leading textbook of this pivotal period in European history. The new second edition of the standard text on eighteenth-century Europe draws on the most important recent developments in the field to enrich its compact, accessible, and thematic history. There are several advantages to adopting this text.

The American Enlightenment, 1750-1820 -
Robert A. Ferguson 1997

This concise literary history of the American Enlightenment captures the varied and conflicting voices of religious and political conviction in the decades when the new nation was formed. Robert Ferguson's trenchant interpretation yields new understanding of this pivotal period for American culture.

The Western Experience - Lisa Tiersten
2009-12-08

The Western Experience offers a thorough, analytical overview of Western civilization, giving students an introduction to the major achievements in Western thought, art, and science--as well as the social, political, and economic context for understanding those developments. The updated 10th edition now offers streamlined coverage the early nineteenth century and significantly updated post World War II coverage. To help readers develop their reasoning and writing skills, each chapter is constructed to serve as an example of a historical essay: A historical problem is presented, and arguments are developed using historical evidence. The Western Experience is available in a single volume as well as two-volume format.

A Study Guide for Henry Fielding's "Tom Thumb" - Gale, Cengage Learning 2016

A Study Guide for Henry Fielding's "Tom Thumb," excerpted from Gale's acclaimed Drama For Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Drama For Students for all of your research needs.

A History of Western Society, Volume B - John P. McKay 2010-10-13

Now from Bedford/St. Martin's, *A History of Western Society* is one of the most successful textbooks available because it captures students' interest in the everyday life of the past and ties social history to the broad sweep of politics and culture. The tenth edition has been thoroughly revised to strengthen the text's readability, heighten its attention to daily life, and incorporate the insights of new scholarship, including an enhanced treatment of European exploration and a thoroughly revised post-1945 section. With a dynamic new design, new special features, and a completely revised and robust companion reader, this major revision makes the past memorable and accessible for a new generation of students and instructors.

Enlightenment and Violence - Tadd Fernée
2014-06-10

Enlightenment and Violence is a history of ideas that proposes a multi-centred and non-Eurocentric interpretation of the Enlightenment as a human heritage. This comparative study reconstructs how modernity was negotiated in different intellectual and political contexts as a national discourse within the broader heritage of Enlightenment. The author has compared 16th and 20th century Indian history to the early modern histories of Persia, Turkey and Western Europe in order to ground analysis of their 20th century nation-making experiences within a common problematic. The focus is upon an ethic of reconciliation over totalizing projects as a means to create non-violent conflict resolution in the modern context. It is suggested that an emergent ethic of reconciliation in nation-making—inspired by the Indian paradigm—harbours the potential to create more democratic and open societies, in rejection of the authoritarian patterns that too frequently shaped the experiences of the 20th century.

Pagodas in Play - Adrienne Ward 2010

Pagodas in Play analyzes the treatment of China in the imaginative and spectacular world of eighteenth-century Italian opera. It shows how Italians used perceptions of Chinese culture to address local and transnational developments, particularly Enlightenment and secular reform initiatives. Its focus on the texts and performance practices of opera, an entertainment form accessible to a wide public, reveals cultural operations and identities harder

to detect in non-fictional reformist writings, the texts traditionally privileged to explain Italian mediations of Enlightenment ideas. In its close reading of nine libretti of the most salient Settecento operas treating China (opere serie and opere buffe by authors including Metastasio, Zeno, Goldoni and Lorenzi), *Pagodas in Play* differentiates Italian iterations of Chinese culture from French and English counterparts. It further challenges certain tenets of orientalism, showing how it operates when nationalist and/or colonialist projects are absent, and how orientalist practices in eighteenth-century Italy exhibit early on the complexity some scholars locate only in the twentieth century. Adrienne Ward teaches Italian literature and culture at the University of Virginia.

[The Western Experience](#) - Barbara Hanawalt
2009-11-30

The Western Experience offers a thorough, analytical overview of Western civilization, giving students an introduction to the major achievements in Western thought, art, and science--as well as the social, political, and economic context for understanding those developments. The updated 10th edition now offers streamlined coverage the early nineteenth century and significantly updated post World War II coverage. To help readers develop their reasoning and writing skills, each chapter is constructed to serve as an example of a historical essay: A historical problem is presented, and arguments are developed using historical evidence. The Western Experience is available in a single volume as well as two-volume format.

[The Western Experience, Volume 1, with Primary Source Investigator and PowerWeb](#) - Mortimer Chambers
2006-03

The Western Experience offers a thorough, analytical overview of Western civilization, giving students an introduction to the major achievements in Western thought, art, and science as well as the social, political, and economic context for understanding those developments. To demonstrate the connected nature of all histories, these various aspects of history are examined in an integrated way. To help readers develop their reasoning and writing skills, each chapter is constructed to serve as an example of a historical essay: A historical

problem is presented and arguments are developed using historical evidence. The ninth edition features many improvements, including the work of Lisa Tiersten in her new chapter on Nineteenth Century Empires.

Germany in the Age of Absolutism - Rudolf Vierhaus
1988

Reconstructs the structures that marked the history of Germany from the Thirty Years' War to the end of the Seven Years' War.

[Eighteenth-century Europe, Tradition and Progress, 1715-1789](#) - Isser Woloch
1982

Studies the cultural, economic, political, and religious changes in 18th century European society that resulted from population growth, agricultural and industrial revolutions, and the Enlightenment

Trade and Empire in the Eighteenth-Century Atlantic World - Andrew Hamilton
2008-12-18

Free trade has become a highly politicized term, but its origins, historical context, and application to policy decisions have been largely overlooked. This book examines the relationship between liberal political economy and the changing conception of empire in the eighteenth century, investigating how the doctrine of laissez-faire economics influenced politicians charged with restructuring the transatlantic relationship between Britain and the newly independent America. As prime minister during the peace negotiations to end the American Revolution in 1782-3, Lord Shelburne understood that the British Empire had to be radically reconceived. Informed by the economic philosophies of Adam Smith, he envisioned a new commercial empire based upon trade instead of the archaic model of territorial conquests. Negotiations between Shelburne and the American statesmen Benjamin Franklin and John Adams demonstrate the application of Smith's commercial theories to the British-American peace settlement. By tracing the genealogy of laissez-faire, this book locates the historical background from which modern ideas of free trade, empire, and cosmopolitanism emerged. Benjamin Vaughan, confidential secretary to Shelburne during the peace talks, is established as an important historical figure, and his treatise, *New and Old Principles of Trade Compared* (1788), is identified as a significant contribution to the

literature of political economy. An interdisciplinary study integrating history, economics, and philosophy, *Trade and Empire* offers a new perspective on the intellectual history of the eighteenth-century Atlantic world. **The Enlightenment and the Book** - Richard B. Sher 2008-09-15

The late eighteenth century witnessed an explosion of intellectual activity in Scotland by such luminaries as David Hume, Adam Smith, Hugh Blair, William Robertson, Adam Ferguson, James Boswell, and Robert Burns. And the books written by these seminal thinkers made a significant mark during their time in almost every field of polite literature and higher learning throughout Britain, Europe, and the Americas. In this magisterial history, Richard B. Sher breaks new ground for our understanding of the Enlightenment and the forgotten role of publishing during that period. *The Enlightenment and the Book* seeks to remedy the common misperception that such classics as *The Wealth of Nations* and *The Life of Samuel Johnson* were written by authors who eyed their publishers as minor functionaries in their profession. To the contrary, Sher shows how the process of bookmaking during the late eighteenth-century involved a deeply complex partnership between authors and their publishers, one in which writers saw the book industry not only as pivotal in the dissemination of their ideas, but also as crucial to their dreams of fame and monetary gain. Similarly, Sher demonstrates that publishers were involved in the project of bookmaking in order to advance human knowledge as well as to accumulate profits. *The Enlightenment and the Book* explores this tension between creativity and commerce that still exists in scholarly publishing today. Lavishly illustrated and elegantly conceived, it will be must reading for anyone interested in the history of the book or the production and diffusion of Enlightenment thought.

Social Identity in Imperial Russia - Elise Kimerling Wirtschafter 1997-10-01

Religion and the Enlightenment - James M. Byrne 1997-01-01

This volume offers an overview of the Enlightenment's revolution of Western theology.

It explains the era's ideas within the framework of religion, politics, and society--and shows how they impacted that society.

Strategy and Power in Russia 1600-1914 - William C. Fuller 1998-10-01

"A pioneering effort to trace the evolution of military power and military strategy of tsarist Russia during the rule of the Romanov dynasty." —Richard Pipes, Baird Professor of History, Harvard University

The 17th and 18th Centuries - Frank N. Magill 2013-09-13

Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

The Hessian Mercenary State - Charles W. Ingrao 2003-02-13

In analyzing the origins, course, and effectiveness of domestic policymaking in Hesse-Cassel, Charles Ingrao finds that Frederick was neither as evil as we might think nor as enlightened as we might like to believe.

The Western Experience - Isser Woloch 2009-12-08

The Western Experience offers a thorough, analytical overview of Western civilization, giving students an introduction to the major achievements in Western thought, art, and science--as well as the social, political, and economic context for understanding those developments. The updated 10th edition now offers streamlined coverage the early nineteenth century and significantly updated post World War II coverage. To help readers develop their reasoning and writing skills, each chapter is constructed to serve as an example of a historical essay: A historical problem is presented, and arguments are developed using historical evidence. *The Western Experience* is

available in a single volume as well as two-volume format.

Historians and Eighteenth-century Europe, 1715-1789 - Matthew Smith Anderson 1979

The Kabbalistic Culture of Eighteenth-Century Prague - Sharon Flatto 2015-09-03

Sharon Flatto's comprehensive study offers the first systematic overview of the eighteenth-

century Jewish community of Prague and the first critical account of the life and thought of its pre-eminent rabbinic authority, Ezekiel Landau. Her detailed analysis, firmly rooted in the historical and cultural context of the period, challenges the conventional portrayal of Landau as a staunch opponent of esoteric practices and reveals the centrality of kabbalistic thought in this key central European city.
