Auditing and Assurance Services - Louwers 2013

This text has been written so that it is current with all issues inherent in accounting and auditing practice, particularly in public accounting firms including coverage of the creation of the Public Companies Accounting Oversight Board, the passage of the Sarbanes-Oxley Act, and all of the major pronouncements issued by the AICPA. The text is also designed to provide flexibility for instructors; the twelve chapters focus on the auditing process while the eight modules provide additional topics that can be taught at the instructors' discretion without interrupting the flow of the text.

Litigation Skills for South African Lawyers - Chris G. Marnewick 2019

Small Things - Nthikeng Mohlele 2018-05

In this haunting tale of love and learning, the existential chaos of a life ravaged by circumstance takes on a rhythm of its own, one bound by loss and loneliness, but also an intelligent awareness of self. Sometimes melancholy, sometimes brutal, occasionally funny and infuriating, a journalist-comrade-lover caught up in the shade and shadow of politics and social injustice faces treachery and betrayal on every level. Set against the backdrop of a cityscape that taunts and tantalises, this is where love fails and passion wanes, "where suffering has no meaning", where an individual escapes death only to find himself confronted with choices wrought by remorse and retribution, by conscience and character. And yet, with all trauma, there is a distinct musicality to the lyrical unpacking that follows a string of small things ...

Management and Cost Accounting - Colin Drury 1997

The market-leading European text on management accounting and comprehensive authority on all aspects of the subject has been streamlined and substantially redesigned in its 6th edition to make it even more suitable for the needs of today's student. The aim of the new edition is to explain the principles involved in the design and evaluation of management and cost accounting information systems. The emphasis in the book is on management accounting systems that will be used for internal decision-making purposes within an organisation, however, cost accounting systems for external reporting are also comprehensively covered. It has been brought up to date with the latest developments in the subject. Having been made stronger pedagogically with the addition of the answers to the questions and more real-world mini cases, the text brings home the relevance of the subject matter to the real world of business.

Companies and Other Business Structures - Dennis Davis 2014-01-15

The text combines a strong theoretical foundation with a practical applied approach and is the first to give students a unique blend of company law and accounting expertise. The content complies with the curriculum structure set out by the South African Institute of Chartered Accountants. The South African Institute of Professional Accountants have endorsed the book as their preferred text. The author team

comprises authoritative, highly-respected experts in company law and includes legal practitioners, policy-makers and academics.

The Logic Manual - Volker Halbach 2010-08-19

The Logic Manual is the ideal introduction to logic for beginning philosophy students. It offers a concise but complete introductory course, giving a firm grounding in the logic that is needed to study contemporary philosophy. Organizational Behavior - Fred Luthans 2015-06-01

Our goal with this 13th Edition is to keep this first mainline organizational behavior text up-to-date with the latest and relevant theory building, basic and applied research, and the best-practice applications. We give special recognition of this scientific foundation by our subtitle - An Evidence-Based Approach. As emphasized in the introductory chapter, the time has come to help narrow the theory/research—effective application/practice gap. This has been the mission from the beginning of this text. As "hard evidence" for this theory/research based text, we can say unequivocally that no other organizational behavior text has close to the number of footnote references. For example, whereas a few texts may have up to 40 or even 50 references for a few chapters, all the chapters of this text average more than twice that amount. This edition continues the tradition by incorporating recent breakthrough research to provide and add to the evidence on the theories and techniques presented throughout. Two distinguishing features that no other organizational behavior textbook can claim are the following: 1) We are committed at this stage of development of the field of OB to a comprehensive theoretical framework to structure our text. Instead of the typical potpourri of chapters and topics, there is now the opportunity to have a sound conceptual framework to present our now credible (evidence-based) body of knowledge. We use the widely recognized, very comprehensive social cognitive theory to structure this text. We present the background and theory building of this framework in the introductory chapter and also provide a specific model (Figure 1.5) that fits in all 14 chapters. Importantly, the logic of this conceptual framework requires two chapters not found in other texts and the rearrangement and combination of several others. For example, in the opening organizational context part there is Chapter 4, "Reward Systems," and in the cognitive processes second part, Chapter 7, "Positive Organizational Behavior and Psychological Capital," that no other text contains. 2) The second unique feature reflects our continuing basic research program over the years. Chapter 7 contains our most recent work on what we have termed "Positive Organizational Behavior" and "Psychological Capital" (or PsyCap). [The three of us introduced the term "Psychological Capital" in our joint article in 2004]. To meet the inclusion criteria (positive; theory and research based; valid measurement; open to development; and manage for performance improvement), for the first time the topics of optimism, hope, happiness/subjective well-being, resiliency, emotional intelligence, self-efficacy, and our overall core construct of psychological capital have been given chapter status. Just as real-world management can no longer afford to evolve slowly, neither can the academic side of the field. With the uncertain, very turbulent environment most organizations face today, drastically new ideas, approaches, and techniques are needed both in the practice of management and in the way we study and apply the field of organizational behavior. This text mirrors these needed changes. Social

Cognitive Conceptual Framework. The book contains 14 chapters in four major parts. Social cognitive theory explains organizational behavior in terms of both environmental, contextual events and internal cognitive factors, as well as the dynamics and outcomes of the organizational behavior itself. Thus, Part One provides the evidence-based and organizational context for the study and application of organizational behavior.

Psychology in the Work Context - Ziel C. Bergh 2001-08-01

Inclusive Education - Nareadi Phasha 2016

Contemporary Criminological Issues - Carolyn Côté-Lussier 2020-05-05

Contemporary Criminological Issues tackles some of today's most pressing social issues, from the criminalization of Indigenous peoples to interpersonal violence, border control, and armed conflicts. This book advances cutting-edge theories and methods, with the aim of moving beyond the scholarship that reproduces insecurity and exclusion. The breadth of approaches encompasses much of the current critical criminological scholarship, serving as a counterpoint to the growth of managerial and administrative criminologies and the rise of explicitly exclusionary and punitive state policies and practices with respect to 'crime' and 'security.' This edited collection featuring two books, one in English and one in French, includes important contributions to knowledge and public policy by eminent experts and emerging scholars. This book is published in English.

Corporate Finance - G. Els 2020

"Corporate Finance: A South African perspective 2e takes a fresh principles-based approach to the study of financial management. It is aimed at second and third-year students following courses in financial management in BCom or BBusSc degree programmes. The book explains financial management concepts and practice in an accessible and concise way, while supporting students with plenty of practice examples and illustrations of real-life application."--Publisher's description.

Addressing Barriers to Learning - Emmerentia Landsberg 2005

It covers a wider spectrum of barriers to learning than Engelbrecht's *Inclusive Education in SA*. The title covers the content of the Education White Paper 6.

Africanising the Curriculum - Professor Vuyisile Msila 2016-03-01

The alienating nature of the dominant curriculum in African schools and universities is an issue which simmered just below the surface in the 2015 student protests that swept through the South African higher education sector. The collection of essays found in this timely publication, offers compelling arguments for the deliberate embrace of the African culture to advance African knowledge and enhance African lives. It proposes fresh perspectives on what shape and form a decolonised curriculum should take on.

Academic Literacy Development - Laura-Mihaela Muresan 2021-03-11

This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

Special Educational Needs in the Early Years - Ruth A. Wilson 2003

This fully revised and updated edition takes into account current changes in educational policy to provide the reader with comprehensive information about understanding and working with young children with special needs.

Entrepreneurial Law - George W. Kunej 2019-05-27

This text is designed to provide insight into the transactional legal needs

of the entrepreneur. It is written to provide both business and law students with a foundational understanding of the doctrinal areas of the law that impact the entrepreneurial endeavor. Substantively, coverage begins with taking the entrepreneur from the initial business plan through choice of business entity and corporate governance considerations. It then moves to address the use, analysis, and drafting of transactional documents typically used in the conduct of business. This is followed by chapters covering applied intellectual property law and protection of intellectual property. Coverage concludes with a focus on methods of financing the business entity.

Introduction to Social Welfare and Social Work - Katherine S. Van Wormer 2006

This introductory social work book provides both a theoretical and applied overview of the U.S. social welfare system, with international perspectives throughout. Other strengths include themes of empowerment theory and practice and an ecosystems framework. Part I is devoted to the history of social work in the U.S. as well as issues of economic oppression, social oppression, human rights, and restorative justice. Part II is devoted to social work across the life cycle.

Special Needs Education - South Africa. Department of Education 2001

The Sociology of Education- (Value Pack W/Mysearchlab) - Jeanne H. Ballantine 2009-01

MySearchLab provides students with a complete understanding of the research process so they can complete research projects confidently and efficiently. Students and instructors with an internet connection can visit www.MySearchLab.com and receive immediate access to thousands of full articles from the EBSCO ContentSelect database. In addition, MySearchLab offers extensive content on the research process itself—including tips on how to navigate and maximize time in the campus library, a step-by-step guide on writing a research paper, and instructions on how to finish an academic assignment with endnotes and bibliography. Comprehensive, contemporary, and cross-cultural in perspective, this book provides a sociological approach to education—from several theoretical approaches and their practical application, to current educational issues, to the structure and processes that make education systems work. Using an open systems model as a framework, it shows the formal organization of schools with structure, goals and processes; the informal organization with hidden curriculum, organization climate, etc.; the external environment that influences what goes on in the school, including financing, parent(s), community interest groups, etc.; processes such as stratification and change; higher education. Diagrams show interrelationships between topics. For educators and anyone interested in the sociology of education and schools.

The Educator as Mediator of Learning - Marietha M. Nieman 2006

This title focuses on the fundamentals of supervision and how supervision can be utilised effectively. The authors are involved in the fields of education, counseling and clinical psychology.

Dugard's International Law - John Dugard 2019-01-07

This fifth edition of *International Law: A South African Perspective* is now titled *Dugard's International Law: A South African Perspective*, in recognition of the fact that this work is a continuation of the earlier editions written by John Dugard. The substance of the work has undergone major changes to take account of new developments both on the international legal scene and in South Africa. *Dugard's International Law: A South African Perspective* presents a South African perspective of international law. The basic principles of international law are described and examined with reference to the principal sources of international law. This examination, however, takes place within the context of South African law. South African state practice, judicial decisions and legislation on international law receive equal treatment with international law as it is practised and taught abroad. The present work is designed to assist judicial officers and practitioners, educate students, and guide diplomats in the intricacies of international law both at home in South Africa and abroad.

The Law of Contract in South Africa - Dale Hutchison 2017

Practising Strategy - Tersia Botha 2019-01-25

"Given the common acknowledgement that strategy implementation is the greatest challenge to managers in the 21st century and the greatest reason for strategy failure we decided to focus on strategy implementation. Rather than promoting the unrealistic idea of strategy as a purely rational and deliberate outcome, this book acknowledges and explores the idea that strategy is often emergent, messy and

experimental and features a number of new chapters, focusing on strategy implementation and change management, resource allocation and responsible leadership. It also includes a more detailed coverage of managing strategic risk."--Publisher's description.

Teaching Learners with Visual Impairment - Maximus M. Sefotho 2020-12-31

This book, *Teaching Learners with Visual Impairment*, focuses on holistic support to learners with visual impairment in and beyond the classroom and school context. Special attention is given to classroom practice, learning support, curriculum differentiation and assessment practices, to mention but a few areas of focus covered in the book. In this manner, this book makes a significant contribution to the existing body of knowledge on the implementation of inclusive education policy with learners affected by visual impairment.

Handbook of Early Literacy Research - Susan B. Neuman 2017-05-08

Current research increasingly highlights the role of early literacy in young children's development--and facilitates the growth of practices and policies that promote success among diverse learners. The *Handbook of Early Literacy Research* presents cutting-edge knowledge on all aspects of literacy learning in the preschool years. Volume 1 covers such essential topics as major theories of early literacy; writing development; understanding learning disabilities, including early intervention approaches; cultural and socioeconomic contexts of literacy development; and tutoring programs and other special intervention efforts.

Introduction to Business Information Systems - Rolf T. Wigand 2003-05-21

After describing the functions of the PC and the role of computers in local and global networks, the authors explain the fundamentals of data management, as well as the support of firms' functions and processes through information processing. The concepts utilized are deployed in a multitude of modern and integrated application systems in manufacturing and service industries. These application examples make

up the core of the book. Many application examples illustrate the methodologies addressed.

Disability in Context - Obert Maguvhe 2015

This brand new book addresses disability issues, including inclusive education, advocacy and empowerment. Aimed specifically at students studying in South Africa, this book attempts to plug the gap between policy, services and rights for disabled people in South Africa, whilst also helping readers to find a new world view. This book is suitable for both first year undergraduates in inclusive education and senior students and also academics looking to advance theory and lay good foundations for comprehensive, evidence-based practice.

Performance Management - Herman Aguinis 2012-02-27

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Discover where the real success in business can be found. What makes some businesses more successful than others? The answer: people. Organizations with motivated, talented employees that offer outstanding customer service are more likely to pull ahead of the competition. *Performance Management* is the first text to emphasize this key competitive advantage, showing readers that success in today's globalized business world can be found, not in technology and products, but in an organization's people. The third edition includes updated and current information, and features over forty new cases.
