Reflective Writing for Nursing, Health and Social Work - Elizabeth Tanguay 2020-04-23

This book takes students step-by-step through the process of planning and writing a reflective essay, beginning with crucial guidance on planning and structure. It introduces different reflective frameworks and shows readers how to structure a piece of writing according to a particular framework. Chapters contain a wealth of activities and exercises which will help build students' skills and confidence. Suitable for students of all health-related disciplines in which written assignments requiring reflective practice are required.

Journal Keeping - Dannelle D. Stevens 2020-08-31

** By the authors of the acclaimed Introduction to Rubrics ** Major growth of interest in keeping journals or diaries for personal reflection and growth; and as a teaching tool ** Will appeal to college faculty, administrators and teachers One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development—particularly for those in academic life; and demonstrates journals' potential to foster college students' learning, fluency and voice, and creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.

The Handbook of English for Specific Purposes - Brian Paltridge 2014-09-15

Featuring a collection of newly commissioned essays, edited by two leading scholars, this Handbook surveys the key research findings in the field of English for Specific Purposes (ESP). • Provides a state-of-the-art overview of the origins and evolution, current research, and future directions in ESP • Features newly-commissioned contributions from a global team of leading scholars • Explores the history of ESP and current areas of research, including speaking, reading, writing, technology, and business, legal, and

medical English • Considers perspectives on ESP research such as genre, intercultural rhetoric, multimodality, English as a lingua franca and ethnography

Critical Thinking and Writing for Nursing Students - Bob Price 2016-01-30

This book is a clear and practical guide to help students develop critical thinking, writing and reflection skills. It explains what critical thinking is and how students should use it throughout their nursing programme. This new edition also provides an innovative new framework that helps students appreciate different levels of critical thinking and reflection to help nursing students appreciate the requirements of degree level study. The book demonstrates the transferable nature of critical thinking and reflection from academic contexts to the real practice of nursing. Key features Clear and straightforward introduction to critical thinking directly written for nursing students, with chapters relating the subject to specific study and practice contexts Student examples and scenarios throughout, including running case studies from four nursing students and further annotated examples of student's work on the website Each chapter is linked to the new NMC Standards and Essential Skills Clusters

Nursing Education - Barbara Ann Moyer 2007-08-10

Whether you are new to teaching or an experienced educator looking for innovative techniques, this new resource offers a wealth of theoretical knowledge and practical guidance from a who's who of nursing education leaders. From foundational concepts, curriculum development, and instructional principles and methods...through intervention and evaluation methods for didactic and clinical settings...to technology and visions for nursing education's future, every aspect of teaching is covered in step-by-step detail.

New Ways of Thinking about Nursing - Gary Rolfe 2019-07-10

This book collects together 12 previously unpublished conference and seminar presentations which cover a broad range of topics, including evidence-based practice, reflective practice, practice development, nurse education, nursing scholarship and a variety of philosophical issues applied to nursing. The common theme uniting all of these contributions is the assertion that the research-based technical-rational approach to nursing and other health care disciplines is failing our patients, our students and our profession. In a series of closely argued papers, the book challenges some of the taken-for-granted assumptions that underpin modern evidence-based nursing practice, research and education. It proposes a philosophy of nursing that unites practitioners, academics, teachers and researchers in a person-centred human science of nursing that directly addresses the needs of each individual patient. This book will be of interest to final year undergraduates, Masters and doctoral students, practising nurses undertaking further study, nurse academics and researchers, as well as anyone who is searching for a better way of 'doing' nursing.

Beginner's Guide to Reflective Practice in Nursing - Catherine Delves-Yates 2021-03-24

What is reflective practice and why is it important? How do I write my first reflection? Learn how to carry out reflective practice quickly and easily with this beginner's guide for nurses. Written for nursing students and registered nurses, this book helps build confidence in writing reflectively by using clear step-by-step guidance, insightful case studies, learning activities, and by addressing commonly asked questions from nurses and nursing students. The book has three sections; the first starts with a simple model to help students practice a first reflection and explains how to use reflection as part of assessed work at university.

The second section focuses on reflecting in practice and finding the time to do it in busy work situations. The final section helps students to think more deeply about models and theories of reflection, to develop the skills they will need to pass the final year of their course. Essential reading for any nursing student new to reflective practice or registered nurse wanting to improve their reflective writing skills.

Innovative Strategies in Teaching Nursing - Emerson E. Ea, DNP, APRN-BC, CEN 2020-04-10

Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller. This innovative text delivers more than 40 evidence-based teaching strategies that educators can use to engage nursing students and enhance their learning in a variety of teaching environments. It provides a wealth of new teaching designs both novice and experienced faculty can use to inspire and motivate learners in the classroom through simulation, online, and in community or hospital settings. Strategies developed by leading clinical nursing and health educators characterize nursing education as a dynamic and highly specialized field that stems from meaningful interactions between learners and educators. For ease of comparison, each practical teaching strategy is organized in a consistent format to include student-centered competencies and nursing education accreditation standards. The text also provides a template and a step-by-step guide on how to customize the strategies to fit the needs of learners and educators. The designs include an emphasis on applications of technologically enhanced innovations in nursing education, interdisciplinary collaboration, and the use of the humanities and art. This text answers the ongoing call for interprofessional education necessary to prepare the next generation of expert nurses in the rapidly changing environment of healthcare. Key Features: Evidence-based research used in the development of each teaching strategy Groundbreaking practices in a variety of environments will challenge the discipline and spark additional innovations throughout nursing Each chapter provides optimal learning outcomes and teaching objectives, preparation resources, modules of implementation, methods to evaluate the effectiveness of each strategy, outlined limitations, and accreditation standards Instructor's Manual included

Nurses Reflection Diary - Jane Coombs 2015-09-19

Nurses Reflective Diary for Revalidation From 2016 all nurses and midwives who practice in the UK will need to undergo a system of revalidation. One part of the revalidation process will be for nurses and midwives to contemplate five instances of their nursing practice that link to the nurses national code of practice. And, from that reflection, consider ways of improving their professional practice. Diary and Workbook for Nurses This workbook provides a framework to first describe the incident, then link the incident to the Code of Practice, and finally show how the incident could be improved further. After five

reflections and for your next revalidation, you can ask your professional nurse supervisor to sign the workbook template, indicating they have seen and approved your reflective diary. This signed document is scanned or copied and inserted into your continuing professional development (CPD) portfolio. Never Search for Piece of Paper Again The workbook for reflection is designed for a revalidation's, which covers a period of over 10 years. Now nurses will be able to show their professionalism and development in one simple, easy to use, easy to keep and find dairy and workbook. There is also references and website links for further advice; but the real beauty is that this nurse reflection diary is a stand alone document to keep with you for the next 12 years of your practice as a nurse or midwife.

Evaluation Beyond Exams in Nursing Education - Robin Dennison 2014-07-29
Print+CourseSmart

Continuing Professional Development in Nursing - Francis M. Quinn 1998

Tabbner's Nursing Care - Gabby Koutoukidis 2012-10

A vital member of the health care team, the contemporary enrolled nurse faces increasing challenges and an increasing level of responsibility. Written specifically for Australian and New Zealand enrolled nurse students, this long awaited new edition reflects the changes and challenges in contemporary enrolled nurse practice as well as the additions and modifications that are occurring in nursing curricula. Tabbner's Nursing Care: Theory and Practice 5th edition has been written, reviewed and edited by the people who educate the enrolled nurse and continues to provide enrolled nurse students with the most comprehensive resource available.

Reflective Writing - Kate Williams 2020-05-09

Packed with practical advice, this concise guide explains what reflective writing is and how to approach it. It equips students with all the key information and strategies they need to develop an appropriate reflective writing style, whatever their subject area. Annotated examples from a range of disciplines and contexts show students how to put these tips into practice. It concludes with a section on applying reflective practices to personal development and career planning. This handy guide is an indispensable resource for students of all disciplines and levels, who are required to develop and demonstrate reflective qualities in their work. It will be particularly useful to students writing reflective logs on placements. New to this Edition: - Contains more content on the value and importance of reflection in other life contexts, so that students can appreciate its relevance from an early stage; - Features a short overview of academic writing genres, to help students make connections between reflective writing and other forms of academic writing with which they are already familiar - Covers alternative ways of capturing reflection, such as free-writing, blogs/vlogs and other technologies - Includes new examples which show how students have re-worked their initial drafts to produce a better, more appropriate response

Reflective Practice in Nursing - Chris Bulman 2013-01-10

From reviews of previous editions: 'This excellent book provides useful guidance on the use of reflection in practice.... a helpful addition to any nursing library.' Primary Health Care '...an excellent investment in any nurses' library portfolio.' Journal of Advanced Nursing 'An extremely welcome addition to nursing's literature on thoughtful, knowledgeable practice.' Nursing Times 'This is an excellent practical guide to reflective practice...I would highly recommend this book to all practiteteachers and students.' Journal of Practice Nursing The ability to reflect on practice has become a competency demanded of every healthcare professional in recent years. It can be a daunting prospect- but this practical and accessible text guides the

way, using the latest research and evidence to support the development of skills in reflective practice and provides help and advice on how to get started, how to write reflectively and how to continue to use reflective practice in everyday situations. This fifth edition of Reflective Practice in Nursing is an indispensable guide for students and practitioners alike who wish to learn more about reflective practice, as well as containing essential information for teachers and lecturers.

Teaching in Nursing - Diane M. Billings 2015-12-01

Set yourself up for success as a nurse educator with the award-winning Teaching in Nursing: A Guide for Faculty, 5th Edition. Recommended by the NLN for comprehensive CNE prep, this insightful text is the only one of its kind to cover all three components of teaching: instruction, curriculum, and evaluation. As it walks through the day-to-day challenges of teaching, readers will benefit from its expert guidance on key issues, such as curriculum and test development, diverse learning styles, the redesign of healthcare systems, and advancements in technology and information. This new edition contains all the helpful narrative that earned this title an AJN Book of the Year award, along with updated information on technology-empowered learning, the flipped classroom, interprofessional collaborative practice, and much more. Coverage of concept-based curricula includes strategies on how to approach and implement concept-based lessons. Extensive information on online education discusses the use of webinars and other practical guidance for effective online instruction. Evidence-based teaching boxes cover issues, such as: how to do evidence-based teaching; applications of evidence-based teaching; implications for faculty development, administration, and the institution; and how to use the open-ended application questions at the end of each chapter for faculty-guided discussion. Strategies to promote critical thinking and active learning are incorporated throughout the text, highlighting various evaluation techniques, lesson planning insights, and tips for developing examinations. Updated research and references address forward-thinking approaches to education and trends for the future. Guidance on teaching in diverse settings addresses topics such as the models of clinical teaching, teaching in interdisciplinary settings, how to evaluate students in the clinical setting, and how to adapt teaching for community-based practice. Strong focus on practical content - including extensive coverage of curriculum development - equips future educators to handle the daily challenges and opportunities of teaching. NEW! Chapter on Interprofessional Education and Collaborative Practice focuses on the collaboration of care across patient care providers, emphasizing clear communication and shared patient outcomes. NEW! Renamed unit on Curriculum as a Process better reflects the latest QSEN competencies and other leading national standards. NEW! Renamed unit on Technology-Empowered Learning covers the use of technology for learning - including non-traditional course formats, active learning, flipped classrooms, and more.

Annual Review of Nursing Education, Volume 2 - Kathleen T. Heinrich 2004

Reflective Teaching and Learning in the Health Professions - David Kember 2008-04-15

This book deals with the nature of professional education and the need to produce professionals who are capable of reflection upon practice. It derives comprehensive guidelines for developing curricula and teaching methods that encourage reflective thinking. It is heavily research-based and the multiprofessional approach is unique to this subject matter. It will appeal to educators in all health science disciplines. The book includes an introduction to the concepts of reflection and reflective thinking and describes action research methodology used to carry out this study. Findings are presented in the form of case studies and the conclusions drawn are considered in the context of practical implementation.

Tabbner's Nursing Care - E-Book - Gabby Koutoukidis 2012-11-15

A vital member of the health care team, the contemporary enrolled nurse faces increasing challenges and an increasing level of responsibility. Written specifically for Australian and New Zealand enrolled nurse students, this long awaited new edition reflects the changes and challenges in contemporary enrolled nurse practice as well as the additions and modifications that are occurring in nursing curricula. Effective Learning and Teaching of Writing - Gert Rijlaarsdam 2007-11-23

Effective Learning and Teaching of Writing is a handbook on research on the effective teaching and learning of writing. It is a reference for researchers and educators in the domain of written composition in education. Effective Learning and Teaching of Writing covers all age ranges and school settings and it deals with various aspects of writing and text types. Research methodology varies from experimental studies to reflective classroom practitioners' research. This new volume in the series Studies in Writing brings together researchers from all kinds of disciplines involved in writing research and countries in their endeavour to improve the teaching of written composition. It is the result of co-operation of researchers all over the world and shows that in spite of the differences in educational regions over the world, research in writing shares similar problems, and tries to find answers, and generate new questions. The body of knowledge in this volume will inspire researchers and teachers to improve research and practice.

Nursing Education in the Clinical Setting - Roberta J. Emerson 2006-09-19

2007 AJN Book of the Year Award Winner Nursing Education in the Clinical Setting provides a practical approach to clinical nursing instruction. Although grounded in adult learning theory, this unique resource provides practical suggestions and addresses common questions and issues. The text incorporates illustrative scenarios, discussion questions, and reflection exercises designed to facilitate thoughtful application of the content. Addresses the role transition for a nurse with clinical expertise to that of clinical nursing instructor. Provides important tips for effectively appraising student performance such as student involvement in self-evaluation and goal setting, and suggestions for how evaluation and appraisal are shared with the student. Incorporates sample scenarios to illustrate concepts and allow the reader to apply them. Integrates discussion questions and exercises designed to facilitate thoughtful application and critical thinking skills. Addresses all aspects of learning, including "cognitive" (e.g., critical thinking), "affective" (e.g., caring), and "psychomotor" (e.g., technical skills). Provides actual examples of tools to be used for documenting student performance and approaches for stimulating student involvement and critical thinking. Includes a separate chapter on Clinical Faculty as Clinical Coach that discusses how learning is facilitated in the clinical setting with the guidance of an effective teacher. Features a Clinical Toolbox that contains a variety of supplemental resources, including sample approaches for teaching and evaluation, suggestions for preparing anecdotal notes, and relevant reference material. Incorporates issues related to computer access of patient data banks for students, and the federal regulations mandated by HIPAA and their clinical education implications.

Transforming Nursing Education Through Problem-based Learning - Elizabeth Rideout 2001

With the growing interest in problem-based learning among nurse educators worldwide comes the need for a book that will be a comprehensive guide and resource for anyone considering its implementation in nursing education. This book is that resource. Its strength is its integration of relevant theory, research, and practical information. It is an invaluable resource for nursing faculty contemplating the use of the problem-based learning model.

Essentials for Nursing Practice - E-Book - Patricia A. Potter 2018-03-12

Get a solid foundation in essential nursing principles, concepts, and skills! Essentials for Nursing Practice, 9th Edition combines everything you need from your fundamentals course and streamlines it into a format that's perfect for busy nursing students. The ninth edition retains many classic features, including chapter case studies, procedural guidelines, and special considerations for various age groups, along with new content including a chapter on Complementary and Alternative Therapies, interactive clinical case studies on Evolve, a new Reflective Learning section, and QSEN activities to encourage active learning. Thoroughly reviewed by nursing clinical experts and educators, this new edition ensures you learn nursing Essentials with the most accurate, up-to-date, and easy-to-understand book on the market. Progressive case studies are introduced at the beginning of the chapter and are then used to tie together the care plan, concept map, and clinical decision-making exercises. Focused Patient Assessment tables include actual questions to help you learn how to effectively phrase questions to patients as well as target physical assessment techniques. Nursing skills at the end of each chapter feature full-bleed coloring on the edge of the page to make them easy to locate. Safety guidelines for nursing skills sections precede each skills section to help you focus on safe and effective skills performance. Detailed care plans in the text and on Evolve demonstrate the application of the 5-step nursing process to individual patient problems to help you

understand how a plan is developed and how to evaluate care. Unexpected outcomes and related interventions for skills alert you to possible problems and appropriate nursing action. Patient Teaching boxes help you plan effective teaching by first identifying an outcome, then developing strategies on how to teach, and finally, implementing measures to evaluate learning. Care of the Older Adult boxes highlight key aspects of nursing assessment and care for this growing population. Key points neatly summarize the most important content for each chapter to help you review and evaluate learning. Evidence-Based Practice boxes include a PICO question, summary of the results of a research study, and a F description of how the study has affected nursing practice — in every chapter. Patient-Centered Care boxes address racial and ethnic diversity along with the cultural differences that impact socioeconomic status, values, geography, and religion. 65 Skills and procedural guidelines provide clear, step-by-step instructions for providing safe nursing care. 5-step nursing process provides a consistent framework for clinical chapters. Concept maps visually demonstrate planning care for patients with multiple diagnoses. NOC outcomes, NIC interventions, and NANDA diagnoses are incorporated in care plans to reflect the standard used by institutions nationwide.

Community Health Nursing - Karen Saucier Lundy 2009

Historically, community health nursing has responded to the changing health care needs of the community and continues to meet those needs in a variety of diverse roles and settings. Community Health Nursing: Caring for the Public's Health, Second Edition reflects this response and is representative of what communities signify in the United States—a unified society made up of many different populations and unique health perspectives. This text provides an emphasis on population-based nursing directed toward health promotion and primary prevention in the community. It is both community-based and community-focused, reflecting the current dynamics of the health care system. The Second Edition contains new chapters on disaster nursing and community collaborations during emergencies. The chapters covering Family health, ethics, mental health, and pediatric nursing have all been significantly revised and updated. *Teaching in Nursing and Role of the Educator, Second Edition* - Marilyn H. Oermann, PhD, RN, ANEF, FAAN 2017-08-28

With essential, updated content for novice and experienced nurse educators This evidence-based text delivers the full scope of knowledge necessary for novice and experienced faculty to become competent teachers in nursing. The only book to focus on the full academic role, it encompasses all of the key concepts required for effective teaching, curriculum development, evaluation and testing, becoming a scholar in nursing education, and much more. The second edition is updated throughout and includes four new chapters on Understanding the Learner, Interprofessional Education, Curriculum Models, and Global Nursing Education. It offers new content on role of the nurse educator, learning theories, active learning, flipped class/team-based learning, teaching strategies, teaching in an online nursing course, using new technologies and simulation, clinical teaching and evaluation, test construction, scholarship of teaching, and more. Chapters begin with objectives and conclude with a content summary. Each chapter integrates research and evidence into the text and includes specific examples of the methods and strategies presented, and 'How-to Tips' for readers. Also available with the book is an online course with sample course syllabus, modules for each chapter, learner activities, discussion forum questions, and Power Point slides. New to the Second Edition: Four new chapters: Understanding the Learner, Interprofessional Education, Curriculum Models, and Global Nursing Education Learning concepts important in teaching Active learning strategies, flipped class/team-based learning Teaching in online nursing courses and programs New technologies and what's new in simulation Innovative models of clinical teaching Assessment, evaluation, and test construction Curriculum development and evaluation Scholarship of teaching and becoming a scholar in nursing education Developing partnerships with clinical settings New ancillary with complete online course of 20 modules Key Features: Encompasses current, evidence-based information about the complete academic role—the only text of its kind Delivers key concepts required for effective teaching, curriculum development, evaluation and testing, scholarship, and more Prepares graduate nursing students and nurses transitioning into educator role with essential knowledge and competencies Includes both theoretical and practical information Provides specific examples of content and "how to" tips

Infusion Nursing - Infusion Nurses Society 2009-05-08

With a new focus on evidence-based practice, the 3rd edition of this authoritative reference covers every aspect of infusion therapy and can be applied to any clinical setting. Completely updated content brings you the latest advances in equipment, technology, best practices, guidelines, and patient safety. Other key topics include quality management, ethical and legal issues, patient education, and financial considerations. Ideal as a practical clinical reference, this essential guide is also a perfect review tool for the CRNI examination. Authored by the Infusion Nurses Society, this highly respected reference sets the standard for infusion nursing practice. Coverage of all 9 core areas of INS certification makes this a valuable review resource for the examination. Material progresses from basic to advanced to help new practitioners build a solid foundation of knowledge before moving on to more advanced topics. Each chapter focuses on a single topic and can serve as a stand-alone reference for busy nursing professionals. Expanded coverage of infusion therapy equipment, product selection, and evaluation help you provide safe, effective care. A separate chapter on infusion therapy across the continuum offers valuable guidance for treating patients with infusion therapy needs in outpatient, long-term, and home-care, as well as hospice and ambulatory care centers. Extensive information on specialties addresses key areas such as oncology, pain management, blood components, and parenteral nutrition. An evidence-based approach and new Focus on Evidence boxes throughout the book emphasize the importance of research in achieving the best possible patient outcomes. The user-friendly design highlights essential information in handy boxes, tables, and lists for quick access. Completely updated coverage ensures you are using the most current infusion therapy guidelines available.

Teaching Technologies in Nursing & the Health Professions - Dr. Wanda Bonnel, PhD, RN 2010-04-20

"This is an excellent resource, highly recommended for new and seasoned educators at every level." -- Nursing Education Perspectives Health information technology is now the top priority for improving nursing and health care by informing clinical care, interconnecting clinicians, personalizing care, and improving population health at large. This book presents a broad range of cutting-edge teaching technologies and a detailed overview of teaching and learning pedagogical concepts that are relevant across a variety of teaching environments. Helpful to both new and seasoned educators, these "must-know" strategies allow faculty to keep pace with the rapidly changing digital world. The book helps to guide faculty in making thoughtful, informed decisions on how and where to integrate technology into learning environments. A major feature of this book is the Integrated Learning Triangle for Teaching with Technologies, a faculty tool to help determine if and how specific technologies can promote student learning. Other important chapter pedagogy includes best teaching practices, teaching and learning self-assessment tools, useful tips for faculty such as "making teaching easier," and reflective questions and activities for the reader. Key Topics: Using cutting-edge technologies as tools for "active learning," such as automated response systems, clickers, podcasts, blogs, wikis, web-based modules, and more Expanding faculty and student technology skills and information literacy-a critical competency in all nursing programs Using the Internet and digital videos to help bridge the classroom with the clinical setting Reflecting on how technology impacts current communication systems Incorporating simulation into students' clinical learning experiences Promoting self-directed, lifelong learning through health information technology *Teaching in Nursing and Role of the Educator, Third Edition* - Marilyn H. Oermann, PhD, RN, ANEF, FAAN 2021-02-04

All the information you need in one textbook! This all-inclusive text for Nurse Educators delivers comprehensive, evidence-based guidance on the essential components of teaching, including learning theories, teaching methods, new technologies for teaching, curriculum development, evaluation and testing, and accreditation. Essential Communication Skills for Nursing - Philippa Sully 2005

This book focusses on the communication skills needed for the development of effective professional and therapeutic relationships. [...] It relates the theory of effective and ethical communication to the practice of nursing and provides a framework for developing communication skills to meet a variety of nursing situations. [Ed.]

Contexts of Nursing - John Daly 2009

Contexts of Nursing 3e builds on the strengths of previous editions and continues to provide nursing students with comprehensive coverage of core ideas and perspectives underpinning the practice of nursing. The new edition has been thoroughly revised and updated. New material on Cultural Awareness and Contemporary Approaches in Nursing has been introduced to reflect the realities of practice. Nursing themes are discussed and are supported by illustrated examples and evidence. Each chapter focuses on an area of study within the undergraduate nursing program and the new edition continues its dis

Teaching in Nursing and Role of the Educator - Rn Marilyn H Oermann Phd 2013-12-06

This all-inclusive text on teaching in nursing is by one of the pre-eminent nurse educators in the United States: Dr. Marilyn Oermann. The only book to focus on the full academic role, it is designed to provide graduate-level nursing students with all of the competencies essential for effective teaching. This evidence-based text encompasses both theoretical and practical information and includes content on teaching and learning, assessment and evaluation, curriculum development, using technology, teaching in simulation, learning lab and online courses, models for clinical teaching, scholarship and evidence-based education, and other components of the educator role.

Reflective Practice - Gillie Bolton 2010-02-25

Lecturers, why waste time waiting for the post to arrive? Request your e-inspection copy today! In the new third edition of this popular and highly readable book, the author draws on her considerable experience and extensive research to demonstrate a creative dynamic mode of reflection and reflexivity. Using expressive and explorative writing combined with in-depth group work/mentoring alongside appropriate focussed research, it enables critical yet sensitive examinations of practice. Gillie offers a searching and thorough approach which increases student and professional motivation, satisfaction, and deep levels of learning. She clearly explains reflection; reflexivity; narrative; metaphor, and complexity, and grounds the literary and artistic methods in educational theory and values. Clear step-by-step practical methods are given for every aspect of the process. New to this edition are: A chapter presenting different ways of undertaking and facilitating reflective practice Further international coverage, including material from Australia, New Zealand and the United States. The Third Edition also includes: An annotated glossary explaining key terms End-of-chapter activities and exercises Suggested further reading, and clear guides on chapter contents and how to use the book. Companion website www.uk.sagepub.com/bolton An accompanying companion website includes a range of free additional materials for lecturers and students to use in tutorials and for independent study, including discussion, workshop exercises, glossary and online readings. The methods are appropriate to, and used worldwide by, students and professionals across education; medicine and

healthcare; clinical psychology; therapy; social work; pastoral care; counselling; police; business management; organisational consultancy; leadership training.

Professional Nursing Concepts - Anita Finkelman 2014-12-03

Professional Nursing Concepts: Competencies for Quality Leadership, Third Edition takes a patient-centered, traditional approach to the topic of nursing education. An ideal text for teaching students how to transition from the classroom to practice, it focuses on the core competencies for health professionals as determined by the Institute of Medicine (IOM). Completely updated and revised, the new edition

incorporates the latest findings from the IOM's Future of Nursing report. New to this edition is a chapter on success in a nursing education program, more case studies throughout, a new electronic reflection journal activity in each chapter, and new appendices on quality improvement (QI), staffing and a healthy work environment, and getting the right position.
