Cal does not want to sit stoney-still reading some chicken scratch. But that Book Woman keeps coming just the same. She comes in the rain. She comes in the snow. She comes right up the side of the mountain, and Cal knows that's not easy riding. And all just to lend his sister some books. Why, that woman must be plain foolish—or is she braver than he ever thought? *That Book Woman* is a rare and moving tale that honors a special part of American history—the Pack Horse Librarians, who helped untold numbers of children see the stories amid the chicken scratch, and thus made them into lifetime readers.

They learn at different rates and in different ways. And they all come together in our academically diverse classrooms. Written as a practical guide for teachers, this expanded third edition of Carol Ann Tomlinson's groundbreaking work covers the fundamentals of differentiation and provides additional guidelines and new strategies for how to go about it. You'll learn - What differentiation is and why it's essential - How to set up the flexible and supportive learning environment that promotes success - How to manage a differentiated classroom - How to plan lessons differentiated by readiness, interest, and learning profile - How to differentiate content, process, and products - How to prepare students, parents, and yourself for the challenge of differentiation First published in 1995 as *How to Differentiate Instruction in Mixed-Ability Classrooms*, this new edition reflects evolving best practices in education, the experiences of practitioners throughout the United States and around the world, and Tomlinson's continuing thinking about how to help each and every student access challenging, high-quality curriculum; engage in meaning-rich learning experiences; and feel at home in a school environment that "fits."/p>
