**Texts Of Desire** - Linda K. Christian-Smith  
2014-01-14

Popular fiction continues to be the object of both academic and political interest as educators seek to understand the role literacy plays in constructing gender, class, race, ethnic, sexual, age and national subjectivities of young women. Popular fiction represents both ideological closure and utopian possibilities. Nowhere are these double-edged qualities more evident than in popular teen romance fiction. *Texts of Desire* examines stories in which desire, fantasy, politics and economics are intertwined with literacy, femininities and schooling. It focuses on the role of teen romance and other popular fiction in the construction and reconstruction of femininities internationally. These texts, many of which focus on girls' first love experiences, have stunned the publishing world with their record sales and international readership in little over ten years. Developed in the United States amid the conservative political Reaganism, teen romance fiction condenses and articulates the long-standing fears and resentments of conservative groups regarding feminism, and women's growing independence and political power. *Texts of Desire* is a stimulating collection of essays which draw on multidisciplinary approaches from cultural studies and feminist theories, psychoanalysis, semiotics, reader research, and critical theory. Internationally recognised researchers explore the complexity of the worldwide teen romance novel phenomenon, and the political character of women's schooling and literacies.

**The Politics of Pleasure in Sexuality Education** - Louisa Allen 2013-12-17

Pleasure and desire have been important components of the vision for sexuality education for over 20 years. This book argues that there has been a lack of scrutiny over the political motivations that underpin research supportive of pleasure and desire within comprehensive sexuality education. In this volume, key researchers in the field consider how discourses related to pleasure and desire have been taken up internationally. They argue that sexuality education is clearly shaped by specific cultural and political contexts, and examine how these contexts have shaped the development of pleasure's inclusion in such programs. Via such discussions, this volume incites a re-configuration of thought regarding sexuality education's approach to pleasure and desire.

**Sensational Sex in 7 Easy Steps** - Ridwan

Shabsigh, M.D. 2007-03-06

A leading clinician and researcher in the growing field of sexual medicine explains the connection between a man's sexual function and overall health—and delivers a 7-step action plan for him to enjoy sexual intimacy over his entire life. As director of the New York Center for Human Sexuality at New York Presbyterian Hospital, Dr. Ridwan Shabsigh treats thousands of patients with sexual dysfunctions. His more than 16 years of practice and trailblazing research at Columbia University have confirmed that health is intimately connected to sexual function and that the only way to treat declines in sexual desire, performance, and satisfaction is within the context of men's and couples' health. Now Dr. Shabsigh brings his expert recommendations to the public in this book. Refusing to accept that sexual dysfunction is the inevitable consequence of aging, he lays out a 7-step program to help all men improve their sexual relations—and their health. The book contains: • a self-test that assesses the reader's health, sexual satisfaction, and risk for sexual dysfunction • information on how medical conditions such as obesity, diabetes, cardiovascular disease, and depression affect a man's sex life—and how sexual dysfunction is the first warning sign of serious illness • recommendations for improving lifestyle choices that cause sexual problems and comprehensive approaches to treating any sexual dysfunction. The result is a book that helps every man achieve a lifetime of better sex and optimum health.

*Closer To Fine* - Meri Weiss 2014-11-19

Growing up, Alexandra and her older brother Ashley were never close. Her decision to move in to Ashley's Upper West Side apartment to care for him during his final months surprises herself as much as anyone, but it can't erase the guilt Alex feels at the years they wasted. As for normal—only with her roommate and best friend Jordy and their gay

friend Jax can she feel anything close to that. Then Alex's therapist, Sam, bequeaths her a cryptic message that changes everything. The note reads simply, "You're missing a piece of yourself." At Sam's funeral, Alex meets Tucker--the charming, cute son of one of New York's wealthiest businessmen. As their romance deepens, Tucker tries to draw Alex out of her safety zone. **Sex Robots** - Ruiping Fan 2021-11-03

This book provides cross-cultural ethical exploration of sex robots and their social impact. What are the implications of sex robots and related technological innovations for society and culture? How should we evaluate the significance of sexual relations with robots that look like women, men or children? Critics argue that sex robots present a clear risk to real persons and a social degradation that will increase sexual violence, objectify women, encourage pedophilia, reinforce negative body images, increase forms of sexual dysfunction, and pass on sexually transmitted disease. Proponents judge robotic sexual companionship as just another step in the exploration of human desire. They see sex robots, and similar technology, such as virtual reality pornography, as providing autonomy affirming companionship for the lonely and a relatively harmless outlet for sexual fantasies that avoids the use of human prostitutes and thus reduces sexual victimization. Some appreciate sex robots as a social evil, others as a positive good, and still others as a harmless pastime. How we come to terms with such conceptual and moral concerns will have significant implications for society and the future of human relations. This book is of great interest to researchers in bioethics, human sexual behavior, AI ethics, and philosophy of sex.

**The Mating Game** - Ellen Lamont 2020-02-18

Despite enormous changes in patterns of dating and courtship in twenty-first-century America, contemporary understandings of romance and intimacy remain firmly rooted in age-old assumptions of gender difference. These

Through interviews with heterosexual and LGBTQ individuals, Ellen Lamont's *The Mating Game* explores how people with diverse sexualities and gender identities date, form romantic relationships, and make decisions about future commitments as they negotiate uncertain terrain fraught with competing messages about gender, sexuality, and intimacy.

*Mucho Macho* - Chris Girman 2013-12-16

Quality research—uniquely enhanced by the author’s personal experience! In one of the first books to examine machismo from the perspective of Latin American and Latino men, Chris Girman relies on a compelling combination of ethnographic research and personal experience to explain how macho men—men like the author himself—regulate and sustain same-sex erotic encounters. Girman incorporates his own sexual experiences with a variety of Latin men into the book, infusing his writing with the unique perspective and vivid description that can only be related by someone who has lived the research he writes about. While most of the

literature on Latin American male same-sex desire ignores the significance of the male body in its investigation, this book shows why it is essential to focus on the macho male body and re-evaluates so-called “machismo” to forge a more nuanced description of Latin American masculinity. Girman incorporates his own sexual experiences with a variety of Latin American men into the book, infusing his writing with the unique perspective and vivid descriptions that can only be related by someone who has lived the research he writes about. With this book, you’ll become familiar with various kinds of Latin-American homosexual behavior. Here’s a glimpse at what you’ll find inside: “Machismo, Practice Theorists, and Macho Performance” summarizes previous research on Latin American male [homo]sexuality and defines the author’s concept of machismo and Latin American masculinity. “Head, Hands, Balls, and Ass” shows why focusing on the body as living matter, rather than metaphor (as is done in so many other books on sexuality), is the ideal point of entry into the study of Latin American male [homo]sexuality and masculinity. This chapter focuses on specific regions of the macho body—head, hands, balls, and ass—to explain how machismo actually promotes, rather than denies, sexual encounters between men. It also shows the importance of the Latin American family as a variable that structures the manner and frequency in which [homo]sexual encounters occur. “The Dominican Tiguere and Hegemonic Masculinities” takes a specific look at a very peculiar form of hegemonic masculinity—relying on cunning more than strength to “come out on top”—that is indigenous to the Dominican Republic. This chapter also tells the stories of five of the author’s sexual encounters in that nation and discusses the tiguere style of masculine performance. “Desire in a Costa Rican Prison” analyzes the ways in which desire, power, and pleasure are constituted in the Latin American prison environment. “Historical Representations of Same-Sex Desire” examines two short stories—El Matadero (Esteban Echeverria) and Comienza el Desfile (Reinaldo Arenas), which highlight male eroticism as important concepts within discourses on national identity. Both stories conceptualize same-sex desire within specific historical

moments and demonstrate how male [homo]sexuality emerges and represents itself not in contrast to the dominant discourse, but within that discourse itself. "Familiar, Familial Voices: Latino Men Speak Out" documents the voices of "gay-identified" Latino men living in Central Texas—men who have come to love other Latin, Black, and Anglo men in the context of very full lives. These men reveal their conceptions of identity, race, performance, resistance, family, pleasure, desire, masculinity, silence, and place. "Performing Matter[s]- Masculinity, the Male Body, and the Evocation of the [non]real" defies the notion that written representations can capture the lived realities of

**Think Like a Feminist: The Philosophy Behind the Revolution** - Carol Hay 2020-09-01  
An audacious and accessible guide to feminist philosophy—its origins, its key ideas, and its latest directions. Think Like a Feminist is an irreverent yet rigorous primer that unpacks over two hundred years of feminist thought. In a time when the word feminism triggers all sorts of responses, many of them conflicting and misinformed, Professor Carol Hay provides this balanced, clarifying, and inspiring examination of what it truly means to be a feminist today. She takes the reader from conceptual questions of sex, gender, intersectionality, and oppression to the practicalities of talking to children, navigating consent, and fighting for adequate space on public transit, without deviating from her clear, accessible, conversational tone. Think Like a Feminist is equally a feminist starter kit and an advanced refresher course, connecting longstanding controversies to today's headlines. Think Like a Feminist takes on many of the essential questions that feminism has risen up to answer: Is it nature or nurture that's responsible for our gender roles and identities? How is sexism connected to racism, classism, homophobia, transphobia, and other forms of oppression? Who counts as a woman, and who gets to decide? Why have men gotten away with rape and other forms of sexual violence for so long? What responsibility do women themselves bear for maintaining sexism? What, if anything, can we do to make society respond to women's needs and desires? Ferocious, insightful, practical, and unapologetically opinionated, Think Like a Feminist is the perfect book for

anyone who wants to understand the continuing effects of misogyny in society. By exploring the philosophy underlying the feminist movement, Carol Hay brings today's feminism into focus, so we can deliberately shape the feminist future.

Christians under Covers - Kelsy Burke 2016-02-09

Christians under Covers shifts how scholars and popular media talk about religious conservatives and sex. Moving away from debates over

homosexuality, premarital sex, and other perceived sexual sins, Kelsy Burke examines Christian sexuality websites to show how some evangelical Christians use digital media to promote the idea that God wants married, heterosexual couples to have satisfying sex lives. These evangelicals maintain their religious beliefs while incorporating feminist and queer language into their talk of sexuality—encouraging sexual knowledge, emphasizing women’s pleasure, and justifying marginal sexual practices within Christian marriages. This illuminating ethnography complicates the boundaries between normal and subversive, empowered and oppressed, and sacred and profane.

**Affective Sexual Pedagogies in Film and Television** - Kyra Clarke 2017-02-17

Popular film and television hold valuable potential for learning about sex and sexuality beyond the information-based model of sex education currently in schools. This book argues that the representation of complicated—or "messy"—relationships in these popular cultural forms makes them potent as affective pedagogical moments. It endeavours to develop new sexual literacies by contemplating how pedagogical moments, that is, fleeting moments which disrupt expectations or create discomfort, might enrich the available discourses of sexuality and gender, especially those available to adolescents. In Part One, Clarke critiques the heteronormative discourses of sex education that produce youth in particularly gendered ways, noting that "rationality" is often expected to govern experiences that are embodied and arguably inherently incoherent. Part Two explores public intimacy, contemplating the often overlapping and confused boundaries between public and private.

Encounter with Tiber - Buzz Aldrin 2013-05-28

An Apollo 11 astronaut and the Nebula Award-nominated author of *Directive 51* present a novel that “conveys the wonder and promise of space” (Publishers Weekly). Born the year of the Moon landing, Chris Terence spends his life fighting to return humanity to that pinnacle. An engineering student with dreams of spaceflight, he finds upon graduation that the United States no longer has need for astronauts. Years of bureaucratic meddling have reduced the space

program to a shell of itself, and it will take the greatest scientific find in history to send humanity skyward once more. After years battling budget hawks, Chris finally gets his chance to walk on the Moon. While there, he finds evidence of an ancient alien civilization, the Tiberians, who visited Earth’s satellite eight thousand years before. Understanding what happened to those long-forgotten travelers will define the lives of Chris and his son, as they fight against all odds to unlock the secrets of the universe. “The collaboration of the first man to pilot a moon lander (Aldrin) with a major voice in contemporary science fiction (Barnes) has produced a fascinating chronicle of man’s first encounter with alien intelligence” (Booklist).

*Media-Ready Feminism and Everyday Sexism* - Andrea L. Press 2021-03-01

Unique empirically grounded analysis of how audiences negotiate sexism and feminism across media, from popular television shows to dating apps. Feminism can reflect the cultural moment, especially as media appropriate and use feminist

messaging and agenda to various ends. Yet media can also push boundaries, exposing audiences to ideas they may not be familiar with and advancing public acceptance of concepts once considered taboo. Moreover, audiences are far from passive recipients, especially in the digital age. In *Media-Ready Feminism and Everyday Sexism*, Andrea L. Press and Francesca Tripodi focus on how audiences across platforms not only consume but also create meanings—sometimes quite transgressive meanings—in engaging with media content. If television shows such as *Game of Thrones* and *Jersey Shore* and dating apps such as *Tinder* are sites of persistent everyday sexism, then so, too, are they sites of what Press and Tripodi call "media-ready feminism." In developing a sociologically based conception of reception that encompasses media's progressive potential, as well as the processes of domestication through which audiences and users revert to more limited cultural schemas, Press and Tripodi make a vital contribution to gender and media studies, and help to illuminate the complexity of our current moment. Andrea L. Press is William R. Kenan Jr. Professor of Media Studies and Sociology at the University of Virginia. Her books include *The Routledge Handbook of Contemporary Feminism* (coedited with Tasha Oren). Francesca Tripodi is Assistant Professor of Information and Library Science and Senior Researcher at the Center for Information Technology and Public Life at the University of North Carolina at Chapel Hill.

**Chinese Male Homosexualities** - Travis Kong  
2010-07-13

This book presents a groundbreaking exploration of masculinities and homosexualities amongst Chinese gay men. It provides a sociological account of masculinity, desire, sexuality, identity and citizenship in contemporary Chinese societies, and within the constellation of global culture. Kong reports the results of an extensive ethnographic study of contemporary Chinese gay men in a wide range of different locations including mainland China, Hong Kong and the Chinese overseas community in London, showing how Chinese gay men live their everyday lives. Relating Chinese male homosexuality to the extensive social and cultural theories on gender, sexuality and the

body, postcolonialism and globalisation, the book examines the idea of queer space and numerous 'queer flows' - of capital, bodies, ideas, images, and commodities - around the world. The book concludes that different gay male identities - such as the conspicuously consuming memba in Hong Kong, the urban tongzhi, the 'money boy' in China and the feminised 'golden boy' in London - emerge in different locations, and are all caught up in the transnational flow of queer cultures which are at once local and global.

**Boystown** - Jason Orne 2017-01-20

From neighborhoods as large as Chelsea or the Castro, to locales limited to a single club, like *The Shamrock* in Madison or *Sidewinders* in Albuquerque, gay areas are becoming normal. Straight people flood in. Gay people flee out. Scholars call this transformation assimilation, and some argue that we—gay and straight alike—are becoming "post-gay." Jason Orne argues that rather than post-gay, America is becoming "post-queer," losing the radical lessons of sex. In *Boystown*, Orne takes readers on a detailed, lively journey through Chicago's Boystown, which serves as a model for gayborhoods around the country. The neighborhood, he argues, has become an entertainment district—a gay Disneyland—where people get lost in the magic of the night and where straight white women can "go on safari." In their original form, though, gayborhoods like this one don't celebrate differences; they create them. By fostering a space outside the mainstream, gay spaces allow people to develop an alternative culture—a queer culture that celebrates sex. Orne spent three years doing fieldwork in Boystown, searching for ways to ask new questions about the connective power of sex and about what it means to be not just gay, but queer. The result is the striking *Boystown*, illustrated throughout with street photography by Dylan Stuckey. In the dark backrooms of raunchy clubs where bachelorettes wouldn't dare tread, people are hooking up and forging "naked intimacy." Orne is your tour guide to the real Boystown, then, where sex functions as a vital center and an antidote to assimilation.

Radical Records (Routledge Revivals) - Bob Cant  
2010-07-19

The period between the publication in 1957 of the liberalising Wolfenden Report and the introduction in 1987 of the homophobic Section 28 was characterised by unprecedented optimism and political activism among lesbians and gay men in Britain. But the law and its shortcomings never determined their whole political and cultural agenda and *Radical Records* explores the diverse and sometimes conflicting attempts of lesbian and gay people to build a new world for themselves and those they

loved. The contributors recount their own personal narratives of how they struggled to re-define their identities, to explore non-traditional expressions of intimacy, to reclaim public spaces, to engage with the HIV epidemic, to build alliances and, generally, to make radical transformations of their lives. The re-issue of this important work, first published in 1988, gives its readers an opportunity to re-visit that turbulent time through the voices of its participants.
