Eyes wide shut, a screenplay - Stanley Kubrick 2000

Stanley Kubrick - Nathan Abrams 2018-04-19
Stanley Kubrick is generally acknowledged as one of the world's great directors. Yet few critics or scholars have considered how he emerged from a unique and vibrant cultural milieu: the New York Jewish intelligentsia. Stanley Kubrick reexamines the director's work in context of his ethnic and cultural origins. Focusing on several of Kubrick's key themes—including masculinity, ethical responsibility, and the nature of evil—it demonstrates how his films were in conversation with contemporary New York Jewish intellectuals who grappled with the same concerns. At the same time, it explores Kubrick's fraught relationship with his Jewish identity and his reluctance to be pegged as an ethnic director, manifest in his removal of Jewish references and characters from stories he adapted. As he digs deep into rare Kubrick archives to reveal insights about the director's life and times, film scholar Nathan Abrams also provides a nuanced account of Kubrick's cinematic artistry. Each chapter offers a detailed analysis of one of Kubrick's major films, including *Lolita*, *Dr. Strangelove*, *2001, A Clockwork Orange*, *Barry Lyndon*, *The Shining*, *Full Metal Jacket*, and *Eyes Wide Shut*. Stanley Kubrick thus presents an illuminating look at one of the twentieth century's most renowned and yet misunderstood directors.

Dispatches - Michael Herr 2011-11-30

"The best book to have been written about the Vietnam War" (The New York Times Book Review); an instant classic straight from the front lines. From its terrifying opening pages to its final eloquent words, *Dispatches* makes us see, in unforgettable and unflinching detail, the chaos and fervor of the war and the surreal insanity of life in that singular combat zone. Michael Herr's unsparing, unorthodox retellings of the day-to-day events in Vietnam take on the force of poetry, rendering clarity from one of the most incomprehensible and nightmarish events of our time. *Dispatches* is among the most blistering and compassionate accounts of war in our literature.

The Phantom Blooper - Gustav Hasford 1990
Vietnam soldier James "Joker" Davis is in hot pursuit of the Phantom Blooper--a renegade marine, or an American deserter, who leads patrols into enemy territory--until he comes face to face with the Viet Cong and sees how the other half lives

Stanley Kubrick - David Mikics 2020-08-18
An engrossing biography of one of the most influential filmmakers in cinematic history Kubrick grew up in the Bronx, a doctor's son. From a young age he was consumed by photography, chess, and, above all else, movies. He was a self-taught filmmaker and self-proclaimed outsider, and his films exist in a unique world of their own outside the Hollywood mainstream. Kubrick's Jewishness played a crucial role in his idea of himself as an outsider. Obsessed with rebellion against authority, war, and male violence, Kubrick was himself a calm, coolly masterful creator and a talkative, ever-curious polymath immersed in friends and

family. Drawing on interviews and new archival material, Mikics for the first time explores the personal side of Kubrick's films.

[The Complete Kubrick](#) - David Hughes

2013-05-31

With just thirteen feature films in half a century, Stanley Kubrick established himself as one of the most accomplished directors in motion picture history. Kubrick created a landmark and a benchmark with every film; working in almost every genre imaginable, including film noir, war movie, SF, horror, period drama, historical epic, love story and satire - yet transcended traditional genre boundaries with every shot.

Examining every feature film, from the early shorts through to classics such as *Paths of Glory*, *Dr Strangelove*, *2001: A Space Odyssey*, *A Clockwork Orange*, *The Shining*, *Full Metal Jacket* and finally, *Eyes Wide Shut*, *The Complete Kubrick* provides a unique insight into understanding the work of cinema's most enigmatic, iconoclastic and gifted auteur.

The Wolf at the Door - Associate Professor of History Geoffrey Cocks 2004

The Wolf at the Door explores the remarkable formal and substantive patterns of cinematic discourse on Germany and the Holocaust in Stanley Kubrick's films. It is the first book on Kubrick to place his cinema into the full context of his life and times - his Jewish past, early years spent under the shadows of fascism and war, and his 1957 marriage into a German family of artists and filmmakers - all provoked his deeply ambivalent preoccupation with the history of Nazi Germany and the Holocaust. *The Wolf at the Door* draws on intensive study of all of Kubrick's films, interviews with members of Kubrick's immediate family, and archival research in the United States, Germany, the Netherlands, Poland, and Israel.

On Kubrick - James Naremore 2019-07-25

On Kubrick provides an illuminating critical account of the films of Stanley Kubrick, from his earliest feature, *Fear and Desire* (1953), to the posthumously-produced *A.I. Artificial Intelligence* (Steven Spielberg, 2001). The book offers provocative analysis of each of Kubrick's films, together with new information about their production histories and cultural contexts. Its ultimate aim is to provide a concise yet thorough discussion that will be useful as both an

academic text and a trade publication. James Naremore argues that in several respects Kubrick was one of the cinema's last modernists: his taste and sensibility were shaped by the artistic culture of New York in the 1950s; he became a celebrated auteur who forged a distinctive style; he used art-cinema conventions in commercial productions; he challenged censorship regulations; and throughout his career he was preoccupied with one of the central themes of modernist art - the conflict between rationality and its ever-present shadow, the unconscious. War and science are key concerns in Kubrick's oeuvre, and his work has a hyper-masculine quality. Yet no director has more relentlessly emphasized the absurdity of combat, as in *Paths of Glory* (1957) and *Full Metal Jacket* (1987), the failure of scientific reasoning, as in *2001* (1968), and the fascistic impulses in masculine sexuality, as in *Dr Strangelove* (1964) and *Eyes Wide Shut* (1999). The book also argues that while Kubrick was a voracious intellectual and a life-long autodidact, the fascination of his work has less to do with the ideas it espouses than with the emotions it evokes. Often described as 'cool' or 'cold,' Kubrick is best understood as a skillful practitioner of what might be called the aesthetics of the grotesque; he employs extreme forms of caricature and black comedy to create disgusting, frightening yet also laughable images of the human body, creating a sense of unease that leaves viewers unsure of how to react.

[Hollywood's Stephen King](#) - T. Magistrale
2003-11-22

For the past three decades, Hollywood has faithfully adapted much of Stephen King's fiction into film. Of the many major films that have been made, not one has lost money. Part of this may be explained in terms of King's own popularity in American culture; he has been, after all, a best-selling writer since the late 1970s. But more interesting is what this cinematic fascination reveals about postmodern American culture. In the first overview of Hollywood's major cinematic interpretations of Stephen King, Tony Magistrale examines the various thematic, narrative, and character interconnections that highlight the relationships among his films. Opening with a revealing interview with Stephen King, the book takes us through chapters that explore such popular films as *Stand By Me*, *Misery*, *The Shining*, *The Green Mile*, and *The Shawshank Redemption* among others.

[Stanley Kubrick and the Art of Adaptation](#) - Greg Jenkins
2015-08-13

Paring a novel into a two-hour film is an arduous task for even the best screenwriters and directors. Often the resulting movies are far removed from the novel, sometimes to the point of being unrecognizable. Stanley Kubrick's adaptations have consistently been among the best Hollywood has to offer. Kubrick's film adaptations of three novels—*Lolita*, *The Shining* and *Full Metal Jacket*—are analyzed in this work. The primary focus is on the alterations in the characters and narrative structure, with additional attention to style, scope, pace, mood and meaning. Kubrick's adaptations simplify, impose a new visuality, reduce violence, and render the moral slant more conventional.

Kubrick, New and Expanded Edition -
Thomas Allen Nelson 2000

Stanley Kubrick ranks among the most important American film makers of his generation, but his work is often misunderstood because it is widely diverse in subject matter and seems to lack thematic and tonal consistency. Thomas Nelson's perceptive and comprehensive study of Kubrick rescues him from the hostility of auteurist critics and discovers the roots of a Kubrickian aesthetic, which Nelson defines as the "aesthetics of contingency." After analyzing how this aesthetic develops and manifests itself in the early works, Nelson devotes individual chapters to *Lolita*, *Dr. Strangelove*, *2001: A Space Odyssey*, *A Clockwork Orange*, *Barry Lyndon*, and *The Shining*. For this expanded edition, Nelson has added chapters on *Full Metal Jacket* and *Eyes Wide Shut*, and, in the wake of the director's death, reconsidered his body of work as a whole. By placing Kubrick in a historical and theoretical context, this study is a reliable guide into—and

out of—Stanley Kubrick's cinematic maze.

Stanley Kubrick - Vincent Lobrutto 1999-05-07

Stanley Kubrick, director of the acclaimed films *Path of Glory*, *Spartacus*, *Lolita*, *Dr. Strangelove*, *2001: Space Odyssey*. *A Clockwork Orange*, *The Shining*, and *Full Metal Jacket*, is arguably one of the greatest American filmmakers. Yet, despite being hailed as “a giant” by Orson Welles, little is known about the reclusive director. *Stanley Kubrick—the first full-length study of his life—is based on assiduous archival research as well as new interviews with friends, family, and colleagues.* Film scholar Vincent LoBBrutto provides a comprehensive portrait of the director, from his high school days, in the Bronx and his stint as a photographer for *Look* magazine, through the creation of his wide-ranging movies, including the long-awaited *Eyes Wide Shut*. The author provides behind-the-scenes details about writing, filming, financing, and reception of the director's entire output, paying close attention to the technical innovations and to his often contentious relationships with actors. This fascinating biography exposes the enigma that is Stanley Kubrick while placing him in context of film history.

The Seeing Century - 2021-10-25

The twentieth century, with all its turbulence and change, its conflicts and its discoveries was, perhaps above all, the century of cinema, and *The Seeing Century* offers an innovative, international, and interdisciplinary exploration of the role cinema plays in contemporary life and culture, and the complex and fascinating relationship between screen images and our changing concepts of personal and national identity. Rejecting the compartmentalisation that has traditionally marked film studies, and confronting an impressively eclectic range of material, fifteen essays by leading academics from around the world cut across ‘divergent’ cultures, languages, and genres: mainstream Hollywood rubs shoulders with low-budget Icelandic or Sicilian cinema, and the popular and the esoteric feature alongside each other. In this way, the reader is offered a stimulating overview which directly addresses the contradictions and ambiguities inherent in the relationship between film and identity, and reveals the vibrancy of contemporary film debate, to which *The Seeing Century* makes an important and thought-provoking contribution.

Combat Death in Contemporary American Culture - Agnieszka Soltysik Monnet 2020-12-16

Combat Death in Contemporary American Culture: Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II, with a particular focus on an emotionally charged but rarely scrutinized topic: combat death. Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks: melodrama, adventure, and horror. Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable. Horror no longer serves its traditional purpose of making the bloody realities of war repulsive, but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure. Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination.

Kubrick's Men - Richard Rambuss 2021-03-02

A provocative re-reading of Stanley Kubrick's work and its focus on masculine desire The work

of Stanley Kubrick amounts to a sustained reflection on the male condition: past, present, and future. The persistent theme of his filmmaking is less violence or sex than it is the pressurized exertion of masculinity in unusual or extreme circumstances, where it may be taxed or exaggerated to various effects, tragic and comic—or metamorphosed, distorted, and even undone. The stories that Kubrick's movies tell range from global nuclear politics to the unpredictable sexual dynamics of a marriage; from a day in the life of a New York City prizefighter preparing for a nighttime bout to the evolution of humankind. These male melodramas center on sociality and asociality. They feature male doubles, pairs, and rivals. They explore the romance of men and their machines, and men as machines. They figure intensely conflicted forms of male sexual desire. And they are also very much about male manners, style, taste, and art. Examining the formal, thematic, and theoretical affiliations between Kubrick's three bodies of work—his photographs, his documentaries, and his feature films—Kubrick's *Men* offers new vantages on to the question of gender and sexuality, including the first extended treatment of homosexuality in Kubrick's male-oriented work.

[Here's Looking at You](#) - Ernest D. Giglio 2010
Now in its third edition, *Here's Looking at You: Hollywood, Film and Politics* examines the tangled relationship between politics and Hollywood, which manifests itself in celebrity involvement in political campaigns and elections, and in the overt and covert political messages conveyed by Hollywood films. The book's findings contradict the film industry's assertion that it is simply in the entertainment business, and examines how, while the majority of Hollywood films are strictly commercial ventures, hundreds of movies - ranging from *Birth of a Nation* to *Capitalism* - do indeed contain political messages. This new edition has been updated with new photos and cartoons, and includes two new chapters, one on Afghan-Iraqi war films and the other on the treatment of race and gender in Hollywood films, that are sure to stimulate discussion. *Here's Looking at You* serves as a basic text for political film courses and as a supplement in American government and film studies courses, and will also appeal to

film buffs and people in the film industry.

Kubrick's Hope - Julian Rice 2008-09-29

There have been two common assumptions about Stanley Kubrick: that his films portray human beings who are driven exclusively by aggression and greed, and that he pessimistically rejected meaning in a contingent, postmodern world. However, as Kubrick himself remarked, 'A work of art should be always

exhilarating and never depressing, whatever its subject matter may be.' In this new interpretation of Kubrick's films, Julian Rice suggests that the director's work had a more positive outlook than most people credit him. And while other studies have recounted Kubrick's life and production histories, few have offered lucid explanations of specific sources and their influence on his films. In *Kubrick's Hope*, Rice explains how the theories of Freud and Jung took cinematic form, and also considers the significant impression left on the director's last six films by Robert Ardrey, Bruno Bettelheim, and Joseph Campbell. In addition to providing useful contexts, Rice offers close readings of the films, inviting readers to note details they may have missed and to interpret them in their own way. By refreshing their experience of the films and discarding postmodern clichés, viewers may discover more optimistic themes in the director's works. Beginning with *2001: A Space Odyssey* and continuing through *A Clockwork Orange*, *Barry Lyndon*, *The Shining*, *Full Metal Jacket*, and *Eyes Wide Shut*, Rice illuminates Kubrick's thinking at the time he made each film. Throughout, Rice examines the compelling political, psychological, and spiritual issues the director raises. As this book contends, if these works are considered together and repeatedly re-viewed, Kubrick's films may help viewers to personally grow and collectively endure.

Gender, Power, and Identity in The Films of Stanley Kubrick - Karen A. Ritzenhoff
2022-10-21

This volume features a set of thought-provoking and long overdue approaches to situating Stanley Kubrick's films in contemporary debates around gender, race, and age - with a focus on women's representations. Offering new historical and critical perspectives on Kubrick's cinema, the book asks how his work should be viewed bearing in mind issues of gender equality, sexual harassment, and abuse. The authors tackle issues such as Kubrick's at times questionable relationships with his actresses and former wives, the dynamics of power, misogyny and miscegenation in his films, and auteur 'apologism', among others. The selection delineates these complex contours of Kubrick's work by drawing on archival sources, engaging

in close readings of specific films, and exploring Kubrick through unorthodox venture points. With an interdisciplinary scope and social justice-centered focus, this book offers new perspectives on a well-established area of study. It will appeal to scholars and upper-level students of film studies, media studies, gender studies, and visual culture, as well as to fans of the director interested in revisiting his work with a new perspective.

The Philosophy of Stanley Kubrick - Jerold J. Abrams 2007-05-04

In the course of fifty years, director Stanley Kubrick produced some of the most haunting and indelible images on film. His films touch on a wide range of topics rife with questions about human life, behavior, and emotions: love and sex, war, crime, madness, social conditioning, and technology. Within this great variety of subject matter, Kubrick examines different sides of reality and unifies them into a rich philosophical vision that is similar to existentialism. Perhaps more than any other philosophical concept, existentialism -- the belief that philosophical truth has meaning only if it is chosen by the individual -- has come down from the ivory tower to influence popular culture at large. In virtually all of Kubrick's films, the protagonist finds himself or herself in opposition to a hard and uncaring world, whether the conflict arises in the natural world or in human institutions. Kubrick's war films (*Fear* and

Desire, Paths of Glory, Dr. Strangelove, and Full Metal Jacket) examine how humans deal with their worst fears -- especially the fear of death -- when facing the absurdity of war. Full Metal Jacket portrays a world of physical and moral change, with an environment in continual flux in which attempting to impose order can be dangerous. The film explores the tragic consequences of an unbending moral code in a constantly changing universe. Essays in the volume examine Kubrick's interest in morality and fate, revealing a Stoic philosophy at the center of many of his films. Several of the contributors find his oeuvre to be characterized by skepticism, irony, and unfettered hedonism. In such films as A Clockwork Orange and 2001: A Space Odyssey, Kubrick confronts the notion that we will struggle against our own scientific and technological innovations. Kubrick's films about the future posit that an active form of nihilism will allow humans to accept the emptiness of the world and push beyond it to form a free and creative view of humanity. Taken together, the essays in The Philosophy of Stanley Kubrick are an engaging look at the director's stark vision of a constantly changing moral and physical universe. They promise to add depth and complexity to the interpretation of Kubrick's signature films.

Full Metal Jacket - Stanley Kubrick 1987

Eyes Wide Shut - Michel Chion 2019-07-25

Stanley Kubrick died on 7 March 1999 at his Hertfordshire home, having finished the editing of his last film. *Eyes Wide Shut* was released later that year. Adapted from Arthur Schnitzler's 1926 Viennese novel *Dream Story*, relocated and updated to contemporary Manhattan, *Eyes Wide Shut* stars Tom Cruise and Nicole Kidman as a prosperous couple whose marriage is tested in the aftermath a series of sinister events. The film baffled many of its first audiences. It had all the lavish attention to detail of a Kubrick film but it seemed slow, enigmatic, too much of a dream. Michel Chion's extraordinary study of *Eyes Wide Shut* makes the case that it is one of Kubrick's masterpieces and a fitting testament. To appreciate this, though, it is necessary to look at what happens on the screen without bringing preconceptions to bear. The film needs to be taken at face value. Looked at this way, *Eyes*

Wide Shut reveals itself to be a deeply moving film about characters who are not so different from real people, a film about life in which questions of meaning and motive lose their value.

Walter Winchell - Michael Herr 1990

Screenwriters - José Guilherme Correa
2016-07-13

Screen-writing is a unique literary form. Screenplays are like musical scores, in that they are intended to be interpreted on the basis of other artists performances rather than serving as finished products for the enjoyment of their readers. They are written using technical jargon and tight, spare prose to describe set directions. Unlike a novella, a script focuses on describing the literal, visual aspects of the story rather than on its characters internal thoughts. In screen-writing, the aim is to evoke those thoughts and emotions through subtext, action, and symbolism. Prominent Hollywood script doctors include Steve Zaillian, William Goldman, Robert Towne, Mort Nathan, Quentin Tarantino etc., while many up-and-coming screenwriters work as ghost writers. This book is a modest catalogue of some of the most prominent screenwriters, listed from A to Z. The good are sometimes bad, and they can be even... Ugly. Many comments herein included were googled in deference to the multiplicity of information available today, yet they reflect exactly - or almost - what I thought. An amazing thing today is how anonymous commentators on the Internet rival and even surpass the poor quality of professional media and specialised literature. It all comes down to watching the truth 24 times per second, to quote Jean-Luc Godard's phrase. Not to mention that such truth may include sex scenes, violence, pedophilia, etc. We know that a literary masterpiece like Henry James *Portrait of a Lady* became a film of very poor quality as scripted by Laura Jones. We know, conversely, that a mediocre writer like Mickey Spillane inspired at least one film as remarkable as *Kiss Me Deadly*, thanks to A. I. Bezzerides script. As a former screenwriter, Mr. Correa must avow that he found the job most gratifying. Writing that looks effortless is often hellish to write and revise. It was something he did have to slog through, but it proved particularly pleasing.

Editing, discussing & finishing your work is particularly gratifying. Identifying your flaws and working to mitigate them is also gratifying. It is a general perception that creative careers are more interesting and fun than others. But

the privilege of earning money through imagination and creativity is effectively hard-won. Please comment at will. Please disagree at will. Be facetious in your remarks, but please be neither vicious nor mean-spirited.
