Kinship Matters - Fatemeh Ebtehaj 2006-09-15

This book is the fifth in the Cambridge Socio-Legal Group series and it

concerns the evolving notions and practices of kinship in contemporary Britain and the interrelationship of kinship, law and social policy. Assembling contributions from scholars in a range of disciplines, it examines social, legal, cultural and psychological questions related to kinship. Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well-being of children, while increasing longevity and mobility, together with lower birth rates and changes in our economic circumstances, have led to a reconsideration of duties and responsibilities towards the care of elderly people. In addition, globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally. Finally, new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities. The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain.

Passage to Faith - Michael J Lee 2021-02-19

Passage to Faith is Book 1 in The Faith Today Trilogy series. Passage to Faith explores current scientific evidence supporting the case for the existence of a creator God. It draws on dozens of historical testimonies of individuals who had encounters with a Supreme Being which influenced

them to change their lives, and sometimes the world, for the better. Taking the reader on an evidence-based tour through the cosmos, Lee, qualified in the fields of the philosophy of futures studies, theology, literature and education, reveals a stunning degree of indwelling intelligence and beauty on display throughout the universe and on Earth. He then traces the common ground between the creation account in Genesis in the Bible and scientific cosmology, the Big Bang theory and Albert Einstein's theory of relativity. Lee discusses the faith of a wide range of people from different eras and disciplines to reinforce the conviction that God's redeeming power actively intervenes not just in nature but in history. These examples include, among others, figures from history like Joan of Arc, Nelson Mandela and Barack and Michelle Obama, scientists and mathematicians like Copernicus, Galileo, Kepler, Newton, Faraday, Mendel, Pasteur, Pascal, George Washington Carver, Dr Wernher von Braun, Professor Christiaan Barnard and Francis S. Collins, missionaries like John Wesley, Mother Theresa, Dr David Livingstone, Dr Albert Schweitzer, and Jackie Pullinger, singers, entertainers, and actors such as Bob Dylan, Johnny Cash, Jim Reeves, Glen Campbell, Alice Cooper, Gary Cooper, John Wayne, Alfred Hitchcock, Mark Wahlberg, Mel Gibson, Sylvester Stallone, and Bear Grylls, men and women from the sports arena like George Foreman, Novak Djokovic, Simona Halep, Margaret Court and Siya Kolisi, as well as astronauts such as Dr Buzz Aldrin, David Randolph Scott and Gene Cernan. Cast Iron Technology - Roy Elliott 1988-04-18

Cast Iron Technology presents a critical review of the nature of cast irons. It discusses the types of cast iron and the general purpose of cast irons. It also presents the history of the iron founding industry. Some of the topics covered in the book are the description of liquid metal state; preparation of liquid metal; process of melting; description of cupola melting and electric melting methods; control of composition of liquid metal during preparation; description of primary cast iron solidification

structures; and thermal analysis of metals to determine its quality. Solidification science and the fundamentals of heat treatment are also discussed. An in-depth analysis of the hot quenching techniques is provided. The graphitization potential of liquid iron is well presented. A chapter is devoted to microstructural features of cast iron. The book can provide useful information to iron smiths, welders, students, and researchers.

Attitudes to English Study among Japanese, Chinese and Korean Women - Yoko Kobayashi 2020-11-06

This edited book comprises chapters integrated around a central theme on college-educated Japanese, Korean, and Chinese women's orientation to English study. The collection is composed of two parts: (1) East Asian

women's motivation to study in the West and (2) East Asian women's dream to use English as a career. The first part discusses their international migration as facilitated by factors characteristic of East Asian nations (e.g. middle-class women's access to advanced education and yet unequal access to professional career) and other factors inherent in each nation (e.g. different social evaluations of women equipped with competitive overseas degrees and English proficiency). The second part sheds light on the dreams and realities of East Asian female adults who, having been avid English learners, aim for "dream jobs" (e.g. interpreters) or have few other career choices but to be re-trained as English specialists or even as Japanese language teachers working abroad. This collection is suitable for any scholar interested in the lives and voices of young educated women who strive to empower themselves with language skills in the seemingly promising neoliberal world that is, however, riddled with ideological contradictions.

Valve train - Simone Dreger 2013-04-18

Valve train systems control the gas exchange in a combustion engine, which means that they represent a significant opportunity for optimizing the combustion process. Since they draw energy from the crankshaft, an efficient valve train contributes greatly to improving overall efficiency. The components of the valve train system are subjected to high loads. In addition to wear due to mechanical forces increasing combustion pressures and temperatures, in particular, place greater demands on the materials and heat dissipation of components on the combustion side. This technical book clearly and thoroughly presents a holistic understanding of the valve train system.

Educating Believers - Robert Maranto 2020-06-30

Educating Believers: Religion and School Choice offers theoretical essays

and empirical studies from leading researchers on religion and schooling. Religious authority and emphasis on fairness and caring provide consistent rules governing the stable family and community relationships needed for individual growth and collective action. Religion is among the most important aspects of human life, likely hard-wired into human beings, and intimately intertwined with schooling. The book addresses key matters regarding religious pluralism in education, including the history of state-faith relationships in schooling, how religious faith can motivate teachers, whether religious education teaches tolerance, and whether practices in Europe and Asia hold lessons for American schools. The works in this volume can guide future scholarship on religious pluralism in education, particularly work related to civic values, character formation and public policy. The chapters in this book were originally published in the *Journal of School Choice*. *Annual Reports of the Several Municipal Commissions Boards and Officers* - Detroit (Mich.) 1871

Ruthless River - Holly FitzGerald 2017-05-30

A stunning debut; a Departures original publication. The ultimate survival story; a wild ride—the wildest—down a South American river in the thick of the Amazon Basin; a true and thrilling adventure of a young married couple who survive a plane crash only to later raft hundreds of miles across Peru and Bolivia, ending up in a channel to nowhere, a dead end so flooded there is literally no land to stand on. Their raft—a mere four logs—separates them from the piranha-and-caiman-infested water until they finally realize that there is no way out but to swim. Vintage Original. Holly FitzGerald and her husband, Fitz—married less than two

years—set out on a yearlong honeymoon adventure of a lifetime, backpacking around the world. Five months into the trip their plane crash lands in Peru at a penal colony walled in by jungle, and their blissfully romantic journey turns into a terrifying nonstop labyrinth of escape and survival. On a small, soon-ravaged raft that quickly becomes their entire universe through dangerous waters alive with deadly animals and fish, their only choice: to continue on, despite the rush of insects swarming them by day, the sounds of encroaching predators at night. Without food or means of communication, with no one to hear their cries for help or on a search-and-rescue expedition to find them, the author and her husband make their way, fighting to conquer starvation and navigate the brute force of the river, their only hope for survival, in spite of hunger and weakening resolve, to somehow, miraculously hang on and find their way east to a large riverside town, before it is too late. . . .
