Letter to My Daughter: Words of wisdom, advice and lessons on life from parents - Theresa Tan
2020-10-15

They say little girls are made of sugar and spice and everything nice. That innocent baby in the cot will one day become a sister, a mother, a wife, a daughter-in-law. A girl's first—and sometimes final—teacher is her mother. From first steps to first kiss, marriage to motherhood, mothers are the coach and counsellor in every girl's life. In this collection curated by veteran editor and writer Theresa Tan, mothers write

At times hilarious, mostly brutally honest, these are no-holds-barred, one-sided conversations between moms and their girls: values to impart, mistakes to learn from, wisdom to pass on, confessions to make, gratitude to express. These letters will make you laugh, weep and hug your child. Includes notes on lipstick and taking care of your body; how to survive marriage (and divorce); stupid things never to do; making hard decisions; living life with passion; raising children and caring for aging parents; carrying on family traditions; focusing on what truly matters in life. Business Lessons from a Radical

Industrialist - Ray C. Anderson 2011-03-29

In 1994, Interface founder and chairman Ray Anderson set an audacious goal for his commercial carpet company: to take nothing from the earth that can't be replaced by the earth. Now, Anderson leads the way forward and challenges all of industry to share that goal. The Interface story is a compelling one: in 1994, making carpets was a toxic, petroleum-based process, releasing immense amounts of air and

water pollution and creating tons of waste. Fifteen years after Anderson's call for change, Interface has: —cut greenhouse gas emissions by 82%—cut fossil fuel consumption by 60%—cut waste by 66%—cut water use by 75%—invented and patented new machines, materials, and manufacturing processes—increased sales by 66%, doubled earnings, and raised profit margins With practical ideas and measurable outcomes that every business can use, Anderson shows that profit and sustainability are not mutually exclusive; businesses can improve their bottom lines and do right by the earth. Ray Anderson is featured in the film, *So Right, So Smart*, which takes a behind-the-scenes look at how his leadership transformed Interface into a company with a sustainable business practices that made it more profitable than it was before. *Quill & Quire* - 2008

Lessons - Ian McEwan 2022-09-13
NEW YORK TIMES BEST SELLER • A NEW YORKER ESSENTIAL READ • From the best-selling author of *Atonement* and *Saturday* comes the epic and intimate story of one man's life across generations and historical upheavals. From the Suez Crisis to the Cuban Missile Crisis, the fall of the Berlin Wall to the current pandemic, Roland Baines sometimes rides with the tide of history, but more often struggles against it. A BEST BOOK OF THE YEAR: *Vogue* • The New Yorker “Masterful.... McEwan is a storyteller at the peak of his powers.... One of the joys of the novel is the way it weaves history into Roland’s biography.... The pleasure in reading this novel is letting it wash over you.” —Associated Press When the world is still counting the cost of the Second World War and the Iron Curtain has closed, eleven-year-old Roland Baines's life is turned upside down. Two thousand miles from his mother's protective love, stranded at an unusual boarding school, his vulnerability attracts piano teacher Miss Miriam Cornell, leaving scars as well as a memory of love that will never fade. Now, when his wife vanishes, leaving him alone with his tiny son, Roland is forced to confront the reality of his restless existence. As the radiation from Chernobyl spreads across Europe, he begins a search for answers that looks deep into his family history and will last for the rest of his life.

Haunted by lost opportunities, Roland seeks solace through every possible means—music, literature, friends, sex, politics, and, finally, love cut tragically short, then love ultimately redeemed. His journey raises important questions for us all. Can we take full charge of the course of our lives without causing damage to others? How do global events beyond our control shape our lives and our memories? And what can we really learn from the traumas of the past? Epic, mesmerizing, and deeply humane, *Lessons* is a chronicle for our times—a powerful meditation on history and humanity through the prism of one man's lifetime.

Get Money Smart - Robert Pagliarini 2018-08-20

Aha! - *Get Smart* - Jay Cross 2015-08-12
The missing manual for people who choose to learn for themselves. Here's how. It all boils down to learning, but not the sort of learning you experienced at school. No, this is learning as a life skill. This is experiential learning. You're learning all the time, taking in new information and making sense of it. You learn from experience, from conversations with peers, and from “the school of hard knocks.” You're in charge of it, not a teacher or institution. Learning is how you solve problems, grow professionally, and achieve your goals. You'll be mastering two different types of learning. First is learning facts and pointers to information, learning about things. The second is learning is learning to be, for example becoming an effective manager, team leader, or artist. You typically learn facts by reading, look-up, and

study. Only experience can teach you to become a contender. This version is still in beta. 0.82.

Business Brilliant - Lewis Schiff 2013-03-19
In *Business Brilliant*, Lewis Schiff combines compelling storytelling with ground-breaking research to show the rest of us what America’s self-made rich already know: It’s synergy, not serendipity that produces success. He explodes common myths about wealth and explains how legendary entrepreneurs such as Richard Branson, Suze Orman, Steve Jobs, and Warren Buffet have subscribed to a set of priorities that’s completely different from those of the

Schiff identifies the seven distinct principles practiced by individuals who may or may not be any smarter than the rest of the population, but seem to understand instinctively how money is made. This guide also reveals how these business icons excel in areas of team building, risk management, and leadership development to accumulate their wealth. He offers a practical four-step program, from choosing one’s livelihood and pinpointing skills to focus on, to negotiating job terms and salary, in order to bring upon greater success. *Business Brilliant* by Lewis Schiff, coauthor of *The Middle Class Millionaire: The Rise of the New Rich and How They are Changing America* and *The Armchair Millionaire*, can help you can achieve better results in your business and in your career.

Think Again - Adam Grant 2021-02-02
#1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I’ve never felt so hopeful about what I don’t know.” —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor

the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become.

Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

Smarter Faster Better - Charles Duhigg
2016-03-24

In the international bestseller *The Power of Habit*, Pulitzer Prize-winning journalist Charles Duhigg explained why we do what we do. In *Smarter Faster Better*, he applies the same relentless curiosity, rigorous reporting and rich storytelling to explain how we can get better at the things we do. The result is a groundbreaking exploration of the science of productivity. A group of data scientists at Google embark on a four-year study of how the best teams function, and find that how a group interacts is much more important than who is in the group. A Marine Corps general, faced with low morale among recruits, reimagines boot camp - and discovers that instilling a 'bias toward action' can turn even the most directionless teenagers into self-motivating achievers. The filmmakers behind Disney's *Frozen* are on the brink of catastrophe - until they shake up their team in just the right way, spurring a creative breakthrough that leads to one of the highest-grossing movies of all time. What do these people have in common? They know that productivity relies on making certain choices. The way we frame our daily decisions; the big ambitions we embrace and the easy goals we ignore; the cultures we establish as leaders to drive innovation: these are the things that separate the merely busy from the genuinely productive. At the core of *Smarter Faster Better* are eight key concepts - from motivation and goal-setting to focus and decision-making - that explain why some people and companies get so much done. Drawing on the latest findings in neuroscience, psychology and behavioural economics - as well as the experiences of

CEOs, educational reformers, four-star generals, airplane pilots and Broadway songwriters - this painstakingly researched book explains that the most productive people, companies and organizations don't merely act differently. They view the world, and their choices, in profoundly different ways.

Growth IQ - Tiffani Bova 2018-08-14

A WALL STREET JOURNAL BESTSELLER Do you know the best way to drive your company's growth? If not, it's time to boost your Growth IQ. Trying to find the one right move that will improve your business's performance can feel overwhelming. But, as you'll discover in Growth IQ, there are just ten simple--but easily misunderstood--paths to growth, and every successful growth strategy can be boiled down to picking the right combination and sequence of these paths for your current context. Tiffani Bova travels around the world helping companies solve their most vexing problem: how to keep growing in the face of stiff competition and a fast-changing business environment. Whether she's presenting to a Fortune 500 board of directors or brainstorming over coffee with a startup founder, Bova cuts through the clutter and confusion that surround growth. Now, she draws on her decades of experience and more than thirty fascinating, in-depth business stories to demonstrate the opportunities--and pitfalls--of each of the ten growth paths, how they work together, and how they apply to business today. You'll see how, for instance: * Red Bull broke Coca-Cola and PepsiCo's stranglehold on the soft drink market by taking the Customer Base Penetration path to establish a foothold with adventure sports junkies and expand into the mainstream. * Marvel transformed itself from a struggling comic book publisher into a global entertainment behemoth by using a Customer and Product Diversification strategy and shifting their focus from comic books to comic book characters in movies. * Starbucks suffered a brand crisis when they overwhelmed their customers with a Product Expansion strategy, and brought back CEO Howard Schultz to course-correct by returning to the Customer Experience path. Through Bova's insightful analyses of these and many other case studies, you'll see why it can be a mistake to imitate

strategies that worked for your competitors, or rely on strategies that worked for you in the past. To grow your company with confidence, you first need to grow your Growth IQ.

Stella's Way - Stella Daisa Moga Kennedy
2011-01

We were able to eke out a meager living during our early days. I had a dream, and convinced everyone around me—family members, friends and new acquaintances—to buy into it. Looking back, it's a miracle that so many people sacrificed so much on nothing more than faith. But it shouldn't really be so surprising. One common theme throughout my life is that I've always had the innate ability to attract people to me, make them my champions and get them to back my dreams. Two years after arriving in America I founded a business with \$1800.00 I had saved. This book is the story of my life. Through my experiences I have tried to share the lessons I've learned along the way. These lessons have led me around roadblocks, helped me navigate detours, and scale what appeared at the time to be unconquerable mountains. It is my hope that by sharing my failures and successes, my tragedies and triumphs, my loves and losses that *Stella's Way* can become your own Way.

Rock Bottom to Rock Star - Ryan Blair 2016

Can you remember that one time you got recognized or someone thanked you for your contribution to their life? You were a rock star, even for just one second. This book isn't about a charmed path to success or some untouchable fairy tale that nobody can relate to—this is about going from rock bottom to rock star, something that everybody can relate to. In his first book, Blair shared the brutally honest story of how he went from an at-risk youth, sleeping on a mattress on the floor of a shack, to a self-made multimillionaire by his early twenties. As his story became a national sensation, fans started asking him how they too could become entrepreneurs, take their careers to the next level, and achieve financial freedom. Rock

Bottom to Rock Star answers those questions. Blair has battled extreme obstacles: life as a former gang member, balancing a demanding career with single parenthood, building and selling multiple companies, and making and losing tens of millions of dollars (sometimes all in one day). He wants to help others avoid the mistakes he made in the school of hard knocks, so he has compiled his unique advice for going from rock bottom to rock star in whatever field you chose to pursue. Much of his advice is counterintuitive, and definitely not what you would learn in business school. Here's one example: "Don't believe your own hype. The moment you start celebrating, you've left the stage. It wasn't celebration that made you a rock star. It was hard work." If you're serious about making the most of your life and you're ready to become the "rock star next door" instead of just looking up to them, this may be the most rewarding book you'll ever read.

Business Lessons from a Radical Industrialist - Ray Anderson 2009-09-15

"America's greenest CEO" and the hero from the award-winning documentary The Corporation makes the urgent, compelling case that sustainable business pays. His story is now legend. In 1994, after reading The Ecology of Commerce by Paul Hawken, Ray Anderson felt a "spear in the chest": the founder of Interface, Inc., a billion-dollar carpeting manufacturer, realized that his company was plundering the environment and he needed to steer it on a new course. Since then, Interface has cut its greenhouse gas emissions by 82%, and the goal is to reach zero environmental footprint by 2020. Thoughtful and winning, Confessions of a Radical Industrialist shows how Anderson revolutionized his company, in the process bringing costs down, improving quality, making it one of Fortune's "100 Best Companies to Work For" — and driving up profits. *The publisher has aimed for sustainability in all aspects of this book's production, from the inks and glues to the trim size. The interior paper is 100% post-consumer recycled, certified by the Forest Stewardship Council, and ancient-forest friendly.
