Employment Relations - Amie Shaw 2018-01-01

Overview This is the second edition of the well-regarded local text, *Employment Relations*. This new edition takes an even more practical approach to a complex area, considering both the industrial regulation and human resources dimensions of the employment relationship. As well as providing a comprehensive guide to employment relations in Australia, the text also offers a selective international comparative view on the management of the employment relationship. The text explains and emphasises the real-world connections between the important theories of industrial relations and human resources, which are key components of the employment relations discipline. The overarching aim is for students to gain a deeper understanding of the 'World of Work', through the discipline of *Employment Relations*.

Glass Half-Broken - Colleen Ammerman 2021-04-13

Why the gender gap persists and how we can close it. For years women have made up the majority of college-educated workers in the United States. In 2019, the gap between the percentage of women and the percentage of men in the workforce was the smallest on record. But despite these statistics, women remain underrepresented in positions of power and status, with the highest-paying jobs the most gender-imbalanced. Even in fields where the numbers of men and women are roughly equal, or where women actually make up the majority, leadership ranks remain male-dominated. The persistence of these inequalities begs the question: Why haven't we made more progress? In *Glass Half-Broken*, Colleen Ammerman and Boris Groysberg reveal the pervasive organizational obstacles and managerial actions—limited opportunities for development, lack of role models and sponsors, and bias in hiring, compensation, and promotion—that create gender imbalances. Bringing to light the key findings from the latest research in psychology, sociology, organizational behavior, and economics, Ammerman and Groysberg show that throughout their careers—from

entry-level to mid-level to senior-level positions—women get pushed out of the leadership pipeline, each time for different reasons. Presenting organizational and managerial strategies designed to weaken and ultimately break down these barriers, *Glass Half-Broken* is the authoritative resource that managers and leaders at all levels can use to finally shatter the glass ceiling.

Policy and Governance in Post-Conflict Settings - Puthsodary Tat
2019-08-30

Post-conflict societies are commonly constructed as weak, fragile, and failed states. Economic recovery, risks of renewed violent conflict, natural resource degradation, and poverty alleviation become prioritized agendas of donor countries and international institutions. Billions of dollars on development policy and governance reform have been invested. However, misapplication, ineffectiveness, and foreign aid dependency have become a controversial debate on "whose policy, whose governance, and whose outcomes." To understand the problems, the author employs a blend of social constructionism and discourse theory to establish a platform for understanding and discussing hegemonic aid conditionality on recipient governments. The theories also help analyze how the meanings of "post-conflict governance" are socially, economically, and politically constructed and used in state building, state apparatuses, institutional building, and policy-making process. He reveals that the philosophical and theoretical knowledge that underlies the interface between the mode of governance and policy design create the consensus of values, norms and indicators between experts, public servants, donors and communities in post-conflict settings. The author also shares illuminating case studies by way of his considerable wealth of experience leading reconstructive efforts in Afghanistan and Cambodia.
[Common Sense Questions about Tests](#) - Gerard Giordano, PhD, professor of education, University of North Florida 2016-03-07

Parents had questions about the tests their children took at school. They considered them to be common sense questions. They posed them to the businesspeople, publishers, and politicians who championed tests. They also posed them to the school administrators, teachers, and union

leaders who criticized them. This book examines the questions the parents posed, the answers they elicited, and the changes they prodded.

Corporate Finance Law - Louise Gullifer 2015-10-22

The second edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. Fully updated, it reflects developments in the law and the markets in the continuing aftermath of the Global Financial Crisis. One of its distinctive features is that it gives equal coverage to both the equity and debt sides of corporate finance law, and seeks, where possible, to compare the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter analyses the present law critically so as to enable the reader to understand the difficulties, risks and tensions in this area of law, and the attempts made by the legislature and the courts, as well as the parties involved, to deal with them. This

book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.

Desired Artistic Outcomes in Music Performance - Gilvano Dalagna
2020-10-02

Desired Artistic Outcomes in Music Performance is about empowering musicians to achieve their professional and personal goals in music. The narrative argues that developing musicians should be supported in conceptualizing and achieving their desired artistic outcomes (DAO), as these have been recognized as key elements in a successful career transition in and beyond their studies in higher education. The text explores the nature of DAO and illustrates how higher education students can be enabled to explore and develop these. The book draws on the findings from a range of exploratory studies which: Bring to light connections between contemporary topics in music, such as artistic research and career development; Contribute to existing discussions on innovative pedagogical approaches in higher education in music; and Offer theoretical models to support the broad artistic and professional development in young musicians. This is a text grounded in theory and practice, and which draws on case study examples, as well as historical perspectives and coverage of contemporary issues regarding employment in the music industries. The book will be of particular interest to aspiring music professionals and all those working in the areas of Music Education, Performance Studies and Artistic Research.

Shareholder Protection Reconsidered - Georgios Zouridakis
2019-11-26

This book examines the role and potential of derivative actions in shareholder protection in public limited companies. Derivative actions have been a focal point of legislators' agendas on shareholder protection, in the past few decades, throughout Europe and beyond. Nevertheless, there remain jurisdictions, such as Greece, which are still devoid of this remedy. Against this backdrop, this book examines whether and how the derivative action may improve shareholder protection, constituting thus

a mechanism that justifies legislative attention. It does so in three parts. First, it analyses the desirable role derivative actions assume in protecting shareholder property, monitoring corporate management and mitigating agency costs, alongside their economic implications, introducing the reader to the contemporary international debate on the topic. Having set the desiderata, the second part proceeds with the comparative analysis of Greek, German and UK law – jurisdictions that have recently reformed their provisions on shareholder protection – examining not only the law on derivative actions and their Greek counterpart remedy but also mechanisms of shareholder protection that do, or could, assume functions similar to those of the derivative action. By critically assessing the merits and failures of the respective UK, German and Greek shareholder protection laws, the book then proceeds to offer (in Part III) a model framework of shareholders’ derivative litigation for jurisdictions considering reform. Written in an accessible format, it will be an invaluable resource for anyone interested in this important aspect of company law and corporate governance.
