Japanese urban food desert (FD). Currently, Japan has the most rapidly aging society in the world, with a shrinking population and food desert issues in connection with the isolation of the elderly people from their families and local communities. The types of food deserts that Japan is currently facing are likely to occur in many other countries under similar circumstances in the near future. This book serves as a valuable resource for researchers and policymakers who are working on FD issues in Japan as well as in other countries. The book consists of 8 chapters, with each chapter covering a different aspect of FD, and it also includes case studies, one of which is the FD in Tokyo.

*HCI International 2020 - Late*

*Breaking Papers: Interaction, Knowledge and Social Media* - Constantine Stephanidis  
2020-09-26

This book constitutes late breaking papers from the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as "Late Breaking Work" (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 54 late breaking papers address topics such as
