From the Curb to a Castle - Robert Wessely 2015-01-05

My name is Robert Wessely, and this is a true story about a relentless journey of one man's will to survive on the streets as a homeless man. That man was me. My childhood was the typical American story. I was raised by loving parents and my father was a respected police officer. I wasn't raised to be homeless, nor was I ever taught about the struggles that would come along with living on the streets. How did I get here? When was my next meal or warm shower going to come? Where will I sleep? Everything I had was gone, and the fears associated with my new way of life made it appear like there was no way out. Then it happened, and a way out did come along, but it didn't take long to end up right back where I left off. Unfortunately, I found myself homeless with the love of my life and our children this time. The addictions we had were too controlling to recognize the grasp it had on our lives. Every day that we were on the streets could've been the last day we were spending with our children. It wasn't until a man named Chuck, stepped into our lives on Christmas Eve, to show our family the true glory behind the grace of God. Hold on tight for this journey, and see how we went, "From the Curb to a Castle."

Evidence-Based Second Language Pedagogy is a cutting-edge collection of empirical research conducted by top scholars focusing on instructed second language acquisition (ISLA) and offering a direct contribution to second language pedagogy by closing the gap between research and practice. Building on the conceptual, state-of-the-art chapters in *The Routledge Handbook of Instructed Second Language Acquisition* (2017), studies in this volume are organized according to the key components of ISLA: types of instruction, learning processes, learning outcomes, and learner and teacher psychology. The volume responds to pedagogical needs in different L2 teaching and learning settings by including a variety of theoretical frameworks (sociological, psychological, sociocultural, and cognitive), methodologies (qualitative and quantitative), target languages (English, Spanish, and Mandarin), modes of instruction (face-to-face and computer-mediated), targets of instruction (speaking, writing, listening, motivation, and professional development), and instructional settings (second language, foreign language, and heritage language). A novel synthesis of research in the rapidly growing field of ISLA that also covers effective research-based teaching strategies, Evidence-Based Second Language Pedagogy is the ideal resource for researchers, practitioners, and graduate students in SLA, applied linguistics, and TESOL.

Building a Better Teacher: How Teaching Works (and How to Teach It to Everyone) - Elizabeth Green 2014-08-04

A New York Times Notable Book "A must-read book for every American teacher and taxpayer." —Amanda Ripley, author of *The Smartest Kids in the World* Launched with a hugely popular New York Times Magazine cover story, *Building a Better Teacher* sparked a national conversation about teacher quality and established Elizabeth Green as a leading voice in education. Green's fascinating and accessible narrative dispels the common myth of the "natural-born teacher" and introduces maverick educators exploring the science behind their art. Her dramatic account reveals that great teaching is not magic, but a skill—a skill that can be taught. Now with a new afterword that offers a guide on how to identify—and support—great teachers, this provocative and hopeful book "should be part of every new teacher's education" (Washington Post).

The Various Roles of the Teacher in the English Classroom - Tom Keller 2016-04-06

Seminar paper from the year 2011 in the subject English - Pedagogy, Didactics, Literature Studies, grade: 1,0, Technical University of Braunschweig (Englisches Seminar), course: Teaching English Grammar and/or Lexis, language: English, abstract: English as a world language is becoming more and more important in our culture, thereby affecting the English classroom and its participants. The whole process of teaching English has been changing during the last decades and so have the students. They already start learning

their first foreign language at a primary school level and teachers have to be flexible to enable students to learn. Thereby teachers not only educate students what English is about and how it works, but also the usage of it and particularly communication skills. Every student has a different ability when learning a second language. Some grasp it easily and develop sympathy for it, others struggle and have difficulties which could lead to being demotivated and lack of interest. This leads to the question what an English teacher can and has to do, in order to teach students successfully. Nowadays teachers are supposed not only to educate, but also to create a suitable environment for learners. Therefore it is necessary to perform many different roles in the classroom to fully achieve the best learning development. Roles which have its own characteristics, work differently and have various aims. First, this leads to the question "what a role actually is" and I will give a short definition of it. Afterwards the various roles will be introduced and then described in detail. What are the characteristics of a role? What does it mean to perform it? Why is it necessary to do so? These questions will be answered later on. Finally, I will give a conclusion and a brief overview about the portrayed roles.
