Teaching to Learn, Learning to Teach - Alan J. Singer
2013-07-24

Teaching to Learn, Learning to Teach uniquely addresses three problems that frequently concern pre-service and beginning teachers: classroom control, satisfying state and federal mandates, and figuring out exactly what is the role of the teacher. Integrating practical, theoretical, and critical teaching considerations, it presents a model student-centered approach for designing lessons, developing personal connections with students, and building classroom communities: PRO/CLASS Practices (Planning, Relationships, Organization, Community, Leadership, Assessment, Support, Struggle). Pre-service teachers are encouraged to reinterpret the principles and continually redefine them as they develop their own reflective practice. Changes in the Second Edition

68 Knots: A Novel - Michael Robert Evans 2011-09-08
After the sailing camp owner's suicide, eight teens find they have a boat to themselves. The 68 days of summer remaining are full of memorable events: encounters with wildlife and people, yacht races, pirate raids, a near fatal hunt for treasure, onboard parties, romance, and a call to heroism. Underlying the tale of adventures, however, is a subtle yet powerful story of awakening, of teens on the cusp of adulthood. They get to know that gap between who they are and who they want to be by experiencing tests of physical, emotional, and mental limits. A stirring debut, this novel examines issues of late adolescence with authenticity that will speak to YA readers.
