## **Wildland Fire Incident Management Field Guide - NWCG 2014-06-06**

The Wildland Fire Incident Management Field Guide is a revision of what used to be called the Fireline Handbook, PMS 410-1. This guide has been renamed because, over time, the original purpose of the Fireline Handbook had been replaced by the Incident Response Pocket Guide, PMS 461. As a result, this new guide is aimed at a different audience, and it was felt a new

name was in order.

[Fire and Emergency Services Instructor - IFSTA 2012-05-24](#)  
Fire and Emergency Services Instructor Eighth Edition helps students meet the job performance requirements of NFPA(R) 1041, Standard for Fire Service Instructor Professional Qualifications (2012) for Instructor levels I, II, and III. The manual also provides a reference for instructors who may perform duties outside of their current certification levels. This new

edition has been reorganized to provide clearer separations between the three instructor levels: Ch. 1-9 cover Level I; Ch. 10-14, Level II; and Ch. 15-17 Level III. The text has been shortened from 22 chapters to 17. As a result, the text is more concise and easier to teach. The text reflects new changes in the NFPA(R) standard, including a discussion of bias in instructional and testing materials.

**Fire and Emergency Services Company Officer** - IFSTA 2014-11-14

This new IFSTA manual details the training required of Company Officers according to NFPA® 1021, Standard for Fire Officer Professional Qualifications, 2014 Edition. The manual is divided into two sections to make a clear distinction between the information needed for Fire Officer Level I and Fire Officer Level II. Both print and eBook formats are available. There is no shortage of issues that a company officer might face in the everyday operation of a fire company or unit. This manual addresses the wide range of topics and issues encountered

by a company officer, from leadership and supervision to health and safety issues. Great attention was given to focus on the job performance requirements of NFPA® 1021. The fifth edition of Fire and Emergency Services Company Officer builds on the previous edition of the manual while presenting the material in a more concise manner to make it easier for students to read and instructors to teach. By merging related topics, the number of chapters was reduced from 32 in the fourth edition to 17 in the new manual while preserving the material related to the NFPA® standard. The number of appendices was reduced from 20 to 4 by removing information that can be found in other media. Along with reducing the volume of material from the fourth edition, the fifth edition of Fire and Emergency Services Company Officer offers several new features. The manual features a new look with IFSTA's single-column format and upgraded and updated

curriculum components. Learning activities are included to help instructors present the material to their students. Case Histories open each chapter to illustrate important lessons learned in the real world. Photographs, illustrations, and tables are included throughout the manual to illustrate key points and improve the overall instructional value of the material.

**Chief Officer** - International Association of Fire Chiefs  
2011-08-08

The Complete Fire Officer III and IV Training Solution! Chief officers need to know how to make the transition from company officer to chief officer. Chief Officer: Principles and Practice is designed to help make the transition from company officer to chief officer a smooth evolution. Covering the entire scope of Levels III and IV from the 2009 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications, Chief Officer combines current content with dynamic features and interactive technology to better

support instructors and to help prepare future chief officers to become problem-solving leaders for their organizations. Chief Officer: Principles and Practice has a clear focus on instilling fire fighter safety throughout an organization's culture. Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter, fire officer, and fire department. The entire fire community must work together to achieve one common goal: to ensure that everyone goes home. Chief officers therefore set the tone for safety in their organization, and this textbook embraces that philosophy. It is with this goal in mind that the 16 Firefighter Life Safety Initiatives, developed by the National Fallen Firefighters Foundation, are integrated throughout the text. The features in this textbook will help students take that extra step toward becoming outstanding chief officers. These features include:

- Scenario-Based Learning. You Are the Chief Officer and Chief Officer in Action are found in

understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition. for the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) non-core course, Strategy and Tactics (C0279). Structural Firefighting: Strategy and Tactics prepares the fire officer to take command at structure fires, effectively using available resources. The goal of this text is to explain proven tactics and strategies used at structure fires. It is designed to be used by all fire officers, from company officer to chief of department. The Fourth Edition provides the necessary tools to achieve maximum productivity under adverse fireground conditions. It references NFPA fire investigations, applicable NFPA statistics and standards, the NIOSH Firefighter Fatality Investigation and Prevention Program, and the Technical Report Series from the U.S. Fire Administration. It has been expanded to include information from recent studies by the National Institute of Standards and Technology (NIST), Underwriters

Laboratories (UL), and others. The Fourth Edition contains new content on integration of initial rapid intervention crews, updated content on vent-enter-isolate-search tactics, and more, while continuing to emphasize the role of preincident planning and command decisions that maximize life safety, extinguishment, and property conservation. A multitude of case studies, incident summaries, and extensive end-of-chapter activities promote application of chapter content and critical thinking skills. This text allows a company officer or incident commander to learn fireground procedures at an accelerated pace, thus reducing the cost in lives and property associated with learning by experience only. The Fourth Edition also includes: New and significantly expanded, in-depth Suggested Activities that challenge the reader to apply the strategies and tactics presented in each chapter Incident Summaries that summarize real fireground events and lessons learned
