Homosexuality and Italian Cinema - Mauro Giori
2017-11-18

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge

of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

Mistborn - Brandon Sanderson 2010-04-01

From #1 New York Times bestselling author Brandon Sanderson, the Mistborn series is a heist story of political intrigue and magical, martial-arts action. For a thousand years the ash fell and no flowers bloomed. For a thousand years the Skaa slaved in misery and lived in fear. For a thousand years the Lord Ruler, the "Sliver of Infinity," reigned with absolute power and ultimate terror, divinely invincible. Then, when hope was so long lost that not even its memory remained, a terribly scarred, heart-broken half-Skaa rediscovered it in the depths of the Lord

Ruler's most hellish prison. Kelsier "snapped" and found in himself the powers of a Mistborn. A brilliant thief and natural leader, he turned his talents to the ultimate caper, with the Lord Ruler himself as the mark. Kelsier recruited the underworld's elite, the smartest and most trustworthy allomancers, each of whom shares one of his many powers, and all of whom relish a high-stakes challenge. Only then does he reveal his ultimate dream, not just the greatest heist in history, but the downfall of the divine despot. But even with the best criminal crew ever assembled, Kel's plan looks more like the ultimate long shot, until luck brings a ragged girl named Vin into his life. Like him, she's a half-Skaa orphan, but she's lived a much harsher life. Vin has learned to expect betrayal from everyone she meets, and gotten it. She will have to learn to trust, if Kel is to help her master powers of which she never dreamed. This saga dares to ask a simple question: What if the hero of prophecy fails? There Is No Alternative - Claire Berlinski
2011-11-08

Great Britain in the 1970s appeared to be in
terminal decline—ungovernable, an economic
train wreck, and rapidly headed for global

irrelevance. Three decades later, it is the richest
and most influential country in Europe, and
Margaret Thatcher is the reason. The
preternaturally determined Thatcher rose from
nothing, seized control of Britain's Conservative
party, and took a sledgehammer to the nation's
postwar socialist consensus. She proved that
socialism could be reversed, inspiring a global
free-market revolution. Simultaneously
exploiting every politically useful aspect of her
femininity and defying every conventional
expectation of women in power, Thatcher
crushed her enemies with a calculated
ruthlessness that stunned the British public and
without doubt caused immense collateral
damage. Ultimately, however, Claire Berlinski
agrees with Thatcher: There was no alternative.
Berlinski explains what Thatcher did, why it
matters, and how she got away with it in this
vivid and immensely readable portrait of one of
the towering figures of the twentieth century.

The Wasp Factory - Iain Banks 2013-07-02

The polarizing literary debut by Scottish author Ian Banks, *The Wasp Factory* is the bizarre, imaginative, disturbing, and darkly comic look into the mind of a child psychopath. Meet Frank Cauldhame. Just sixteen, and unconventional to say the least: Two years after I killed Blyth I murdered my young brother Paul, for quite different and more fundamental reasons than I'd disposed of Blyth, and then a year after that I did for my young cousin Esmerelda, more or less on a whim. That's my score to date. Three. I haven't killed anybody for years, and don't intend to ever again. It was just a stage I was going through.

L'angelo della rivoluzione - George Griffith
2021-04-15

Un mix sensazionale delle fantasie futuristiche di

guerra aerea di Jules Verne e delle visioni utopiche di *Notizie da nessun luogo* di William Morris, precursore del futuro di Wells in *La guerra nell'aria*, della letteratura sulle invasioni di George Tomkyns Chesney e dei suoi imitatori, racconta la storia di un gruppo di sedicenti 'terroristi' che conquistano il mondo attraverso la guerra tra aeronavi. Guidati da un brillante ebreo russo storpio e da sua figlia, l'Angelo Natasha, 'la Fratellanza della Libertà' fonda una 'pax aeronautica' sulla Terra dopo che un giovane inventore padroneggia la tecnologia del volo nel 1903. L'eroe si innamora di Natasha e si unisce alla guerra contro il potere consolidato in generale e in particolare contro lo zar russo. Scritto con la vena profetica di Jules Verne e H.G. Wells, il capolavoro epico di Griffith racconta la storia di una grande guerra che non è mai esistita. Squadroni di dirigibili e flotte a vapore si scontrano nei grandi regni del mondo, lasciando dietro di loro panico e devastazione. Qual è il segreto di Natasha, il misterioso Angelo

oscuro? Qualcuno può fermare i tirannici eternauti che pilotano le maestose macchine da guerra? L'impero britannico crollerà e cadrà preda degli anarchici dell'aria? Ma nessuno conosce le reali intenzioni di questi rivoluzionari...

Lo stallo dell'impero - John Scalzi 2019-03-13
L'Interdipendenza, l'impero interstellare dell'umanità, è sull'orlo del collasso. Le correnti del Flusso, i condotti spaziotemporali che rendono possibile il viaggio tra le stelle, stanno scomparendo, lasciando intrappolati interi sistemi stellari. Se, in assenza di estreme misure risolutive, sparirà, la civiltà umana perirà con esso. L'imperatrice Grayland II, leader dell'Interdipendenza, è pronta a adottare le misure necessarie per garantire la sopravvivenza di miliardi di persone. Ma molti credono che il collasso del Flusso sia un mito o addirittura un'opportunità che potrebbe consentire loro di ascendere al potere. Mentre Grayland si prepara al disastro, altri si stanno organizzando in vista

di una guerra civile che si svolgerà non solo tra astronavi e su campi di battaglia, ma anche nelle sale del potere, nei mercati degli affari e nei templi del culto. L'imperatrice e i suoi alleati sono scaltri e intraprendenti, ma lo sono anche i loro nemici, e niente in questa violenta lotta per il potere e la sopravvivenza sarà semplice o lineare...

The Winner's Kiss - Il bacio - Marie Rutkoski
2019-11-21

La guerra è cominciata. Arin ne è al centro a fianco a nuovi alleati dei quali non si può fidare per combattere contro l'impero. Anche se si è convinto di non amare più Kestrel, Arin non l'ha dimenticata, come non ha dimenticato chi è diventata: il tipo di persona che ha sempre disprezzato. Ha tenuto più all'impero che alla vita di persone innocenti, e certamente più che a lui. O almeno, questo è quello che crede... Nel gelido Nord, intanto, Kestrel è prigioniera in un brutale campo di lavoro. E mentre cerca disperatamente un modo per scappare, vorrebbe

che Arin sapesse quello che ha sacrificato per lui. Vorrebbe farla pagare all'impero per quello che le è stato fatto. Ma nessuno ottiene quello che vuole solo desiderandolo. Mentre la guerra si fa più intensa, entrambi scoprono che il loro mondo sta cambiando in modo irreversibile. L'Est è in guerra con l'Ovest e loro sono nel mezzo. Con così tanto da perdere, chi può vincere davvero? Dopo l'intrigo e il pericolo di *The Winner's Curse*. La maledizione, dopo la rivoluzione e il romanticismo di *The Winner's Crime*. La vendetta, ecco il terzo e ultimo volume di *The Winner's*, trilogia bestseller per il *New York Times*.

I figli del tempo - Adrian Tchaikovski

2018-02-14

Vincitore nel 2016 del premio Arthur Clarke come miglior romanzo di fantascienza. Anche gli ultimi umani sopravvissuti alla rovina della Terra stanno ormai fuggendo nel disperato tentativo di trovare una nuova casa tra le stelle. Seguendo le orme indicate molto tempo prima dai loro

antenati, riescono a scoprire un pianeta apparentemente perfetto per ospitare vita umana. Ma la realtà sulla nuova Terra non si rivelerà così tranquilla e pacifica come avevano sperato... Nei lunghi anni trascorsi dal giorno del loro arrivo, il faticoso lavoro dei predecessori ha dato vita a frutti disastrosi e controproducenti, e il pianeta adesso è tutt'altro che incontaminato e ospitale. In più, l'incontro con una nuova specie aliena non farà altro che complicare i progetti iniziali degli umani... Lo scontro tra le due civiltà, in lotta per raggiungere lo stesso obiettivo, appare ormai imminente e inevitabile. E mentre il destino dell'intera umanità resta appeso a un filo sempre più sottile, una domanda risuona più minacciosa che mai: chi saranno gli eredi della nuova Terra? Un'avventura interstellare per la sopravvivenza. Due civiltà in rotta di collisione per decretare il destino del nuovo pianeta

The Many-Colored Land - Julian May 1981-04-17

In the year 2034, Theo Quderian, a French

physicist, made an amusing but impractical discovery: the means to use a one-way, fixed-focus time warp that opened into a place in the Rhone River valley during the idyllic Pliocene Epoch, six million years ago. But, as time went on, a certain usefulness developed. The misfits and mavericks of the future—many of them brilliant people—began to seek this exit door to a mysterious past. In 2110, a particularly strange and interesting group was preparing to make the journey—a starship captain, a girl athlete, a paleontologist, a woman priest, and others who had reason to flee the technological perfection of twenty-second-century life. Thus begins this dazzling fantasy novel that invites comparisons with the work of J.R.R. Tolkien, Arthur C. Clarke, and Ursula Le Quin. It opens up a whole world of wonder, not in far-flung galaxies but in our own distant past on Earth—a world that will captivate not only science-fiction and fantasy fans but also those who enjoy literate thrillers. The group that passes through

the time-portal finds an unforeseen strangeness on the other side. Far from being uninhabited, Pliocene Europe is the home of two warring races from another planet. There is the knightly race of the Tanu—handsome, arrogant, and possessing vast powers of psychokinesis and telepathy. And there is the outcast race of Firvulag—dwarfish, malevolent, and gifted with their own supernormal skills. Taken captive by the Tanu and transported through the primordial European landscape, the humans manage to break free, join in an uneasy alliance with the forest-dwelling Firvulag, and, finally, launch an attack against the Tanu city of light on the banks of a river that, eons later, would be called the Rhine. Myth and legend, wit and violence, speculative science and breathtaking imagination mingle in this romantic fantasy, which is the first volume in a series about the exile world. The sequel, titled *The Golden Torc*, will follow soon.

[Pebble in the Sky](#) - Isaac Asimov 2010-04-27
One moment Joseph Schwartz is a happily retired tailor in Chicago, 1949. The next he's a helpless stranger on Earth during the heyday of the first Galactic Empire. Earth, as he soon learns, is a backwater, just a pebble in the sky, despised by all the other 200 million planets of the Empire because its people dare to claim it's the original home of man. And Earth is poor, with great areas of radioactivity ruining much of its soil--so poor that everyone is sentenced to death at the age of sixty. Joseph Schwartz is sixty-two. This is young Isaac Asimov's first novel, full of wonders and ideas, the book that launched the novels of the Galactic Empire, culminating in the Foundation series. This is Golden Age SF at its finest. At the Publisher's

The Well of Ascension - Brandon Sanderson
2010-04-01

From #1 New York Times bestselling author Brandon Sanderson, the Mistborn series is a heist story of political intrigue and magical, martial-arts action. The impossible has been accomplished. The Lord Ruler -- the man who claimed to be god incarnate and brutally ruled the world for a thousand years -- has been vanquished. But Kelsier, the hero who masterminded that triumph, is dead too, and now the awesome task of building a new world has been left to his young protégé, Vin, the former street urchin who is now the most

powerful Mistborn in the land, and to the idealistic young nobleman she loves. As Kelsier's protégé and slayer of the Lord Ruler she is now venerated by a budding new religion, a distinction that makes her intensely uncomfortable. Even more worrying, the mists have begun behaving strangely since the Lord Ruler died, and seem to harbor a strange vaporous entity that haunts her. Stopping assassins may keep Vin's Mistborn skills sharp, but it's the least of her problems. Luthadel, the largest city of the former empire, doesn't run itself, and Vin and the other members of Kelsier's crew, who lead the revolution, must learn a whole new set of practical and political skills to help. It certainly won't get easier with three armies - one of them composed of ferocious giants - now vying to conquer the city, and no sign of the Lord Ruler's hidden cache of atium, the rarest and most powerful allomantic metal. As the siege of Luthadel tightens, an ancient legend seems to offer a glimmer of hope.

But even if it really exists, no one knows where to find the Well of Ascension or what manner of power it bestows. Ancillary Mercy - Ann Leckie 2015-10-06
Breq and her crew must stand against an old

and powerful enemy, the Lord of the Radch, and fight for the right to determine their own destinies in the stunning conclusion to the NYT bestselling Imperial Radch trilogy A must read for fans of Ursula K. Le Guin and James S. A. Corey. For a moment, things seemed to be under control for Breq, the soldier who used to be a warship. Then a search of Athoek Station's slums turns up someone who shouldn't exist, and a messenger from the mysterious Presger empire arrives, as does Breq's enemy, the divided and quite possibly insane Anaander Mianaai -- ruler of an empire at war with itself. Breq refuses to flee with her ship and crew, because that would leave the people of Athoek in terrible danger. The odds aren't good, but that's never stopped her before. Revolt Against the Modern World - Julius Evola 2018-07-13

With unflinching gaze and uncompromising

intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world. As a gadfly, Evola spares no one and nothing in his survey of what we have lost and where we are headed. At turns prophetic and provocative, *Revolt against the Modern World* outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being. The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives. His criticisms are not limited to exposing the mindless nature of consumerism, the march of progress, the rise of technocracy, or the dominance of unalloyed individualism, although these and other subjects come under his scrutiny. Rather, he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values, ideals, beliefs, and codes of conduct--the

world of Tradition--that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo-Europeans. Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga, the age of dissolution and decadence, Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century. Through a sweeping study of the structures, myths, beliefs, and spiritual traditions of the major Western civilizations, the author compares the characteristics of the modern world with those of traditional societies. The domains explored include politics, law, the rise and fall of empires, the history of the Church, the doctrine of the two natures, life and death, social institutions and the caste system, the limits of racial theories, capitalism and communism, relations between the sexes, and the meaning of warriorhood. At every turn Evola challenges the

reader's most cherished assumptions about fundamental aspects of modern life. A controversial scholar, philosopher, and social thinker, JULIUS EVOLA (1898-1974) has only recently become known to more than a handful of English-speaking readers. An authority on the world's esoteric traditions, Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West. Other books by Evola published by Inner Traditions include *Eros and the Mysteries of Love*, *The Yoga of Power*, *The Hermetic Tradition*, and *The Doctrine of Awakening*.

On Ugliness - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in On Ugliness lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand

in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day.

Abundantly illustrated with demons, madmen, vile enemies and disquieting presences, with freaks and the living dead, *On Ugliness* is conceived for a vast and diverse readership, and is an invaluable companion volume to *On Beauty*.

L'ultima imperatrice - John Scalzi 2021-06-24
Il collasso del Flusso, il percorso interstellare tra i pianeti dell'Interdipendenza, è accelerato. Interi sistemi stellari - e miliardi di persone - stanno per essere tagliati fuori dal resto della civiltà umana. Questo crollo è stato predetto da una previsione scientifica. . . eppure, anche se l'evidenza è ovvia e insormontabile, molti cercano ancora di razionalizzare, ritardare e trarre profitto da questi ultimi giorni di uno dei

più grandi imperi che l'umanità abbia mai conosciuto. L'imperatrice Grayland II ha finalmente strappato il controllo del suo impero a coloro che le si oppongono e negano la realtà di questo crollo. Ma il "controllo" è una cosa sfuggente, e anche se Grayland si sforza di salvare il maggior numero dei suoi abitanti da un isolamento impoverito, le forze che si oppongono al suo governo daranno un'ultima spinta disperata per farla cadere dal trono e perdere potere, con ogni mezzo necessario. Grayland e il suo elenco sempre più sottile di alleati, devono utilizzare ogni strumento a loro disposizione per salvare se stessi e l'intera umanità. Eppure, tutto ciò, potrebbe non essere sufficiente. Grayland diventerà la salvatrice della sua civiltà. . . o l'ultima imperatrice a indossare la corona?

Transrealist Fiction - Damien Broderick 2000
Transrealist writing treats "immediate perceptions in a fantastic way," according to science fiction writer and mathematician Rudy Rucker, who originated the term. In the

expanded sense argued in this book, it also intensifies imaginative fiction by writing the fantastic from the standpoint of richly personalized experience, as in the works of Philip K. Dick. This volume examines a variety of work from a transrealist perspective, including the writings of Dick, Rucker, Kurt Vonnegut, J.G. Ballard, and John Barth.

Elantris - Brandon Sanderson 2014-02-04
Elantris, la città degli dèi. Abitata da creature di una bellezza splendente, è un luogo di fulgore e magia. Un luogo di felicità eterna. Ma all'improvviso quell'eternità ha fine. Elantris diventa un luogo di tetra disperazione: i suoi abitanti, colpiti da un'orrenda maledizione, diventano misere creature i cui corpi hanno dimenticato di essere morti e la città diventa la loro tomba. E quella maledizione può colpire chiunque: anche Raoden, il principe ereditario del regno di Arelon. All'insaputa di tutti, il giovane viene rinchiuso tra le mura di Elantris, dove sarà costretto a fare i conti con una civiltà imbarbarita. Agli occhi del mondo lui è morto, anche per Sarene, la principessa che si preparava a diventare sua sposa, sperando, dopo una lunga corrispondenza, di trovare l'amore oltre le ragioni di Stato. Dovrà affrontare da sola gli intrighi di corte di Arelon e una nuova minaccia rappresentata da Hrathen, un alto

sacerdote giunto dal regno ostile di Fjorden: è venuto per redimere Arelon o per distruggerla? Né Sarene né Hrathen sanno la verità su Raoden, ma forse sarà proprio lui a svelare il segreto dietro la maledizione di Elantris e a dare un nuovo futuro al suo regno. Un'opera ispirata e originale che ha rivelato Brandon Sanderson come una delle maggiori promesse della letteratura fantasy contemporanea.

Il collasso dell'impero - John Scalzi 2017-08-30

Le leggi della fisica che governano il mondo sono destinate a essere riscritte. Una scoperta sensazionale - il Flusso - ha cambiato per sempre la concezione spazio-temporale dell'universo, aprendo al progresso scenari inimmaginabili. Assecondando il Flusso, gli esseri umani sono ora in grado di raggiungere pianeti e stelle lontani anni luce, creare reti tra mondi remoti ma interdipendenti, costruire un impero interstellare in cui il pianeta Terra rappresenta ormai solo un insignificante avamposto. Il Flusso è come un fiume: scorre

placido, eterno, ma non è statico, cambia il suo corso e abbandona il suo letto originario. A ogni sua mutazione intere fette di universo vengono però isolate, abbandonate a loro stesse in una deriva cosmica catastrofica per interi sistemi stellari. Quella che doveva essere la via verso la nuova era intergalattica si rivela dunque la più pericolosa delle minacce per la sopravvivenza stessa del genere umano. Una rivoluzionaria space-opera ambientata in un universo sfuggente, fino ad oggi inconcepibile, dal genio di uno dei più grandi talenti della fantascienza contemporanea.

L'ombra del killer - Nathan Larson 2014-02-04
New York è diventata l'ombra di sé stessa, dopo una serie di attacchi terroristici su larga scala che hanno immerso la città nel caos. La sua maestosa biblioteca però è rimasta in piedi, e ospita uno strano bibliotecario, Dewey Decimal: un veterano che non può (o non vuole) ricordare il suo passato, e che può contare solo sull'amore per la letteratura e sul suo incrollabile codice

morale. Il primo lo ha spinto a catalogare ossessivamente il magazzino della biblioteca dopo il collasso della rete informatica, il secondo non gli ha impedito di avere a che fare con il sordido procuratore Rosenblatt. A poche settimane dall'omicidio del procuratore, Decimal torna sul luogo del delitto per cancellare eventuali tracce che potrebbero condurre a lui, e scopre un dossier molto compromettente sul potentissimo senatore Howard. Documenti in cui si parla del raccapricciante omicidio di una prostituta coreana e che devono rimanere segreti, a costo di far pagare il silenzio con la vita. Ma ben altra è la violenza che sta per scatenarsi: un gorgo di menzogne e tradimenti coinvolgerà quel che rimane di una società votata all'autodistruzione, tra mafia coreana, milizie private e industria militare. E costringerà Decimal a venire a patti col suo passato.

Fear in the World - Corrado Alvaro 2021-03-23
Corrado Alvaro's Fear in the World was published a decade before Orwell's 1984, but is

not well known outside Italy, perhaps because of the timing of the publication just before the Second World War. Alvaro had visited the Soviet Union as a journalist, but was probably motivated to write this dystopian novel by aspects of modernity that concerned him, particularly the use of fear for political purposes which was not afflicting Russia alone. He was interested in the psychology of fear and the extent to which individuals and the crowd participate in their own regimentation. The names of countries, cities and leading political figures such as Stalin are never referred to, but as in the works of Orwell they are clearly identifiable from their descriptions: the author was writing in a Fascist country against a Fascist censor and had to cut his cloth accordingly. This is a dark novel, not quite as dark as 1984, but it is more claustrophobic. The feeling of inevitability is there from the first page, and it is experienced as we experience real life. The imagined truth takes us closer to

where we really are. The travails of the love affair at the core of this novel quite possibly arise from perceptions that the regime exploits in a quite ad hoc manner. And it leads the reader through an extraordinary sequence of events and observations which encompass a vast range of emotions and ideas expressed in a unique prose style. The modern Leviathan appears to be a well-oiled machine, but towards the end it becomes clear that this is merely an appearance of efficiency and omniscience, but appearances can be powerful. Alvaro is particularly interested in how the state uses quasireligious mechanisms and rituals to assert its power. The central character returns to the country after a long period abroad, and sees things initially through foreign eyes, living a life similar to the one Alvaro did when in Russia. He is not a natural rebel, and very much wants to fit in, but he finds this difficult to achieve. The regime boasts that it has an ally in history, but destiny is elusive, however much the characters feel that they are

driven by it.

Messia di Dune - Frank P. Herbert 2014-02-04
SECONDO VOLUME DI IL CICLO DI DUNE
Dodici anni dopo la vittoria dei Fremen sull'Imperatore Padiscia Shaddam IV, Paul Muad'Dib, erede degli Atreides, è ancora il

temuto Imperatore della galassia e governa l'universo dalla sua capitale su Arrakis. La forza del mito che lo circonda viene però intaccata da un complotto che vede protagonisti il Bene Gesserit, la Gilda Spaziale, i Tleilaxu e alcuni Fremen ribelli: al centro della cospirazione c'è il tentativo di indebolire la sua capacità di comando e rendere instabile la dinastia degli Atrides ostacolando la nascita di un erede. Tuttavia, il prezioso dono della prescienza dà a Paul la consapevolezza che la strada da seguire è quella indicata dal suo destino: indirizzare il proprio popolo su un percorso che lo allontani dall'autodistruzione e dalla miseria, verso un futuro armonioso e duraturo, un obiettivo che è disposto a raggiungere anche a costo del proprio sacrificio... Il secondo, avvincente episodio di Il Ciclo di Dune, uno dei best seller assoluti della fantascienza mondiale.

Boneshaker - Cherie Priest 2009-09-29

In the early days of the Civil War, rumors of gold in the frozen Klondike brought hordes of

newcomers to the Pacific Northwest. Anxious to compete, Russian prospectors commissioned inventor Leviticus Blue to create a great machine that could mine through Alaska's ice. Thus was Dr. Blue's Incredible Bone-Shaking Drill Engine born. But on its first test run the Boneshaker went terribly awry, destroying several blocks of downtown Seattle and unearthing a subterranean vein of blight gas that turned anyone who breathed it into the living dead. Now it is sixteen years later, and a wall has been built to enclose the devastated and toxic city. Just beyond it lives Blue's widow, Briar Wilkes. Life is hard with a ruined reputation and a teenaged boy to support, but she and Ezekiel are managing. Until Ezekiel undertakes a secret crusade to rewrite history. His quest will take him under the wall and into a city teeming with ravenous undead, air pirates, criminal overlords, and heavily armed refugees. And only Briar can bring him out alive.
