Set during Ireland's devastating potato famine, a spellbinding novel of a young woman torn between love for her family and duty to her English husband. Patrick O'Malley names his newborn daughter Gracelin for the light of the sea that shines in her eyes. But when young Gracelin is only six years old, her mother's untimely death drains joy and laughter from the O'Malley clan. At fifteen, Gracelin saves her family from financial ruin by marrying Bram Donnelly, the son of a wealthy English landowner. But, even though Gracelin is Protestant, she is snubbed by English high society for marrying above her station. To temporarily appease her husband's cruel nature, she intends to provide him with an heir—but that, too, will end in sorrow. As famine sweeps Ireland, Gracelin openly defies her husband by feeding the desperate souls who come to their door. In secret, she also sides with the rebels who call themselves the Young Irishmen. Led by Morgan McDonagh and joined by Gracelin's beloved brother, Sean, the Irishmen are determined to fight and free

**The Incredible Journey of Plants** - Stefano Mancuso 2020-03-24  
In this richly illustrated volume, a leading neurobiologist presents fascinating stories of plant migration that reveal unexpected connections between nature and culture. When we talk about migrations, we should study plants to understand that these phenomena are unstoppable. In the many different ways plants move, we can see the incessant action and drive to spread life that has led plants to colonize every possible environment on earth. The history of this relentless expansion is

unknown to most people, but we can begin our exploration with these surprising tales, engagingly told by Stefano Mancuso. Generation after generation, using spores, seeds, or any other means available, plants move in the world to conquer new spaces. They release huge quantities of spores that can be transported thousands of miles. The number and variety of tools through which seeds spread is astonishing: we have seeds dispersed by wind, by rolling on the ground, by animals, by water, or by a simple fall from the plant, which can happen thanks to propulsive mechanisms, the swaying of the mother plant, the drying of the fruit, and much more. In this accessible, absorbing overview, Mancuso considers how plants convince animals to transport them around the world, and how some plants need particular animals to spread; how they have been able to grow in places so inaccessible and inhospitable as to remain isolated; how they resisted the atomic bomb and the Chernobyl disaster; how they are able to bring life to sterile islands; how they can travel through the ages, as they sail around the world.

The Curious Incident of the Dog in the Night-Time - Mark Haddon 2009-02-24

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this

dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

**Network and Migration in Early Renaissance Florence, 1378-1433** - K. Prajda 2019-01-16

This book explores the co-development of political, social, economic, and artistic networks of Florentines in the Kingdom of Hungary during the reign of Sigismund of Luxembourg. Analyzing the social network of these politicians, merchants, artisans, royal officers, dignitaries of the Church, and noblemen is the primary objective of this book. The study addresses both descriptively the patterns of connectivity and causally the impacts of this complex network on cultural exchanges of various types, among these migration, commerce, diplomacy, and artistic exchange. In the setting of a case study, this monograph should best be thought of as an attempt to cross the boundaries that divide political, economic, social, and art history so that they simultaneously figure into a single integrated story of Florentine history and development.

*The Boundaries of Europe* - Pietro Rossi 2015-04-24

Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to

explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

**The Journal of Dora Damage** - Belinda Starling 2010-10-01

London, 1860: On the brink of destitution, Dora Damage illicitly takes over her ailing husband's bookbinding business, only to find herself lured into binding expensive volumes of pornography commissioned by aristocratic roués. Dora's charm and indefatigable spirit carry her through this rude awakening as she contends with violent debt collectors, an epileptic daughter, evil doctors, a rheumatic husband, errant workmen, nosy neighbors, and a constant stream of wealthy dilettantes. When she suddenly finds herself forced to offer an internship to a mysterious, fugitive American slave, Dora realizes she has been pulled into in an illegal trade of sex, money, and deceit. *The Journal of Dora Damage* conjures a vision of London when it was the largest city in the world, grappling with the filth produced by a swollen population. Against a backdrop of power and politics, work and idleness, conservatism and abolitionism, Belinda Starling explores the restrictions of gender, class, and race, the ties of family and love, and the price of freedom in this wholly engrossing debut novel. **REVIEWS:** "Unfortunately, Starling's debut novel will be her last; she died prematurely last year at the age of 34. Although the plot is a bit too crowded and overworked-a common novice mistake-this historical melodrama artfully evokes the contradictions inherent in Victorian society. When *Dora Damage* is forced by circumstances-an invalid husband and an epileptic daughter-to take over the family bookbinding business, she is inexorably drawn into a London netherworld she barely

knew existed. As if binding pornographic books for a circle of aristocratic clients isn't bad enough, she is also compelled to harbor Din Nelson, a fugitive American slave. Unable to suppress her emotional and physical attraction for Din, she gives into desire and her real education begins." - Booklist

Historical Atlas of Medieval Music - Vera Minazzi 2019-08-31

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

**A Philosophy for Europe** - Roberto Esposito 2018-06-11

Amid a devastating economic crisis, two tragic events coming from the outside - the wave of immigration and Islamic terrorism - have radically changed the profile and significance of the space we call Europe. Given a paradigm leap of this sort, philosophical reflection is in a position to exert its creative power more than other types of knowledge. But this can only happen if it is able to go beyond its own lexical boundaries, by turning its gaze outside itself. Here the leading Italian philosopher Roberto Esposito looks at how various strands of German, French, and Italian thought have achieved this outward turn and successfully captured international attention by breaking with the language of early nineteenth-century crisis philosophies. When analyzed from this novel perspective, the great texts of Adorno, Derrida, Foucault, and Deleuze, as well as works by the latest Italian thinkers, are cast in a new light. From the relationship and tension between them, reconstructed here with extraordinary theoretical sensitivity, a form of thought can arise that is equal to the challenges faced by Europe today. This erudite and wide-ranging analysis of European thought in the light of the crises facing the continent today will appeal to students and scholars of philosophy, critical theory, and beyond.
