## **The Quran and the Life of Excellence** - Sultan Abdulhameed 2010

The Quran teaches that "God does not change people's condition unless they change their inner selves. The change has to occur inside us first, in our beliefs and attitudes, only then can it be seen on the outside. It also teaches how we can change our inner selves and thus improve our circumstances. This book brings together a number of verses from the Quran that teach methods of personal change. Each verse is accompanied by advice on how to use its wisdom in daily life. The principles of personal growth taught in the Quran are simple but they are amazingly powerful, and they can be used by anyone who wishes to transform his or her life from mediocre existence to fulfillment and achievement. A sentence in the Quran is called an aya, or a sign. It is a sign pointing to a deep truth that we need to focus on, decipher and learn to use in our lives. The essays in this book were used to teach the Quran at weekly meetings of Muslim Reform Movement in Brookville, New York, [www.mrmo.org](http://www.mrmo.org). Each provides personal tools on how to apply the aya's wisdom to uplift one's life.

It is a book for everyone who is sick of senseless religious wars and hateful speech. Whether complete reconciliation is possible and both religions can be entirely subsumed into one is clarified in the final section.

## **Translation of the Holy Quran in English** - Maulana Muhammad Ali 2013-12-25

The Quran, literally meaning "the recitation," also romanised (Koran) is the central religious text of Islam, which Muslims believe to be a revelation from God (Arabic: Allah). It is widely regarded as the finest piece of literature in the Arabic language. Muslims consider the Quran to be the only book that has been protected by God from distortion or corruption. Quranic chapters are called suras and verses are called ayahs. Muslims believe that the Quran was verbally revealed from God to Muhammad through the angel Gabriel (Jibril), gradually over a period of approximately 23 years, beginning on 22 December 609 CE, when Muhammad (Peace be upon Him) was 40, and concluding in 632 CE, the year of his death. Shortly after Muhammad's death, the Quran was collected by his companions using written Quranic materials and everything that had been memorized of the Quran. Muslims regard the Quran as the most important miracle of Muhammad, the proof of his prophet hood and the culmination of a series of divine messages that started with the messages revealed to Adam and ended with Muhammad. The Quran assumes familiarity with major narratives recounted in the Jewish and Christian scriptures. It summarizes some,

dwells at length on others and, in some cases, presents alternative accounts and interpretations of events. The Quran describes itself as a book of guidance. It sometimes offers detailed accounts of specific historical events, and it often emphasizes the moral significance of an event over its narrative sequence. The Quran is used along with the hadith to interpret sharia law. During prayers, the Quran is recited only in Arabic. Someone who has memorized the entire Quran is called a hafiz. Some Muslims read Quranic ayahs (verses) with elocution, which is often called tajweed. During the month of Ramadan, Muslims typically complete the recitation of the whole Quran during tarawih prayers. Inimitability of the Quran (or "I'jaz") is the belief that no human speech can match the Quran in its content and form. The Quran is considered an inimitable miracle by Muslims, effective until the Day of Resurrection-and, thereby, the central proof granted to Muhammad in authentication of his prophetic status. The concept of inimitability originates in the Quran where in five different verses challenges opponents to produce something like the Quran: "If men and sprites banded together to produce the like of this Quran they would never produce its like not though they backed one another" (17:88). So the suggestion is that if there are doubts concerning the divine authorship of the Quran come forward and create something like it. From the ninth century, numerous works appeared which studied the Quran and examined its style and content. Medieval Muslim scholars including al-Jurjani (d. 1078CE) and al-Baqillani (d. 1013CE) have written treatises on the subject, discussed its various aspects, and used linguistic approaches to study the Quran. Others argue that the Quran contains noble ideas, has inner meanings, maintained its freshness through the ages and has caused great transformations in individual level and in the history. Some scholars state that the Quran contains scientific information that agrees with modern science. The doctrine of miraculousness of the Quran is further emphasized by Muhammad's illiteracy since the unlettered prophet could not have been suspected of composing the Quran.

The Quran - Ejaz Naqvi 2012

"This book addresses the key themes of the Quran and answers commonly asked questions in search of finding common ground: Who wrote the Quran? Who is the "God" of the Quran? What is the Quranic view of the prophets, especially Moses and Jesus? What does the Quran teach about interfaith relations? Does the Quran promote peace and harmony between Muslims and the People of the Book, or does it promote violence? How does the Quran compare to the Bible on important themes like worshipping God, the prophets, human rights, moral values, and fighting for justice and human dignity? Does the Quran render women as second-class citizens? Dispelling major myths, 'The Quran: With or Against the Bible?' systematically analyzes and compares the similarities in the paths of guidance the two scriptures have bestowed upon mankind."--Publisher's website.

Prophets in the Quran - Brannon Wheeler 2002-06-18

What was the name of Noah's son who did not survive the Flood? Why do Pharaoh and Haman build the Tower of Babel? For what reasons does Moses travel to the ends of the Earth? Who is the 'Horned-One' who holds back Gog and Magog until the Day of Judgement? These are some of the questions answered in the oral sources and Quran commentaries on the stories of the prophets as they are understood by Muslims. Designed as an introduction to the Quran with particular emphasis on parallels with Biblical tradition, this book provides a concise but detailed overview of Muslim prophets from Adam to Muhammad. Each of the chapters is organized around a particular prophet, including an English translation of the relevant verses of the Quran and a wide selection of classical, medieval and modern Muslim commentaries on those verses. Quran commentaries include references to Sunni and Shi'i sources from Spain, Central Asia, the Middle East and Africa. An extensive glossary provides an annotated list of all scholarly transmitters and cited texts with suggestions for further reading. This is an excellent book for undergraduate courses, and students in divinity and seminary programmes. Comparisons between the Quran and Bible, and among Jewish, Christian and Islamic exegesis are highlighted. Oral sources, references adapted from apocryphal and pseudepigraphical works, and inter-religious dialogue are all evident throughout these stories of the prophets. This material shows how the Quran and its interpretation are integral to a fuller and more discerning understanding of the Bible and its place in the history of Western religion.

#### **The Numerical And Time Correlations In The Quran** - Sahal A. Mohamed 2018

Scholars have analyzed the Holy Quran for centuries, adopting practices and guidelines drawn from its wisdom. Their studies, however, focus on the literal meaning of its verses. In this ground-breaking work, Sahal A. Mohamed uses a numerological approach to interpret the hidden meanings in the holy book. He begins with a simple question: If the Quran is truly the word of Allah, can this be shown mathematically? Through simple equations, his study uncovers correlations and patterns that prove the holy text is beyond the ability of any human, and is indeed the work of the Almighty. From the central tenets of the Islamic faith to the complexities of the human body, these numerical correlations show that the Holy Quran reflects Allah's mastery not only in its content, but in the very structure of the book itself. Its secrets are astounding in their elegance, and will help to unlock a greater understanding of our life on Earth and the foundations of space and time.

#### **Thomas Jefferson's Qur'an** - Denise Spellberg 2014-07-01

In this original and illuminating book, Denise A. Spellberg reveals a little-known but crucial dimension of the story of American religious freedom—a drama in which Islam played a surprising role. In 1765, eleven years before composing the Declaration of Independence, Thomas Jefferson bought a Qur'an. This marked only the beginning of his lifelong interest in Islam, and he would go on to acquire numerous books on Middle Eastern languages, history, and travel, taking extensive notes on Islam as it relates to English common law. Jefferson sought to understand Islam notwithstanding his personal disdain for the faith, a sentiment prevalent among his Protestant contemporaries in England and America. But unlike most of them, by 1776 Jefferson could imagine Muslims as future citizens of his new country. Based on groundbreaking research, Spellberg compellingly recounts how a handful of the Founders, Jefferson foremost among them, drew upon Enlightenment ideas about the toleration of Muslims (then deemed the ultimate outsiders in Western society) to fashion out of what had been a purely speculative debate a practical foundation for governance in America. In this way, Muslims, who were not even known to exist in the colonies, became the imaginary outer limit for an unprecedented, uniquely American religious pluralism that would also encompass the actual despised minorities of Jews and Catholics. The rancorous public dispute concerning the inclusion of Muslims, for which principle Jefferson's political foes would vilify him to the end of his life, thus became decisive in the Founders' ultimate judgment not to establish a Protestant nation, as they might well have done. As popular suspicions about Islam persist and the numbers of American Muslim citizenry grow into the millions, Spellberg's revelatory understanding of this radical notion of the Founders is more urgent than ever. Thomas Jefferson's Qur'an is a timely look at the ideals that existed at our country's creation, and their fundamental implications for our present and future.

The Quran and The Bible in The Light of Science (PB) - Zakir Naik 2013

#### **The Quran Speaks** - Bahis Sedq 2018-02-14

Even those who dispute the Quran do not question that it is in its original form. This enables one to travel back in time to take a closer look at the Prophet Muhammad, who is amongst the most towering personalities in history. This book avails that priceless chance to reconstruct his life based on evidence as well preserved as the Quran. It also explores the Quran's message on issues ranging from justice and women to the treatment of other religions, to see if the disconnect between certain Islamic practices and the modern world is based on misreading of the Quran. Among other topics, the book assesses the claims

that the Quran is a scientific miracle, contains no inconsistencies, and is a masterpiece of literature, and also discusses the controversial incident of the "Satanic" verses in light of disclosures in the Quran. The effort is to gain a holistic understanding of possibly the most influential book of all time. The author has chosen to write under a penname, Seeker of the Truth, but remains optimistic of disclosing his identity in the future. He does not doubt that a vast majority of Muslims would allow him to express the views noted in this book, which are founded on the Quran. "Sedq uses many different translations of the Quran to present the material as clearly and sensibly as possible. ... Bottom line: This is an intriguing, engaging look at a religion still misunderstood by many in the West. ... It is bound to provoke heated debate." -Blueink Review "A searching look at the teachings of the Quran. ... Sedq takes up several common assertions about the Quran and subjects them to a scholarly, thorough, and often refreshingly cant-free contemporary analysis that takes modern social norms and literary scholarship into account. ... Sedq offers an interpretative look at the Quran that curious minds of all faiths will find fascinating." -Kirkus Reviews What's the most interesting or important book to come out recently about the Islamic world? "The Quran Speaks by Bahis Sedq: a hugely important book by a scholar of Islam who is, to my mind, the most sophisticated of all the dissidents in the Muslim world. He could be the Muslim Luther, if there were only a way to keep him safe." -Ayaan Hirsi Ali in The New York Times

#### **Allah's Miracles in the Qur'an** - Hârûn Yahya 2005

PREFACE Fourteen centuries ago, Allah sent down the Qur'an. This book of guidance and wisdom calls man to the truth and instructs all human beings to adhere to the values which this mighty revelation contains. From the day of its revelation to the Day of Judgement, this last divine book will remain as the sole guide for humanity. The book of Allah states, "But it is nothing less than a Reminder to all the worlds." (Qur'an, 68:52) Ever since the Qur'an was revealed, it has possessed an easily understandable language and tone, accessible to all people and in all times. Allah tells us of this style in the Qur'an: "We have made the Qur'an easy to remember..." (Qur'an, 54:22) The perfection of the literary language of the Qur'an, the incomparable features of its style and the superior wisdom contained within it are some of the definitive proofs that it represents the word of our Lord. In addition, the Qur'an contains within its words many miracles which prove it to be Allah's word. One of these attributes is the remarkable number of scientific truths which are contained in the Book of Islam. In this book which was revealed over fourteen centuries ago to the Prophet Muhammad (saas), there are innumerable examples of information humanity have only been able to uncover by the technology of the 20th and 21st centuries.

Quran - Talal Itani 2014-08-17

Perhaps the best Quran English translation. It is clear, easy to read, and very faithful to the Arabic original. It closely follows the Arabic text, and often reminds the reader of the Arabic original. It uses today's English language, and today's English vocabulary, thus it is easy to read and understand. The flow is smooth, the sentence structure is simple, the meaning is clear. This Quran translation has no interpretations, no footnotes, and no explanations. It is a pure translation of the Quran, from Arabic to English, and it does not try to emphasize any school of thought. The text purely and accurately translates the Holy Quran, from Arabic, into contemporary English. It was translated by a Muslim, who saw firsthand the miracles inside the Quran. His native language is Arabic; his everyday language is American English. For 15 years, he studied the Quran. For many years, he translated speech between his mother and his wife. For a living, he develops quality software. This Quran translation is available in two editions. This edition (A) uses the word "Allah" to refer to the Creator. Edition (B) uses the word "God". Quran Sura 91. The Sun. ash-Shams. In the name of Allah, the Gracious, the Merciful. 1. By the sun and its radiance. 2. And the moon as it follows it. 3. And the day as it reveals it. 4. **The Origins of the Koran** - Ibn Warraq 2010-10-05

Scholars of Islam are familiar with the Koran's many errors and contradictions, but these have rarely been revealed to a wider public. THE ORIGINS OF THE KORAN is an attempt to remedy this deficiency by bringing together classic critical essays which raise key issues surrounding Islam's holy book. Indispensable to scholars and all those interested in the textual underpinning of one of the fastest growing religions in the world.

**THE DIVINE SYSTEM** - Iman Omeed Khan MD 2015-06-19

The history of Islam as the faith of God has been buried and lost to antiquity, but the message in the Quran has been gaining renewed visibility as both a very negative and as a positive influence.

In spite of its growing visibility, there are baffling issues, as with all "religions", whether the individual, in reality, adheres to the tenets of the Quran and the Faith. There is clearly a phenomenal misunderstanding prevalent about Islam and the Quran.

The author undertook a serious study of the Quran over several years and dispassionately stresses the importance and relevance of the text to contemporary times where heated arguments persist as to which is the "better"/true religion.

The author presents direct quotes from the Quran and provides explanations thereof based on textual commentaries and her personal understanding with the sincere hope that those who are interested in knowing the basic facts in the Quran get a clearer understanding of this preserved word of God.

**Is Religion Killing Us?** - Jack Nelson-Pallmeyer 2015-08-27

Coverage of recent world events has focused on violence associated with Islam. In this courageous and controversial book, Jack Nelson-Pallmeyer claims that this narrow view ignores the broader and unfortunate relationship between human violence and the sacred texts of Jews, Christians, and Muslims. Both the Bible and the Quran, he believes, are riddled with violent images of God and with passages that can be reasonably interpreted to justify violence against enemies in service to God's will. According to Nelson-Pallmeyer, many wondered how Muslims could in God's name kill innocent civilians by flying airplanes into the World Trade Center and the Pentagon. Few, however, questioned U.S. leaders and citizens invoking God's name, or assuming God's favor, to fight the responsive "war against terrorism." And in the Middle East, the roots of the continuing and seemingly unsolvable conflict and violence are to be found in both the Torah and the Quran. Nelson-Pallmeyer challenges the understanding of power that lies at the heart of the sacred texts of Judaism, Christianity, and Islam. He argues that nonviolence is powerful

and necessary and that a viable future for human beings and the planet depends on challenging the ways in which sacred texts reinforce visions of power that are largely abusive. A viable future, he says, depends on re-visioning God's power. Jack Nelson-Pallmeyer is Assistant Professor of Justice and Peace Studies at the University of St. Thomas in St. Paul, Minnesota. For more than twenty years he has studied and written about the relationship of religion, violence, and peace, and his books include *Jesus Against Christianity: Reclaiming the Missing Jesus* (Trinity Press International) and *School of Assassins: Guns, Greed, and Globalization*.

*The Quran and the Secular Mind* - Shabbir Akhtar 2007-10-31

This book is concerned with the rationality and plausibility of the Muslim faith and the Qur'an, and in particular how they can be interrogated and understood through Western analytical philosophy. It also explores how Islam can successfully engage with the challenges posed by secular thinking. The Quran and the Secular Mind will be of interest to students and scholars of Islamic philosophy, philosophy of religion, Middle East studies, and political Islam.

*A Concise Guide to the Quran* - Ayman S. Ibrahim 2020-11-03

What is so unique about Islam's scripture, the Quran? Who wrote it, and when? Can we trust its statements to be from Muhammad? Why was it written in Arabic? Does it command Muslims to fight Christians? These are a few of the thirty questions answered in this clear and concise guide to the history and contents of the Quran. Ayman Ibrahim grew up in the Muslim world and has spent many years teaching various courses on Islam. Using a question-and-answer format, Ibrahim covers critical questions about the most sacred book for Muslims. He examines Muslim and non-Muslim views concerning the Quran, shows how the Quran is used in contemporary expressions of Islam, answers many of the key questions non-Muslims have about the Quran and Islam, and reveals the importance of understanding the Quran for Christian-Muslim and Jewish-Muslim interfaith relations. This introductory guide is written for anyone with little to no knowledge of Islam who wants to learn about Muslims, their beliefs, and their scripture.

**The Quran** - Allah 2022-05-17

The Quran is the central religious text of Islam, believed by Muslims to be a revelation from Allah. Muslims regard the Quran as Muhammad's most important miracle; a proof of his prophethood; and the culmination of a series of divine messages. The Quran describes itself as a book of guidance for mankind. It offers detailed accounts of specific historical events, and it often emphasizes the moral significance of an event over its narrative sequence. The Quran consists of 114 chapters of varying lengths, each known as a sūrah. Chapters are classified as Meccan or Medinan, depending on whether the verses were revealed before or after the migration of Muhammad to the city of Medina. Each sūrah consists of several verses, known as āyāt, which originally means a "sign" or "evidence" sent by God. The Quranic content is concerned with basic Islamic beliefs including the existence of God and the resurrection. Narratives of the early prophets, ethical and legal subjects, historical events of Muhammad's time, charity and prayer also appear in the Quran. The Quranic verses contain general exhortations regarding right and wrong and historical events are related to outline general moral lessons. In this edition of Quran the sūrahs are ordered chronologically.

**Moses in the Quran and Islamic Exegesis** - Brannon M. Wheeler 2002

Relating the Muslim understanding of Moses in the Qur'an to the Epic of Gilgamesh, Alexander Romances, Aramaic Targums, Rabbinic Bible exegesis, and folklore from the ancient and medieval Mediterranean, this book shows how Muslim scholars authorize and identify themselves through allusions to the Bible and Jewish tradition. Exegesis of Qur'an 18:60-82 shows how Muslim exegetes engage Biblical theology through interpretation of the ancient Israelites, their prophets, and their Torah. This Muslim use of a scripture shared with Jews and Christians suggests fresh perspectives for the history of religions, Biblical studies, cultural studies, and Jewish-Arabic studies.

*Tracing Jesus in the Bible and the Quran* - Fred Maina Macharia 2004-03-12

Doctoral Thesis / Dissertation from the year 2003 in the subject Theology - Comparative Religion Studies,

grade: cum laude, Concordia University Montreal (Concordia Theologica Instiute; Neffs, Penns., USA), language: English, abstract: This paper sets out to examine the presence of Jesus Christ as presented in the Holy Quran. This is presented from the perspective of a twentieth century African Christian after an objective reading of the Holy Quran and some Hadith literature. Jesus comes through as a prophet and messenger of Allah, with whom Allah has established unique relationship and about whom the last word is not yet spoken. The Quran comes through as a great defender of what it reveals as the true nature and identity of Jesus, against different and conflicting misrepresentations of Jesus by rival Christian groups. The Quran presents a Jesus in whom Allah is greatly interested. Allah identifies and prepares Mary the mother of Jesus and entrusts her to the care of Zachariah. Allah gives a gift of a son to Zachariah in their old age; this son is John and called "Yahya" in the Quran. Allah then gives a Word from Himself to Mary. This word from Allah given to Mary becomes Jesus a son born of a virgin mother. Allah himself through the ministry of Angels and nature arranges for and takes care of Mary's confinement and post-delivery care till Allah presents her back to her people with her infant son Jesus who as an infant miraculously spoke in defense of his mother. The Quran presents a Jesus who delivers a message to the children of Israel only. A Jesus who performs miracles and a Jesus who is rescued by Allah from the threat of being crucified by the Jews Allah takes Jesus unto Himself and before the day of judgement Jesus will come to do the will of Allah. After reading all the references of Jesus in the Quran, one develops an interest in this Prophet and Messenger of Allah and asks many questions about him. However, the Quran is silent. This silence of the Quran about so much historical information about Jesus becomes very loud and problematic. The quotations from the Holy Quran in this paper are from Ali, Abdullah Yusuf: The Holy Quran: Arabic Text, Translation and Commentary, University of New York Press, 1991. The purpose of this paper is:- 1. Trace Jesus in the Holy Quran 2. Compare and contrast the Jesus in the Quran and the Bible 3. Help Christian to understand Islam Religion and being able to answer the basic system of doctrine of a Muslim. 4. Have a picture of Jesus through the eyes of a Muslim and a Christian.

*Prophets in the Quran* - Brannon M. Wheeler 2002-06-18

What was the name of Noah's son who did not survive the Flood? Why do Pharaoh and Haman build the Tower of Babel? For what reasons does Moses travel to the ends of the Earth? Who is the 'Horned-One' who holds back Gog and Magog until the Day of Judgement? These are some of the questions answered in the oral sources and Quran commentaries on the stories of the prophets as they are understood by Muslims. Designed as an introduction to the Quran with particular emphasis on parallels with Biblical tradition, this book provides a concise but detailed overview of Muslim prophets from Adam to Muhammad. Each of the chapters is organized around a particular prophet, including an English translation of the relevant verses of the Quran and a wide selection of classical, medieval and modern Muslim commentaries on those verses. Quran commentaries include references to Sunni and Shi'i sources from Spain, Central Asia, the Middle East and Africa. An extensive glossary provides an annotated list of all scholarly transmitters and cited texts with suggestions for further reading. This is an excellent book for undergraduate courses, and students in divinity and seminary programmes. Comparisons between the Quran and Bible, and among Jewish, Christian and Islamic exegesis are highlighted. Oral sources, references adapted from apocryphal and pseudepigraphical works, and inter-religious dialogue are all evident throughout these stories of the prophets. This material shows how the Quran and its interpretation are integral to a fuller and more discerning understanding of the Bible and its place in the history of Western religion.

**Islamic Thought In The Quran** - Ayatollah Sayyed Ali Khamenei 2017-03-01

It is now more than forty years since these sermons were delivered, but throughout all these years, this great valuable work "The General pattern of Islamic thought In the Quran" remained unpublished! When the young Hojjat-al-Islam sayyed Ali Khamenei began these series of sermons at the half-built Imam Hassan Mojtaba Mosque in Mash-had for 28 sessions in the month of Ramadan 1394 (1975), the city of Mash-had acquired a different atmosphere: The sessions were held following noon-prayers in the heat of summertime when people usually went to their houses to rest for a couple of hours; yet, in a locality in this city many people, young and old, were on the way to attend Khamenei's unique lectures; if you could look at the audience, you would notice that many people belonging to different social strata: Theology students, high school pupils, university students, shop-keepers, local residents, both men and women, especially young

ones, all attended these sessions; medical students had managed to hire two buses to transfer them from the vicinity of the university to this mosque. In Khamenei's lectures, everything is different from traditional, spiritual sermons: everyone is given one or two photocopied pages containing a summary of topics to be discussed in the session, the lecturer delivers his speech while standing on a fasting day and after the end of the lecture, a fine-sounding Quran reciter chants the relevant Quranic verses discussed already. Khamenei's sessions really resembles an educational class-room rather than a traditional preaching
