An Introduction to Language and Linguistics - Ralph Fasold 2006-03-06

This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

International Accounting and Multinational Enterprises - Lee H. Radebaugh 2006-01-04

Make informed decisions in today's dynamic international business environments International accounting has never been so exciting. Not only is the pace of international business, finance, and investment rapidly increasing, but we are also moving closer than ever before toward a convergence of accounting standards worldwide. Updated and revised to keep pace with these changes, this Sixth Edition of Radebaugh, Gray, and Black's International Accounting and Multinational Enterprises focuses on international business strategies and how accounting applies to these strategies. You'll learn how to use financial and accounting information across borders, and make more informed decisions in an increasingly complex international business environment. The authors also explain the key factors, including cultural differences, that influence accounting standards and practices in different countries, and how those factors impact the harmonization of standards worldwide. New to This Edition: * New coauthor, Ervin L. Black of Brigham Young University. * Updated coverage on corporate governance, Sarbanes-Oxley, the Public Company Accounting Oversight Board (PCAOB), and how these forces affect U.S.-based multinationals, as well as companies in other countries. * Increased coverage of the efforts of the International Accounting Standards Board (IASB) to establish a uniform set of International Financial Reporting Standards (IRFS) worldwide

and its interface with different national standard setters, especially the FASB. Special attention is given to the experience of the European Union and Australia in adopting IFRS in 2005. * A web-based International Accounting Practice Problem, which helps students see how to apply IFRS to a set of transactions. * Brief, user-oriented examples called Strategic Decision Points at the beginning of each chapter. * Expanded end-of-chapter material, including more discussion questions and exercises. * New cases (two per chapter) on the web. * Accounting for foreign exchange is now covered in two chapters. One chapter focuses on accounting issues, and the other chapter, which is new, focuses on foreign exchange risk management.
