The Law of Causality and Its Limits - Philipp Frank 2012-12-06

The Law of Causality and its Limits was the principal philosophical work of the physicist turned philosopher, Philipp Frank. Born in Vienna on March 20, 1884, Frank died in Cambridge, Massachusetts on July 21, 1966. He received his doctorate in 1907 at the University of Vienna in theoretical physics, having studied under Ludwig Boltzmann; his subsequent research in physics and mathematics was represented by more than 60 scientific papers. Moreover his great success as teacher and expositor was recognized throughout the scientific world with publication of his collaborative *Die Differentialgleichungen der Mechanik und Physik*, with Richard von Mises, in 1925-27. Frank was responsible for the second volume, on physics, and especially noted for his authoritative article on classical Hamiltonian mechanics and optics. Among his earliest papers were those, beginning in 1908, devoted to special relativity, which together with general relativity and physical cosmology occupied him throughout his life. Already in 1907, Frank published his seminal paper 'Kausalgesetz und Erfahrung' ('Experience and the Law of Causality'), much later collected with a splendid selection of his essays on philosophy of science, in English (1941c and 1949g, in our Bibliography). Joining the first 'Vienna Circle' in the first decade of the 20th century, with Hans Hahn, mathematician, and Otto Neurath,

sociologist and economist, and deeply influenced by studies of Ernst Mach's critical conceptual histories of science and by the striking challenge of Poincare and Duhem, Frank continued his epistemological investigations.

Vinegar Hill - A. Manette Ansay 2009-10-13

It's a Hill, Get Over It - Steve Chilton 2013-09-19

This book offers a detailed history of the sport of
fell running. It also tells the stories of some of
the great exponents of the sport through the
ages. Many of them achieved greatness whilst
still working full time in traditional jobs, a
million miles away from the professionalism of
other branches of athletics nowadays. The book
covers the early days of the sport, right through
to it going global with World Championships.
Along the way it profiles influential athletes such
as Fred Reeves, Bill Teasdale, Kenny Stuart, Joss
Naylor, and Billy and Gavin Bland. It gives
background to the athletes including their
upbringing, introduction to the sport, training,
working life, records and achievements. It also
includes in-depth conversations with some of the
greats, such as Jeff Norman and Rob Jebb. The
author is a committed runner and qualified
athletics coach. He has considerable experience
of fell running, competing in the World Vets
Champs when it was held in Keswick in 2005. He
is a long-time member of the Fell Runners
Association (FRA). Using a mixture of personal
experience, material from extensive interviews,
and that provided by an extensive range of
published and unpublished sources, a
comprehensive history of the sport and its
characters and values is revealed.

The Round - Steve Chilton 2017-01-19

The Round is not only a history of the Bob
Graham Round, but also an exploration of the
what, why and how of this classic fell endurance
challenge. After covering the genesis of the BGR
in detail, it documents its development from a

more-or-less idle challenge to its present status as a rite of passage for endurance runners. Interspersed with this detail of the round are extensive profiles of many of the event's most significant individuals: innovators, record setters, recorders and supporters. Some links to resources for potential BGR completers are included. The Round is emphatically NOT a 'how to' guide, but it IS a terrific follow up to Steve Chilton's hugely popular first book, *It's a Hill, Get Over It*.

Five Days in November - Clint Hill 2014-09-30
"The New York Times bestselling authors of *Mrs. Kennedy and Me* share the stories behind the five infamous, tragic days surrounding JFK's assassination--alongside revealing and iconic photographs--published in remembrance of the beloved president on the fiftieth anniversary of his death. Clint Hill will forever be remembered as the lone secret service agent who jumped onto the car after President Kennedy was shot, clinging to its sides as it sped toward the hospital. Even now, decades after JFK's presidency, the public continues to be fascinated with the Kennedys--America's royal family. To mark the fiftieth anniversary of President John F. Kennedy's assassination, Hill recounts his indelible memories of those five days leading up to, and after, that tragic day in November 1963. Hill, as Jackie's guard, experienced those days firsthand. Alongside the famous photos everyone is familiar with, Hill provides a moment-to-moment narration evoking the feelings and emotions behind the images--clearing up the persistent conspiracy misconceptions along the way. He also shows us the little-seen photos of Jackie both before and after the terrible event, describing the poignant moments they shared, during that pivotal moment in history. Told movingly by a man who still wishes he could undo it all, *Five Days in November* is a rare and deeply personal look at the assassination that affected the entire world and changed the United States forever"--

Believing - Anita Hill 2021-09-28
"An elegant, impassioned demand that America see gender-based violence as a cultural and structural problem that hurts everyone, not just victims and survivors... It's at times downright virtuosic in the threads it weaves together."—NPR Winner of the 2022 ABA Silver

Gavel Award for Books From the woman who gave the landmark testimony against Clarence Thomas as a sexual menace, a new manifesto about the origins and course of gender violence in our society; a combination of memoir, personal accounts, law, and social analysis, and a powerful call to arms from one of our most prominent and poised survivors. In 1991, Anita Hill began something that's still unfinished work. The issues of gender violence, touching on sex, race, age, and power, are as urgent today as they were when she first testified. *Believing* is a story of America's three decades long reckoning with gender violence, one that offers insights into its roots, and paths to creating dialogue and substantive change. It is a call to action that offers guidance based on what this brave, committed fighter has learned from a lifetime of advocacy and her search for solutions to a problem that is still tearing America apart. We once thought gender-based violence--from casual harassment to rape and murder--was an individual problem that affected a few; we now know it's cultural and endemic, and happens to our acquaintances, colleagues, friends and family members, and it can be physical, emotional and verbal. Women of color experience sexual harassment at higher rates than White women. Street harassment is ubiquitous and can escalate to violence. Transgender and nonbinary people are particularly vulnerable. Anita Hill draws on her years as a teacher, legal scholar, and advocate, and on the experiences of the thousands of individuals who have told her their stories, to trace the pipeline of behavior that follows individuals from place to place: from home to school to work and back home. In measured, clear, blunt terms, she demonstrates the impact it has on every aspect of our lives, including our physical and mental wellbeing, housing stability, political participation, economy and community safety, and how our descriptive language undermines progress toward solutions. And she is uncompromising in her demands that our laws and our leaders must address the issue concretely and immediately.

Where the Mountain Casts Its Shadow - Maria Coffey 2007-04-01

Without risk, say mountaineers, there would be none of the self-knowledge that comes from pushing life to its extremes. For them, perhaps, it is worth the cost. But when tragedy strikes, what happens to the people left behind? Why would anyone choose to invest in a future with a high-altitude risk-taker? What is life like in the shadow of the mountain? Such questions have long been taboo in the world of mountaineering. Now, the spouses, parents and children of internationally renowned climbers finally break their silence, speaking out about the dark side of adventure. Maria Coffey confronted one of the harshest realities of mountaineering when her partner Joe Tasker disappeared on the Northeast Ridge of Everest in 1982. In *Where the Mountain Casts Its Shadow*, Coffey offers an intimate portrait of adventure and the conflicting beauty, passion, and devastation of this alluring obsession. Through interviews with the world's top climbers, or their widows and families--Jim Wickwire, Conrad Anker, Lynn Hill, Joe Simpson, Chris Bonington, Ed Viesturs, Anatoli Boukreev, Alex Lowe, and many others--she explores what compels men and women to give their lives to the high mountains. She asks why, despite the countless tragedies, the world continues to laud their exploits. With an insider's understanding, Coffey reveals the consequences of loving people who pursue such risk--the exhilarating highs and inevitable lows, the stress of long separations, the constant threat of bereavement, and the lives shattered in the wake of climbing accidents. *Where the Mountain Casts Its Shadow* is a powerful, affecting and important book that exposes the far reaching personal costs of extreme adventure.

Nathan Hill is a maestro." —John Irving From the suburban Midwest to New York City to the 1968 riots that rocked Chicago and beyond, *The Nix*

explores—with sharp humor and a fierce tenderness—the resilience of love and home, even in times of radical change. It's 2011, and Samuel Andresen-Anderson—college professor, stalled writer—has a Nix of his own: his mother, Faye. He hasn't seen her in decades, not since she abandoned the family when he was a boy. Now she's re-appeared, having committed an absurd crime that electrifies the nightly news, beguiles the internet, and inflames a politically divided country. The media paints Faye as a radical hippie with a sordid past, but as far as Samuel knows, his mother was an ordinary girl who married her high-school sweetheart. Which version of his mother is true? Two facts are certain: she's facing some serious charges, and she needs Samuel's help. To save her, Samuel will have to embark on his own journey, uncovering long-buried secrets about the woman he thought he knew, secrets that stretch across generations and have their origin all the way back in Norway, home of the mysterious Nix. As he does so, Samuel will confront not only Faye's losses but also his own lost love, and will relearn everything he thought he knew about his mother, and himself.
