**Agrarian Elites** - Enrico Dal Lago 2005-11-01  
Between 1815 and 1861, American slaveholders and southern Italian landowners presided over the economic and social life of two predominantly agricultural regions, the U.S. South and

Italy's Mezzogiorno. Enrico Dal Lago ingeniously compares these agrarian elites, demonstrating how the study of each enhances our understanding of the other as well as of their shared nineteenth-century world. *Agrarian Elites* charts the parallel developments of plantations and latifondi in relation to changes in the world economy. At the same time, it examines the spread of "paternalistic" models of family relations and of slave and free-labor management that accompanied the rise of large

groups of American slaveholders and southern Italian landed proprietors in the early-to-mid-1800s. According to Dal Lago, the most articulate and enlightened members of both elites combined the pursuit of profit with the implementation of "modern" contractual practices in dealing with their workforces. Both elites also used their economic and social power for political advantage, opposing the intervention of their national governments in local affairs. The search for ever-better protection of their respective interests in slaveholding and landed property led ultimately to their support for the creation of two nations, the Confederate States of America and the Kingdom of Italy, both in 1861. Dal Lago brings together two subjects that have generated considerable debate and research: systems of slave and nominally free labor and the elites who employed them, and nineteenth-century nationalism. With its pathbreaking approach and

singular and comparative insights, Agrarian Elites will inform not only American and Italian studies but also the very practice of comparative history.

*the Framework of the European Cooperative Society* - Georg Miribung 2020-04-09

This book assesses the Statute for a European Cooperative Society (SCE) regarding agricultural activities by comparing how specific questions arising in this context must be dealt with under the Italian and Austrian legal systems. In this regard, Council Regulation (EC) No. 1435/2003, of 22 July 2003, on the Statute for a European Cooperative Society (SCE), is used as a tool for the structured analysis of various aspects of agricultural cooperatives. However, a comparison is only meaningful if the results are made comparable on the basis of a previously defined standard. Accordingly, the study uses, on one hand, a cooperative model developed by European legal scholars that defines general guidelines on how cooperatives should function (PECOL). On the other, the results are presented in connection with economic considerations to discuss how efficient rules can

be developed.

La prima guida della cantine di Alba. La pubblicazione della guida dei produttori della città di Alba è un momento da celebrare. Si tratta infatti di uno dei primi tentativi di unire sotto un'unica bandiera i moltissimi produttori della capitale delle Langhe, creando una sinergia e un'unione che, speriamo, sia solo il primo passo di una promozione a lungo termine. L'idea che sta infatti alla base della pubblicazione è che questa funga da motore di valorizzazione, una sorta di innesco a partire dal quale i produttori albesi potranno

proporsi ad eventi nazionali e internazionali con forze e contenuti che solo un solido gruppo possono garantire. La guida va dunque sfogliata "in divenire", augurandosi cioè che fondi le basi di un'associazione che continuerà a portare il nome vitivinicolo di Alba nel mondo. Ma la guida dell'Associazione Cantine di Alba va anche consultata per il suo lato pragmatico... The first guide to the wineries of Alba The publication of the guide to the wineries of the city of Alba is something to celebrate. In fact it is one of the first attempts to unite the plethora of producers in the capital of the Langhe in a common cause, creating a synergy and togetherness that we are certain is just the first step toward long-term promotion. In fact, the idea behind the publication was that it would act as a booster - a springboard for the producers of Alba to propose their participation in national and international events with the forces and the content that only a solid group can

guarantee. One must therefore flip through the guide aware that it is in evolution, hoping that it will lay the foundations for an association that will continue to carry the flag of Alba's winemaking out in the world.

**Accounting and Food** -  
Massimo Sargiacomo  
2016-03-02

The interrelations between accounting and food have been hitherto neglected at an international level. This regret is particularly meaningful with regards to Italy, where 'Food', besides being a physiological need to satisfy, is one of the main pillars of the 'Made in Italy' Industry, and the so-called Italian life-style, which has become a part of the popular culture. Accounting and Food seeks to explore the accounting, business and financial history of some of the

most prestigious Italian food producers. Moreover, given that "Food" has been at the center of production and trade throughout the history of mankind, food production and commerce will be investigated from the critical angles of accounting, accountants and merchants. Relatedly, the interconnected history of the Food fairs and expositions of the major Italian trade centers will be also unveiled.

Accounting and Food examines the role of accounting, accountants and merchants in food production and international trade (e.g., grain, wine, etc...) as well as considering the history of food producers, paying particular attention to the role played by women entrepreneurs over time. Finally the book explores the interrelations of accounting, food and state, local authorities and social institutions, in particular in so far these latter institutions were involved in the Political economy, regulation, allocation and distribution of food to populations and societies.

2014-06-23T00:00:00+02:00

Oltre alla sempre fondamentale passione per il lavoro della terra, della trasformazione dei prodotti e dell'allevamento, l'azienda agricola del terzo millennio non può non innovare nella ricerca e nello sviluppo ed essere pronta alla competizione e alla globalizzazione. L'azienda agricola è anche una realtà aziendale e deve quindi rispondere non solo alle logiche dell'agrodinamica, ma anche a quelle della disciplina generale civile dell'azienda. È e rimane sempre un complesso di beni organizzati per l'esercizio dell'impresa agricola. Il codice

civile tutela l'imprenditore, l'azienda, i familiari dell'imprenditore, i soci, il fondo, i creditori e la terra, ma non sempre ciò è sufficiente. L'evoluzione delle aspettative e la conciliazione degli interessi possono consigliare anche il ricorso a istituti più evoluti e flessibili. In questo contesto si inserisce perfettamente il trust che, dopo lunga esperienza e attività nel sistema anglosassone, trova riferimenti e applicazioni anche tra i nostri campi e tra le nostre aziende agricole. Il trust è lo spartiacque ideale tra il patrimonio della famiglia, dei familiari e dell'azienda agricola, proponendosi sia quale regolatore degli interessi complessivi che come anche facilitatore delle situazioni più complesse. Non è solo la famiglia Antinori a introdurre un trust fra campi e vigne. Le opportunità offerte dal trust sono varie e numerose, purché l'imprenditore agricolo e il coltivatore diretto superino in modo adeguato le implicazioni psicologiche, non trascurabili, dello spossessamento del bene,

Verona and Vicenza. During Venice's golden age, aristocrats brought their wealth to the Veneto countryside and commissioned architects to build agricultural estates and country homes. Today, more than 4,000 villas remind us of that period, the most famous of which were designed by 16th-century architect Andrea Palladio. The Veneto's depth, however, extends far beyond its artistic treasures. Vineyard-clad hills throughout the Veneto produce internationally acclaimed wines including Valpolicella, Soave, Bardolino and Custoza. From grappa, Bassano del Grappa's distilled liquor, and Valdobbiadene's sparkling Prosecco wine, to Asiago's cheese from mountain dairies, and seafood from the lagoon, the Veneto is a food- and wine-lovers' delight. This guide tells you about the wine-growing regions especially: the Euganean Hills, Prosecco, Soave, Cistoza, Bardolino, Valpolicella, Bassano del Grappa - how to visit the vineyards, taste the wines,

trying the best restaurants, and the best places to stay in each region. All of the details you need to know are here so your trip will be unforgettable.

The Rise of the Fiscal State in  
Europe c.1200-1815 - Richard  
Bonney 1999-09-02

In this volume an international team of scholars builds up a comprehensive analysis of the fiscal history of Europe over six centuries. It forms a fundamental starting-point for an understanding of the distinctiveness of the emerging European states, and highlights the issue of fiscal power as an essential prerequisite for the development of the modern state. The study underlines the importance of technical

developments by the state, its capacity to innovate, and, however imperfect the techniques, the greater detail and sophistication of accounting practice towards the end of the period. New taxes had been developed, new wealth had been tapped, new mechanisms of enforcement had been established. In general, these developments were made in western Europe; the lack of progress in some fiscal systems, especially those in eastern Europe, is an issue of historical importance in its own right and lends particular significance to the chapters on Poland and Russia. By the eighteenth century 'mountains of debt' and high debt-revenue ratios had become the norm in western Europe, yet in the east only Russia was able to adapt to the western model by 1815. The capacity of governments to borrow, and the interaction of the constraints on borrowing and the power to tax had become the real test of the fiscal powers of the 'modern state' by 1800-15.

Venice Triumphant - Elisabeth Crouzet-Pavan 2005-03-23

A group of senior citizens decide to move in together in *All Together*, a French-language comedy from director Stephanie Robelin. When Claude (Claude Rich) suffers an injury while trying to climb steps in order to meet a woman for a liaison, he and his friends, who are all suffering from some age-related malady, decide to move in together and hire a graduate student to look out for them. Among the new co-tenants are the senile Albert (Pierre Richard) and his wife, the outgoing Jeanne (Jane Fonda) who herself is fighting cancer. Also living with them is

Jean (Guy Bedos) a onetime social crusader who enjoys the wealth he's acquired with his wife Annie (Geraldine Chaplin), who wants nothing more than to visit with her children and grandchildren. As they adjust to their new living arrangements, old jealousies and hurts resurface, forcing everyone to reconsider how they want to spend their golden years. ~ Perry Seibert, Rovi

An amazing resource for anyone traveling in the area. I highly recommend using this book as a reference tool. -- S. Johnson, Amazon reviewer. Italy's northernmost zone, The Veneto includes Padua, Verona, Vicenza, plus Venice itself, which once ruled the area. Some 5,000 Renaissance villas still stand, many by Palladio. A food- and wine-lover's paradise, it's also the most artistically rich region

in Italy, And The most romantic, with the art of Giotto and Mantegna in Padua, The Roman ruins in Verona, The canals and palaces in Venice itself. Bellini, Tintoretto, Veronese and Titian worked here. Experience their art and be part of their world, with the insights of an insider. Every detail is here about the foods, The sights, The best places to stay and eat. Situated where the Brenta And The Bacchiglione Rivers converge, Padua was founded as a fisherman's village in the fourth century BC. Later, during the Roman period, Patavium (as it was then known) was allied To The Romans against the Gauls and was one of the Roman Empire's most prosperous towns. The 13th century gave birth to a university town that would become a burgeoning center of education and art in the Middle Ages And The Renaissance, marked by luminaries such as Galileo, Dante, Giotto and Donatello. under its control. It later came under Napoleon's control, followed by that of Austrians. Long considered one of Italy's golden cities of art, this frescoed town exhibits many impressive works by great medieval and Renaissance artists and today is a spirited cultural center animated by university students, intellectuals, artists and travelers. Saint Anthony, associated with Padua for his 13th-century works and the subsequent construction of a basilica in his honor, is the patron saint of lost and found objects. His feast day is June 13th. Prato della Valle, said to be one of Europe's largest piazzas, was a swampland until Andrea Memmo had it redesigned and transformed into a commercial center in 1767. The prato (field), a large grassy island surrounded by a canal, has four stone bridges connecting it to the surrounding square and 78 statues honoring great Paduan citizens. Today this pedestrian zone is the site of markets, concerts, sports and cultural

events and is a popular spot to bask in the sun, read a book, skate or relax. Basilica di Santa Giustina (Prato della Valle, tel. 049-8751628; summer 7:30 am-noon and 3-8 pm; winter 8 am-noon and 3-5 pm). The eight cupolas of the Basilica di Santa Giustina, a structure rebuilt by Benedictine friars in the 16th century, dominate the south side of the Prato della Valle. Among the finest works of art contained in the basilica is Veronese's altarpiece from 1575 representing the Martyrdom of Santa Giustina. This serene Renaissance garden, established in 1545 by the University of Padua's faculty of medicine, is considered the oldest university garden in the world and exhibits a fascinating collection of plants from around the globe. The oldest plant in the garden, a palm from 1585 commonly referred to as the Goethe palm after the German writer, is enclosed in a glass house in the

circular garden where two other plants from the 1700s, a ginkgo and a magnolia, are also found. This Romanesque-Gothic basilica honors Friar Anthony from Lisbon, who died outside Padua in 1231 and was later beatified. Construction on the basilica, with its eight Byzantine inspired domes, began shortly after his death
