The End of Protest - Micah White 2016-03-15

Is protest broken? Micah White, co-creator of Occupy Wall Street, thinks so. Disruptive tactics have failed to halt the rise of Donald Trump. Movements ranging from Black Lives Matter to environmentalism are leaving activists frustrated. Meanwhile, recent years have witnessed the largest protests in human history. Yet these mass mobilizations no longer change society. Now activism is at a crossroads: innovation or irrelevance. In *The End of Protest* Micah White heralds the future of activism. Drawing on his unique experience with Occupy Wall Street, a contagious protest that spread to eighty-two countries, White articulates a unified theory of revolution and eight principles of tactical innovation that are destined to catalyze the next generation of social movements. Despite global challenges—catastrophic climate change, economic collapse and the decline of democracy—White finds reason for optimism: the end of protest inaugurates a new era of social change. On the horizon are increasingly sophisticated movements that will emerge in a bid to challenge elections, govern cities and reorient the way we live. Activists will reshape society by forming a global political party capable of winning elections worldwide. In this provocative playbook, White offers three bold, revolutionary scenarios for harnessing the creativity of people from across the political spectrum. He also shows how social movements are created and how they spread, how materialism limits

contemporary activism, and why we must re-conceive protest in timelines of centuries, not days. Rigorous, original and compelling, *The End of Protest* is an exhilarating vision of an all-encompassing revolution of revolution.

Kim Jiyoung, Born 1982: A Novel - Cho Nam-Joo 2020-04-14

A New York Times Editors Choice Selection A global sensation, Kim Jiyoung, Born 1982 "has become...a touchstone for a conversation around feminism and gender" (Sarah Shin, Guardian). One of the most notable novels of the year, hailed by both critics and K-pop stars alike, Kim Jiyoung, Born 1982 follows one woman's psychic deterioration in the face of rampant misogyny. In a tidy apartment on the outskirts of Seoul, millennial "everywoman" Kim Jiyoung spends her days caring for her infant daughter. But strange symptoms appear: Jiyoung begins to impersonate the voices of other women, dead and alive. As she plunges deeper into this psychosis, her concerned husband sends her to a psychiatrist. Jiyoung narrates her story to this doctor—from her birth to parents who expected a son to elementary school teachers who policed girls' outfits to male coworkers who installed hidden cameras in women's

restrooms. But can her psychiatrist cure her, or even discover what truly ails her? "A social treatise as well as a work of art" (Alexandra Alter, New York Times), Kim Jiyoung, Born 1982 heralds the arrival of international powerhouse Cho Nam-Joo.

Trial by Laughter - Ian Hislop 2018-09-14

Following critical acclaim for *The Wipers Times*, Ian Hislop and Nick Newman have once again taken inspiration from real life events for their new play *Trial by Laughter*. William Hone, the forgotten hero of free speech, was a bookseller, publisher and satirist. In 1817, he stood trial for 'impious blasphemy and seditious libel'. The only crime he had committed was to be funny. Worse than that he was funny by parodying religious texts. And worst of all, he was funny about the despotic government and the libidinous monarchy. A Watermill Theatre production.

Mathematical Problem Solving - ALAN H. SCHOENFELD 2014-06-28

This book is addressed to people with research interests in the nature of mathematical thinking at any level, to people with an interest in "higher-order thinking skills" in any domain, and to all mathematics teachers. The focal point of the book is a framework for the analysis of complex problem-solving behavior. That framework is presented in Part One, which consists of Chapters 1 through 5. It describes four qualitatively different aspects of complex intellectual activity: cognitive resources, the body of facts and procedures at one's disposal; heuristics, "rules of thumb" for making progress in difficult situations; control, having to do with the efficiency with which individuals utilize the knowledge at their disposal; and belief systems, one's perspectives regarding the nature of a discipline and how one goes about working in it. Part Two of the book, consisting of Chapters 6 through 10, presents a series of empirical studies that flesh out the analytical framework. These studies document the ways that competent problem solvers make the most of the knowledge at their disposal. They include observations of students, indicating some typical roadblocks to success. Data taken from students before and after a series of intensive problem-solving courses document the kinds of learning that can result from carefully designed instruction. Finally, observations made in typical high school classrooms serve to indicate some of the sources of students' (often counterproductive) mathematical behavior.

Molecular Basis of Memory - 2014-01-30

This special volume of Progress in Molecular Biology and Translational Science provides a current overview of how memory is processed in the brain. A broad range of topics are presented by leaders in the field, ranging from brain circuitry to synaptic plasticity to the molecular machinery that contributes to the brain's ability to maintain information across time. Memory systems in the prefrontal cortex, hippocampus and amygdala are considered as well. In addition, the volume covers recent contributions to our understanding of memory from in vivo imaging, optogenetic, electrophysiological, biochemical and molecular biological studies. Articles from world renowned experts in memory Covering topics from signaling, epigenetic, RNA translation to plasticity Methodological approaches include molecular and cellular, behavioral, electrophysiological, optogenetic and functional imaging

The Naturalist and His 'beautiful Islands' - David Russell Lawrence 2014-10-28

'I know no place where firm and paternal government would sooner produce beneficial results than in the Solomons ... Here is an object worthy indeed the devotion of one's life'. Charles Morris Woodford devoted his working life to pursuing this dream, becoming the first British Resident Commissioner in 1897 and remaining in office until 1915, establishing the colonial state almost singlehandedly. His career in the Pacific extended beyond the Solomon Islands. He worked briefly for the Western Pacific High Commission in Fiji, was a temporary consul in Samoa, and travelled as a Government Agent on a small labour vessel returning indentured workers to the Gilbert Islands. As an independent naturalist he made three successful expeditions to the islands, and even climbed Mt Popomanaseu, the highest mountain in Guadalcanal. However, his natural history collection of over 20,000 specimens, held by the British Museum of Natural History, has not been comprehensively examined. The British Solomon Islands Protectorate was established in order to control the Pacific Labour Trade and to counter possible expansion by French and German colonialists. It remaining an impoverished, largely neglected protectorate in the Western Pacific whose economic importance was large-scale copra production, with its copra considered the second-worst in the world. This book is a study of

Woodford, the man, and what drove his desire to establish a colonial protectorate in the Solomon Islands. In doing so, it also addresses ongoing issues: not so much why the independent state broke down, but how imperfectly it was put together in the first place.

Exhausted to Energized - Dr. Libby Weaver 2018-03-27

With our modern lifestyles, we have come to believe that being exhausted is a normal state of being - we don't even remember what feeling rested feels like. In *Exhausted to Energized*, nutritional biochemist Dr Libby Weaver shows that exhaustion is not normal, nor is it healthy - it is a warning sign of imbalance in our lifestyle, emotions or body. This book reveals the wide range of reasons why you could be feeling so tired, which differs from person to person. You'll learn to identify the causes of your own fatigue, which could be:

- Food: The very foods that are supposed to give you energy, could actually be depleting you.
- Sleep: Why after a long sleep you are still waking up tired.
- Expectations: The expectations you place on yourself can be incredibly depleting of your energy.
- Coffee: coffee can either help or hinder your energy, learn how to spot the difference.
- Posture: Your posture can have a significant impact on your energy levels everyday. Empowered

with the information in this book, learn simple but effective strategies to help liberate yourself from exhaustion and live life with more energy.

Maths 4e - Marc Boullis 2021

Black Man, White House - D. L. Hughley 2016-06-07

New York Times Bestseller (Humor) "The book everyone is laughing about!"--Joe Scarborough, Morning Joe From legendary comedian D.L. Hughley comes a bitingly funny send-up of the Obama years, as "told" by the key political players on both sides of the aisle. What do the Clintons, Republicans, fellow Democrats, and Obama's own family really think of President Barack Obama? Finally, the truth is revealed in this raucously funny "oral history" parody. There is no more astute—and hilarious—critic of politics, entertainment, and race in America than D. L. Hughley, famed comedian, radio star, and original member of the "Kings of Comedy." In the vein of Jon Stewart's *America: The Book*, *Black Man, White House* is an acerbic and witty take on Obama's two terms, looking at the president's accomplishments and foibles through the imagined eyes of those who saw history unfold. Hughley draws upon satirical interviews with the most notorious public figures of our day: Mitt Romney ("What's 'poverty'? Is that some sort of rap jargon?"); Nancy Pelosi ("I play F**k/Marry/Kill, and there's a lot more kills than fu**ks in Congress, believe me."); Rod Blagojevich ("You can't sell political offices on eBay; I discovered that personally."); Joe Biden ("I like wrestling."); and other politicians, media pundits, and buffoons. It is sure to be the most irreverent—and perhaps the most honest—look at American politics today.
