A rare insight into how industry practices like regional restrictions have shaped global media culture in the digital era “This content is not available in your country.” At some point, most media consumers around the world have run into a message like this. Whether trying to watch a DVD purchased during a vacation abroad, play an imported Japanese video game, or listen to a Spotify library while traveling, we are constantly reminded of geography’s imprint on digital culture. We are locked out. Despite utopian hopes of a borderless digital society, DVDs, video games, and streaming platforms include digital rights

management mechanisms that block media access within certain territories. These technologies of “regional lockout” are meant first and foremost to keep the entertainment industries’ global markets distinct. But they also frustrate consumers and place territories on a hierarchy of global media access. Drawing on extensive research of media-industry strategies, consumer and retailer practices, and media regulation, *Locked Out* explores regional lockout’s consequences for media around the globe. Power and capital are at play when it comes to who can consume what content and who can be a cultural influence. Looking across digital technologies, industries, and national contexts, *Locked Out* argues that the practice of regional lockout has shaped and reinforced global hierarchies of geography and culture.

Thine Eyes of Mercy -

Danielle M. Orsino 2021-12-01
Queen Aurora, of the Court of Light Fae, and King Jarvok, of the Court of Dark Fae, are exhausted and battle-worn after centuries of fighting. The attrition has taken its toll upon their kin and power bases. What happens when you have to give in to your enemy? All wars eventually end, even magical ones. The Dark and Light Fae have set their elemental magick and weapons down, but, all is not quiet in the Veil... King Jarvok was confident his army could win the war, but at what cost? It was time to act like a King, not a power hungry megalomaniac. That was his Creator's role, not his. He reaches out to Queen Aurora, and the Treaty of Bodhicitta is signed. The treaty promises the Fae will never spill each other's blood again. Rules for their human worshippers are put into place. The Court of Dark must not interfere with humans in a malignant way, but they can act as gods and goddesses of

atonement. The Court of Light can return to acting as advisors to the European royal families, as they have done for centuries. However, Queen Aurora and King Jarvok will learn that while they were playing war games, their humans have changed and moved away from the old ways. The two monarchs face unknown challenges in a world where Christianity, not paganism, is the new power. Sometimes the devil you know is better than the one you do not.

My name is Holly O'Brian and I am a cautionary tale. I saw a sexy man across the bar, I let him walk me home, and now I'm pregnant. Obviously, I left out a few minor details, but I think you get the idea. I've lived a quiet adult life: high school librarian by day, book editor by night (glamorous, I know), and I was fine with it. I loved my jobs, I loved my cute little house...so why did I tempt the fates and go all cave woman over Dean Slade and drag him home with me by the hair (okay, that's a slight exaggeration)? Well, he is the most handsome man I've ever laid eyes on, it's true. He is broody and gruff and so, so sexy, also true. And the storm that hovers in his eyes, I can't help but want to be the calm to, at least for one night. So I guess there is no answer, I

guess I followed my heart (a.k.a., my loins) and decided to spend a night with a sexy Marine. Only now I'm pregnant. And I have to tell him. And I have to let his family into my life. And I have to figure out how I'm going to make room in my schedule for a big, stupid, sexy Marine. Oh. My. Lanta, my life.

Barrio Dreams - Arlene Dávila
2004-07-02

Arlene Dávila brilliantly considers the cultural politics of urban space in this lively exploration of Puerto Rican and Latino experience in New York, the global center of culture and consumption, where Latinos are now the biggest minority group. Analyzing the simultaneous gentrification and Latinization of what is known as El Barrio or Spanish Harlem, *Barrio Dreams* makes a compelling case that—despite neoliberalism's race-and ethnicity-free tenets—dreams of economic empowerment are never devoid of distinct racial and ethnic considerations. Dávila scrutinizes dramatic shifts in housing, the growth of charter schools, and the enactment of Empowerment Zone legislation that promises upward mobility and empowerment while shutting

out many longtime residents. Foregrounding privatization and consumption, she offers an innovative look at the marketing of Latino space. She emphasizes class among Latinos while touching on black-Latino and Mexican-Puerto Rican relations.

Providing a unique multifaceted view of the place of Latinos in the changing urban landscape, *Barrio Dreams* is one of the most nuanced and original examinations of the complex social and economic forces shaping our cities today.

In 1995, Jean-Dominique Bauby was the editor-in-chief of *French Elle*, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of

the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full

flavor of delectable dishes. Again and again he returns to an "inexhaustible reservoir of sensations," keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.

My family, my everything. My very need to survive. All my father wanted was for us to strive. He said he'd find us. I had no doubt he would. We ran then, while we still could. I thought we were safe inside our home's walls. Far, far away from Niagara Falls. When I let my guard down, their lives were put in danger. There was no telling if I could rescue them from his anger. My friends and I traveled through what felt like Hell. I could not promise their safety, yet they followed me still. We learned to control, then, the magic in our veins. However helpful, it may prove to be our bane.

house, the key to a heart, the key to a secret—Oyeyemi's keys not only unlock elements of her characters' lives, they promise further labyrinths on the other side. In "Books and Roses" one special key opens a library, a garden, and clues to at least two lovers' fates. In "Is Your Blood as Red as This?" an unlikely key opens the heart of a student at a puppeteering school. "'Sorry' Doesn't Sweeten Her Tea" involves a "house of locks," where doors can be closed only with a key—with surprising, unobservable developments. And in "If a Book Is Locked There's Probably a Good Reason for That Don't You Think," a key keeps a mystical diary locked (for good reason). Oyeyemi's tales span multiple times and landscapes as they tease boundaries between coexisting realities. Is a key a gate, a gift, or an invitation? What Is Not Yours Is Not Yours captivates as it explores the many possible answers.

Locked Out - David Convery

The study of an independent

Irish working class is often neglected in favor of the usual focus on nationalism in politics, culture, and wider society. As highlighted throughout this pioneering book, this neglect has stretched at times to an actual denial of the existence of an Irish working class. The idea that class - rather than ethnicity, religion, or the idea of national identity - could have a role to play in politics and cultural production is an alien one to the mainstream Irish historical debate. The working class has been locked out of Irish history. This groundbreaking book - written to commemorate the centenary of the 1913 Dublin Lockout and to advance Irish labor history in new and innovative ways - offers fresh perspectives from a new generation of Irish historians. Looking at the National Society for the Prevention of Cruelty to Children and the industrial school system; the Dublin Lockout of 1913; discussions of class, status, and gender among Cork textile workers; and the infamous brutality of

Locked Out - Jeff Manza
2008-04-17

"Mr. Manza and Mr. Uggen... wade into one of the most contested empirical debates in political science: How many (if any) recent American elections would have gone differently if all former felons had been allowed to vote?"--The Chronicle of Higher Education. Jeff Manza and Christopher Uggen, who understand the vastness of the jailers' reach, follow the story out of the cell and into the voting booth. *Locked Out* examines how the disenfranchisement of felons shapes American democracy hardly a hypothetical matter in an age of split electorates and hanging chads.... Exacting and fair, their work should persuade even those who come to the subject skeptically that an injustice is at hand. The New

York Review of Books. 5.4 million Americans--1 in every 40 voting age adults are denied the right to participate in democratic elections because of a past or current felony conviction. In several American states, 1 in 4 black men cannot vote due to a felony conviction. In a country that prides itself on universal suffrage, how did the United States come to deny a voice to such a large percentage of its citizenry? What are the consequences of large-scale disenfranchisement--for election outcomes, for the reintegration of former offenders back into their communities, and for public policy more generally? *Locked Out* exposes one of the most important, yet little known, threats to the health of American democracy today. It reveals the centrality of racial factors in the origins of these laws, and their impact on politics today. Marshalling the first real empirical evidence on the issue to make a case for reform, the authors' path-breaking analysis will inform

she broke free, overcame the odds, and never gave up hope. When Victoria Arlen was eleven years old, she contracted two rare diseases simultaneously and fell into a mysterious vegetative state. For two years her mind was dark, but in the third year, her mind broke free, and she was able to think clearly and to hear and feel everything—but no one knew. Her doctors wrote her off as a lost cause, and Victoria remained a prisoner in her own body for nearly four years. But every day, silently in her own mind, Victoria would pray to God, and she promised Him that if He gave her a second chance, she would make every moment count, and change the world for the better. At fifteen, against all odds and medical predictions, Victoria woke up. Finally she was able to communicate through eye blinks, and gradually, she regained her ability to speak and eat and move her upper body, but she faced the devastating reality of paralysis from the waist down because of

damage to her spine. However, Victoria didn't lose her strength or steadfast determination, and two years later, she won a gold medal for swimming at the London 2012 Paralympics. She went on to become one ESPN's youngest on air-personalities and, after nearly ten years of paralysis, she learned to walk again and even competed on Dancing with the Stars. In *Locked In*, Victoria shares her inspiring story—the pain, the struggle, the fight to live and thrive, and most importantly, the faith that carried her through. Her journey was not easy, but by believing in God's healing power and forgiveness, she is living proof that, despite seemingly insurmountable odds and challenges, the will to survive and resolve to live can be a force stronger than our worst deterrents.

magazine, NPR, and others—of the harsh and harmful experiences confronting Black girls in schools. In a work that Lisa Delpit calls “imperative reading,” Monique W. Morris (*Black Stats, Too Beautiful for Words*) chronicles the experiences of Black girls across the country whose intricate lives are misunderstood, highly judged—by teachers, administrators, and the justice system—and degraded by the very institutions charged with helping them flourish. Called “compelling” and “thought-provoking” by Kirkus Reviews, *Pushout* exposes a world of confined potential and supports the rising movement to challenge the policies, practices, and cultural illiteracy that push countless students out of school and into unhealthy, unstable, and often unsafe futures. Called a book “for everyone who cares about children” by the Washington Post, Morris’s illumination of these critical issues is “timely and important” (Booklist) at a moment when Black girls are

the fastest growing population in the juvenile justice system. Praised by voices as wide-ranging as Gloria Steinem and Roland Martin, and highlighted for the audiences of *Elle* and *Jet* right alongside those of *EdWeek* and the *Leonard Lopate Show*, *Pushout* is a book that “will stay with you long after you turn the final page” (Bookish).

Locked in Place - Vivek Chibber 2011-06-27

Why were some countries able to build "developmental states" in the decades after World War II while others were not? Through a richly detailed examination of India's experience, Locked in Place argues that the critical factor

was the reaction of domestic capitalists to the state-building project. During the 1950s and 1960s, India launched an extremely ambitious and highly regarded program of state-led development. But it soon became clear that the Indian state lacked the institutional capacity to carry out rapid industrialization. Drawing on newly available archival sources, Vivek Chibber mounts a forceful challenge to conventional arguments by showing that the insufficient state capacity stemmed mainly from Indian industrialists' massive campaign, in the years after Independence, against a strong developmental state. Chibber contrasts India's experience with the success of a similar program of state-building in South Korea, where political elites managed to harness domestic capitalists to their agenda. He then develops a theory of the structural conditions that can account for the different reactions of Indian and Korean capitalists as rational responses to the distinct development models

The Lock Artist - Steve Hamilton 2010-01-05

"I was the Miracle Boy, once upon a time. Later on, the Milford Mute. The Golden Boy. The Young Ghost. The Kid. The Boxman. The Lock Artist. That was all me. But you can call me Mike." Marked by tragedy, traumatized at the age of eight, Michael, now eighteen, is no ordinary young man. Besides not uttering a single word in ten years, he discovers the one thing he can somehow do better than anyone else. Whether it's a locked door

without a key, a padlock with no combination, or even an eight-hundred pound safe ... he can open them all. It's an unforgivable talent. A talent that will make young Michael a hot commodity with the wrong people and, whether he likes it or not, push him ever close to a life of crime. Until he finally sees his chance to escape, and with one desperate gamble risks everything to come back home to the only person he ever loved, and to unlock the secret that has kept him silent for so long. Steve Hamilton steps away from his Edgar Award-winning Alex McKnight series to introduce a unique new character, unlike anyone you've ever seen in the world of crime fiction. *The Lock Artist* is the winner of the 2011 Edgar Award for Best Novel.

Not all games are released equal. The barriers of language and culture can leave our world divided, and this includes the video games that we get the chance to play. Matt Barnes, Dazz Brown and Greg Seago-Curl of DidYouKnowGaming? created the YouTube series Region Locked to offer an insight into the weird and wonderful titles that never left their home countries, and now they bring their expertise to you, the gaming reader. Encounter masterpieces you never knew existed from your favourite series and developers, as well

as some utterly bizarre creations that seem so outlandish you might wonder how on earth they were released in the first place, from the trippy, meandering dreamscapes of 1998's LSD: Dream Emulator to The Mysterious Murasame Castle, released in 1986 by Nintendo, and the intergalactic adventures of Crime Crackers (1994). The authors explore what it's like to play these games, and investigate the fascinating characters and maverick designers behind them to discover why such remarkable creations never enjoyed international exposure. For the casual gamer, keen developer, intrigued reader and hardcore fan alike, Region Locked is the key to a surreal and adventurous journey through the lost world of video games.

them of a prison regime? Can it be a constructive, rehabilitative experience or does the culture of prison make this impossible? Is being removed from home and community inevitably destructive or can it give some youngsters a chance to sort out chaotic lives? Can prison be the place to address the severe problems of physical and sexual abuse, violence, disadvantage, failure, and self-loathing that so many who end up inside suffer? Or is locking them up the ultimate failure of a society that cannot find a better way to deal with its problem young?

Locked Down, Locked Out -

Maya Schenwar 2014-11-10
An analysis of the U.S. prison system through real-life stories, and a look at the complex work of community-based social justice projects. Through the stories of prisoners and their families, including her own family's experiences, Maya Schenwar shows how the institution that locks up 2.3 million Americans and decimates poor communities of color is

shredding the ties that, if nurtured, could foster real collective safety. As she vividly depicts here, incarceration takes away the very things that might enable people to build better lives. But looking toward a future beyond imprisonment, Schenwar profiles community-based initiatives that successfully deal with problems—both individual harm and larger social wrongs—through connection rather than isolation, moving toward a safer, freer future for all of us. “Maya Schenwar’s stories about prisoners, their families (including her own), and the thoroughly broken punishment system are rescued from any pessimism such narratives might inspire by the author’s brilliant juxtaposition of abolitionist imaginaries and radical political practices.” —Angela Y. Davis, author of *Are Prisons Obsolete?* “Locked Down, Locked Out paints a searing portrait of the real-life human toll of mass incarceration, both on prisoners and on their families, and—equally

compellingly—provides hope that collectively we can create a more humane world freed of prisons. Read this deeply personal and political call to end the shameful inhumanity of our prison nation.” —Dorothy Roberts, author of *Shattered Bonds and Killing the Black Body* “This book has the power to transform hearts and minds, opening us to new ways of imagining what justice can mean for individuals, families, communities, and our nation as a whole. Maya Schenwar’s personal, openhearted sharing of her own family’s story, together with many other stories and real-world experiments with transformative justice, makes this book compelling, highly persuasive, and difficult to put down. I turned the last page feeling nothing less than inspired.” —Michelle Alexander, author of *The New Jim Crow*

'Just amazing and inspirational' Jeremy Vine Can you imagine being trapped inside your own body? Able to see and hear everything going on around you but unable to move or speak - the blink of an eye your only way of communicating. Fell-runner and fun-loving mother-of-three Kate Allatt's life was torn apart when what appeared to be a stress-related

Doctors warned her family she would never walk, talk or swallow or lead a normal life again. But they didn't know Kate. The words no and never were not in her vocabulary. With the help of her best friends and family she drew on every ounce of her runner's stamina and determination to make a recovery that amazed medical experts. Using a letter chart, Kate blinked the words "I will walk again". Soon she was moving her thumb and communicating with the world via Facebook. Eight months after her stroke, Kate said goodbye to nurses, walked out of hospital and returned home to learn how to run again. This is the story of her incredible journey.
