Congressional Government: A Study in American Politics - Woodrow Wilson 2018-06-05

The object of this book is to point out the most characteristic practical features of the federal system. Taking Congress as the central and predominant power of the system, its object is to illustrate everything Congressional. Everybody has seen, and critics without number have said, that our form of national government is singular, possessing a character altogether its own; but there is abundant evidence that very few have seen just wherein it differs most essentially from the other governments of the world. There have been and are other federal systems quite similar, and scarcely any legislative or administrative principle of our Constitution was young even when that Constitution was framed. Contents: The House of Representatives The House of Representatives. Revenue and Supply The Senate The Executive *Teaching Civic Engagement* - Forrest Clingerman 2017-08

Using a new model focused on four core capacities-intellectual complexity, social location, empathetic accountability, and motivated action--Teaching Civic Engagement explores the significance of religious studies in fostering a vibrant, just, and democratic civic order. In the first section of the book, contributors detail this theoretical model and offer an initial application to the sources and methods that already define much teaching in the disciplines of religious studies and theology. A second section offers chapters focused on specific strategies for teaching civic engagement in religion classrooms, including traditional textual studies, reflective writing, community-based learning, field trips, media analysis, ethnographic methods, direct community engagement and a reflective practice of "ascetic withdrawal." The final section of the volume explores theoretical issues, including the delimitation of the "civic" as a category, connections between local and global in the civic project, the question of political advocacy in the classroom, and the role of normative commitments. Collectively these chapters illustrate the real possibility of connecting the scholarly study of religion with the societies in which we, our students, and our institutions exist. The contributing authors model new ways of engaging questions of civic belonging and social activism in the religion classroom, belying the stereotype of the ivory tower intellectual.

America Now - Robert Atwan 1999-01-01

A key challenge in the first-year composition course is to inspire students as readers and to spark the kind of thoughtful classroom discussion that leads to solid academic writing. As series editor of "The Best American Essays" Robert Atwan constantly scours a wide range of print and online periodicals, bringing to "America Now" an unrivaled awareness of the best writing on today's hottest issues. To make these issues especially relevant for students, Atwan also explores hundreds of campus newspapers on the Internet to find the best student writing on current topics. These models by their peers from across the country show students that they, too, can share ideas through their own discussion and writing.

The Alabama Black McGruders - J. R. Rothstein 2022-02-28

The Alabama Black McGruders tells the story of Charles McGruder Sr. (1829 - 1900-c), his father Ned (1795 - 1853-c) and mother Mariah Magruder (1800 - 1880-c). Charles, the enslaved black grandson of a white slave owner, Ninian O. Magruder (1744 - 1803) was born in Alabama on the plantation of his white aunt, Eleanor Magruder Wynne (1785 - 1849) in 1829. Through a series of events, Charles, a carpenter, came to be sexually exploited and forced to sire a hundred children, including fifty-two sons, with numerous women. During the Reconstruction era, Charles, his last wife Rachel Hill (1845-1933), and their children, received reparations from his white relative and enslaver, Osmun A. Wynne (1804 -1877). Charles' children established communal

and business networks and institutions to support their families and communities. Today, the Alabama Black McGruders continue to impact the story of the United States in areas of culture, government, law, science, medicine, academia, and business. This is the story of their origins.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Counterinsurgency, Security Forces, and the Identification Problem - Daniel L. Magruder, Jr 2017-07-28

This book presents a theory and empirical evidence for how security forces can identify militant suspects during counterinsurgency operations. A major oversight on the part of academics and practitioners has been to ignore the critical antecedent issue common to persuasion and coercion counterinsurgency (COIN) approaches: distinguishing friend from foe. This book proposes that the behaviour of security forces influences the likelihood of militant identification during a COIN campaign, and argues that security forces must respect civilian safety in order to create a credible commitment to facilitate collaboration with a population. This distinction is important as conventional wisdom has wrongly assumed that the presence of security forces confers control over terrain or influence over a population. Collaboration between civilian and government actors is the key observable indicator of support in COIN. Paradoxically, this theory accounts for why and how increased risk to government forces in the short term actually improves civilian security in the long run. Counterinsurgency, Security Forces, and the Identification Problem draws on three case studies: the Huk Rebellion in the Philippines post-World War II; Marines Corps' experiences in Vietnam through the Combined Action Program; and Special Operations activities in Iraq after 2003. For military practitioners, the work illustrates the critical precursor to establishing "security" during counterinsurgency operations. The book also examines the role and limits of modern technology in solving the identification problem. This book will be of interest to students of counterinsurgency, military history, strategic studies, US foreign policy, and security studies in general.

Party Politics in America - Marjorie Randon Hershey 2017-02-17
The seventeenth edition of *Party Politics in America* continues the comprehensive and authoritative coverage of political parties for which it is known while expanding and updating the treatment of key related topics including interest groups and elections. Marjorie Hershey builds on the book's three-pronged coverage of party organization, party in the electorate, and party in government and integrates contemporary examples—such as campaign finance reform, party polarization, and social media—to bring to life the fascinating story of how parties shape our political system. New to the 17th Edition Fully updated through the 2016 election, including changes in virtually all of the boxed materials, the chapter openings, and the data presented. Explores increasing partisan hostility, the status of voter ID laws and other efforts to affect voter turnout, young voters' attitudes and participation, and the role of big givers such as the energy billionaire Koch brothers in the 2016 campaigns. Critically examines the idea that Super PACs are replacing, or can replace, the party organizations in running campaigns. New and expanded online Instructor's Resources, including author-written test banks, essay questions, relevant websites with correlated sample assignments, the book's appendix, and links to a collection of course syllabi.

The Federalist Papers - Alexander Hamilton 2018-08-20

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

William Bowie a slave and skilled carpenter along with his family were freed by the will of Roderick McGregor of Prince George County Maryland in the year 1858. Fifty- Five years later in 1913, his grandson William Augus Bowie and John Whitelaw Lewis co-founded the Industrial Savings Bank in Washington DC and together they would make important and lasting contributions to the African-American community of Washington. Thomas and John Vreeland Jackson were manumitted by Richard Vreeland in 1828 in Bergen County NJ. Oystermen by trade they would go on to become two of the first black property owners in Bergen County and conductors of the Underground Railroad who helped thousands of slaves to escape to freedom. In 1823, Joseph VanArsdale

was freed by the will of Abraham VanArsdalen in Somerset County, New Jersey. Joseph would become one of the earliest black property owners in Princeton, New Jersey. This is their story in *Slavery and Freedom Stalking Victimization in the United States* - Katrina Baum 2011-01

This is a print on demand edition of a hard to find publication. Stalking is defined as a course of conduct directed at a specific person that would cause a reasonable person to feel fear. The Supplemental Victimization Survey identified seven types of harassing or unwanted behaviors consistent with a course of conduct experienced by stalking victims. The survey classified individuals as stalking victims if they responded that they experienced at least one of these behaviors on at least two separate occasions. In addition, the individuals must have feared for their safety or that of a family member as a result of the course of conduct, or have experienced additional threatening behaviors that would cause a reasonable person to feel fear. This report presents information on stalking victimization. Illustrations.

Trafficke - Susan Tichy 2015

Poetry. Rigorously interrogating three hundred years of family history in Scotland and Maryland, TRAFFICKE tracks and remixes questions of race and identity, fact and legend into a mosaic of verse, lyric prose, historical narrative, and quotation. As it strips away the glamour—in the old Scottish sense of a spell, an illusion—TRAFFICKE takes shape not as a simple uncovering of truth, but as a dis-spelling, a building and tearing down of identity's various disguises, of power's relentless self-justification, of the poet's own bitterness and complicity. Stepping forward and backward in time, sampling texts that range from 16th-century Gaelic poetry to runaway slave advertisements, Tichy's narrative pulls readers through a many-layered critique of ownership and the timeless seduction of beauty. Violence and language, literacy and desire—these too are characters in the lyrical, fraught, and grief-charged text of TRAFFICKE.

Teaching for Black Lives - Flora Harriman McDonnell 2018-04-13

Black students' bodies and minds are under attack. We're fighting back. From the north to the south, corporate curriculum lies to our students, conceals pain and injustice, masks racism, and demeans our Black students. But it's not only the curriculum that is traumatizing students.
