A-to-Z Crosswords - Rich Norris 2003

Every puzzle contains all 26 letters of the alphabet, but you have to know more than just your ABCs to solve these cleverly constructed grids. From "Straight As" to "Grabbing Some Zs," this crossword compendium entices puzzle lovers with 72 alphabet-related brainbusters. Try your hand at any of the 26 themed puzzles, each based on one letter of the alphabet, but be prepared for a twist. Take on the "3-H Club" puzzle and triple your task, finding solutions like "head honcho" and "high-handed," with 3 Hs instead of just one. Or tackle the "B Movies" puzzle, with witty clues and solutions where one letter makes all the difference--What's a 1955 film about a Biblical monster? Beast of Eden, of course! And for those who like their puzzles straight up, there are 46 themeless options to choose from as well.

Connect students in grades 4-8 with science using Forensic Investigations: Using Science to Solve Crimes. In this 80-page book, students build deductive-reasoning skills as they become crime-solving stars. Most scenarios in the book have more than one plausible outcome, allowing individuals or groups to broadly interpret evidence. Activities include interpreting handwriting and body language and fingerprinting. The book supports National Science Education Standards.

How to Solve Crosswords: a Handbook - Abbott Wainwright 2014-01-06

This handbook is the result of the authors

experience in solving crosswords (almost exclusively from the New York Times) for a period of over 10 years and is designed to help puzzle solvers of all abilities. It covers such strategic subjects as themes in puzzles and what a clue is attempting to elicit, as well as such tactical subjects as what, precisely, is to be written in the squares in a puzzle. Thus, the scope of the handbook ranges from the general to the detailed. Some of the subjects covered are foreign languages (French is the most popular, by far), mythology, the Old Testament, literature (including poetry and drama), classical music, sports (baseball is the crossword favorite), entertainment (comics, movies, television, and pop music), art and architecture, geography (Ireland wins out here), science and math, travel and transportation, computers and the internet, as well as a list of those special words that are favorites of puzzle constructors (and hardly used by anyone else). Crosswords are fun, and this handbook helps you to enjoy them. To quote from the acknowledgments, The author and his readers are in the debt of all those puzzle makers and their editors, who give us such pleasure every day. Our lives are greatly enriched by them, and they help show us what a wonderful legacy we have in the English language.
