**Dare to Serve** - Cheryl Bachelder 2015-03-16

"A new perspective on servant leadership—challenging us to bring both courage and humility to the table—for the sake of the people and the enterprise." —John C. Maxwell, New York Times-best-selling author In this updated edition of Dare to Serve, former Popeyes CEO Cheryl Bachelder shows that leading by serving is a rigorous and tough-minded approach that yields the best results. When she was named CEO of Popeyes in 2007, the stock price had slipped from \$34 in 2002 to \$13. The brand was stagnant, the team was discouraged, and the franchisees were just plain angry. Nine years later, restaurant sales were up 45 percent, restaurant profits had doubled, and the stock price was over \$61. Servant leadership is sometimes derided as soft or ineffective, but this book confirms that challenging people to reach a daring destination, while treating them with dignity, creates the conditions for superior performance. The second edition of this bestselling book includes Bachelder's post-Popeyes observations and new examples of how you can switch your leadership from self to serve. Ever engaging and inspirational, Bachelder takes you firsthand through the transformation of Popeyes and shows how anyone, at any level can become a Dare-to-Serve leader. "Extraordinary! Dare to Serve describes the kind of leadership so desperately needed in the 21st century. A powerful blend of courage and humility, Cheryl Bachelder's engaging story offers a clear path for leaders to follow, and what makes her message so compelling is the tremendous results she's produced. I highly recommend this book." —Stephen M. R. Covey, New York Times-best-selling author of The Speed of Trust

Wired for Disruption - Henna Inam 2020-07-10

The COVID-19 pandemic is disrupting nearly every aspect of our daily lives, but as Henna Inam points out in Wired for Disruption, agility is already a hardwired trait in each of us. Her timely book gives us the 15 accelerators (specific tools and practices) we need to switch on our in-built agility in order to thrive and be a force for good in times of disorder and chaos. There are five big challenges of leading in disruptive times: First, our neurobiology sees disruptive change as a threat to survival. This evolutionary reaction slows down our adaptation by reducing cognition and increasing burnout. Second, our old mindsets and biases prevent us from seeing new reality clearly. This prevents us from being creative. We need meta-learning to learn, unlearn and relearn. Third, our threat states and fluid teams of the future make collaboration harder, just when it is most needed to create opportunities. Fourth, while we recognize we're more interdependent than ever, we are missing the skill sets to influence our wider eco-system. Fifth, upskilling and growth is urgently needed for millions to solve our collective challenges. This requires a step-change in our ability to grow ourselves and others. These are Henna Inam's Five Shifts in Agility that we need to switch on: 1. Neuro-Emotional Agility: the ability to activate neural states that accelerate our adaptability. 2. Learning Agility: the ability to rapidly learn, unlearn, and re-learn based on the situation in front of us. 3. Trust Agility: the ability to develop just-in-time trust with diverse fluid teams and energize creative contributions. 4. Stakeholder Agility: the ability to influence multiple stakeholders with competing needs toward solutions that serve the broader ecosystem. 5. Growth Agility: the ability to grow ourselves and others to accelerate a future-ready workforce. Disruptions are opportunities to re-imagine, re-invent, and re-energize - to create something better. We have many collective problems to solve for a thriving planet that works better for all. Henna Inam's Wired for Disruption helps each of us be inspired, use our voice, and activate the embedded agility already within us. *The Autobiography of Martin Luther King, Jr.* - Clayborne Carson 2001-01-01

With knowledge, spirit, good humor, and passion, THE AUTOBIOGRAPHY OF MARTIN LUTHER KING, JR. brings to life a remarkable man whose thoughts and actions speak to our most burning contemporary issues and still inspire the desires, hopes, and dreams of us all. Written in his own words, this history-making autobiography is Martin Luther King: the mild-mannered, inquisitive child and student who chafed under and eventually rebelled against segregation; the dedicated young minister who continually questioned the depths of his faith and the limits of his wisdom; the loving husband and father who sought to balance his family's needs with those of a growing, nationwide movement; and the reflective, world-famous leader who was fired by a vision of equality for people everywhere. Relevant and insightful, THE AUTOBIOGRAPHY OF MARTIN LUTHER KING, JR. offers King's seldom disclosed views on some of the world's greatest and most controversial figures: John F. Kennedy, Malcolm X, Lyndon B. Johnson, Mahatma Gandhi, and Richard Nixon. It also paints a rich and moving portrait of a people, a time, and a nation in the face of powerful change. Finally, it shows how everyday Americans from all walks of life confronted themselves, each other, and the burden of the past-and how their fears and courage helped shape our future.

**Becoming King** - Troy Jackson 2008-11-01

Without question, Dr. Martin Luther King Jr. is the face of the civil rights revolution that reshaped the social and political landscape of the United States. Although many biographers and historians have examined Dr. King's activism, few have recognized the pivotal role that the people of Montgomery, Alabama, played in preparing him for leadership. King arrived in Montgomery as a virtually unknown doctoral student, but his activities there -- from organizing the Montgomery bus boycott to building relationships with local activists such as Rufus Lewis, E. D. Nixon, and Virginia Durr -- established him as the movement's most visible leader. *Becoming King: Martin Luther King, Jr. and the Making of a National Leader* illustrates how the people of Montgomery influenced King as much as he influenced them. In Montgomery, brave citizens, both black and white, spearheaded a protest movement that also launched King's public ministry. Author Troy Jackson demonstrates that spending his formative years in the city of Montgomery gave King the skills and experience to become a hero to generations of Americans.

*A Gift of Love* - Dr. Martin Luther King, Jr. 2012-11-06

The classic collection of sixteen sermons preached and compiled by Dr. King As Dr. King prepared for the Birmingham campaign in early 1963, he drafted the final sermons for *Strength to Love*, a volume of his best-known homilies. King had begun working on the sermons during a fortnight in jail in July 1962. Having been arrested for holding a prayer vigil outside Albany City Hall, King and Ralph Abernathy shared a jail cell for fifteen days that was, according to King, "dirty, filthy, and ill-equipped" and "the worse I have ever seen." While behind bars, he spent uninterrupted time preparing the drafts for classic sermons such as "Loving Your Enemies," "Love in Action," and "Shattered Dreams," and continued to work on the volume after his release. *A Gift of Love* includes these classic sermons, along with two new preachings. Collectively they present King's fusion of Christian teachings and social consciousness, and promote his prescient vision of love as a social and political force for change.

**Martin Luther King, Jr., Holiday Bill** - United States. Congress. House. Committee on Post Office and Civil Service. Subcommittee on Census and Statistics 1983

*The Inspiration of God* - Dr. Allen K. Hand Sr. 2022-05-04

Firstly, the objective of that research was to assess the actions of the Civil Rights and the Progressive National Baptist Convention, Inc. (PNBC) movements. Based on 37 returns to a questionnaire of 39 reduced

to 24 identified key criteria e-mailed to 158 persons across the country with forwarding permission, 92% of the respondents indicated that they either agreed or strongly agreed that the actions of the Civil Rights and PNBC movements were inspired of/by God. Additionally, this research identified some serious concerns and issues that each movement (mainly PNBC) has to address if each will continue to exist/survive. Secondly, the objective of that research was to document our history through our struggles, through our pains and gains, through our good times and bad times, through the ups and the downs; in other words, good, bad, or indifferent, it is what it is, our story (his-story, not their-story). Rev. Dr. Herbert D. Daughtry, Sr. constantly admonished us to make history, to interpret history, and to record history (or something to that effect and not necessarily in that order). When we do not do it ourselves in an accurate, precise, truthful, etc. manner, then others will tell their story, which (nine out of ten times) usually is not accurate, precise, truthful, etc. The old prophet acclaimed: "And the LORD answered me, and said, Write the vision, and make it plain upon tables, that he may run that readeth it." (Habakkuk 2:2) Thirdly (and lastly), the objective of that research was to share information that we do not want to be locked in our minds only to take it to the so-called grave. Many persons who were super-knowledgeable (as I define it) about so many things that could have blessed the world took that super-valuable information to the grave - what a tremendous lost!!! As an aside, the lost is on multiple levels. Level one, we lost them. Level two, we lost what they did not share with us while they were alive. Level three, we lost the value of that buried information. (That is, someone could have taken that information and transformed it to new information. For example, Dr. Gabriel A. Oyibo solved the Unified Field Theorem that Albert Einstein did not live long enough to solve. So many things evolved from solving that equation. Just think: what would have happened to those many things that evolved from solving that equation if Dr. Oyibo would not have solved that theorem? All those many things that evolved from solving that equation would not be in existence. Level four, those persons who took from those many things that evolved from solving that equation and incorporated that value into what they were doing. Etc. etc. etc. The number of these levels conceivably and theoretically approaches infinity. That is, there is no end to the theoretical lost when just one person does not bless the world with their knowledge, wisdom, and understanding.

*Martin Luther King Jr.* - Angela Farris Watkins 2019-01-08

In this "handsome photo-essay . . . family members across generations and a few close friends remember the man they knew as 'M. L.'" (Booklist). Martin Luther King Jr.'s family comes together for the first time to share their reflections and memories of the great civil rights leader in this touching and intimate volume. Included are contributions from his sister (the only surviving member of his immediate family), his children, his in-laws, his nieces and nephews, and even his grandchildren, who, although they never met him, explain what his legacy means to them. Unlike the iconic persona of statues and portraits, the book presents a loving view of the man who used to sneaking naps during holiday meals and playing games with his nieces and nephews. Alongside these tributes are never-before-published family photos of Dr. King, as well as new photographs of the memorial dedicated to him in August 2011 on the National Mall in Washington, D.C.

**The Soft Skills of Leadership** - Wanda S. Maulding Green 2019-11-13

Much like Gardner's Multiple Intelligences, Maulding-Green and Leonard have, in *Leadership Intelligence: The Journey to Your True North*, postulated a theory regarding the age old question, 'are leaders born or are leaders made?' This theory is predicated on the idea that there is a genetic predisposition toward leadership via the vehicle of imprinting. The five critical factors which undergird the tenets of Leadership

Intelligence, are delineated and developed through the lens of the soft skills of a leader. There is further clarification as to why some leaders seem to have 'a greater intensity' of these factors than their peers. To aid the reader in relating to the theory, a conceptual model based on a GPS is threaded throughout each chapter interweaving both examples and understandable content. The model relates keeping the organization moving in a true north fashion. The final chapters reveal how a leader can develop or enhance these skills and how he/she can avoid leadership derailment, due to neglecting them.

*Kingonomics* - Rodney Sampson 2013-01-01

While most know of Dr. Martin Luther King Jr.'s sweeping dream of equality and freedom for all, what many do not realize is just how keenly focused he was on economic issues, particularly in his later years. Dr. King believed without economic opportunity, we do not have the chance to pursue happiness. It was, in fact, while planning the Poor People's March, a dramatic stand on economic issues, that his voice was forever silenced. In his final book, Dr. King posed the question, where do we go from here? The answer lies in *Kingonomics*, a 21st-century interpretation of his economic vision translated through the eyes of Dr. Rodney Sampson, a globally established economic innovator, business developer, and highly successful serial entrepreneur. With 12 currencies (including service, innovation, and reciprocity), Sampson takes pertinent ideas from the life and works of Dr. King and, by combining them with real-life experiences, produces a guide through which one can realize their full potential and personal power. Success does not discriminate, and the road map to it is contained in the pages of this revolutionary new work.

**Start with Why** - Simon Sinek 2011-12-27

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Lead Yourself First - Raymond M. Kethledge 2017-06-13

"Lead Yourself First makes a compelling argument for the integral relationship between solitude and

leadership." --The Wall Street Journal Throughout history, leaders have used solitude as a matter of course. Martin Luther King found moral courage while sitting alone at his kitchen table one night during the Montgomery bus boycott. Jane Goodall used her intuition in the jungles of central Africa while learning how to approach chimps. Solitude is a state of mind, a space where you can focus on your own thoughts without distraction, with a power to bring mind and soul together in clear-eyed conviction. But these days, handheld devices and other media leave us awash with the thoughts of others. We are losing solitude without even realizing it. To find solitude today, a leader must make a conscious effort. This book explains why the effort is worthwhile and how to make it. Through gripping historical accounts and firsthand interviews with a wide range of contemporary leaders, Raymond Kethledge (a federal court of appeals judge) and Michael Erwin (a West Pointer and three-tour combat veteran) show how solitude can enhance clarity, spur creativity, sustain emotional balance, and generate the moral courage necessary to overcome adversity and criticism. Anyone who leads anyone—including oneself—can benefit from solitude. With a foreword by Jim Collins (author of the bestseller Good to Great), Lead Yourself First is a rallying cry to reclaim solitude—and all the benefits, both practical and sublime, that come with it.

**Gandhi on Non-Violence** - Mahatma Gandhi 2007-11-17

An essential compendium for understanding Gandhi's profound legacy. "One has to speak out and stand up for one's convictions. Inaction at a time of conflagration is inexcusable."—Mahatma Gandhi The basic principles of Gandhi's philosophy of non-violence (Ahimsa) and non-violent action (Satyagraha) were chosen by Thomas Merton for this volume in 1965. In his challenging Introduction, "Gandhi and the One-Eyed Giant," Merton emphasizes the importance of action rather than mere pacifism as a central component of non-violence, and illustrates how the foundations of Gandhi's universal truths are linked to traditional Hindu Dharma, the Greek philosophers, and the teachings of Christ and Thomas Aquinas. Educated as a Westerner in South Africa, it was Gandhi's desire to set aside the caste system as well as his political struggles in India which led him to discover the dynamic power of non-cooperation. But, non-violence for Gandhi "was not simply a political tactic," as Merton observes: "the spirit of non-violence sprang from an inner realization of spiritual unity in himself." Gandhi's politics of spiritual integrity have influenced generations of people around the world, as well as civil rights leaders from Martin Luther King, Jr. and

Steve Biko to Václav Havel and Aung San Suu Kyi. Mark Kurlansky has written an insightful preface for this edition that touches upon the history of non-violence and reflects the core of Gandhi's spiritual and ethical doctrine in the context of current global conflicts.

**Strength to Love** - Martin Luther King, Jr. 2019-10-15

The classic collection of Dr. King's sermons that fuse his Christian teachings with his radical ideas of love and nonviolence as a means to combat hate and oppression. As Martin Luther King, Jr., prepared for the Birmingham campaign in early 1963, he drafted the final sermons for *Strength to Love*, a volume of his most well known homilies. King had begun working on the sermons during a fortnight in jail in July 1962. While behind bars, he spent uninterrupted time preparing the drafts for works such as "Loving Your Enemies" and "Shattered Dreams," and he continued to edit the volume after his release. *Strength to Love* includes these classic sermons selected by Dr. King. Collectively they present King's fusion of Christian teachings and social consciousness and promote his prescient vision of love as a social and political force for change.
