Fundamentals of Financial Accounting - Fred Phillips 2021

"Fundamentals of Financial Accounting responds by using carefully chosen focus companies that students recognize and engage with in their everyday lives. From tech start-ups to some of the world's most familiar trademark brands, each chapter opens with an engaging scenario or story using a familiar company. The same focus company, such as Walmart, Cedar Fair, American Eagle, National Beverage, Under Armour, or General Mills, is used throughout the entire chapter so that students can see how

Global Business Today - Charles W. L. Hill 2005-01
Charles Hill's *Global Business Today, 4e* (GBT) has become an established text in the International Business market for its excellent but concise coverage of the key global issues including the cultural context for global business, cross-border trade and investment, the global monetary system and competition in the global environment. GBT's concise chapters give a general introduction to international business - emphasizing the environmental factors, with less coverage of operations. Charles Hill is renowned for his attention to research trends and that is evident in *Global Business Today, 4e* through a variety of real world examples and cases from small, medium, and large companies throughout the world

Integrated Science - Bill W. Tillery 2017-11

Vis-à-vis - Evelyne Amon 2004
The third edition of *Vis-à-vis* continues the excitement of the innovative second edition with a fully integrated and revised multimedia package and updated cultural information presented in the "Correspondance" feature (chapter opening letter, postcard, or e-mail, which is answered in the mid-lesson "Correspondance" cultural spread) and in the new "Bienvenue dans le monde francophone" feature that recurs after every four chapters in the text. The overall goal of the revision remains the same as that of the second edition: to promote a balanced four-skills approach to learning French through a wide variety of listening, speaking, reading, and writing activities, while introducing students to the richness and diversity of the Francophone world.

Vis-A-vis - Evelyne Amon
2018-06-12

Vis-à-vis engages students with its unique integration of contemporary culture and communicative building blocks, providing tools to build a solid foundation in introductory

French. Building communicative competence with Vis-à-vis One of the major challenges of the introductory language course is to give each student ample exposure to the language and sufficient opportunity to practice speaking, both in and out of the classroom. To parallel print versions of the text and Workbook/Laboratory Manual, we offer the same content on the Connect platform, where students have full access to the eBook, online Workbook/Laboratory Manual activities, LearnSmart, and all accompanying audio and video resources. In Vis-à-vis, the following resources work together to promote communicative competence: Interactive vocabulary presentations (Paroles) include audio recordings, allowing students to listen, record, and practice new vocabulary outside of class. Interactive activities for vocabulary and grammar, many of which are auto-graded, give students the opportunity to complete their assignments and come to class

better prepared to participate in paired and group activities. Prononcez bien! activities include a recording feature and provide students with opportunities for discrete-word and contextualized practice that help students develop confidence in their speaking abilities. Recordings of lively mini-dialogues featuring the blog characters give students a spirited introduction to the new grammatical structure in context. Seventeen Grammaire interactive tutorials, each with a brief practice quiz, focus on structures that students typically struggle with, such as passé composé vs. imparfait. LearnSmart modules for vocabulary and grammar are available specifically for Vis-à-vis. This powerful adaptive tool helps students pinpoint their weaknesses and gives them an individualized study program based on their results. Audio prompts for vocabulary and grammar help students strengthen both their listening and writing skills. With these powerful tools, students have many opportunities to build

their communicative skills, and instructors save valuable class time for interactive practice. Building cultural competence with Vis-à-vis The program's meaningful and extensive exploration of the rich culture of France and the Francophone world is fully supported throughout the program. Each four-chapter segment of Vis-à-vis focuses on a new French or Francophone character and region. The personal online journal entries in Le blog de..., the related Reportage, and the Bienvenue... readings that precede Chapter 1 and follow Chapters 4, 8, 12, and 16, expose students to contemporary language and the vast diversity of life and culture in France, Canada, Tunisia, and beyond. Le videoblog de... and the stunning Bienvenue video segments feature the bloggers and give students a window into the sights and sounds of eight different French-speaking regions/countries including France, Martinique, and Tahiti. Each video is accompanied by comprehension and cross-

cultural comparison activities that encourage students to make connections between their culture and those of the French-speaking world. A brand-new feature has been added below the Reportage, entitled Le Micro-trottoir. Le micro-trottoir provides students a chance to see everyday language in action through recorded "man-on-the-street" interviews featuring a diverse group of people. The interview questions are provided in the text and students will hear the interviewees respond to these questions in the video. Instructors can use these questions as a pre-viewing activity or have students ask and answer them after they watch the video. Additional activities based on the interviews are available in Connect. In the 7th edition, we also added a new feature entitled Sondages to all even-numbered chapters. Sondages are culture-based activities in which students look at statistics about French life and compare to their own lives. The

results could serve as a basis for an end-of-semester cross-cultural comparison project. Educational Psychology - John W. Santrock 2008
Written by the author of highly effective psychology texts relied upon by thousands of teachers and students, Educational Psychology is a well-crafted text that emphasizes the application of theory to classroom practice. With richly evocative classroom vignettes provided by practicing teachers, as well as the most case studies - three per chapter - of any Introductory text, Santrock's Educational Psychology helps students think critically about the research basis for best practices. Additionally, Santrock's hallmark Learning System organizes the content into manageable chunks to support retention and mastery, and make it much more likely that students will have an engaging and successful course experience.
