Hard to Be a God - Arkady Strugatsky
2014-06-01
Arkady and Boris Strugatsky are widely known as the greatest Russian writers of science fiction, and their 1964 novel Hard to Be a God is

considered one of the greatest of their works. It tells the story of Don Rumata, who is sent from Earth to the medieval kingdom of Arkanar with instructions to observe and to influence, but never to directly interfere. Masquerading as an

arrogant nobleman, a dueler and a brawler, Don Rumata is never defeated but can never kill. With his doubt and compassion, and his deep love for a local girl named Kira, Rumata wants to save the kingdom from the machinations of Don Reba, the First Minister to the king. But given his orders, what role can he play? Hard to Be a God has inspired a computer role-playing game and two movies, including Aleksei German's long-awaited swan song. Yet until now the only English version (out of print for over thirty years) was based on a German translation, and was full of errors, infelicities, and misunderstandings. This new edition—translated by Olena Bormashenko, whose translation of the authors' Roadside Picnic has received widespread acclaim, and supplemented with a new foreword by Hari Kunzru and an afterword by Boris Strugatsky, both of which supply much-needed context—reintroduces one of the most profound Soviet-era novels to an eager audience.

By the Way, Did I Ever Tell You - Sibylle Berg 2007

Writer Sibylle Berg has the eye of an entomologist: Under her gaze, humanity falls into a taxonomy of wretched characters, full of dramas and impossible dreams--though she always manages to carry them through their travails with a dose of empathy and a sense of

humor. In this novella, previously unpublished in English, Berg boldly relates the lives of two children growing up in East Germany. They communicate through the things that were not said, the projects that came to nothing, their loneliness, boredom and confinement. The story allows for positive endings, but is no average coming of age narrative. Berg was born in Weimar in 1962, and though she currently lives in Zurich, she is still heralded as one of Germany's most provocative writers. This beautifully produced, small-edition volume includes illustrations by Swiss artist, Andro Wekua and American Rita Ackermann.

Sonnets to Orpheus - Rainer Maria Rilke
2006-04-17

One of the literary masterpieces of the century, this translation is now presented with facing-page German. To Rilke himself the Sonnets to

Orpheus were "perhaps the most mysterious in the way they came up and entrusted themselves to me, the most enigmatic dictation I have ever held through and achieved; the whole first part was written down in a single breathless act of obedience, between the 2nd and 5th of February, without one word being doubtful or having to be changed." With facing-page German.

Menschen - Dagmar Giersberg 2016

Why We Took the Car - Wolfgang Herrndorf
2014-01-07

Mike Klingenberg doesn't get why people think he's boring. Sure, he doesn't have many friends. (Okay, zero friends.) And everyone laughs at him when he reads his essays out loud in class. And he's never invited to parties - including the gorgeous Tatiana's party of the year. Andre Tschichatschow, aka Tschick (not even the teachers can pronounce his name), is new in school, and a whole different kind of unpopular.

He always looks like he's just been in a fight, his clothes are tragic, and he never talks to anyone. But one day Tschick shows up at Mike's house out of the blue. Turns out he wasn't invited to Tatiana's party either, and he's ready to do something about it. Forget the popular kids: Together, Mike and Tschick are heading out on a road trip. No parents, no map, no destination. Will they get hopelessly lost in the middle of nowhere? Probably. Will they meet crazy people and get into serious trouble? Definitely. But will they ever be called boring again? Not a chance. Macmillan School Dictionary - Michael Rundell 2004

Perfect for school The Macmillan School Dictionary is completely relevant to the needs of young people who are studying a wide range of subjects through the medium of English and preparing for school examinations. It explains - clearly and accurately - t

Making and Using Word Lists for Language Learning and Testing - I.S.P. Nation

2016-09-08

Word lists lie at the heart of good vocabulary course design, the development of graded materials for extensive listening and extensive reading, research on vocabulary load, and vocabulary test development. This book has been written for vocabulary researchers and curriculum designers to describe the factors they need to consider when they create frequency-based word lists. These include the purpose for which the word list is to be used, the design of the corpus from which the list will be made, the unit of counting, and what should and should not be counted as words. The book draws on research to show the current state of knowledge of these factors and provides very practical guidelines for making word lists for language teaching and testing. The writer is well known for his work in the teaching and learning of vocabulary and in the creation of word lists and vocabulary size tests based on word lists.

Kompetenzen in DaF/DaZ - Christina Maria Ersch 2019-11-08

Die Kompetenzorientierung eröffnet gerade für das Fach Deutsch als Fremd- und Zweitsprache (DaF/DaZ) immer wieder neue Perspektiven für die Lehre. Die hier vorgestellten aktuellen Tendenzen der Kompetenzorientierung umfassen: fachspezifische Sprachkompetenzen für die Bereiche Theologie und Medizin, die Fachkompetenzen von Lehrkräften in Bezug auf Lernstile, Grammatik und Interkulturelle Kompetenz sowie zwei kontrastive Analysen des Sprechaktes der schriftlichen Beschwerde und der mündlichen Kritikäußerung. Die Autorinnen sind ohne Ausnahme begeisterte und

begeisternde Lehrkräfte und Dozentinnen, die gleichzeitig engagiert und offen neue Wege in der Forschung gehen. Das Ergebnis dieser engen Verzahnung von Theorie und Praxis sind Forschungsergebnisse mit direkter Anwendungsorientierung. Das ist der Anspruch der Reihe DaF/DaZ in Forschung und Lehre.

Visible Learning - John Hattie 2008-11-19

This unique and ground-breaking book is the result of 15 years research and syntheses over 800 meta-analyses on the influences on achievement in school-aged students. It builds a story about the power of teachers, feedback, and a model of learning and understanding. The research involves many millions of students and represents the largest ever evidence based research into what actually works in schools to improve learning. Areas covered include the influence of the student, home, school, curricula, teacher, and teaching strategies. A model of teaching and learning is developed based on the notion of visible teaching and visible learning. A major message is that what works best for students is similar to what works best for teachers – an attention to setting challenging learning intentions, being clear about what

success means, and an attention to learning strategies for developing conceptual understanding about what teachers and students know and understand. Although the current evidence based fad has turned into a debate about test scores, this book is about using evidence to build and defend a model of teaching and learning. A major contribution is a fascinating benchmark/dashboard for comparing many innovations in teaching and schools.
