It presents tools, processes, and frameworks to advance the overall concept that leveraging ideas from different locations in an organization and within extended networks is based on creativity, which can deliver innovation"--Provided by publisher.

The Competitive Advantage of Regions and Nations - Boris Ricken 2016-03-23

The importance of technology transfer for the competitive advantage of companies and the economic success of nations cannot be overstated. Technology is a determining element for firms and nations to increase productivity, to compete, and to prosper. In *The Competitive Advantage of Regions and Nations*, the authors stress that companies, investment promotion

agencies, and government bodies cannot simply sit and wait until new technologies arrive in their domain. Rather, they need to manage the identification, assessment, attraction, absorption and application of new technologies. In this comprehensive book, Boris Ricken and George Malcotsis explain how technology transfer in Foreign Direct Investment (FDI) projects can be systematically managed. Using some 40 case studies as illustration, they give step-by-step guidance for managers. The explanation of theory in this book, together with the frameworks and cases delivering solutions to the various challenges of technology transfer will be highly appreciated by managers of companies, investment promotion agencies, and government bodies alike. It also offers students confronted with the topic an understandable study guide.

Mergers and Acquisitions in Practice - Shlomo Y. Tarba

2016-12-08

The growth in mergers and acquisitions (M&A) activity around the world masks a high rate of failure. M&A can provide companies with many benefits, but in the optimism and excitement of the deal many of the challenges are often overlooked. This comprehensive collection, bringing together an international team of contributors, moves beyond the theory to focus on the practical elements of mergers and acquisitions. This hands-on, step-by-step volume provides strategies, frameworks, guidelines, and ample examples for managing and optimizing M&A performance, including: ways to analyze different types of synergy; understanding and analyzing cultural difference along corporate and national cultural dimensions, using measurement tools; using negotiation, due diligence, and planning to analyze the above factors; making use of this data during negotiation, screening, planning, agreement, and when

deciding on post-merger integration approaches. Students, researchers, and managers will find this text a vital resource when it comes to understanding this key facet of the international business world.

Cambridge Handbook of Strategy as Practice - Damon Golsorkhi 2015-09-03

Now in its second edition, this extended and thoroughly updated handbook introduces researchers and students to the growing range of theoretical and methodological perspectives being developed in the vibrant field of strategy as practice. With new authors and additional chapters, it shows how the strategy as practice approach in strategic management moves away from disembodied and asocial studies of firm assets, technologies and practices to explore and explain the contribution that strategizing makes to people working at all levels of an organization. It breaks down many of the traditional paradigmatic barriers in strategy to

investigate who the strategists are, what they do, how they do it, and what the consequences or outcomes of their actions are. This essential work summarizes recent developments in the field while presenting a clear agenda for future research.

Event Project Management -

Mohamed Salama 2021-01-27

This text provides a unique lens for studying event project management in the era of sustainability, digital transformation, smart cities and rapid development in technology. It discusses and explains how to manage events utilising the sustainable project management model adapted to the specific context of event management.

Connecting Knowledge and Performance in Public Services

- Kieran Walshe 2010-09-30

The performance of public services is now more closely scrutinised than ever before. Every teacher, doctor, social worker or probation officer knows that behind them stands a restless army of overseers, equipped with a panoply of

league tables, star ratings, user opinion surveys, performance indicators and the like with which to judge them. This increased scrutiny and performance measurement has undoubtedly produced improved public services. Yet we still have a limited understanding about how this information can be best used to bring about improvements in performance. What goes on inside the 'black box' of public organisations to move from information to action, or from 'knowing' to 'doing'? This book tackles this important question by reviewing a wide range of performance mechanisms. It explores how information about performance can be translated into improvements in services and, conversely, why this does not always happen in practice.

Uluslararası Pazarlama - Dr. Öğr. Üyesi M. Ragıp GÖRGÜN
2020-07-04

The Economist - 2001

Project Management - Amos Haniff 2016-09-30

Project Management provides

readers from different backgrounds with an essential toolkit to develop their knowledge, starting from the first principles progressing to a more complex understanding, with the help of an assortment of case studies, practical examples and numerical worked examples.

Mergers and Acquisitions in European Banking - F.

Fiordelisi 2009-11-04

Provides a detailed analytical assessment of the merger and acquisition phenomenon in banking. It advances the prior literature focusing on some specific aspects that have been investigated by only limited previous analysis by assessing the effect produced by M&A transactions on bank efficiency and shareholder value.

Mergers, Acquisitions, and Employee Anxiety - Joseph Henry Astrachan 1990

This timely study examines the emotional effects of mergers and acquisitions upon corporate employees. Using a mergers and acquisitions simulation, the author explores the effects of separation

anxiety on individual and group behavior within the target company. Specific questions addressed include whether separation anxiety is stimulated by the anticipated exit due to layoffs of group members or other groups in the organization; how individual and group responses to separation anxiety are affected by the number of group members leaving; and how individual experiences are influenced by whether the individual is leaving or staying in the group.

The Routledge Companion to Financial Accounting Theory - Stewart Jones

2015-05-22

Financial accounting theory has numerous practical applications and policy implications, for instance, international accounting standard setters are increasingly relying on theoretical accounting concepts in the creation of new standards; and corporate regulators are increasingly turning to various conceptual frameworks of accounting to

guide regulation and the interpretation of accounting practices. The global financial crisis has also led to a new found appreciation of the social, economic and political importance of accounting concepts generally and corporate financial reporting in particular. For instance, the fundamentals of capital market theory (i.e. market efficiency) and measurement theory (i.e. fair value) have received widespread public and regulatory attention. This comprehensive, authoritative volume provides a prestige reference work which offers students, academics, regulators and practitioners a valuable resource containing the current scholarship and practice in the established field of financial accounting theory. *Finance Essentials* - Scott Moeller 2012-04-26 Collated by Scott Moeller of Cass Business School, this collection brings together the informative articles a budding finance practitioner needs to operate effectively in today's corporate environment.

Bringing together core finance knowledge and cutting-edge research topics in an engaging and effective way, this text is the ideal companion for all practitioners and students of finance. You will find insights into the practical applications of theory in key areas such as balance sheets and cash flow, financial regulation and compliance, funding and investment, governance and ethics, mergers and acquisitions, and operations and performance. Contributors to this collection include some of the leading experts in their respective fields: Aswath Damodaran, Harold Bierman, Jr, Andreas Jobst, Frank J. Fabozzi, Ian Bremmer, Javier Estrada, Marc J. Epstein, Henrik Cronqvist, Daud Vicary Abdullah, Meziane Lasfer, Dean Karlan, Norman Marks, Seth Armitage, and many others. In this collection you will discover: * Over 80 best-practice articles, providing the best guidance on issues ranging from risk management and capital structure optimization through to market

responses to M&A transactions and general corporate governance * Over 65 checklists forming step-by-step guides to essential tasks, from hedging interest rates to calculating your total economic capital * 55 carefully selected calculations and ratios to monitor firms' financial health * A fully featured business and finance dictionary with over 5,000 definitions
Martindale-Hubbell International Law Directory - 1994

The Changing Geography of International Business - Gary Cook 2013-03-01

Presents papers which grapple with some of the most important developments and challenges in International Business, both for the firms who must fashion strategy within a rapidly changing world economic order and researchers who seek to explain the nature of these shifts and how firms respond.

Global Merger Control Manual - David J. Laing 2007

Handbook of Research on IPOs - Mario Levis 2013-11-29

The chapters offer some important new insights into issues that will be of interest not only to the academic community but also to professionals involved in the preparation, structure and execution of such transactions, market regulators, and private a

The impact of the 2007-2009 subprime mortgage crisis in the integrated oil and gas industry - Konstantinos Tsanis 2010-02-05

Master's Thesis from the year 2009 in the subject Business economics - Investment and Finance, grade: 69%, University of Edinburgh, language: English, abstract: The years 2007-2009 the global economy has been affected by the subprime mortgages crisis, which has its origins in the extremely risky positions that some banks and financial institutions held. When defaults in payments started, and banks started facing problems in their payments, lending between

banks became more difficult, and through the contagion of the global financial system, the crisis spread around the world. This crisis affected many industries. The current paper attempts to examine the impact of the 2007-2009 subprime mortgage crisis in the integrated oil and gas industry. Energy, and subsequently oil and gas, are vital for many other industries, as well as for individuals and households. The impact of the crisis is examined through a multimethod approach: Questionnaires, which were sent to executives of oil and gas companies, are analysed in the beginning, followed by analysis of basic figures of the financial statements of the 200 biggest oil and gas companies. Findings are supplemented by the examination of the analysts' recommendations, for a number of years. Finally, the mergers and acquisitions between oil and gas companies are examined. This paper, has the characteristic that it investigates an event which is still unfolding. As a result,

there is not established information about some topics, such as the specific causes of the crisis. Therefore, the emerging literature on some topics is analysed, and specialists' reports are included, to compare and contrast findings. Results show that, even though energy, and subsequently oil and gas, are necessary for almost every industry, the decrease in global demand, as well as the lower oil prices, will lead to a decrease in long term investing. Furthermore, sales of companies are expected to be lower, and this will oblige companies to find ways to reduce the costs, in all the levels of their value chain. Mergers and Acquisitions - Susan Cartwright 1992

Which MBA? - George Bickerstaffe 2002

The MBA is becoming a necessity for anyone wanting to explore new career opportunities, accelerate personal development and increase their salary, but taking an MBA isn't a decision

that should be taken lightly. There is a lot to consider, such as financing, choosing the right program school, format, duration, location etc. Finding the right program for the individual can make the difference between an enjoyable and rewarding experience, or an unhappy and frustrating one. Which MBA? sets out to answer all the questions of a prospective student. For the first time, it also offers a ranking of the business schools included in the directory section, based on data supplied by the business schools themselves and by their students and alumni.

EBOOK: Economics for Business, 6e - DAVID BEGG, DAM 2020-01-21

EBOOK: Economics for Business, 6e

Raising the Corporate Umbrella - Philip J. Kitchen 2001-09-04

Corporate communications are now hugely important in the success of companies and organisations. Using cases and examples from companies such as The Body Shop, Texaco,

Johnson & Johnson, BP Oil & British Airways the authors introduce the framework necessary to analyse corporate communications strategies and provide clear practical guidelines for successful implementation. A must for anyone involved in corporate communications, public relations or public affairs, especially those working in multi-national or global organisations.

Developing Strategic Business Models and Competitive Advantage in the Digital Sector

- Daidj, Nabyla 2014-09-30

Rapid technological advancements have the ability to positively or negatively impact corporate growth and success. Professional leaders and decision makers must consider such advancements when designing and implementing new policies in preparation for the sustainable future of the business environment. Developing Strategic Business Models and Competitive Advantage in the Digital Sector focuses on the application of preemptive

planning in the media and entertainment industries to combat an increasingly uncertain future of innovation and competition. With research-based examples and analysis, this book is an essential reference source for academicians, researchers, and professionals interested in learning more about the impact of technology on industry success, including the changes and challenges created by the Internet and electronic media.

Creating Value From Mergers And Acquisitions -

Sudi Sudarsanam 2003-09

""Creating Value from Mergers and Acquisitions"" gives an integrated and international perspective. This new book builds on and extends the author's highly successful title ""The Essence of Mergers and Acquisitions"". This is the first book to provide a comparative analysis of the M & A scene in Europe and the US, the two most active markets in the world. The book develops an international and multidisciplinary perspective of M & A, and considers M & A as

a process and not a mere transaction. The author draws upon economics, finance, strategy, law and organisational theories to formulate a fiv.

Routledge Handbook of Environmental Accounting -

Jan Bebbington 2021-03-31

This handbook showcases the broad spectrum of diverse approaches to environmental accounting which have developed during the last 30 years across the globe. The volume covers a range of physical issues such as water, carbon and biodiversity, as well as specific accounting matters such as management control, finance and audit. Moreover, seven chapters present environmental accounting issues that arise in the regions of Africa, Asia, Europe, MENA, North America, the Pacific and South America. The handbook also highlights future challenges in all the topic areas addressed as well as introducing new topics, such as links between environmental accounting and the circular economy, and the issues

associated with animal rights. Edited by leading scholars in the area and with key contributions from across the discipline, and covering a diverse range of perspectives and locations, the volume is divided into five key parts: • Part 1: Framing the issues • Part 2: Financial accounting and reporting • Part 3: Management accounting • Part 4: Global and local perspectives • Part 5: Thematic topics in environmental accounting This handbook will act as a significant publication in drawing together the history of the field and important reference points in its future development, and will serve as a vital resource for students and scholars of environmental accounting and environmental economics.

Globalization and EU Competition Policy - Umut Aydin 2020-08-12

Competition policy—encompassing cartels, monopolies, mergers and state aid—is a hallmark of the European Union (EU). In recent decades, the EU's

competition policy has evolved under pressures from globalization. The EU in turn has been a key actor driving the globalization of the world economy through its increasingly active competition policy. This volume identifies and explores the major transformations that EU competition policy has undergone in the last decade in response to various pressures related to globalization, in particular, economic interdependence, the proliferation of national and regional competition regimes, and the financial and economic crisis. The individual chapters, written by specialists of EU competition policy from both sides of the Atlantic and from the perspectives of political science, management and public policy, investigate how the EU has responded to these challenges in each area of competition policy, and demonstrate that it has, on balance, been quite successful in responding to them, with some exceptions in the areas of state aid and mergers. This

book was published as a special issue of the Journal of European Integration.

Servitization of Industrial Enterprises through

Acquisitions - Laura Johanna Oberle 2019-12-03

To make the service integration a success story despite the many challenges, L J Oberle argues that management understanding is necessary to address the key success factors in the individual strategic approaches. These approaches concern either the core business or an explore business unit and vary in their integration degree. Thus, knowing which strategy is pursued allows to determine the most relevant success factors, which is the first step towards successful servitization and post-merger integration. Only if these factors are identified and addressed correctly, M&A is a promising approach to servitization for industrial companies, as L J Oberle's findings from the analysis of 8 case studies and a total of 24 interviews prove. The Author:

Laura Johanna Oberle currently does a doctorate on business process management in service operations and servitization at the Chair of Service Operations Management at the University of Mannheim in cooperation with a German consultancy specialized in post-merger integration projects.

Frontier Capital Markets and Investment Banking - Temitope W. Oshikoya 2019-05-28

This book discusses the role of capital markets and investment banking in Nigeria, the largest frontier market economy in the world by both population size and gross domestic product. Offering a systematic framework combining conceptual principles with real practice, the book enables the reader to gain useful insight into how capital markets and investment banking work in the real world of a frontier market. The book provides a synopsis of the economic attractiveness, financial systems intermediation and capital markets, as well as the regulatory framework within a

frontier market. It explores capital raising through equity and underwriting and private equity, paying particular attention to putting capital to work on mergers and acquisitions, project and infrastructure finance and real estate finance. Furthermore, it analyses asset management, pension industry and securities trading in a frontier market. The authors use detailed case studies from Nigeria to illustrate the operations of investment banking in frontier markets. The cases, tables and charts serve as useful illustrations of the topics under discussion. With the authors' combined experience of more than 50 years as economists, finance and investment professionals and in executive leadership positions in the financial services industry, this book will interest the academic community, professionals in the financial industry, retail and institutional investors interested in frontier markets, development practitioners in international organizations and policy makers including

securities and capital market regulators.

Emerging Economies and Multinational Enterprises - 2015-06-25

Volume 28 of the *Advances in International Management* focuses on the opportunities and challenges for multinational enterprises that consider emerging economies and their destinations. It provides a forum for thought-provoking idea and empirical research, and is ideal for researchers and doctoral students whose work touches emerging markets.

International M&A, Joint Ventures and Beyond - David J. BenDaniel 2002-04-22

"By assembling the highly focused works of more than two dozen businessmen, lawyers, accountants, investment bankers, consultants, and experts in such fields as risk management and human resources, BenDaniel and Rosenbloom seamlessly illuminate a complex subject."-Paul E. Graf, President and CEO, Axel Johnson Inc. This fully revised

Second Edition shows readers how to find, analyze, structure, and negotiate international deals.

Business Review Weekly - 2003

Value in Due Diligence - Ronald Gleich 2017-11-22

The recent financial crisis has thrown many of the mergers and acquisitions of recent years into sharp focus. Too many have failed to generate real value for shareholders and many others have only proved lukewarm successes. Although it is impossible to assess accurately the extent to which these failures may be the result of poor planning and execution, they have raised considerable questions about the process, breadth and effectiveness of traditional due diligence activities. *Value in Due Diligence* explores new applications for due diligence including areas such as corporate culture, social responsibility, and innovation. It also examines the due diligence process itself to draw out those elements that provide

effective risk and opportunity management as opposed to simple compliance.

Accounting for M&A - Amir Amel-Zadeh 2020-04-29

Spending on M&A has, in aggregate, grown so fast that it has even overtaken capital expenditure on increasing and maintaining physical assets. Yet McKinsey, the leading management consultancy, reports that "Anyone who has researched merger success rates knows that roughly 70% fail". The idea that businesses might be using huge and increasing sums of shareholders' money for an activity that more often than not leads to failure calls into question the information on which M&A decisions are based. This book presents statistical studies, case material, and standard-setters' opinions on company accounting before, during, and after M&A. It documents the manipulation of annual accounts by acquirers ahead of share for share bids, biased forecasts of post-merger earnings by bidders, and

devices to flatter earnings when recording the deal. It explores the challenges for standard-setters in regulating information flows during and after M&A, and for account-users wishing to learn from financial statements how a deal has affected performance.

Drawing on a wide range of international examples, this readable book is targeted not just at accounting specialists but at anyone who is comfortable reading the serious financial press, is intrigued by what is going on in the massive M&A market, and is concerned with achieving better-informed M&A. As such it might be of particular interest to business executives, lawyers, bankers, and investors involved in M&A as well as graduate students interested in researching or learning about the role of accounting in M&A.

Frontiers of Banks in a Global Economy - Philip Molyneux
2007-12-17

In today's globalized economy, banking is of international importance. This book interrogates important issues,

including reform in China, electronic money and loan pricing. Highlighting key policy and research, it provides insight into contemporary global banking trends and assesses the impact of new technology for future industry development.

Handbook of Research on Knowledge-Intensive Organizations - Jemielniak, Dariusz
2009-03-31

Provides an international collection of studies on knowledge-intensive organizations with insight into organizational realities as varied as universities, consulting agencies, corporations, and high-tech start-ups.

Strategic Human Resource Management - Rajib Lochan Dhar
2008

Strategic HRM has gained much attention and has become a topic of global discussion. Throughout the world, aligning the human resource with the need of the business has been the topic of discussion since quite some time. Looking into this aspect,

Strategic HRM has been introduced as a subject in most of the management institutes more specifically in India. Keeping all these factors in view, the present book has been developed by the author considering the different aspects of Strategic HRM. The book aims to fulfill not only the need of MBA and MPM course, but also for the practitioners as a reference manual to successful implementation of Strategic HRM in their organisations. This book has been divided into eleven chapters.

International Financial Centres after the Global Financial Crisis and Brexit -

Youssef Cassis 2018-06-26

As well as marking the tenth anniversary of the collapse of Lehman Brothers and the consequent unleashing of the global financial crisis, 2018 is also the year of negotiations on the terms of the UK's exit from the European Union. Within a decade the banking world has witnessed two epochal events with potential to redraw the map of international financial

centres: but how much has this map actually changed since 2008, and how is it likely to change in the near future? International Financial Centres after the Global Financial Crisis and Brexit gathers together leading economic historians, geographers, and other social scientists to focus on the post-2008 developments in key international financial centres. It focuses on the shifting hierarchies of New York, London, Paris, Geneva, Zurich, Frankfurt, Singapore, Hong Kong, Beijing, Shanghai, and Tokyo to question whether Asian financial centres have taken advantage of the crisis in the West. It also examines the medium-effects of the crisis, the level of regulation, and the rise of new technology (fintech). By exploring these crucial changes, it questions whether shifts in the financial industry and the global landscape will render these centres unnecessary for the functioning of the global economy, and which cities are likely to emerge as hubs of new financial technology.

Canadian Business - 1996

Merger and Acquisition

Strategies - Angelo Dringoli

2016-10-28

The decision to carry out a merger or acquisition is certainly a risky one, not least because of the number of variables influencing the final outcome. It is also a decision frequently based on the wrong objectives and an incorrect evaluation process. With this in mind, this important new book offers solutions for reducing

the high percentage of mergers and acquisitions (M&As) that fail. It adopts a normative approach, using theoretical analysis to show what managers could and should do to increase shareholders' value through successful M&A strategies. It also explores the conditions that are suitable for favouring a certain type of M&A (horizontal, vertical or diversified) over the others. In conclusion, the book presents case studies of successful M&A strategies providing a link between theory and practice.
