From Labor to Reward - Martha C. Taylor 2016-06-24

From Labor to Reward is a pioneering, epic, and groundbreaking book that fills a huge void in American religious history, black religious history, and traditions of the black church. Until now, no other book has chronicled the rich religious experiences of black church beginnings in the Bay Area. Martha C. Taylor provides penetrating insight into the early makings of the black church in the Bay Area. With attention to detail, Taylor captures the joys, frustrations, and unity of black people who left the segregated Deep South, came to the Bay Area seeking freedom only to face similar adversities of segregation, racism, housing discrimination, KKK threats of violence, and other socio-political barriers. Remarkably, these early pioneers brought their culture, traditions, and experiences from the South and built a strong vibrant religious community. From Labor to Reward speaks for the legacy of African Americans who were gospel social activists using the church as the anchor. Multiple sources of research and interviews were gathered from church records, newspaper clippings, and other written sources to tell this unknown story. This book is sure to be a classic and a must read for all persons interested in history. .embed-container { position: relative; padding-bottom: 56.25%; height: 0; overflow: hidden; max-width: 100%; } .embed-container iframe, .embed-container object, .embed-container embed { position: absolute; top: 0; left: 0; width: 100%; height: 100%; }

Race and Meaning - Gary R. Kremer 2014-12-21

No one has written more about the African American experience in Missouri over the past four decades than Gary Kremer, and now for the first time fourteen of his best articles on the subject are available in one place with the publication of *Race and Meaning: The African American Experience in Missouri*. By placing the articles in chronological order of historical events rather than by publication date, Kremer combines them into one detailed account that addresses issues such as the transition from slavery to freedom for African Americans in Missouri, all-black rural communities, and the lives of African Americans seeking new opportunities in Missouri's cities. In addition to his previously published articles, Kremer includes a personal introduction revealing how he first became interested in researching African American history and how his education at Lincoln University--and specifically the influence of his mentor, Lorenzo Greene--helped him to realize his eventual career path. *Race and Meaning* makes a collection of largely unheard stories spanning much of Missouri history accessible for the first time in one place, allowing each article to be read in the context of the others, and creating a whole that is much greater than the sum of its parts. Whether you are a student, researcher, or general reader, this book will be essential to anyone with an interest in Missouri history.

Black Communications and Learning to Read - Terry Meier 2020-08-20

This book is about effective literacy instruction for students in grades K-4 who use the language variety that many linguists call African American English, but which, as explained in the Introduction, the author calls Black Communications (BC). Throughout, considerable attention is given to discussing the integral and complex interconnections among African American language, culture, and history, drawing significantly on examples from African American historical and literary sources. Although it is theoretical in its description of the BC system and its discussion of research on language socialization in African American communities, the major focus of this book is pedagogy. Many concrete examples of successful classroom practices are included so that teachers can readily visualize and use the strategies and principles presented. *Part I, "What is Black Communications?" presents an overview of the BC system, providing a basic introduction to

the major components of the language—phonology, grammar, lexicon, and pragmatics, and illustrating how these components work in synchrony to create a coherent whole. *Part II, “Language Socialization in the African American Discourse Community,” examines existing research on African American children’s language socialization. *Part III, “Using African American Children’s Literature,” draws connections between strategy instruction and the linguistic and rhetorical abilities discussed in Part II. Each chapter ends with suggestions for using African American literature to help children develop their speaking and writing abilities. *Part IV, “Children Using Language,” moves from a focus on teaching comprehension strategies to helping BC speakers learn to decode text. This volume is directed to researchers, faculty, and graduate students in the fields of language and literacy education and linguistics, and is well-suited as a text for graduate-level courses in these areas.

[Muhlenberg's Ministerium, Ben Franklin's Deism, and the Churches of the 21st Century](#) - John Reumann 2011-08

Special volume celebrating a 250-year-old American church body In 1748 six Lutheran pastors and laity from ten congregations gathered in Philadelphia under German missionary pastor Henry Melchior Muhlenberg to form the Ministerium of Pennsylvania the first Lutheran church body in North America. These early American Lutherans stood at the crossroads of Lutheran orthodoxy, pietism, and rationalism as they faced the very new, very American challenge of forging a missional, confessional identity within their increasingly pluralistic and multi-religious society. Now, more than 250 years later, this choice selection of essays, addresses, and other pieces celebrates the ongoing legacy of the Ministerium and will allow churches in the twenty-first century to glean new wisdom from a pioneering colonial church body.

The Palgrave Handbook of Steam Age Gothic - Clive Bloom 2021-02-03

By the early 1830s the old school of Gothic literature was exhausted. Late Romanticism, emphasising as it did the uncertainties of personality and imagination, gave it a new lease of life. Gothic—the literature of disturbance and uncertainty—now produced works that reflected domestic fears, sexual crimes, drug filled hallucinations, the terrible secrets of middle class marriage, imperial horror at alien invasion, occult demonism and the insanity of psychopaths. It was from the 1830s onwards that the old gothic castle gave way to the country house drawing room, the dungeon was displaced by the sewers of the city and the villains of early novels became the familiar figures of Dr Jekyll and Mr Hyde, Dracula, Dorian Grey and Jack the Ripper. After the death of Prince Albert (1861), the Gothic became darker, more morbid, obsessed with demonic lovers, blood sucking ghouls, blood stained murderers and deranged doctors. Whilst the gothic architecture of the Houses of Parliament and the new Puginesque churches upheld a Victorian ideal of sobriety, Christianity and imperial destiny, Gothic literature filled these new spaces with a dread that spread like a plague to America, France, Germany and even Russia. From 1830 to 1914, the period covered by this volume, we saw the emergence of the greats of Gothic literature and the supernatural from Edgar Allan Poe to Emily Bronte, from Sheridan Le Fanu to Bram Stoker and Robert Louis Stevenson.

Contributors also examine the fin-de-siècle dreamers of decadence such as Arthur Machen, M P Shiel and Vernon Lee and their obsession with the occult, folklore, spiritualism, revenants, ghostly apparitions and cosmic annihilation. This volume explores the period through the prism of architectural history, urban studies, feminism, 'hauntology' and much more. 'Horror', as Poe teaches us, 'is the soul of the plot'.

When They Blew the Levee - David Todd Lawrence 2018-05-30

In 2011, the Midwest suffered devastating floods. Due to the flooding, the US Army Corps of Engineers activated the Birds Point-New Madrid Floodway, one of the flood prevention mechanisms of the Mississippi Rivers and Tributaries Project. This levee breach was intended to divert water in order to save the town of Cairo, Illinois, but in the process, it completely destroyed the small African American town of Pinhook, Missouri. In *When They Blew the Levee: Race, Politics, and Community in Pinhook, Missouri*, authors David Todd Lawrence and Elaine J. Lawless examine two conflicting narratives about the flood--one promoted by the Corps of Engineers that boasts the success of the levee breach and the flood diversion, and the other gleaned from displaced Pinhook residents, who, in oral narratives, tell a different story of neglect and indifference on the part of government officials. Receiving inadequate warning and no evacuation assistance during the breach, residents lost everything. Still after more than six years, displaced Pinhook residents have yet to receive restitution and funding for relocation and reconstruction of their town. The authors' research traces a long history of discrimination and neglect of the rights of the Pinhook community, beginning with their migration from the Deep South to southeast Missouri, through purchasing

and farming the land, and up to the Birds Point levee breach nearly eighty years later. The residents' stories relate what it has been like to be dispersed in other small towns, living with relatives and friends while trying to negotiate the bureaucracy surrounding Federal Emergency Management Agency and State Emergency Management Agency assistance programs. Ultimately, the stories of displaced citizens of Pinhook reveal a strong African American community, whose bonds were developed over time and through shared traditions, a community persisting despite extremely difficult circumstances.
