Turn This Book Into a Beehive! - Lynn Brunelle 2018-04-03

The Real Buzz on Bees What a promise! Actually, promises. First, here's a book that teaches kids all about the fascinating world of bees. Second, fun exercises, activities, and illustrations engage the imagination and offer a deeper understanding of bee life and bee behavior. Third, by following a few simple steps including removing the book's cover and taping it together, readers can transform the book into an actual living home for backyard bees. Fourth, added all together, Turn This Book Into

a Beehive! lets kids make a difference in the world—building a home where bees can thrive is one small but critical step in reversing the alarming trend of dwindling bee populations. Written by Lynn Brunelle, author of Pop Bottle Science, whose gift for making science fun earned her four Emmy Awards as a writer for Bill Nye the Science Guy, Turn This Book Into a Beehive! introduces kids to the amazing mason bee, a non-aggressive, non-stinging super-pollinator that does the work of over 100 honeybees. Mason bees usually live in hollow reeds or holes in wood, but here's how to make a home just for them: Tear out the perforated paper—each illustrated as a different room in a house—roll the sheets into tubes, enclose the tubes using the book's cover, and hang the structure outside. The bees will arrive, pack mud into the tubes, and begin pollinating all the plants in your backyard. Twenty experiments and activities reveal even more about bees—how to smell like a bee, understand the role of flowers and pollen, learn how bees communicate with each other through “dance,” and more. It's the real buzz on bees, delivered in the most ingenious and interactive way.

The Horse Farm Read-and-Play Sticker Book - 2004-11-01

Kids who constantly have horses on their minds are going to love this book. The Horse Farm Read-and-Play Sticker Book draws young riders into the places they like best: the horse farm, the tack room, the stable, the paddock, and the stableyard. And with 75 full-color, reusable, heavy-duty vinyl stickers, kids can create their own equine dramas while at the same time learning important points about such essentials as grooming and tacking up. The range of stickers is irresistible. There are foals, a barn cat (and a barn mouse), a vet, and a farrier. But there are also name plates for the horse stalls; saddles, brushes, helmets, and cowboy hats for the tack room; barrels and jumps for horse shows, plus championship ribbons; and a flock of chickens and a few barn swallows for the stableyard. All this horse play, however, is tied to real-life horse lessons. For example, if the game is “let's pretend it's time for the horse's evening feeding,” the book reminds kids to give the horse his ration of grain and

his mineral block, fill his bucket with fresh water, put out plenty of hay for the horse to munch on, and not to forget the carrot for a snack.

Now Sophie tells her inspiring story in this picture book that celebrates women in science, bugs of all kinds, and the importance of staying true to yourself. Makes a perfect gift for nature lovers on Earth Day and every day! Sophia Spencer has loved bugs ever since a butterfly landed on her shoulder—and wouldn't leave!--at a butterfly conservancy when she was only two-and-a-half years old. In preschool and kindergarten, Sophia was thrilled to share what she knew about grasshoppers (her very favorite insects), as well as ants and fireflies... but by first grade, not everyone shared her enthusiasm. Some students bullied her, and Sophia stopped talking about bugs altogether. When Sophia's mother wrote to an entomological society looking for a bug scientist to be a pen pal for her daughter, she and Sophie were overwhelmed by the enthusiastic response--letters, photos, and videos came flooding in. Using the hashtag BugsR4Girls, scientists tweeted hundreds of times to tell Sophia to keep up her interest in bugs--and it worked! Sophia has since appeared on Good Morning America, The Today Show, and NPR, and she continues to share her love of bugs with others.
