Debates and Issues in Feminist Research and Pedagogy - Janet Holland 1995

The articles in this book engage with practical issues relating to teaching and research. The way in which gender and education is theorized is currently in a period of profound change, and this presents a major challenge to feminist teachers who want to translate explanations for gender relations into transformative action in the classroom. Several of the authors in this collection consider the possibilities and practicalities of transformative feminist pedagogies, identifying the "pedagogic moments" into which challenge and change can be introduced, without distorting or denying the students' experience. Another section contains

articles which present the results of classroom research, dealing with issues of class, gender, "race" and sexuality. We can see from the results of these recent studies that class, "race" and gender continue to position students differently throughout the whole school and the entire curriculum. Research on teacher education reported here indicates that gender differences are produced and reproduced in that context. A final section of the book deals with the ongoing and lively debate on feminist methodology and epistemology, indicating the variety of approaches and positions that are being taken up in this area.

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Creature from Reelfoot Lake - James L.

Dickerson 1912-08-03

"The Creature from Reelfoot Lake: The Merman Who Loved Women" is a horror novel that is reminiscent of the classic cinemas of the 1950s such as "Creature from the Black Lagoon" and "The Blob." But with one major difference: The Reelfoot creature is half-human, a merman who has been on an obsessive search for his birth mother that has lasted more than 200 years. At the heart of the story are three former college roommates—two male, one female—who all have childhood and relationship issues that dominate their lives. The roommates—and their

issues—converge at Reelfoot Lake, Tennessee, where the creature is inflicting a reign of terror that makes it difficult for the ex-roommates to locate a treasure that has been buried since the New Madrid earthquake of 1811. The protagonist is female, and the plot is complicated by the fact that she is being stalked by the third roommate, her ex-husband, at the same time that she is stalked by the creature. It is a sophisticated, multi-layered psychological thriller in which all the main characters are forced to deal with their individual issues. The creature cannot speak, but he has a distinctive voice that will touch the hearts of readers as he searches for the meaning of his tormented life.

The Psychosocial Implications of Disney Movies - Lauren Dundes 2019-07-11

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help

individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Baby Teeth - Dan Rabarts 2013

NurtureShock - Po Bronson 2009-09-03

In a world of modern, involved, caring parents, why are so many kids aggressive and cruel? Where is intelligence hidden in the brain, and why does that matter? Why do cross-racial friendships decrease in schools that are more integrated? If 98% of kids think lying is morally wrong, then why do 98% of kids lie? What's the single most important thing that helps infants learn language? NurtureShock is a groundbreaking collaboration between award-winning science journalists Po Bronson and Ashley Merryman. They argue that when it

comes to children, we've mistaken good intentions for good ideas. With impeccable storytelling and razor-sharp analysis, they demonstrate that many of modern society's strategies for nurturing children are in fact backfiring--because key twists in the science have been overlooked. Nothing like a parenting manual, the authors' work is an insightful exploration of themes and issues that transcend children's (and adults') lives.

Stories of the Vikings - Mary MacGregor
2018-03-01

On a summer day nearly twelve hundred years ago, three ships with bright red sails drew near to one of the little ports of the Dorset coast in the south of England. The townsfolk saw the ships, and paying no heed to the bright sails, said carelessly one to another, 'The merchantmen will be in port to-day.' And the harbour-master gathered together a few of his men and hastened to the quay. For he, too, had seen the ships, and, as in duty bound, he went to meet them, to demand from the captains the port taxes which were lawfully due to the king. But townsfolk and harbour-master alike had made a grievous mistake that summer day. For, as they soon discovered to their cost, and as the red sails might have forewarned them, the three ships were no peaceful merchantmen...

From the Stars in the Sky to the Fish in the Sea - Kai Cheng Thom 2017-10-16

In the magical time between night and day, when both the sun and the moon are in the sky, a child is born in a little blue house on a hill. And Miu Lan is not just any child, but one who can change into any shape they can imagine. The only problem is they can't decide what to be: A boy or a girl? A bird or a fish? A flower or a shooting star? At school, though, they must endure inquisitive looks and difficult questions from the other children, and they have trouble finding friends who will accept them for who they are. But they find comfort in the loving arms of their mother, who always offers them the same loving refrain: "whatever you dream of / i believe you can be / from the stars in the sky to the fish in the sea." In this captivating, beautifully imagined picture book about gender, identity, and the acceptance of the differences between us, Miu Lan faces many questions about who they are and who they may be. But one thing's for sure: no matter what this child becomes, their mother will love them just the

same. Kai Cheng Thom is a writer, performance artist, and psychotherapist in Toronto. Her first poetry book, *a Place Called No Homeland*, was published in 2017. Kai Yun Ching is a community-based organizer, educator, and illustrator in Montreal. Wai-Yant Li is a ceramics artist and illustrator in Montreal.

Gender in Canada - Adie Nelson 1999

The Body Project - Joan Jacobs Brumberg
2010-06-09

A hundred years ago, women were lacing themselves into corsets and teaching their daughters to do the same. The ideal of the day, however, was inner beauty: a focus on good deeds and a pure heart. Today American women have more social choices and personal freedom than ever before. But fifty-three percent of our girls are dissatisfied with their bodies by the age of thirteen, and many begin a pattern of weight obsession and dieting as early as eight or nine. Why? In *The Body Project*, historian Joan Jacobs

Brumberg answers this question, drawing on diary excerpts and media images from 1830 to the present. Tracing girls' attitudes toward topics ranging from breast size and menstruation to hair, clothing, and cosmetics, she exposes the shift from the Victorian concern with character to our modern focus on outward appearance—in particular, the desire to be model-thin and sexy. Compassionate, insightful, and gracefully written, *The Body Project* explores the gains and losses adolescent girls have inherited since they shed the corset and the ideal of virginity for a new world of sexual freedom and consumerism—a world in which the body is their primary project.

Doing Foucault in Early Childhood Studies -

Glenda Mac Naughton 2005-04-29

The theories and analyses of post-structural thinkers such as Michel Foucault can seem a long way from practice in early childhood services. In recent years, however, many early childhood researchers and practitioners have found this work important and this fascinating book brings together a range of research and case-studies showing how teachers and researchers have brought post-structuralism to the classroom. The book covers such issues as: becoming post-structurally reflective about truth mapping classroom meanings tactics of rhizoanalysis becoming again in critically-knowing communities. Case-studies and examples taken from real situations are used and will be of interest to anyone studying or

researching early childhood practice and policy.

My Overdue Book - Peter Bright 2015-04-30

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and

then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and

variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards
