Pulp Art - Robert Lesser 2005-08-11

The term pulp fiction has always had a certain resonance; but it is the artwork--bold, energized,

dramatic, garishly colorful, and frequently grotesque--that has made pulp magazines memorable to so many people. Pulp Art is the groundbreaking--and ultimate--book on one of America's most important and spectacular forms of illustration art. At last, preserved in this volume are most of the still-existing originals created for the pulp covers, never before seen in all their sharply focused, vibrantly colored brilliance. Robert Lesser, a pioneering collector of this work and an expert on American popular culture, has assembled a gallery of these now-priceless originals. The dynamically pulp-flavored text is a complete historical survey of the pulps and their most important cover artists--Virgil Finlay, J. Allen St. John, Rafael de Soto, Hannes Bok, George and Jerome Rozen, Frank R. Paul, and many others. Also offered are critical discussions of individual paintings, as well as the major themes of the pulp magazines. *The Art of Handmade Paper and Collage* - Cheryl Stevenson 1998

Pulp and Paper - Josh Rolnick 2011-09-16

"I glanced out the window as my train pulled into the station and saw the girl who killed my son." So begins Josh Rolnick's powerful debut collection of eight stories, which utilizes a richly focused narrative style accenting the unavoidable tragedies of life while revealing the

grace and dignity with which people learn to deal with them. The stories—four set in New Jersey and four in New York—span the wide geographic tapestry of the area and demonstrate the interconnectedness of both the neighboring states and the residents who inhabit them. In "Funnyboy," a grief-stricken Levi Stern struggles to come to terms with the banality of his son's accidental death at the hands of Missy Jones, high school cheerleader. In "Pulp and Paper," two neighbors, Gail Denny and Avery Mayberry, attempt to escape a toxic spill resulting from a train derailment when a moment of compassion alters both their futures forever. "Innkeeping" features a teenager's simmering resentment toward the burgeoning relationship between his widowed mother and a long-term hotel guest. "The Herald" introduces us to Dale, a devoted reporter on a small-town newspaper, desperately striving to break a big-time story to salvage his career and his ego. A teenager deals with the inconceivable results of his innocent act before

an ice hockey game in “Big Lake.” And in “The Carousel,” a Coney Island carousel operator confronts the fading memories of a world that once overflowed with grandeur and promise. Throughout, Rolnick’s characters search for a firm footing while wrestling with life’s hardships, finding hope and redemption in the simple yet uncommon willingness to act. *Pulp and Paper* captures lightning in a bottle, excavating the smallest steps people take to move beyond grief, heartbreak, and failure—conjuring the subtle, fragile moments when people are not yet whole, but no longer quite as broken.

The Art of Paper - Caroline Fowler 2019-11-05

The untold story of how paper revolutionized art making during the Renaissance, exploring how it

shaped broader concepts of authorship, memory, and the transmission of ideas over the course of three centuries. In the late medieval and Renaissance period, paper transformed society--not only through its role in the invention of print but also in the way it influenced artistic production. *The Art of Paper* tells the history of this medium in the context of the artist's workshop from the thirteenth century, when it was imported to Europe from Africa, to the sixteenth century, when European paper was exported to the colonies of New Spain. In this pathbreaking work, Caroline Fowler approaches the topic culturally rather than technically, deftly exploring the way paper shaped concepts of authorship, preservation, and the transmission of ideas during this period. This book both tells a transcultural history of paper from the Cairo Genizah to the Mesoamerican manuscript and examines how paper became "Europeanized" through the various mechanisms of the watermark, colonization, and the

philosophy of John Locke. Ultimately, Fowler demonstrates how paper--as refuse and rags transformed into white surface--informed the works for which it was used, as well as artists' thinking more broadly, across the early modern world.

Paper Pools - David Hockney 1980

"Paper Pools is the most recent major group of works by David Hockney, demonstrating his fascination with new techniques in the service of his passionate pursuit of creative representation. In 1976, Hockney had become obsessed with the technique of coloured etching, which he had been taught by the French print-maker Aldo Crommelynck and which resulted in the Blue Guitar series, among other inventive works. Now Hockney has applied himself with infectious enthusiasm to the making of Paper Pools, in which painting and paper-making are totally fused." --preface.

Edgar Allan Poe (1809-1849) was an American author, editor, poet, and critic. Most famous for his
