THE CAT IN the Hat puts to rest any notion that money grows on trees in this super simple look at numismatics, the study of money and its history. Beginning with the ancient practice of bartering, the Cat explains various forms of money used in different cultures, from shells, feathers, leather, and jade to metal ingots to coins (including the smallest—the BB-like Indian fanam—and the largest—the 8-foot-wide, ship-sinking limestone ones from the Islands of Yap!), to the current king of currency, paper. Also

included is a look at banking, from the use of temples as the first banks to the concept of gaining or paying interest, and a step-by-step guide to minting coins. A fascinating introduction is bound to change young reader's appreciation for change!

[Safari](#) - Dan Kainen 2012-10-16

A New York Times bestseller, *Safari* is a magical journey for the whole family. Readers, as if on African safari, encounter eight wild animals that

come alive using never-before-seen Photoclear technology. Each full-color image is like a 3-D movie on the page, delivering a rich, fluid, immersive visual experience. The result is breathtaking. The cheetah bounds. The gazelle leaps. The African elephant snaps its ears. The gorilla munches the leaves off a branch. It's mesmerizing, as visually immediate as a National Geographic or Animal Planet special. Accompanying the images is Safari, the guide: It begins with an evocative journal of a safari along the Mara River in Kenya and interweaves the history of safaris. Then for each animal there is a lively, informative essay and an at-a-glance list of important facts. It's the romance of being on safari—and the thrill of seeing the animals in motion— in a book unlike any other.
